CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, December 30, 1924.

Minutes of Meeting, Board of Standard and Appeals, December 30, 1924.

Reserve Calendar.

Progress Report.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of either board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, January 6, 1925*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 13, 1925, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE RESOLUTION:

(1222-24-A)

WHEREAS, Samuel Cohen, for Irene K. Wise, owner, filed, October 14, 1924, an appeal, with the board of appeals, from an order of the superintendent of buildings, affecting premises 23 West 56th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, Exit Order No. 162-1924, dated July 30, 1924, reads:

"You are hereby directed to enclose interior stairway at west side of building in partitions of fire resisting materials. Partitions to be fire stopped between floor beams. Also provide self-closing fireproof doors at all openings in stair enclosure with kalamein trim. Also make all fixed sash in stair enclosure metal or kalameined frames and wire glass."

and

WHEREAS, the building is fireproof, five stories and cellar in height, 25 ft. by 75 ft. in area. OCCUPIED: 1st story, factory, 12 persons; 2nd story, showrooms and stock rooms, 5 persons; upper stories, dwellings; and

WHEREAS, appellant contends that the building was altered in 1921 for the existing occupancy and the plans approved by the building department; and further contends that the existing means of exit are adequate; and

WHEREAS, no one appeared when this case was called.

Resolved, that the appeal be and it hereby is dismissed for lack of prosecution.

MINUTES

1285-24-A.

APPELLANT—Life Extension Institute, Inc., lessee.
SUBJECT—Appeal from order of fire commissioner.

For Administration: Inspector Lynch, of fire department.

ACTION—OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Holland 6
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1193-24-A)

WHEREAS, Freitag & Sons, Inc., lessees, filed, October 2, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 398-400 Concord avenue, The Bronx; and

WHEREAS, the order of the fire commissioner, No. 25161-LC, dated August 15, 1924, reads:

"3. All vertical openings between floors including stairways and dumbwaiter must be enclosed, or otherwise protected as specified in articles 8 and 18 of chapter 5 of the Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, two stories in height, 48 ft. by 96 ft. in area. OCCUPIED: 1st story, shipping room and manufacture of ivory buttons; 2nd story, offices and manufacture of celluloid articles; and

WHEREAS, appellant contends that the building is sprinklered and that the 4 ft. by 4 ft. dumbwaiter opening and also the stairways are enclosed in wooden partitions and that there is a sprinkler head in each enclosure.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1202-24-A.

APPELLANT—Samuel Cohen, for Beth David Hospital, owner.
PREMISES AFFECTED—1822-1828 Lexington avenue, Manhattan.

APPEARANCES—

For Appellant: Max Siegel and Dr. Simon Tannenbaum.

For Administration: Inspector Lynch, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(1202-24-A)

WHEREAS, Samuel Cohen, for Beth David Hospital, owner, filed, October 7, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1822-28 Lexington avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 25480-LC, dated September 10, 1924, reads:

"1—Provide a fireproof vault, located outside of the building, in which to keep all inflammable X-Ray film. Said vault to be constructed, located, ventilated and protected in accordance with plans to be submitted to and approved by the Fire Department.";

and

WHEREAS, the building is non-fireproof, four stories in height, 20 ft. by 50 ft. in area. OCCUPIED: 1st story, hospital ward and X-ray laboratory, 30 persons; upper stories, hospital wards, 8 persons on each story; and

WHEREAS, appellant contends that the maximum quantity of material kept on the premises is about 300 X-ray films, each 14 in. by 19 in. in dimensions, stored in an approved metal cabinet located in the X-ray laboratory.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than 300 X-ray single sheet films shall be maintained on premises, stored in a metal film storage cabinet; that said cabinet shall be located at the extreme rear on fireproof roof over laundry of one-story extension.

1205-24-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Brooklyn Labor Lyceum Association, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—949-959 Willoughby avenue, Brooklyn.

THE RESOLUTION:

(1205-24-A)

WHEREAS, Croker National Fire Prevention Engineering Company, for Brooklyn Labor Lyceum Association, owner, filed, October 7, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 949-959 Willoughby avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated July 2, 1924, reads:

MINUTES

"Order No. 57563-F:

"1. Install a standpipe system with risers 4 in. in diameter tested to withstand a pressure of 300 lbs. per square inch extending from cellar to roof * * *";

and

WHEREAS, the building is fireproof, three stories in height, 63 ft. 6 in. by 207 ft. in area, separated into two sections by a brick fire wall with horizontal openings in each story (the area of the larger section being 7,000 sq. ft.); there is also a one-story building 50 ft. by 50 ft. in area to the east; OCCUPIED as a place of public assembly; and

WHEREAS, appellant contends that the building is provided with ample exits; that there is a fire alarm with two stations on the 1st story; that there are two watchmen on the premises at all times, and proposes to provide fire doors at the openings in the dividing wall.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a standpipe equipped with 100 ft. of hose at each outlet shall be installed in the stairhall at the Willoughby avenue front, connected to street main with siamese connection at front of building.

1211-24-A.

APPELLANT—Graff Engineering Corp., for Standard Varnish Works, owner.

SUBJECT—Appeal from decision of fire commissioner. PREMISES AFFECTED—2589 Richmond terrace, Port Richmond, Richmond.

APPEARANCES—

For Appellant: W. M. Graff.

For Administration: Inspector Carroll, of fire department.

ACTION OF BOARD—Appeal granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1211-24-A)

WHEREAS, Graff Engineering Corp., for Standard Varnish Works, owner, filed, October 10, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 2589 Richmond terrace, Richmond; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 1658-24, dated October 7, 1924, reads:

"1. Storage tanks must be buried underground below the level of any piping to which they may be connected."

and

WHEREAS, the building is non-fireproof, one story in height, 50 ft. by 61 ft. in area; OCCUPIED as a varnish cook room; and

WHEREAS, appellant contends experiments are being made on the premises relative to comparative tests of oil burning and coke burning fires; that a 1,000-gallon fuel oil tank (6 ft. by 3 ft. by 8 ft. in area), located above ground, is being used, and requests a 60-day permit in order to complete tests.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary permit for a period not exceeding ninety (90) days *on condition* that capacity of steel tank shall be limited to 1,000 gallons, located in open yard of premises.

1220-24-A.

APPELLANT—Oliver J. Hall, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1920 Fowler avenue, The Bronx.

APPEARANCES—

For Appellant: Oliver J. Hall.

For Administration: Inspector Lynch, of fire department.

ACTION OF BOARD—Appeal granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1220-24-A)

WHEREAS, Oliver J. Hall, owner, filed, October 11, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1920 Fowler avenue, The Bronx; and

WHEREAS, the order of the fire commissioner, No. 25597-LC, dated September 17, 1924, reads:

"1—Encase the inside storage tank with four inch terra cotta, or eight inches of approved masonry, as per Rule 19, Sec. 1-A of the Fuel Oil Rules.

"2—Place fuel oil storage tank or tanks in permanent position and make hydrostatic test in the presence of an inspector from the Fire Department, as per Rule 7, Sec. 1-a of the Fuel Oil Rules.

"17—Provide an automatic by-pass valve between each fuel oil pump and first discharge line, said by-pass valve to be designed so as to prevent complete closing by action of the setting mechanism, as per Rule 8, Sec. 4-b of the Fuel Oil Rules.

"18—Provide fuel oil burner or burners of a type approved by the Board of Standards & Appeals, as per Rule 12 of the Fuel Oil Rules.

"23—Remove all fuel oil from the premises until a permit has been issued by the Fire Commissioner, as per Rule 16 of the Fuel Oil Rules.

"24—File plans showing the complete installation of the fuel oil burning equipment, as per Rule 16 of the Fuel Oil Rules.

"25. Submit a Certificate from the Supt. of Bldgs., approving the proposed construction of the tank enclosure and location of the tanks, as per Rule 16 of the Fuel Oil Rules."

and

WHEREAS, the building is frame, 2½ stories in height, 21 ft. by 44 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 55-gallon tank, piping and a Powerlight Oil Heat Burner; and

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, *on condition* that the single 55-gallon tank maintained for interior storage shall not be increased in capacity, and shall be installed in accordance with fuel oil rules for auxiliary tanks; as to Item 2, *on condition* that the tank shall be securely and rigidly braced to wall of structure and that certificate of factory test shall be filed; as to Items 17, 23 and 25, *on condition* that modifications as to Item 1 shall be complied with; as to Item 18, *granted* for a temporary period of ninety (90) days at owner's own risk, pending determination of the board of standards and appeals on petition for approval of Powerlight burner; and that the appeal as to Item 24 be and it hereby is *denied*.

Negative 0
Absent 0

THE RESOLUTION:

(1234-24-A)

WHEREAS, Croker Natl. Fire Prev. Eng. Co., for Morning Telegraph Co., lessee, filed, October 16, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 814-826 Eighth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 63751-F, dated August 14, 1924, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars, and roofs), placed within main stairway enclosure."

and

WHEREAS, the building is non-fireproof, four stories (58 ft. 4 in.) in height, divided by fire walls; on the 3rd and 4th stories, into two sections, the maximum partial area being less than 10,000 sq. ft. and combined area less than 15,000 sq. ft.; on the 2nd story, into three sections with openings therein, the opening in the northerly wall being protected with double fire doors, the partial area less than 10,000 sq. ft. and the total area less than 15,000 sq. ft.; on the 1st story the premises are divided into three sections, with fire doors at openings, the partial areas less than 10,000 sq. ft., but the total area being approximately 16,000 sq. ft., the two southerly sections being sprinklered; the building being OCCUPIED, 1st story, printing newspaper, 15 persons, stores, 15 persons; 2nd story, office and editorial room, 15 persons; 3rd story, north loft, composing rooms, 38 persons; center loft, vacant at present; south loft, toilet preparations, 12 persons; 4th story, north loft, storage of records, 2 persons; center loft, vacant at present; south loft, mfr. box couches, 12 persons.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the two rear sections of building shall be equipped with an approved sprinkler system throughout; that the 50th street front, for a depth of 43 ft., shall be separated by unpierced walls on two upper stories; that the stair enclosure in the centre section on the 2nd floor shall be fire retarded in accordance with the rules of the board of standards and appeals for fire retarding material; that the opening between the two front sections of building on 1st story shall be equipped with approved fire doors; and *granted* only so long as conditions as to occupancy and use otherwise remain unchanged.

1424-24-A.

APPELLANT—R. E. Hawley, representing Department of Plant and Structures, for City of New York, owner.

SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—1-23 East 139th street, Manhattan.

APPEARANCES—

For Appellant: F. B. McDuffee.
For Administration: Inspector Carroll, of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(1424-24-A)

WHEREAS, R. E. Hawley, representing the Department of Plant & Structures, for the City of New York, owner, filed, December 3, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1-23 East 139th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, N. B. App. No. 1414-24, dated November 10, 1924, reads:

"18. A 3500 gallon tank must be provided on roof with a 65 gallons per minute pump in cellar for filling same.

"20. Boiler room and furnace room must be completely isolated from garage by fireproof walls and ceilings, with no openings in same other than those into the outer air."

and

WHEREAS, the building is fireproof, two stories in height, 229.79 ft. by 199.83 ft. in area; OCCUPIED as a housing station and destructor plant; and

WHEREAS, appellant contends that the structure is essentially composed of two buildings separated by a 12 in. reinforced concrete wall; that the west building is the housing station and the east building is the destructor plant; that the boiler and furnace room is isolated from the destructor plant; that although trucks drive on to the tipping floor to unload garbage, the destructor plant should not be considered a garage; that the only connection between the destructor plant and the housing station is through the enclosed ramp 32 ft. wide which leads directly to street; that the entrance from the ramp to 2nd floor of the housing station is protected with a fire door; and that the 2nd floors of the buildings are at different levels; and

WHEREAS, appellant further contends that the roof trusses are not designed to carry the tank load, and requests to be permitted to omit tank, the street pressure being 46 pounds, the main in 140th street is 12 in. in diameter, fed one way, the main in Fifth avenue is 12 in. in diameter, fed two ways.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 18, on condition that standpipe system with street main connection shall be provided; and as to Item 20, *on condition* that not more than one opening, protected with self-closing fireproof door, shall be provided.

586-24-A.

APPELLANT—James P. Whiskeman, for Estate of John J. Murphy, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—7 Dutch street, Manhattan.

For Appellant: James P. Whiskeman.
For Administration: Inspector Maher, of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire Chief Kenlon 6

MINUTES

Negative 0
Absent: Mr. Dowd 1

THE RESOLUTION:

(586-24-A)

WHEREAS, James P. Whiskeman, for Estate of John J. Murphy, Inc., owner, filed, April 25, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 7 Dutch street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 53102-F, dated December 29, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at the north and west sides of building, or other approved protection, as per Section 375, Art. 18, Ch. 5 of the Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, five stories in height, 24 ft. 3 in. by 101 ft. 7 in. in area at the 1st story and 24 ft. 3 in. by 89 ft. 8 in. in area above. OCCUPIED: 1st story, restaurant; 2nd story, printing, 7 persons; 3rd story, stationery store, 6 persons; 4th and 5th stories, vacant at present; and

WHEREAS, there is one opening on each story above the 1st story within 50 ft. of the roof of a one-story extension of a building to the north and four openings on each story above the 1st story within 50 ft. of the roof of the one-story extension of a neighboring building to the west; and

WHEREAS, appellant contends that the windows in the north wall of the building are protected by fire shutters and the openings in the 2nd story of the westerly wall are protected by fire shutters.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the opening in southerly gable wall on 5th story shall be built up solid with approved masonry; and *granted* only so long as conditions otherwise remain substantially unchanged.

THE RESOLUTION:

(1137-24-A)

WHEREAS, Cinderella Dancing Palace, Inc., for S. & A. J. Cooper Realty Corp., owner, filed, September 16, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1600 Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 23, 1924, reads:

"Order No. 57759-LF:

"Arrange silk draperies on ceiling so as not to obstruct the sprinkler system in premises 1600 Broadway, 2nd story.";

and

WHEREAS, the building is fireproof, ten stories in height, 113 ft. by 121 ft. in area. OCCUPIED: Basement, restaurant; 1st story, stores; 2nd story by appellant as a dance hall; upper stories, offices and motion picture film exchanges; and

WHEREAS, appellant contends that the nature of the goods used in the draperies is so flimsy and thin that they would offer no obstruction to the functioning of the sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that an approved sprinkler system shall be maintained on these premises; and *granted* so long as present conditions as to use, occupancy and existing exit facilities remain substantially unchanged.

2

THE RESOLUTION:

(1286-24-BZ)

WHEREAS, Edward P. Doyle, for Rose Mandel, owner, filed, October 30, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a building to be used for a wet wash laundry; premises 1466-1476 Herkimer street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 30, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Herkimer street, Jardine place and Havens place are business districts and the southerly side of Herkimer street east of Haven place is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 22, 1924, in acting on Application No. 2115-24, reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A factory in a business district. A wet wash laundry is classed as a factory. See Res. of Board of Appeals, March 16, 1920.";

and

WHEREAS, the proposed building is to be of non-fire-proof construction, four stories and basement in height, with a frontage of 73 ft. and a depth of 70 ft.; to be occupied as a wet wash laundry; and

MINUTES

WHEREAS, no supporting facts were adduced at the hearing to warrant the variation of the building zone resolution requested and the applicant not having substantiated the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1186-24-BZ.

APPLICANT—Emil Buff, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles, also a motor vehicle repair shop.

PREMISES AFFECTED—Northeast corner of Metropolitan avenue and Wicks street, Jamaica, Queens.

APPEARANCES—

For Applicant: William E. Kennedy and Emil Buff.

For Opposition: Albert Passetti and John W. Parylike.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell	6
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(1186-24-BZ)

WHEREAS, Emil Buff, owner, filed, September 30, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a building to be used as a garage for the storage of more than five motor vehicles and also as a motor vehicle repair shop; premises northeast corner of Metropolitan avenue and Wickes street, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 30, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Metropolitan avenue, northerly side, is a business district, the southerly side is an unrestricted district and Wickes street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 29, 1924, in acting on N. B. Application No. 16555-1924, reads:

"1. The erection of a public garage in a business district is prohibited by the Zoning Law.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 113¼ ft. and a depth of 134 ft. 2½ in., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, no supporting facts were adduced at the hearing to warrant the variation of the building zone resolution requested and the applicant not having substantiated the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1213-24-BZ.

APPLICANT—William F. Doyle, for Abbie S. Gitterman et al., owners.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—West side of Southern boulevard, 20 ft. south of East 185th street, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: John Kadel and H. Francis.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Mr. Holland 1

Negative: Chairman Walsh, Messrs. Kennedy, Gunnison, Dowd and Connell 5

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1213-24-BZ)

WHEREAS, William F. Doyle, for Abbie S. Gitterman, et al., owner, filed, October 10, 1924, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises west side of Southern boulevard, 20 ft. south of East 185th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 30, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Southern boulevard and East 185th street are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 15, 1924, in acting on N. B. Application No. 2313-24, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in residence district is contrary to provisions of building zone resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 131.56 ft. and a depth of 128.63 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, no supporting facts were adduced at the hearing to warrant the variation of the building zone resolution requested and the applicant not having substantiated the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

AREA FIXED.

The chairman presented and read a communication from Henry I. Perlin, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of a garage; premises 380 Etna street, Brooklyn.

The following area was approved by the board:

Both sides of Etna street from Autumn avenue to a point 400 ft. east of proposed garage; both sides of Lincoln avenue from a point 100 ft. north of Union place to a point 400 ft. north of the premises in question; also the west side of Nichols avenue from Etna street to a point 100 ft. south of Etna street.

Adjourned, 2 p. m.

WILLIAM J. O'GORMAN, Secretary.

MINUTES

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—511-513 West Broadway, Manhattan.

MINUTES

APPEARANCES—

For Petitioner: Frederick W. May.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott 8

Negative 0

Absent: Messrs. Dowd, Gunnison, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert.. 5

THE RESOLUTION:

(1218-24-S)

WHEREAS, Frank Elian & Co., for Commodore Lunch Co., Inc., lessee, filed, October 10, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 511-513 West Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 57778-LD, dated April 12, 1924, reads:

"1. Arrange the fire escape on the front of building * * *.

"NOTE: Among the defects noted on this fire escape are the following:

"No counterbalanced stairway from the lowest balcony to ground.";

and

WHEREAS, the building is non-fireproof, four stories in height, 31 ft. 6 in. by 26 ft. in area. OCCUPIED: Stores and tenant factory, 11 persons above the 1st story, at the present time, the 2nd story being vacant; MEANS OF EGRESS consisting of an interior stairway extending from the 1st story to roof, enclosed in wood stud lath and plaster partitions, with wood doors at the openings, a fire escape on the front of the building; and

WHEREAS, it is proposed, in lieu of a counterbalanced stair from the lowest balcony to the street, to provide a drop ladder in guides, petitioner contending that the balcony is but 9 ft. above the sidewalk and that to provide a counterbalanced stairway would bring it below this height.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the egress from the termination of the lowest balcony of fire escape on front of building on condition that a counterbalanced drop ladder in guides shall be provided from the lowest balcony to the street and that the requirements of the labor law shall be maintained in all other respects.

1238-24-S.

PETITIONER—Sugarman, Hess and Berger, for Two-L Realty Co., Inc., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—243-245 West 30th street, Manhattan.

APPEARANCES—

For Petitioner: Edward Levey.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott 9 and

Negative 0

Absent: Mr. Dowd, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert 4

THE RESOLUTION:

(1238-24-S)

WHEREAS, Sugarman, Hess & Berger, for Two-L Realty Co., Inc., owner, filed, October 17, 1924, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in a decision of the fire commissioner, affecting premises 243-5 West 30th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, N. B. App. No. 60-1924, dated September 10, 1924, reads:

"10. Size of window panes must conform to Section 264, of Labor Law.";

and

WHEREAS, the building is fireproof, 12 stories in height, 37 ft. 6¾ in. by 98 ft. 9 in. in area; OCCUPIED as stores and tenant factory, 35 persons in the basement, 40 persons on the 1st story, 20 persons, mezzanine, and 70 persons per story above; EQUIPPED with a sprinkler system and fire alarm signal system; MEANS OF EGRESS consisting of an interior fireproof stairway and a fire tower. There are windows in the 1st and 2nd stories, the glass area of which exceeds 720 square inches; and

WHEREAS, petitioner contends that the windows are used for showroom purposes and that the building will comply with the labor law in all other respects.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the two (2) lower stories on condition that all openings shall be equipped with approved metal frames, glazed with polished plate glass not less than ¼ in. in thickness, and that the labor law requirements shall be complied with in all other respects.

1260-24-S.

PETITIONER—Sommerfeld & Steckler, for West 35th Street Realty Co., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—260-262 West 35th street, Manhattan.

APPEARANCES—

For Petitioner: William C. Sommerfeld.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott 9

Negative 0

Absent: Mr. Dowd, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert 4

THE RESOLUTION:

(1260-24-S)

WHEREAS, Sommerfeld & Steckler, for West 35th Street Realty Co., owner, filed, October 24, 1924, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 260-262 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings N. B. App. No. 63-1924, dated October 15, 1924, reads:

"13. Panes may not exceed 720 square inches in each Labor Law, Section 264-7.";

MINUTES

WHEREAS, the building is fireproof, 14 stories in height, 50 ft. by 98 ft. 9 in. in area in the 1st story and 50 ft. by 88 ft. 9 in. in area above; OCCUPIED as store and tenant factory, 60 persons per story; MEANS OF EGRESS consisting of an interior fireproof stairway and a fire tower; and

WHEREAS, there are windows in the 1st, 2nd and 3rd stories, the glass area of which exceeds 720 square inches; and

WHEREAS, petitioner contends that the windows are used for showroom purposes and that the building will comply with the labor law in all other respects.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the three (3) lower stories, on condition that all openings shall be equipped with approved metal frames, glazed with polished plate glass not less than 1/4 in. in thickness, and that the labor law requirements shall be complied with in all other respects.

1273-24-S.

PETITIONER—Schwartz & Gross, for Calendar Building Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—327-335 West 36th street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott 10

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert 3

THE RESOLUTION:

1273-24-S.

WHEREAS, Schwartz & Gross, for Calendar Building Corp., owner, filed, October 28, 1924, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law as cited in a decision of the superintendent of buildings, affecting premises 327-335 West 36th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 172-1924, dated October 24, 1924, reads:

"1. Size of panes of glass in windows must conform to Section 264 of labor law";

and

WHEREAS, the building is fireproof, 12 stories in height, 103 ft. by 98 ft. 9 in. in area in the 1st story, and 103 ft. by 56 ft. 7 in. to 88 ft. 9 in. (irregular) in area above; OCCUPIED as store and tenant factory, 120 persons per story; MEANS OF EGRESS consisting of an interior fireproof stairway and fire tower; building being equipped with a sprinkler system. There are windows in the 1st story, the glass area of which exceeds 720 square inches, and the transoms over the window are pivoted; and

WHEREAS, petitioner contends the building complies with the labor law in all other respects; and that the frames of the windows will be fireproof glazed with polished plate glass 1/4 in. thick.

Resolved, that the board of standards and appeals does hereby make a variation from the requirement of the labor law and that the petition be and it hereby is granted only so far as it affects the show windows in the 1st story, on condition that all openings shall be equipped with approved metal frames, glazed with polished plate glass not less than 1/4 in. in thickness and that the labor law requirements shall be complied with in all other respects.

1274-24-S.

PETITIONER—Schwartz & Gross, for Siljour Realty Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—248 1/2-250 West 40th street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott 10

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert 3

THE RESOLUTION:

(1274-24-S)

WHEREAS, Schwartz & Gross, for Siljour Realty Corp., filed, October 28, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 248 1/2 to 250 West 40th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered October 27, 1924, in acting on N. B. Application No. 153-1924, reads:

"1. Windows on the 1st, 2nd and 3rd floor front must comply with Sec. 264 of Labor Law and Rule 503 of the Industrial Code.";

and

WHEREAS, the building is fireproof, 14 stories in height, 39 ft. by 99 ft. in area; equipped with a sprinkler system. OCCUPIED as follows: 1st story, store; mezzanine, office; upper stories, manufacturing, 60 persons per story; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories, glazed with 1/4 in. plate glass; the maximum area of the glass on the 1st story is 5 ft. 6 in. by 8 ft. 6 in. and on the 2nd and 3rd stories the maximum area is 6 ft. 6 in. by 7 ft.; and

WHEREAS, petitioner proposes to arrange these windows so as to partially pivot and partially remain stationary, and contends, to comply with the provisions of the labor law as to the area of the glass, would affect the architectural treatment and also the use intended for the lowest three stories.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the three (3) lower stories, on condition that all openings shall be equipped with approved metal frames, glazed with polished plate glass not less than 1/4 in. in thickness, and that the labor law requirements shall be complied with in all other respects.

1255-24-S.

PETITIONER—Fritz Huberti, for estate of Jane E. Duffy, owner.

RESERVE CALENDAR

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—111 West 31st street, Manhattan.

APPEARANCES—

For Petitioner: Fritz Huberti.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott 10

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert 3

THE RESOLUTION:

(1255-24-S)

WHEREAS, Fritz Huberti, for Estate of Jane E. Duffy, owner, filed, October 23, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 111 West 31st street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 1, 1924, reads:

"Order No. 65309-LD:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at the rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street * * *";

and

WHEREAS, the building is non-fireproof, four stories in height 21 ft. 10 in. by 100 ft. in area at the 1st story and 21 ft. 10 in. by 62 ft. 6 in. in area above. OCCUPIED: 1st story, plumbing store, 4 persons; 2nd story, clothing mfg., 7 persons; 3rd story, fur mfg., 7 persons; 4th story, mfg. of buttons, 8 persons. EXITS: An interior wooden stairway extending from the 1st story to the top story, with iron ladder to scuttle in roof, enclosed in metal covered wooden partitions with wooden doors at openings; a fire escape on the rear of the building, extending from the main roof to the roof of the 1st story extension, with EGRESS from the termination of the fire escape by means of an iron ladder ladder to extension roof of adjoining building to west; ROOFS of adjoining buildings three stories higher; and

WHEREAS, petitioner contends that egress may be had from the roof of the adjoining extension roof to the west by means of two fire escapes, on the adjoining buildings, terminating on this extension roof, and also by means of a stair tower opening to same extension, and further contends that the building in question and the two buildings to the west running through from West 31st street to West 32nd street are under one ownership;

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the egress from the termination of the rear fire escape on the roof of the 1st story extension, on condition that fixed iron stairs shall be provided from the rear of the 1st story extension roof to extension roof to west, with egress therefrom by means of screened stairways, and granted only so long as conditions as to occupancy, use and exits remain substantially unchanged.

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert 3

THE RESOLUTION:

(1292-24-S)

WHEREAS, Schwartz & Gross, for Pennsylvania Operating Corp., owner, filed, October 31, 1924, a petition with the board of standards and appeals, for a variation from the requirements of the Labor Law as cited in a decision of the superintendent of buildings, affecting premises 225-241 West 34th street, 234-238 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 244-1924, dated October 24, 1924, reads:

"7. All windows in the building should be fireproof and self-closing or stationary—no lights of which may exceed 720 square inches in area or more than 48 inches in any dimension.—Section 264 of Labor Law, Rule 503 of Industrial Code.";

and

WHEREAS, the building is fireproof, 22 stories in height, 154 ft. by 197 ft. (irregular) in area; EQUIPPED with a sprinkler system. OCCUPIED: first story, stores; mezzanine, offices; 2nd to 12th stories, show rooms with 25 per cent manufacturing, 180 persons per story; upper stories, office, 180 persons per story; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories, glazed with ¼-in. plate glass; the maximum area of the glass on the 1st story is 8 ft. 0 in. by 12 ft. 0 in., and on the 2nd and 3rd stories 7 ft. 0 in. by 8 ft. 0 in. in area; and

WHEREAS, petitioner proposes to arrange these windows so as to partially pivot and partially remain stationary, and contends, to comply with the provisions of the Labor Law, as to the area of the glass, would materially affect the architectural treatment of the building and also the use intended for the lowest three stories.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the Labor Law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the 1st, 2nd and 3rd stories, on condition that all openings shall be equipped with approved metal frames, glazed with polished plate glass not less than ¼ in. in thickness and that the labor law requirements shall be complied with in all other respects.

1303-24-S.

PETITIONER—Charles B. Meyers, for Arbana Realty Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—240-246 West 35th street, Manhattan.

APPEARANCES—

For Petitioner—George L. Wills.

ACTION OF BOARD—Petition granted on condition.

MINUTES

CONDITIONS—As specified in resolution.
THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott..... 11
Negative 0
Absent: Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1303-24-S)

WHEREAS, Charles B. Meyers, for Arbana Realty Corp., owner, filed, November 6, 1924, a petition with the board of standards and appeals, for variation from the requirements of the Labor Law, as cited in a decision of the superintendent of buildings, affecting premises 240-246 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered April 16, 1924, reads:

"15. All windows in the building should be fireproof, Sec. 264 Labor Law.

NOTE: Fireproof windows under the Labor Law must be stationary or self-closing windows of wired glass with panels not greater than 720 square inches, nor more than 48 inches in any dimension. Rule 503, Industrial Code."

and

WHEREAS, the building is fireproof, 17 stories in height, 100 ft. by 98 ft. 9 in. in area; EQUIPPED with a sprinkler system and a fire alarm signal system; OCCUPIED as stores, offices, showrooms and factories—45 persons per story; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories, glazed with $\frac{1}{4}$ in. plate glass; the maximum area of the glass on the 1st story is 8 ft. 0 in. by 12 ft. 0 in. and the maximum area on the 2nd and 3rd stories is 7 ft. 0 in. by 8 ft. 6 in.; and

WHEREAS, petitioner contends that to comply with the provisions of the Labor Law as to the area of the glass would materially affect the architectural treatment of the building and also the use intended for the lowest three stories;

Resolved, that the board of standards and appeals does here *make a variation* from the requirements of the Labor Law and that the petition be and it hereby *is granted* only so far as it affects the windows on the street front of the three (3) lower stories, *on condition* that all openings shall be equipped with approved metal frames, glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness, and that the Labor Law requirements shall be complied with in all other respects.

966-24-S.

PETITIONER—Samuel Rosenblum, for Fifth Avenue and 23rd Street Co., owner.

SUBJECT—Application for reopening—variation of labor law as cited in order of fire commissioner.

PETITIONER—Universal Oil Burner Corporation.

SUBJECT—Approval of Universal oil burner.

APPEARANCES—

For Petitioner: John J. Lauster, Saul Berger.

For Administration: Inspector P. F. Foley, of the bureau of buildings.

ACTION OF BOARD—Petition approved.

THE VOTE TO APPROVE—

Affirmative: Messrs. Kennedy, Dowd, Gunnison, Holland, Superintendents Brady, Reville, Kleinert Moore and McDermott 9

Negative: Chairman Walsh and Mr. Connell 2

Absent Fire Chief Kenlon and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(6-24-SA)

WHEREAS, the Universal Oil Burner Corporation filed January 30, 1924, a petition with the board of standards and appeals for approval of their device known as the Universal Fuel Oil Burner; and

WHEREAS, a committee of the board inspected this device in operation at No. 311 100th street, Brooklyn, on July 9, 1924, and made a reinspection of the device in operation at 2342 Andrews avenue, The Bronx, on December 19, 1924; and

WHEREAS, the bureau of buildings, Borough of Manhattan, submitted a report recommending the approval of the device;

Resolved, that the board of standards and appeals does hereby approve the device known as the Universal Fuel Oil Burner for use with Grade B fuel oil in domestic installations in the City of New York, when installed in conjunction with fuel oil burning equipment in conformity with the requirement of the Fuel Oil Rules adopted by the board of standards and appeals.

95-24-SA.

PETITIONER—Leiman Bros.

SUBJECT—Approval of the Leiman oil pump.

APPEARANCES—

For Petitioner: John Young.

For Administration: None.

ACTION OF BOARD—Petition approved.

MINUTES

THE VOTE TO APPROVE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Connell, Fire Chief Kenlon, Superintendents Brady, Reville Kleinert, Moore and McDermott	11
Negative	0
Not voting Mr. Kennedy	1
Absent: Deputy Fire Commissioner Han- non	1

THE RESOLUTION:

(95-24-SA)

WHEREAS, Leiman Brothers filed, January 22, 1924, a petition with the board of standards and appeals for ap-

proval of their device known as the Leiman Oil Pump; and

WHEREAS, an examination of the drawings and model of the pump submitted indicates that the pump is of standard mechanical construction of the rotary type and conforms with the requirements of the fuel oil rules.

Resolved, that the board of standards and appeals does hereby approve the Leiman Oil Pump for use with Grade "A" or Grade "B" fuel oil in fuel oil burning installations when constructed with all moving parts in contact with the oil of brass or bronze.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of either board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, January 13, 1925*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, January 20, 1925, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

Under the Building Zone Resolution.

CAL. NO. 922-24-BZ—Application, July 11, 1924, under the building zone resolution, of McKim, Mead and White, applicants, on behalf of Savoy Hotel Corp., owner, to permit in a business two-times height district the erection of the street walls to a height exceeding the limit prescribed by the zone resolution; premises 761-767 Fifth avenue, 2-14 East 59th street and 1-11 East 58th street, Manhattan.

CAL. NO. 1092-24-BZ—Application, September 2, 1924, under the building zone resolution, of John W. Clancy, applicant, on behalf of Michael Naftal, owner, to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 331 East 184th street, northeast corner of Tiebout avenue, The Bronx.

CAL. NO. 1180-24-BZ—Application, September 30, 1924, under the building zone resolution, of Edward P. Doyle, applicant, on behalf of Two Hundred and Fifty-seven Madison Avenue, Inc., owner, to permit in a residence 1½ times height district the erection and maintenance of a business building and to erect the street walls to a height exceeding the limit required by the zone resolution; premises 257-261 Madison avenue, southeast corner of East 39th street, Manhattan.

CAL. NO. 1223-24-BZ—Application, October 14, 1924, under the building zone resolution, of Samuel Rosenblum, architect, on behalf of Henry Grenhart, owner, to permit in a residence district the alteration and conversion of occupancy from a motor vehicle repair shop to a garage for the storage of more than five (5) motor vehicles; premises 166-168 East 92nd street, Manhattan.

CAL. NO. 1191-23-BZ—Application, September 9, 1924, under the building zone resolution, of Nathan Langer, architect, on behalf of Commonwealth Savings Bank, owner, previously denied, to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 425-431 West 209th street, Manhattan.

CAL. NO. 1156-24-BZ—Application, September 22, 1924, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Cosmo Saponaro, owner, to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 982 Morris avenue, northeast corner of 164th street, The Bronx.

CAL. NO. 1215-24-BZ—Application, October 10, 1924, under the building zone resolution, of Hollis Operating Co., Inc., applicant and owner, to permit in a residence district extending from a business district the erection and maintenance of a building to be used for stores, offices and theatre purposes; premises

CALENDAR

south side of Jamaica avenue, 60 ft. east of 191st street, Hollis, Borough of Queens.

CAL. NO. 1230-23-BZ—Application, October 30, 1924, under the building zone resolution, of James Ruburg, applicant, on behalf of Marie Ruburg, owner, to permit in a residence district the installation and maintenance of a gasoline selling station; premises 1-3 160th street, Flushing, Borough of Queens.

CAL. NO. 31-24-BZ—Application, January 9, 1924, under the building zone resolution, of F. W. Rinn, architect, on behalf of Samuel Brenner, owner, to permit in a residence district the maintenance of a garage for the storage of four (4) pleasure motor vehicles, three (3) spaces rented to persons not residing on the premises; premises 2251 Grand avenue, northwest corner of Buchanan place, The Bronx.

CAL. NO. 887-24-BZ—Application, July 2, 1924, under the building zone resolution, of Ferdinand Savignano, architect, on behalf of Olympia Gentile, owner, to permit in a residence district the maintenance of a garage for the storage of one (1) pleasure and four (4) commercial motor vehicles; premises 8715 Sixteenth avenue, Brooklyn.

WILLIAM E. WALSH, *Chairman.*

BOARD OF APPEALS.

Tuesday, February 10, 1925, at 10 a. m.

Appeal from Administrative Order

1209-24-A—2 Rector street, Manhattan.

834-24-A—520-528 Broome street, Manhattan.

1329-24-A—38 West 56th street, Manhattan.

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, February 10, 1925, at 10 o'clock*, in Room 919, Municipal Building, on the following matters:

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Holland 1

1233-24-A.

APPELLANT—Charles A. Duke, for National Exhibition Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—West side of Eighth avenue, 519 ft. 8 in. north of 155th street, Manhattan.

APPEARANCES—

For Appellant: Charles A. Duke.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Connell, Holland and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(1233-24-A)

WHEREAS, Charles A. Duke, for National Exhibition Co., filed, October 16, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises west side Eighth avenue, 519 ft. 8 in. north of 155th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 30-A, dated September 30, 1924, reads:

"1. Install standpipe fire line equipment * * *.

"2. Provide telegraphic communication with Department Headquarters * * *.

"3. Provide proper illumination in that part of under grandstand used as exit passageway; also directing signs to guide patrons using this passageway * * *.

"4. Provide portable fire appliances * * *."

and

WHEREAS, the premises consist of an open concrete and steel stadium (the Polo Grounds), covering an area of approximately 740 ft. by 519 ft.; OCCUPIED as a place of

MINUTES

public assembly; the back portion of the underside of the stand, which is used for the storage of wooden benches, etc., has been equipped with sprinklers every 10 ft.; and

WHEREAS, appellant contends that the means of egress are adequate, and that all lumber of every description excepting the seat boards will be removed immediately after the football season, and if a standpipe system were installed it could only be supplied from the 6 in. main in the street.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, *on condition* that all partitions throughout the premises shall be constructed of fireproof material with self-closing fireproof doors at openings in same; that the appeal as it relates to Items 2 and 3 be and it hereby is *denied*.

1258-24-A.

APPELLANT—Rudolph P. Miller, for Sancourt Realty Corporation, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—307-313 West 79th street, Manhattan.

APPEARANCES—

For Appellant: Rudolph P. Miller.

For Administration: Inspector Maher, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,

Dowd, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(1258-24-A)

WHEREAS, Rudolph P. Miller, for Sancourt Realty Corp., owner, filed, October 23, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 307-313 West 79th street, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated October 6, 1924, read:

"Order No. 65215-F:

"1. Arrange the house water supply pipe so that same will connect with tank on the outside thereof above the 3500 gallon mark only.

"2. Provide a 2½ in. outlet with proper valve and sufficient 2½ in. hose for standpipe on top story."

"Order No. 65216-F:

"1. Raise standpipe tank to twenty feet above the roof level and properly support same, as per Section 20, Chapter 12, Code of Ordinances.";

and

WHEREAS, the building is fireproof, ten stories in height, 100 ft. by 86 ft. 2 in. in area; OCCUPIED as an apartment house; equipped with a 4 in. standpipe system, installed in 1906; and

WHEREAS, there are two tanks on the roof of the building, the house tank of 3,500 gallons capacity, the bottom of the tank being 14 ft. above the roof, and also the standpipe supply tank, 3,500 gallons capacity, having the bottom of the tank 2 ft. above the roof; and

WHEREAS, appellant contends that the standpipe equipment was installed in accordance with the existing requirements at the time of construction, and that the building under question is a tenement house and under the jurisdiction of the tenement house department, and that the fire commissioner is precluded by par. 2 of sec. 775 of the Charter from issuing any order relative to a tenement house; and

WHEREAS, the corporation counsel of the City of New York rendered under date of August 29, 1923, an opinion

as to the authority of the fire commissioner in matters of fire fighting equipment in tenement houses.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal as to Order No. 65215, Item 1, be and it hereby is *granted on condition* that a tank of approximately 3,500 gallons shall be maintained separate and independent of house supply for the standpipe system; as to Item 2, *granted* only so far as it affects the pent-house occupancy; and as to Order 65216, Item 1, the appeal be and it hereby is *granted*.

1291-24-A.

APPELLANT: Samuel Rosenblum, for Sam Meyers, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—229 East 9th street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Lynch, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,

Dowd, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(1291-24-A)

WHEREAS, Samuel Rosenblum, for Sam. Meyers, lessee, filed, October 30, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 229 East 9th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 24505-LC, dated June 10, 1924, reads:

"1. Protect the ceiling construction, including all vertical openings with fire retarding material as prescribed by the rules of the Board of Standards and Appeals.

"3. Remove boiler from present location (Section 10, Code of Ordinances) and separate boiler from the remainder of the building by an unpierced fireproof wall consisting of solid masonry of at least 8 in. in thickness or its equivalent. Section 159-1, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, two stories and cellar in height, 25 ft. by 54 ft. 4 in. (irregular) in area, located in a business district. OCCUPIED: Cellar, stable for five horses; 1st story, storage of wagons and two commercial motor vehicles, property of lessee; 2nd story, dwelling of lessee; and

WHEREAS, the ceiling of the 1st story is metal covered and there is a wooden stairway from the 1st to 2nd story, enclosed in wooden partitions, metal covered on the loft side, with a wooden and glass door at the 1st story; an open runway goes down to the cellar; with a wooden metal covered bulkhead on the 1st story; and

WHEREAS, appellant proposes to shut off the runway by providing fire retarding partitions at the opening on the 1st story; to provide a fireproof door at the stair leading to the 2nd story and to enclose the boiler with a wood stud and wire lath cement partition to the ceiling and to provide a fireproof door at the opening therein.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be no gasoline storage equipment maintained on the premises; that the storage capacity of garage shall be restricted to two (2) automobiles, the property of the owner, used in the conduct of

MINUTES

his business; that the open runway shall be enclosed in fire retarding material, with self-closing fireproof door at the 1st story; that the stairway shall be enclosed in fire retarding material, and shall lead directly to the street, with not more than one opening therefrom to garage portion, equipped with self-closing fireproof door; that the heating apparatus shall be enclosed in fire retarding material, vented to the outer air, with metal duct, the door opening to be equipped with self-closing fireproof door.

1230-24-A.

APPELLANT—Joseph Mitchell, for J. Harry Riker, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—352 West 26th street, Manhattan.

APPEARANCES—

For Appellant: Joseph Mitchell.

For Administration: Inspector Lynch, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(1230-24-A)

WHEREAS, Joseph Mitchell, for J. Harry Riker, owner, filed, October 15, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 352 West 26th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 25, 1924, reads:

"2. Protect floor of garage with approved fire retarding material as per Section 73 of the Building Code.

"3. Discontinue use of living apartments for dwelling purposes for reason that same are not occupied by applicant or his employee. Sec. 154, Chap. 10, Code of Ordinances.

"4. Separate boiler from remainder of building by unpierced wall of solid masonry at least 8 inches in thickness. Entrance to boiler room to be from exterior of building only. Sec. 159-1, Chap. 10, Code of Ordinances.

"5. Provide a fire escape or other secondary means of exit for each story above the garage. Sec. 154, Chap. 10, Code of Ord."

and

WHEREAS, the building is non-fireproof, three stories and cellar in height, 25 ft. by 98 ft. 9 in. in area at 1st and 2nd stories and 25 ft. by 37 ft. in area above. OCCUPIED: Cellar, boiler room; 1st story, mason's storage and private garage, 2 persons; 2nd story, mason's storage and dwelling, 5 persons; 3rd story, dwelling, 5 persons; the center section of the garage floor being constructed of 3 in. planking; and

WHEREAS, appellant proposes in re: Item No. 2, to remove the runway to cellar and to install a stairway to the cellar, provided with a fireproof door at openings leading thereto; contends in re: Item No. 3, the two upper stories are occupied by persons employed in the business carried on in the 1st story; in re: Item No. 4, proposes to enclose the boiler with an 8 in. brick wall with a fire door in opening therein; and in re: Item No. 5, proposes to enclose the center stairway with 2 in. by 4 in. studs covered both sides with metal lath and $\frac{3}{4}$ in. cement mortar, with a fire door at the base of the enclosing partition, and asks acceptance of this stairway as a secondary means of egress.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the garage storage capacity shall be restricted to three (3) automobiles, the property of the owner of the premises, used in the conduct of his business; that there shall be no gasoline storage equipment maintained on the premises; that the 1st story throughout shall be fire retarded in accordance with the rules of the board of standards and appeals; that the existing runway in the center portion of building shall be discontinued and in place thereof stairs shall be provided, enclosed in fire retarding material, with egress from the foot of same to the yard of adjoining tenement house, premises to the west with egress therefrom direct to street; the two sets of stairs shown on plans filed in this appeal shall be provided and maintained, enclosed in fire retarding partitions, with fireproof self-closing doors throughout the 1st story; that the heating apparatus shall be located at the extreme front of cellar, enclosed in brick or stone wall, with not more than one opening therein, provided with self-closing fireproof door, with additional egress provided from the boiler room direct to the street by engineer's ladder; and that the ceiling of boiler room shall be fire retarded in accordance with the rules of the board of standards and appeals.

1297-24-A.

APPELLANT—Emil Guterman, for Pinkus Brothers, owners.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—1102 Myrtle avenue, Brooklyn.

APPEARANCES—

For Appellant: Emil Guterman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(1297-24-A)

WHEREAS, Emil Guterman, for Pinkus Brothers, owner, filed, November 1, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1102 Myrtle avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated October 27, 1924, reads:

"A recent inspection by this Department shows that the standpipe system installed cannot be accepted for the reason that 2½ in. system has been installed instead of 4 in. system as called for in plan No. 272-21.";

and

WHEREAS, the building is non-fireproof, one story in height, 195 ft. 8 in. by 100 ft. in area; OCCUPIED as a garage; and

WHEREAS, appellant has provided a 2½ in. standpipe along the northerly wall of the building; and

WHEREAS, appellant proposes to supply a sufficient length of 2½ in. approved hose to cover all parts of the premises with a hose stream and requests acceptance of existing conditions in view of the fact that permits were issued in 1922 for the same.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall be equipped with a standpipe system in accordance with the rules of the board of standards and appeals, affecting standpipe equipment for garages under Cal. No. 179-20-S, in force at the time permit was granted for this garage.

MINUTES

1544-22-A.

APPELLANT—Robert D. Kohn, for R. H. Macy & Co., Inc., owner.

SUBJECT—Application for reopening—appeal from decision of fire commissioner.

PREMISES AFFECTED—1323-1327 Broadway, Manhattan.

APPEARANCES—

For Appellant: Edward P. Doyle.

ACTION OF BOARD—Appeal reopened and extension of permit granted.

THE VOTE TO REOPEN AND EXTEND PERMIT FOR 90 DAYS—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6
Negative 0
Absent: Fire Chief Kenlon..... 1

THE RESOLUTION:

(1544-22-A)

WHEREAS, Robert D. Kohn, for R. H. Macy & Co., Inc., owner, filed, December 22, 1922, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1323-27 Broadway, Manhattan; and

WHEREAS, the decision of the fire commissioner reads: "11. Fuel oil equipments are not permitted in building of hazardous occupancies.";

and

WHEREAS, the building is fireproof, ten and nineteen stories in height, 197 ft. 6 in. by 505 ft. in area; OCCUPIED as a department store, basement and sub-basement, shipping; 1st to 7th stories, department store; upper stories, stock; and

WHEREAS, appellant has installed a fuel oil burning equipment and claims this equipment conforms to the requirements of the fuel oil rules; and

WHEREAS, a committee's report which was adopted "recommends that fireproof walls of approved masonry, as indicated on plans filed March 20, 1923, in this appeal, be completed in accordance with said plans, isolating the boiler room, by at least two fireproof intervening walls, from any other part of the building in which merchandise is handled or material stored as part of the department store business, any openings in the said walls to be equipped with self-closing fireproof doors, as indicated on said plans and providing egress from the boiler room which in no case passes through any room used for mercantile storage or purposes; and, on further condition, in granting this appeal, that the appellant install a ventilating system, separate and independent, for the boiler room, discharging, through metal duct, directly to the outer air above the roof, and exhausting by means of a power driven fan of not less than 25 h. p., so that any smoke, developing from any cause in the boiler room, would discharge above the roof of the main building; and on further condition that a mechanical automatic control be installed on the discharge line from the pumps, arranged to close down the pump on the cessation of flame in the fire box or any fracture of oil supply line; that the installation comply in all other respects with the Fuel Oil Rules of the board of Standards and Appeals, and that appellant obtain the necessary permits for the installation of fuel oil burning equipment, in accordance with said Fuel Oil Rules, together with a certificate from the Superintendent of Buildings"; and

WHEREAS, this appeal was granted by the board at its meeting May 22, 1923, but appellant, unable to finish the work within the 60 day period granted, requests under date of February 6, 1924, and under date of June 16, 1924, September 19, 1924, and December 22, 1924, an extension of time for 90 days.

Resolved, that the decision of the fire commissioner, Item 11, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the stipulations set forth in the foregoing report be complied with;

Resolved, further, that the temporary permit for the installation pending approval of plans be extended for 90 days from the date of this action at owner's risk.

BUILDING ZONE CASES.

14-24-BZ.

APPLICANT—Virginia May Mollenhauer, for Michael Kelly, owner.

THE RESOLUTION:

(1170-24-BZ)

WHEREAS, Edward P. Doyle, for Henry Becker, owner,
filed, September 26, 1924, an application, under the build-
ing zone resolution, to permit partly in a residence district
and partly in a business district, the erection and main-
tenance of a garage for the storage of more than five
motor vehicles; premises southwest corner of Westchester
avenue and Roberts avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application
by the board of appeals, at its regular meeting, January
6, 1925, after due notice by publication in the Bulletin of
the Board of Standards and Appeals; and

WHEREAS, the used district maps accompanying the build-
ing zone resolution show that Westchester avenue is a busi-
ness district and Roberts avenue and Mulford avenue are
residence districts; and

WHEREAS, the decision of the superintendent of build-
ings, rendered September 5, 1924, in acting on N. B. Ap-
plication No. 2428-24, reads:

"1. Erection of proposed garage for storage of more
than five motor vehicles in business and residence dis-
trict, is contrary to provisions of Building Zone Reso-
lution.";

and

WHEREAS, the proposed building is to be of non-fireproof
construction, one story in height, with a frontage of 118.58
ft. and a depth of 190 ft.; to be occupied as a garage
for more than five motor vehicles; and

WHEREAS, there were no facts adduced at the hearing to
substantiate the basis of the application under section 20
of the building zone resolution.

Resolved, that the decision of the superintendent of build-
ings be and it hereby is *affirmed*, and the application be
and it hereby is *denied*.

893-24-BZ.

APPLICANT—Harry Katz, owner.

SUBJECT—Application (re: decision of superintendent
of buildings) to permit in a business district
extending from an unrestricted district the erec-
tion and maintenance of a garage for the storage
of more than five (5) motor vehicles.

PREMISES AFFECTED—408-414 15th street, Brook-
lyn.

APPEARANCES—

For Applicant: Francis D. McGarey.
For Opposition: Frank H. Field, Aaron Hersch-
kowitz, Mr. Orrell, Max Schneider and
Matthew Feldman.

ACTION OF BOARD—Application granted on condi-
tion.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,
Gunnison, Dowd, Holland, Connell and Fire
Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(893-24-BZ)

WHEREAS, Harry Katz, owner, filed, July 3, 1924, an ap-
plication, under the building zone resolution, to permit the
extension, from an unrestricted district into a business
district, of a proposed garage for the storage of more
than five motor vehicles; premises 408-414 15th street,
Brooklyn; and

WHEREAS, a public hearing was held on this application
by the board of appeals, at its regular meeting, January
6, 1925, after due notice by publication in the Bulletin
of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the build-
ing zone resolution show that 15th street is an unrestricted
district, 16th street is a residence district and Eighth ave-
nue is a business district; and

WHEREAS, the decision of the superintendent of buildings,
rendered February 28, 1924, in acting on Application No.
3191-24, reads:

"Proposed one story brick public garage for more
than five motor vehicles, partly in a business district
and partly in an unrestricted district is contrary to
Art. II, Sec. 4 (a) of the Zone Resolution.";

and

WHEREAS, the proposed building is to be of fireproof con-
struction, one story in height, with a frontage of 100 ft.
and a depth of 100 ft.; to be occupied as a garage for
more than five motor vehicles, a portion 44 ft. 8½ in. in
width extending into the business district; to be occupied
as a garage for more than five motor vehicles; and

WHEREAS, an application under Cal. No. 785-19-BZ was
denied on same premises; and the proposed garage differs
from prior applications by having a 10 ft. by 29 ft. court
and also by being fireproof; and

WHEREAS, under the provisions of section 7, subdivision
c, the board is empowered to act.

Resolved, that the board of appeals does hereby *make*
a variation in the application of the use district regulations
of the building zone resolution, and that the application be
and it hereby is *granted on condition* that the building be
restricted to a one-story structure in height above grade
and that the easterly gable wall shall be set back 20 ft.
from the easterly lot line; that the rear and gable walls
shall be unpierced throughout their entire height and length;
that no skylight shall be installed within 20 ft. of the
gable or rear wall lines, and any skylights installed shall
be glazed with plain glass, equipped with wire guards above
and below; that any gasoline storage equipment shall be
placed at the extreme front of the building; that the front
elevation shall be finished in face brick, with architectural
terra cotta or stone trimmings; that there shall be no
vehicular opening within the business use area of the prop-
erty, and any signs installed on the premises shall be re-
stricted to the front of the building;

Resolved, further, that all permits necessary for the prose-
cution of the work shall be obtained within nine months
and the building completed within eighteen months from the
date of this action.

Absent: Fire Chief Kenlon..... 1

THE RESOLUTION:

(1083-24-BZ)

WHEREAS, A. Welles Stump, for Regina Hasenfratz, owner, filed, August 29, 1924, an application, under the building zone resolution, to permit in a business district the alteration and extension of a poultry slaughter house; premises 728 New Lots avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 6, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that New Lots avenue is a business district and Warwick street is a residence district; and

WHEREAS, the decision of the board of health, rendered July 29, 1924, reads:

"At a meeting of the Board of Health of the Department of Health, held July 29, 1924, the following resolution was adopted:

"RESOLVED, That upon reconsideration of the application of Regina Hasenfratz for approval of plans and specifications for an extension to the poultry slaughter house located at No. 728 New Lots Road, Borough of Brooklyn, the said application be and is hereby DENIED.

"The reason for the action of the Board is the fact that the property is located in a business district as established by the Zoning Ordinance.";

and

WHEREAS, the existing poultry slaughter house is non-fireproof, one story in height, 20 ft. by 55 ft. in area; it is proposed to build an addition to this building, which addition will be non-fireproof, one story in height and 20 ft. by 44 ft. in area; and to use the entire premises as a poultry slaughter house; and

WHEREAS, under the provisions of section 7, subdivision A of the building zone resolution, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the proposed extension for use as a chicken market shall not exceed a floor area of 20 ft. by 44 ft. 9 in. and shall be restricted to one story in height; that there shall be no exit on the Warwick street front of the structure; that the sills of any windows on the Warwick street front shall be at least 5 ft. 6 in. above the sidewalk level; that there shall be no signs exposed on the Warwick street front of the structure; that the proposed addition shall be finished, as to material and design, in harmony with the existing structure; and on further condition that the necessary permit from the department of health be obtained and that all other permits necessary for the prosecution of the work shall be obtained within nine months and the structure completed within one year from the date of this action.

1157-24-BZ.

APPLICANT—Wm. H. Kehoe, for Leonard Gold, lessee.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the alteration and conversion of occupancy from a market to a steam laundry.

PREMISES AFFECTED—488 Ralph avenue, Brooklyn.

THE RESOLUTION:

(1157-24-BZ)

WHEREAS, William H. Kehoe, for Ralph Market Peddlers' Assoc., Inc., owner, filed, September 22, 1924, an application, under the building zone resolution, to permit in a business district the conversion of occupancy of a building from a market to a steam laundry; premises 488 Ralph avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 6, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Ralph avenue is a business district and Prospect place is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 18, 1924, in acting on Alt. App. No. 13505-24, reads:

"Proposed conversion of present market to use as a steam laundry is contrary to Art. II, Sec. 4 of the Zone Resolution.";

and

WHEREAS, the building is of frame construction, two stories in height, with a frontage of 25 ft. and a depth of 75 ft; L-shaped in area; it is proposed to change the occupancy from a public market to a laundry; and

WHEREAS, the board deemed there would be hardship in preventing applicant from making proposed conversion, the proposition being in fact a community laundry except for the power employed.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that, in the conduct and operation of this laundry, any machinery and equipment used shall be limited to such as are specifically permitted in the resolution adopted by the board of appeals under Calendar No. 549-17-BZ, with the exception only as to steam motor power; that all permits necessary for the prosecution of the work shall be obtained within ninety days and the work completed within six months from the date of this action; and on further condition that the proposed use shall be restricted and limited to the dimensions of premises indicated on the plans filed in this case.

THE RESOLUTION:

(1174-24-BZ)

WHEREAS, John W. Clancy, for William Buckley, owner, filed, September 26, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 220 West 179th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 6, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 179th street is a business district to 100 ft. west of Cedar avenue, further to west is an unrestricted district and Cedar avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 24, 1924, in acting on N. B. Application No. 2350-24, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Bldg. Zone Resolution.";
and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, applicant has submitted documentary proof in affidavit form in support of section 7, subdivision 1, and of the existence of a stable on 179th street, and proposed building adjoins and is contiguous to the unrestricted district.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be restricted to a one-story structure above grade; that the rear walls shall be unpierced throughout its entire height and length; that the front elevations on 179th street and Cedar avenue shall be finished with face brick and architectural terra cotta or stone trimmings; that any openings on Cedar avenue shall be restricted to windows, the sills of which shall be not less than 5 ft. 6 in. above the average curb level; that there shall be no signs or advertising display of any nature or description exposed on the Cedar avenue front; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action; that a return shall be made to this board for approval of the drawings of the proposed elevations, before submitting same to the superintendent of buildings for consideration.

THE RESOLUTION:

(1084-24-BZ)

WHEREAS, Edward P. Doyle, for Damox Homes Corp., owner, filed, August 29, 1924, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a building to be used for business purposes; premises north side of Featherbed lane, 17 ft. west of Macombs road, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, November 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Macombs road is a residence district and Featherbed lane is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 12, 1924, in acting on N. B. Application No. 2178-24, reads:

"1. Erection of proposed building to be used for business purposes in residence district is contrary to the provisions of the Building Zone Resolution.";
and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 50 ft. and a depth of 95 ft.; to be occupied as stores; and

WHEREAS, the board deemed, owing to surrounding conditions, that there would be hardship in preventing applicant from making the proposed use of his property; and

WHEREAS, this application was granted by the board at its meeting, November 25, 1924, on certain conditions and applicant requested a modification of these conditions in so far as the skylights were concerned.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be restricted to a one story structure in height; that the gable walls shall be unpierced throughout their entire height and length; and rear wall unless opening on a rear yard of required dimension of same property and ownership; that no skylights shall be installed within 10 ft. of the gable wall and any skylights installed shall be equipped with plain glass, protected above and below with wire guards; that the street front of the building shall be finished in face material, brick or stucco, with architectural trimmings, decorative treatment; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

ACTION OF BOARD—Application reopened; resolution modified.

THE VOTE TO REOPEN AND MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and

Connell 6

Negative 0

Absent: Fire Chief Kenlon..... 1

THE RESOLUTION:

(1481-22-BZ)

WHEREAS, William F. Doyle, for A. S. C. Construction Corp., owner, filed, December 8, 1922, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a building to be occupied in part for business purposes; premises 8502-18 Fourth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 20, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fourth avenue and 85th street are residence districts and 86th street is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 29, 1922, in acting on N. B. App. 20603-22, reads:

"Denied—Proposition contrary to the zone resolution, Art. 11, Sec. 3, in that a business use is proposed in a residence district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, four stories in height, with a frontage of 150 ft. 2 $\frac{7}{8}$ in. and a depth of 100 ft., to be occupied in the 1st story as stores and apartments and apartments above; and

WHEREAS, applicant contends that owing to the location of the subway entrance at the corner there would be great hardship in preventing the use of the 1st story for store purposes; and

WHEREAS, this application was granted by the board at its meeting, February 20, 1923, on certain conditions, and applicant requests a modification of these conditions as to the size of store.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the entire use of the corner store, an area of 38 ft. front on Fourth avenue, shall be restricted to a banking business conducted under the authority of the Banking Department of the State of New York and be restricted to the ground floor on Fourth avenue front;

Further resolved, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building erected within eighteen months from the date of this action.

AREAS FIXED.

(1046-24-BZ)

The chairman presented and read a communication from Thomas F. Martin, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises north side of Second street, 170 ft. 9 in. east of Fourth avenue, Brooklyn.

The following area was approved by the board:

Both sides of Second street from Fourth avenue to a point 400 ft. east of proposed garage.

(881-24-BZ)

The chairman presented and read a communication from Henry E. Stohldreier, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of a garage; premises 1292 Shakespeare avenue, The Bronx.

The following area was approved by the board:

Both sides of Shakespeare avenue from a point 100 ft. south of 169th street to a point 400 ft. north of the garage; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned, 2:30 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

Absent: Mr. Gunnison

1

THE RESOLUTION:

(785-24-A)

WHEREAS, Philip J. Sinnott, for Harry Schneider, owner, filed, June 10, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 6118 Rockaway Beach boulevard, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, N. B. App. No. 582-22, dated May 13, 1924, reads:

"1. A gravity tank of 3,500 gallon capacity must be provided * * *.

"2. Provide an approved electric pump have a capacity of at least 250 gallon per minute * * *."

and

WHEREAS, the building is fireproof, one story and roof garden, 28 ft. in height, 76 ft. by 165 ft. (irregular) in area; OCCUPIED as a moving picture theatre and stores; and

WHEREAS, appellant contends the building faces on two streets and proposes to provide 6 in. connections to the city mains in Beach 62nd street and in Rockaway Beach boulevard with two hose outlets on the auditorium floor and also two hose outlets on the roof garden—all supplied with 100 ft. of approved hose; and further contends that this installation will afford a more adequate water supply than the tank and pump.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a standpipe system with not less than two four-inch connections to city mains shall be provided; and that the auditorium and roof garden shall not be used or operated at the one time.

1132-24-A.

APPELLANT—John Bennicelli & Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—648 Broadway, Manhattan.

APPEARANCES—

For Appellant: Louis P. Galli.

For Administration: Inspector Lynch, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Holland, Connell and Fire Chief Kenlon

Absent: Mr. Gunnison

1

THE RESOLUTION:

(1132-24-A)

WHEREAS, John Bennicelli & Co., lessee, for J. Romaine Brown, owner, filed, September 15, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 648 Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 7, 1924, reads:

"Order No. 253

"With reference to your application dated May 16, 1924, for a permit to store nitrocellulose products at the above location, I am sorry to inform you that I am without power to grant such a permit for the following reasons:

Sec. 232, Subsection 2 prohibits the storage of nitrocellulose products in any building, inside the fire limits that is not of fireproof construction of more than three stories in height and in any building which is not equipped with an approved two source system of automatic sprinklers.

"You are therefore ordered to

"1. Forthwith remove all nitro-cellulose products.";

and

WHEREAS, the building is non-fireproof, 10 stories in height, 35 ft. by 150 ft. (irregular) in area; OCCUPIED as a tenant factory—approximately 40 persons per story; appellant occupying part of the 10th story for setting stones in celluloid articles; and

WHEREAS, appellant contends that the building is equipped with a sprinkler system that the celluloid articles are stored in small metal containers and requests permission to store a maximum amount of ten lbs. of celluloid.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than five pounds of celluloid shall be maintained on premises, stored in a metal cabinet, constructed of heavy gauge metal and angle-iron frame, with self-closing door to same, and *granted* so long as conditions as to use, occupancy and operation otherwise remain substantially unchanged.

1171-24-A.

APPELLANT—Fifth Avenue Hospital, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1240-1249 Fifth avenue, Manhattan.

APPEARANCES—

For Appellant: C. E. Andrews.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

1

THE RESOLUTION:

(1171-24-A)

WHEREAS, Fifth Avenue Hospital, owner, filed, September 26, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1240-1249 Fifth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 9, 1924, reads:

"Order No. 25444-LC:

"1. Provide a fireproof vault, located outside of the building in which to keep all inflammable X-ray films. Said vault to be constructed, located, ventilated and protected in accordance with plans to be submitted to and approved by the fire department.";

WHEREAS, the building is fireproof, 11 stories in height, 200 ft. by 150 ft. in area; OCCUPIED as a hospital; and

WHEREAS, appellant proposes to store the X-ray films in a fireproof room located in the tower (12th story) of the building and contends that the room is vented to the outer air and is isolated from all other departments.

MINUTES

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the combustible material stored on premises shall be restricted to photographic X-ray film, not exceeding 150 lbs., stored in a fireproof enclosure, constructed of 4 in. terra cotta partition located in the cupola room at the level of 12th story, enclosed with self-closing, fireproof door and ventilated to the outside air.

1049-24-A.

APPELLANT—William F. Conran, for Sun Co., owner.
SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—East avenue and Newtown Creek, Long Island City, Queens.

APPEARANCES—

For Appellant: William F. Conran.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO ADOPT REPORT OF COMMITTEE—

Negative 0

Absent: Mr. Gunnison 1

THE VOTE TO GRANT—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Holland, Gunnison, Connell and Fire Chief Kenlon 7

Negative 0

Absent 0

THE RESOLUTION:

(1049-24-A)

WHEREAS, William F. Conran, for Sun Company, owner, filed, August 19, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises East avenue and Newtown Creek, Long Island City, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, rendered August 18, 1924, reads:

"1. Plans must show tanks to be buried before any further examination can be made* * *";

and

WHEREAS, the premises consist of a plot of ground on which is to be located a gasoline distributing station consisting of a series of 11 gasoline storage tanks and several buildings; and

WHEREAS, appellant contends that the tanks are to be located above ground surrounded by reinforced concrete retaining wall, and that it is impossible to bury the tanks owing to high water and that the enclosure will hold 1½ times the capacity of the tanks and that the tanks will be suitably protected; and

WHEREAS, a committee of the board visited the premises and reported:

December 29th, 1924.

Cal. No.:1049-24-A.

Premises: East avenue and Newtown Creek, Long Island City, Borough of Queens.

A committee of the board, consisting of Chairman Walsh, Fire Chief Kenlon, Messrs. Holland and Connell visited the premises under appeal, namely, East avenue and Newtown Creek, Long Island City, Borough of Queens.

It is proposed to develop and construct an oil storage plant on the aforesaid premises and seeks relief from the fire commissioner's decision requiring complete burial of all tanks. The property is on the banks of Newtown Creek running easterly therefrom to the south side of First street, a public highway that borders the Long Island railroad yards.

The committee believes that the nature of the soil and surrounding conditions supports a reasonable modification and

therefore recommends the granting of this appeal with such protective provisions as to covering that portion of the tanks above grade with sufficient earth fill and the erection of a reservoir of concrete construction and such other reinforced concrete curtain walls, etc., and sufficient excess tank storage to be maintained empty in reserve for draw off from the storage tanks in emergency and such other protective measures as would provide a reasonable maximum of safeguard.

(Signed) WILLIAM E. WALSH,
JAMES P. HOLLAND,
JOHN KENLON,
HENRY L. CONNELL.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the gasoline storage shall be restricted to eleven (11) tanks, subdivided in two (2) batteries of four (4) tanks each and one battery of three (3) tanks; that each tank shall be separately enclosed in not less than six inches of concrete; that the sub-grade of the foundation of the concrete enclosure shall be at mean high-water grade, that the curtain walls subdividing the batteries shall be built of reinforced concrete extending above grade at least 10 ft.; that the rear wall of the entire three batteries shall be carried to a height of not less than 10 ft. above grade and that the end returns of the battery enclosures shall be carried to a height of 10 ft. above the grade, all walls to be built of reinforced concrete; that a dry pipe valve standpipe system, equipped with flexible nozzles, two at the front and two at the rear of each battery, shall be provided for each gasoline storage battery; that this water-spray system shall be controlled from a pump house located not less than 100 ft. from battery storage structure; that necessary permits shall be obtained within six months and that the work prescribed shall be prosecuted without delay to completion at the earliest possible date.

BUILDING ZONE CASES.

1045-24-BZ.

APPLICANT—F. P. Keniston, for Jerome Hatch Realty Corp., owner.

THE RESOLUTION:

(1155-24-BZ)

WHEREAS, Edward P. Doyle, for Mary McHenry, owner, filed, September 22, 1924, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1784-92 Park Place, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 6, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Park place and Sterling place are residence districts and Saratoga avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings rendered September 19, 1924, in acting on Application No. 18142-24, reads:

"1. Proposition being contrary to Zone Resolution is hereby denied (public garage for more than five vehicles in residence district Zone Resolution Art. 11, par. 4).";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 87 ft. and a depth of 159 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, there were no facts adduced at the hearing to warrant the evasion of this residence district with non-conforming uses and there being no existing prohibited or non-conforming structures on the street.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed and the application be and it hereby is denied.

THE RESOLUTION:

WHEREAS, Thomas W. Lamb, for Lexington Avenue Theatre and Realty Corp., owner, filed, July 15, 1924, an application, under the building zone resolution, to permit the extension from a business district into a residence district, of a building to be occupied as a theatre and also for store and office purposes; premises 125-31 East 86th street, 124-34 East 87th street and 1280-1288 Lexington avenue, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 6, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Lexington avenue is a business district and East 86th street and East 87th street are residence districts; and

WHEREAS, the decision of the superintendent of buildings rendered June 24, 1924, in acting on N. B. Application No. 372-24, reads:

"2. No part of the building may extend into a residence district. Building Zone Resolution, Art. 2, Sec. 3.";

and

WHEREAS, the proposed building is to be of fireproof construction, three stories in height, with a frontage of 201 ft. 5 in. and a depth of 120 ft. 6 in. in East 86th street and 134 ft. 9 in. on East 87th street; to be occupied as theatres, store and offices, extending 30 ft. 6 in. into the residence district on East 86th street and 21 ft. 7 in. on East 87th street with a court 13 ft. 2 in. wide on the street; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act.

MINUTES

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that any exit from the theatre within the residence area, on 86th and 87th streets shall be restricted to that for emergency exit use only, as required by the Code of Ordinances, and that there shall be not more than one such exit on each street; that the westerly gable wall of the structure shall be unpierced throughout its entire height and length unless opening on property in the same ownership used in conjunction with and under the operation of this structure; that the westerly gable wall where exposed shall be finished in light colored face brick; that there shall be a solid unpierced wall of not less than ten (10) feet in height, enclosing the courtway open to the sky on 87th street, westerly gable finished both sides with

face brick; that any other exit on 87th street for the commercial use, operation and conduct of the theatre building shall be confined within fifty (50) feet of the Lexington avenue front; that all exposed masonry of the three (3) fronts of the building shall be of finished material, brick, architectural terra cotta or natural stone; and that there shall be no advertising display, signs nor billboards of any nature or description permitted on the front of this property in the residence use district;

Resolved, further, that all necessary permits for the prosecution of the work shall be obtained within eighteen (18) months from the date of this action.

Adjourned 6.30 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, January 13, 1925.
- Minutes of Meeting, Board of Standards and Appeals, January 13, 1925.
- Reserve Calendar.
- Annual Report.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of either board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, January 20, 1925*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, January 27, 1925*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell and Holland 5

Negative 0

Absent: Mr. Kennedy and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1277-24-A)

WHEREAS, Ernest W. Zentgraf, owner, filed, October 29, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 400 St. Pauls avenue, Borough of Richmond; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 1053-24, dated October 15, 1924, reads:

"8. Burner must be of a type approved by the Board of Standards and Appeals.

"13. Capacity of buried tank may not exceed 1100 gallons.";

and

WHEREAS, the building is frame, two stories in height, 50 ft. by 60 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 2,000-gallon storage tank buried outside the building, an auxiliary tank and a Caloroil burner; and

WHEREAS, appellant contends that the installation conforms with the fuel oil rules excepting that the burner is not an approved burner and that the capacity of the storage tank exceeds the permissible limit set by the fuel oil rules.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 8, *on condition* that the cellar ceiling of the boiler room shall be fire retarded throughout in accordance with the rules of the board of standards and appeals; that the fire box of boiler shall be equipped with self-closing device; that the fuel oil burning system installation otherwise shall comply with the fuel oil rules in all respects; as to Item 13, *granted on condition* that the quantity of fuel oil, stored in buried tank below grade, outside of building, shall not exceed 1,100 gallons; and that all permits necessary shall be obtained.

1316-24-A.

APPELLANT—Cornell Utilities Co., Inc., for D. Melman, owner.

SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—272 Beaumont street, Brooklyn.
APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell and Holland 5

Absent: Mr. Kennedy and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1316-24-A)

WHEREAS, Cornell Utilities Co., Inc., for D. Melman, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 272 Beaumont street, Borough of Brooklyn; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 1741-23, dated October 16, 1924, reads:

"1. Tank will be tested in presence of Fire Department representative and afterwards coated with suitable rust resisting material.

"2. Piping must be tested in presence of a Fire Department Representative.

"4. Burner must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is non-fireproof, 2½ stories in height, 38 ft. by 43 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 700-gallon fuel oil tank buried outside the building, a 55-gallon auxiliary tank and a NoKol Automatic Burner with the necessary valves and piping; and

WHEREAS, appellant contends that inasmuch as the tank is buried and covered with 12 in. of concrete and that the tank and piping were installed under the 1922 fuel oil rules, requests that a sworn affidavit to the fact that the tank has undergone a shop test, be accepted; and further contends that otherwise the installation conforms with the fuel oil rules excepting in that the burner is not an approved burner, and requests a temporary permit for 90 days.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 1 *on condition* that a certificate of

MINUTES

factory test shall be filed with the fire commissioner; that the tank shall be buried below grade, located outside of building, enclosed in 12 in. of concrete; as to Item 2 *on condition* that all piping throughout the installation shall be of standard wrought-iron; as to Item 4, *on condition* that door of the fire-box shall be equipped with self-closing device; and that the installation of fuel oil burning equipment shall comply with the rules of the board of standards and appeals in all other respects.

THE RESOLUTION:

(1199-24-A)

WHEREAS, Fables Pictures, Inc., lessee, filed, October 6, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 316-318 West 46th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 25593-LC, dated September 17, 1924, reads:

"* * * no permit for the storage of inflammable motion picture films shall be issued for any building which is situated within 50 ft. of the nearest wall of any building occupied as a school, theatre or other place of public amusement or assembly.

"You are therefore, hereby, ordered to:

"1. Discontinue the storage of inflammable motion picture film in quantities, aggregating more than 5,000 feet in length. Section 240, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is fireproof, six stories in height, 44 ft. by 100 ft. in area; OCCUPIED for offices and showrooms, average of 6 persons per story, appellant occupying the 6th story for offices and the storage of nitro-cellulose products consisting of 99,000 feet of motion picture film and also 75 pounds of celluloid; and

WHEREAS, appellant contends that plans for film storage vaults were filed in the bureau of buildings in January, 1923; that the storage vaults were completed and a certificate of occupancy was issued (No. 376 of 1923) and that the fire commissioner also issued a permit on February 15, 1923, to store 99 reels of motion picture film; and further contends that the church and parish house were erected subsequent to the construction of said storage vaults; and

WHEREAS, permits have been issued for this occupancy antedating the erection of the church, alleged to be public assemblage, with a dwelling intervening between this building and church structure.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the film occupancy shall be restricted to the top story, limited to the quantity covered by original permit issued by fire commissioner; and that the use, occupancy and storage of the celluloid film shall be maintained otherwise strictly in accordance with the requirements of the code of ordinances.

THE RESOLUTION:

(931-24-A)

WHEREAS, Henry J. Nurick, for Arrow Tailors, Inc., owner, filed, July 14, 1924, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 26 Myrtle avenue, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, dated June 6, 1924, waiting on amendment to plan No. 666-24, which read:

"Proposed to omit fireproofing floor of passageway second floor to stairway."

reads

"Denied.";

and

WHEREAS, an application was filed in the bureau of buildings to change the occupancy of an existing frame building, three stories in height, 25 ft. by 52 ft. in area in the 1st story and 25 ft. by 36 ft. in area above; OCCUPIED, store and two families above, into stores in the 1st and 2nd stories and dwelling on the 3rd story; the MEANS OF EGRESS to consist of an interior stairway extending from the 1st story to the 2nd story on the Myrtle avenue front, an interior stairway extending from the 1st story to the 3rd story on the Adams street front, enclosed in angle iron studs, covered with metal lath and plaster, and a fire escape on the rear of the 3rd story; and

WHEREAS, appellant contends it would be a hardship to fireproof the floor of the hallway in the 2nd story, as the entire building is frame.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the stairhall at the southerly end of building shall be enclosed throughout with not less than 2 in. approved fireproof partition, with all openings therein equipped with self-closing fireproof doors; that a balcony fire escape shall be provided at the rear of building, with a gooseneck ladder to roof and a sliding ladder in guides from lowest balcony to ground; and that all necessary permits shall be obtained within 60 days and the building completed within six months.

WHEREAS, U. S. E. Corporation, lessee, filed, November 19, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 296-322 Vernon avenue, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 2421-24, dated November 12, 1924, reads:

"1. Burner must be of a type approved by the Board of Standards and Appeals.";
and

WHEREAS, the building is non-fireproof, one story in height, 162 ft. by 200 ft., irregular in area; OCCUPIED for the manufacture of auto bumpers; and

WHEREAS, it is proposed to install a fuel oil burning system, consisting of a 1,500-gallon fuel oil tank, a Viking pump. Tate-Jones burners and the necessary valves and piping; to be used for the heat treatment of metal.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, restricting the use and operation of the burner to industrial operation of annealing and metal treating furnaces, including the use of the Viking pump, *on condition* that all moving parts of the pump in contact with the oil shall be of bronze or brass; that the fuel oil installation otherwise throughout shall comply with the fuel oil rules of the board of standards and appeals; and that all necessary permits shall be obtained within ninety (90) days.

491-24-A.

APPELLANT—John T. Briggs, for Anahma Realty Corporation, owner.

SUBJECT—Application for reopening—appeal from decision of fire commissioner.

PREMISES AFFECTED—730 Fifth avenue, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Appeal reopened and resolution modified to permit storage in one vault.

THE VOTE TO REOPEN AND MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy,
Dowd, Gunnison, Holland and Connell 6
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(491-24-A)

WHEREAS, James F. Delany, for Anahma Realty Corp., owner, filed, April 5, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 730 Fifth avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered April 3, 1924, reads:

"3. Entire building must be provided with an approved sprinkler equipment having two sources of supply consisting of an approved pressure tank supply and an approved gravity tank supply.";
and

WHEREAS, the building consists of two sections—the Fifth avenue section is 100 ft. 6 in. by 162 ft. 6 in. in area and six stories and pent house in height, and the 56th street section is 100 ft. by 100 ft. 6 in. in area and 23 stories in height (both buildings having a total area of about 25,000 sq. ft.); OCCUPIED as offices; and

WHEREAS, it is proposed to erect a pent house on the roof of the 56th street section for the storage of motion picture films; and

WHEREAS, appellant proposes to install a gravity and pressure sprinkler system for the pent house; and

WHEREAS, this appeal was granted by the board at its meeting May 23, 1924, on certain conditions, and appellant requested a modification of these conditions to permit one vault instead of two as shown on plan.

Resolved, that the order of the fire commissioner, Item 3, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the structure be located on the roof deck of the six-story extension; that it shall be constructed of fireproof material and equipped with one vault; that an air space of not less than 18 inches shall be provided by the installation of an unpierced floor of fireproof construction between existing roof deck and floor of this proposed pent house; that the exterior openings in the walls of this structure shall be equipped with double fireproof windows with air spaces; that the film vault and operating booth and cutting room shall be equipped with an approved two-source sprinkler system; that a self-closing fireproof door shall be provided at the rear between the projecting room and passageway in the northeast corner of this room; that the opening between the main structure and the roof structure shall be protected with self-closing fireproof door; that the aggregate amount of film stored or maintained on this premises shall at no time exceed 75,000 feet; that all reels shall be maintained in metal containers, stored in vault; that any windows within 30 feet of the main structure shall be made stationary; the receipt and delivery of film to these premises shall be made through the freight exit at the southwest corner of the six-story structure; and that all necessary permits as to approval of the sprinkler system shall be obtained from the fire department.

Negative: Messrs. Dowd and Kennedy	2
Absent	0

THE RESOLUTION:

(1198-24-BZ)

WHEREAS, Edward P. Doyle, for Esthetic Realty Corp., owner, filed, October 6, 1924, an application, under the building zone resolution, to permit in a business two times height district the erection of the street walls of a building to a height exceeding the limit required by the zone resolution; premises 187-191 Joralemon street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 13, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building zone resolution show that Joralemon street, Remsen street and Court street are business use and two times height districts; and

WHEREAS, the decision of the superintendent of buildings rendered July 10, 1924, in acting on Application No. 14221-24, reads:

"1. Building exceeds the height allowed by Building Zone Res. Art. III, Sec. 8-2, in a two times district."

and

WHEREAS, the proposed building is to be of fireproof construction, 12 stories in height, with a frontage of 66 feet and a depth of 87 feet; to be occupied as stores and offices; it is proposed to erect the street wall to a height of 143 ft. the allowable height due to the width of street and excess heights of adjoining buildings within 50 feet of the street front and across the street being 127 ft.; and

WHEREAS, the board deemed that the variation requested should be granted for but an additional 6 feet in excess of height restrictions on basis of allowable excess height exceptions provided for under section 9 subdivision E of the building zone resolution.

Resolved, that the board of appeals does hereby make a variation in the application of the height district regulations

of the building zone resolution, and that the application be and it hereby is *granted on condition* that the height of street wall shall not exceed 133 ft., that the building zone resolution shall be complied with in all other respects; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1349-24-BZ.

PREMISES AFFECTED—9-15 East 133rd street, Manhattan.

APPEARANCES—

For Applicant: Nelson Olcott.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1349-24-BZ)

WHEREAS, Olcott, Olcott & Glass, for James Everard's Breweries, owner, filed, November 29, 1924, an application, under the building zone resolution, to permit in a business district the alteration and extension of a garage for the storage of more than five motor vehicles; premises 9-11-13 and 15 East 133rd street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 13, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 133rd street and Fifth avenue are business districts and East 134th street is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings rendered October 31, 1924, in acting on Alteration Application 2532-24, reads:

"(1). Garage prohibited in a business district."

WHEREAS, the existing garage is non-fireproof, three stories in height, 52 ft. 2 in. by 94 ft. 1 in. in area; it is proposed to alter and extend this garage by the addition of a non-fireproof building, 2 stories in height and 47 ft. 10 in. by 94 ft. 1 in. in area and to use the entire premises as a garage for the storage of more than five motor vehicles.

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, for a garage for more than 5 motor vehicles.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be limited in height to two stories; that the easterly gable wall be unpierced throughout its entire height and length; that the front elevation shall be finished in face brick or cement concrete stucco, with architectural terra cotta or stone trimmings; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1352-24-BZ.

APPLICANT—Henry I. Oser, for Millinery Center Building Corp., lessee.

MINUTES

SUBJECT—Application (re: decision of the superintendent of buildings) to permit in a business two times height district the erection of the street wall to a height exceeding the limit required by the zone resolution.

PREMISES AFFECTED—521-527 Seventh avenue, Manhattan.

APPEARANCES—

For Applicant: Henry I. Oser, Thomas I. Sheridan, Mr. Warren.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1352-24-BZ)

WHEREAS, Henry I. Oser, for Millinery Center Building Corp., owner, filed, November 17, 1924, an application, under the building zone resolution, to permit in a business, two-times height district the erection of a street wall of a building to a height exceeding the limit required by the zone resolution; premises 521-527 Seventh avenue, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 13, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Seventh avenue and West 38th street are business and two-times height districts; and

WHEREAS, the decision of the superintendent of buildings rendered November 8, 1924, in acting on N. B. Application No. 606-24, reads:

"1. Easterly 50 ft. of proposed building is of unlawful height. Section 9b and 9h Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, 22 stories in height, with a frontage of 98¾ feet and a depth of 200 feet; to be occupied as stores, show-rooms and manufacturing, the street wall on West 38th street to be erected to a height of 200 ft. for the entire depth of 200 ft.; and

WHEREAS, on the basis of a reasonable adjustment provided for under the exceptions permitted by section 9 subdivision H of the building zone resolution and by the map interpretation there would be practical difficulties and hardship in carrying out the strict letter of the law.

Resolved, that the board of appeals does hereby make a variation in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the requirements of the building zone resolution be complied with in all other respects, and that all permits necessary for the prosecution of the work be obtained within nine months and the work of building prosecuted to completion without unnecessary suspension or delay.

1293-24-BZ.

APPLICANT—John De Hart, for Hyman Morgenstein, owner.

SUBJECT—Application (re: decision of the superintendent of buildings) to permit in a residence district the alteration and conversion of occupancy from residence to business purposes on the first story.

PREMISES AFFECTED—967 Aldus street, The Bronx.

APPEARANCES—

For Applicant: John De Hart.

For Opposition: Samuel Sobel.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell.....	6
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(1293-24-BZ)

WHEREAS, John De Hart, for Hyman Morgenstein, owner, filed, October 31, 1924, an application, under the building zone resolution, to permit, in a residence district, the alteration and also the conversion of occupancy from a residence to a business use, of the first story of a building; premises 967 Aldus street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 13, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Aldus street and Hoe avenue are residence districts and Southern boulevard is a business district; and

WHEREAS, the decision of the superintendent of buildings rendered October 27, 1924, in acting on Alt. Application No. 582-24, reads:

"1. Proposed alteration and conversion of building in residence district to be used for business purposes is contrary to provisions of building zone resolution.";

and

WHEREAS, the existing building is non-fireproof, five stories in height, 106 ft. by 42 ft. in area; OCCUPIED as an apartment house. It is proposed to alter the entire 1st story from dwelling use to stores; and

WHEREAS, the applicant failed to establish the basis of his application under section 20 and the board deemed that the invasion of the residential district by business uses should not be permitted.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed* and the application be and it hereby is *denied*.

1228-24-BZ.

APPLICANT—Samuel Rosenblum, for Ephraim Johnson and Roy M. Hart, executors of Estate of Emmeline C. Davies, owner.

SUBJECT—Application (re: decision of the superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—East side Ogden avenue, 245 ft. north of West 165th street, The Bronx.

APPEARANCES—

For Applicant: Samuel Rosenblum.

Absent	0

THE RESOLUTION:

(1228-24-BZ)

WHEREAS, Samuel Rosenblum, for Ephraim Johnson and others, owner, filed, October 14, 1924, an application, under the building zone resolution, to permit, in a business district,

MINUTES

the erection and maintenance of a garage for the storage of more than five motor vehicles; premises east side of Ogden avenue, 245 ft. north of West 165th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 13, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Ogden avenue and West 165th street are business districts and Nelson avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings rendered September 22, 1924, in acting on N. B. Application No. 2555-1924, reads:

"1. Erection of public garage for storage of more than five motor vehicles in business district is contrary to provisions of building zone resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 100 ft. and a depth of 100 ft.; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed* and the application be and it hereby is *denied*.

1128-23-BZ.

APPLICANT—William F. Doyle, for Pearl Campbell and Maria Cassino, owners.

SUBJECT—Application for approval of elevation (re: decision of superintendent of buildings) to permit in an unrestricted district extending into a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—363-371 Prospect place, Brooklyn.

APPEARANCES—

For Applicant: Martin C. Ort.

For Opposition: None.

ACTION OF BOARD—Approval of elevation in return drawings as in substantial conformity with resolution, and extension of time granted for thirty days to obtain necessary permits.

THE VOTE TO APPROVE DRAWINGS AND EXTEND TIME TO OBTAIN PERMITS THIRTY DAYS—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell	6
Negative	0
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(1128-23-BZ)

WHEREAS, William F. Doyle, for Pearl Campbell and Maria Cassino, owners, filed, September 28, 1923, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a residence district, of a proposed garage for the storage of more than five (5) motor vehicles; premises 363-371 Prospect place, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 18, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Prospect place is a residence district, St. Marks avenue is an unrestricted district and Washington avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 19, 1923, in acting on App. No. 17179-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 3. A public garage in a residential district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 75 ft. and a depth of 176 ft. 4 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board reports:

TO THE BOARD OF APPEALS:

On February 15, 1924, a Committee of this Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Beatty, Boulton, Connell and Holland, visited and personally inspected the above mentioned premises.

The property is located on the Northerly side of Prospect Place, approximating 150 ft. Westerly from Washington Avenue, has a frontage of 75 feet and a depth of 176 feet, irregular at the rear and extending in triangular shape.

Prospect Place is a residence use district; St. Marks Avenue, the street to the North, is unrestricted, with no outlet from the said property to St. Marks Avenue.

The premises is at present occupied to the front and on the Westerly side by a one story brick structure used as a stable, with eight standing stalls and a one story open shed. To the extreme rear of the property is one three-story brick dwelling, one three-story frame dwelling, and one two-story frame dwelling. The entire plot, with its stable and wagon shed, presents an unorderly, unkempt condition, and it cannot be denied that almost any new building would be an improvement to this street.

To the rear of these premises, opening on St. Marks Avenue, there is at present a vacant plot. Prospect Place, from Underhill Avenue to Washington Avenue, is occupied, almost in its entirety, with dwellings and tenement houses, with the exception of the pumping station at the corner, facing on Underhill Avenue.

There is in course of erection on this street a very attractive and modern apartment or tenement house; and almost directly opposite the properties are developed with rather modern, attractive apartments.

The committee is not disposed to recommend the erection of a permanent, modern structure for garage use opening on Prospect Place. The applicant, for at least a portion of the plot, has a non-conforming use in the nature of a stable for five horses, but the basis of hardship should be indisputably established at the hearing on this case, before the Board reaches a final determination; and under no circumstances does the Committee recommend granting a vehicular use or opening on the Prospect Place front.

(Signed) WILLIAM E. WALSH,
ALFRED J. BOULTON,
JAMES P. HOLLAND,
JNO. J. BEATTY (dissenting),
HENRY L. CONNELL.

WHEREAS, this application was granted by the board at its meeting March 18, 1924, on certain conditions and applicant requested a modification of the time limit to obtain permits.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the height of structure shall not exceed two stories above grade; that the gable walls shall be unpierced throughout their entire height and length, unless opening on property in the same ownership as these premises; that the Prospect Place front

MINUTES

shall be restricted from any vehicular opening, and that any openings on the Prospect Place front shall be restricted to one doorway not exceeding 3 ft. 8 in. in width, and to windows of the double-hung, self-closing, fireproof type, glazed with translucent glass; that the elevation shall be finished with face brick of light buff color, with a stone water table of not less than 12 in. in height, stone sills to all window openings, and stone coping and trimming; that the applicant shall make a return to this board for approval, before submitting drawings to the superintendent of buildings of the elevation on Prospect Place front.

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within 30 days from the date of this action and the building completed within 18 months from Mar. 18, 1924.

AREAS FIXED. (1413-24-BZ)

The Chairman presented and read a communication from Walter B. Wills, requesting the board to fix the area deemed affected and within which to obtain consents from the erection and maintenance of a garage; premises 1180 Myrtle avenue, Brooklyn.

The following area was approved by the board:

Both sides of Myrtle avenue from Charles place to a point 400 ft. west of proposed garage. Both sides of Bushwick avenue from a point 100 ft. west of Myrtle avenue to a point 400 ft. east of Myrtle avenue. Both sides of Ditmars street from Broadway to Myrtle avenue, also the west side of Willoughby avenue from Bushwick avenue to a point 165 ft. south of Bushwick avenue.

(1149-24-BZ)

The Chairman presented and read a communication from Walter B. Wills, requesting the board to fix the area deemed affected and within which to obtain consents for the erection, alteration and conversion of occupancy from stable to garage; premises 63 Schaeffer street, Brooklyn.

The following area was approved by the board:

Both sides of Schaeffer street from a point 100 ft. south of Bushwick avenue to Evergreen avenue, also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

(1448-24-BZ)

The Chairman presented and read a communication from George Nordham, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises east side of Webster avenue, 123 ft. south of East 183rd street, Bronx.

The following area was approved by the board:

Both sides of Webster avenue from a point 100 ft. north of 183rd street to a point 400 ft. south of proposed garage. Both sides of Ford street from Webster avenue to a point 200 ft. west of Webster avenue, also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 2 p. m.

WILLIAM J. O'GORMAN, *Secretary.*

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING

TUESDAY AFTERNOON, JANUARY 13, 1925.

Present: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott. The minutes of the regular meeting of the board of standards and appeals held on Tuesday afternoon, December 30, 1924, were approved as printed in the Bulletin No. 1, Vol. X.

The Board records with deep regret the demise, on January 13, 1925, of our late associate member, Chief Joseph Crawley.

On the announcement of his death the Board adjourned, out of respect to his memory, extending to his bereaved family its profound sympathy.

ACTION OF BOARD—Laid over to January 27, 1925, at 2 p. m., on request of Inspector Maher.

1412-24-S.

PETITIONER—F. P. Keniston, for William C. Hart, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—137 Greene street, Manhattan.

APPEARANCES—

For Petitioner: F. P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Laid over to January 27, 1925, at 2 p. m., to submit corrected plans.

966-24-S.

PETITIONER—Samuel Rosenblum, for Fifth Avenue and 33rd Street Co., owner.

SUBJECT—Application for reopening—variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—1-13 East 33rd street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Laid over to January 27, 1924, at 2 p. m.

1014-24-S.

PETITIONER—Philip Steigman, for Rachel Steigman, owner.

SUBJECT—Variation from the requirements of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—141 Cook street (rear), Brooklyn.

APPEARANCES—

For Petitioner: Philip Steigman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Moore and McDermott 11

Negative 0

Absent: Fire Chief Kenlon and Superintendent Kleinert 2

1339-24-S.

PETITIONER—Anna Riscili, owner.

SUBJECT—Variation of labor law as cited in decision of health commissioner.

PREMISES AFFECTED—444 East 13th street, Manhattan.

APPEARANCES—

For Petitioner: John M. Lewis.

For Administration: None.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

Affirmative: Mr. Holland, Superintendents Brady, Kleinert, Moore and McDermott.... 5

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Deputy Fire Commissioner Hannon, Superintendent Reville.. 7

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1339-24-S)

WHEREAS, Anna Riscili, owner, filed, November 12, 1924, a petition, for variation from the requirements of the labor law, as cited in a decision of the Department of Health, affecting premises 444 East 13th street, Manhattan; and

WHEREAS, the decision of the Department of Health, dated September 23, 1924, reads:

"At a meeting of the Board of Health of the Department of Health of The City of New York held Sept. 23, 1924, your application for a permit to sanitary certificate for a cellar bakery at 444 East 13th street, Manhattan, was denied."

and

WHEREAS, the building is non-fireproof, six stories and basement in height, 24.3 ft. by 90.3 ft. in area. OCCUPIED: Cellar, bakery; upper stories occupied as dwellings. The height of the bakery from floor to ceiling being 8 feet; the ceiling being at the curb level and the floor is at the same level as the side court; the means of ventilation consisting of one window opening to the side court and one to front area, also two ventilating flues; and

WHEREAS, petitioner contends that the bakery has been continuously used since 1906 and is in use at the present time, that the owner, through ignorance, did not take advantage of the exemption law in 1913, and requests a permit so as to continue the use of bakery.

Resolved, that the decision of the commissioner of the Department of Health be and it hereby is *affirmed* and the petition be and it hereby is *denied*.

1311-24-S.

PETITIONER—Samuel Cohen, for Charles Geoly, owner. SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—108 West 46th street, Manhattan.

APPEARANCES—

For Petitioner: A. L. Liebman, Charles Geoly.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Reville, Kleinert, Moore and McDermott 9

Negative 0

Absent: Mr. Dowd, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

MINUTES

THE RESOLUTION:

(1311-24-S)

WHEREAS, Samuel Cohen, for Charles Geoly, owner, filed, November 7, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 108 West 46th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 53766-LD, dated January 19, 1924, reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, as per Section 273 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 100 ft. in area at 1st story; 20 ft. by 90 ft. in area at 2nd story; 20 ft. by 50 ft. on 3rd and 4th story; and 20 ft. by 40 ft. in area at top story. OCCUPIED: Offices and tenant factory, 24 persons above 1st story. EXITS: An interior stairway extending from 1st story to 5th story, enclosed in fireproof partitions with fireproof doors at openings. A party fire escape on the rear of the building extending from 5th story to yard with EGRESS from the termination of fire escape by re-entering building No. 16 West 46th street; and

WHEREAS, petitioner contends he is the owner of both buildings No. 106 and 108 West 46th street, that the rear party fire escapes are accessible to either building and egress to street may be had through either building from the termination of rear fire escapes; he claims the exits are adequate and requests to be relieved of the order to provide a fireproof passageway from termination of rear fire escapes.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that egress from yard level shall be maintained through buildings No. 106 and 108, both premises in the one ownership, and that the labor law requirements shall be complied with in all other respects, and *granted* only so long as conditions as to occupancy and use otherwise remain substantially unchanged.

1077-24-S.

PETITIONER—Chas. Hvass & Co., Inc., lessee.

SUBJECT—Variation from requirements of labor law as cited in an order of fire commissioner.

PREMISES AFFECTED—509-11 East 18th street and 508-20 East 19th street, Manhattan.

APPEARANCES—

For Petitioner: B. C. Hvass.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott

Negative

Absent: Mr. Dowd, Fire Chief Kenlon and

Deputy Fire Commissioner Hannon

THE RESOLUTION:

(1077-24-S)

WHEREAS, Charles Hvass & Co., Inc., for Estate of Wm. Bozenhardt and Charles Hvass, owner, filed, August 27, 1924, a petition, with the board of standards and appeals for variation from the requirements of the labor law as cited in decision of fire commissioner, affecting premises 509-511 East 18th street, 508-20 East 19th street, Manhattan; and

WHEREAS, the decision of the fire commissioner reads:

"1. Arrange the fire escape on the north side of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of section 273 and 274 of the labor law and the rules of the Board of Standards and Appeals.

"NOTE: Among the defects noted on this fire escape are the following:

"No stairway from the lowest balcony to the ground.

"No safe passageway to street from the termination.";

and

WHEREAS, the premises consist of two non-fireproof four story buildings, 50 ft. by 92 ft. in total area, No. 509 having a one story extension to rear, OCCUPIED as an iron works, seven persons above the 1st story. EXITS: A wooden stairway in each building extending from the 1st story to the roof, enclosed in wooden partitions with wooden doors at the openings, a fire escape on the side of No. 509 extending from the top story to the roof of the 2nd story extension of No. 511 and also, a stairway on the rear of No. 509 extending from top story to platform on roof of 1st story extension; and

WHEREAS, petitioner proposed to provide an iron ladder from the roof of the 2nd story extension of No. 511 to the roof of the 1st story extension, with a metal platform on extension roof, to balcony of fire escape in the rear of No. 509 and to continue the proposed platform across the roof of the one story extension of No. 509 to premises to rear—thence through stairway to street.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a slatted iron platform shall be provided at the level of the 1st story roof, supported independent of the roof extending from east fire escape to east lot line thence running north to 508 E. 19th street with egress down stairway to street; that a casement sash shall be provided on the top story balcony of said fire escape in substitution of the existing double hung window; that 60 degree iron stairways shall be provided from roof of 1st story extension to platform at 2nd story extension roof level and to 4th story balcony and *granted* only so long as conditions as to occupancy and use remain substantially unchanged.

1301-24-S.

PETITIONER—William I. Hohauser, for Longlast Realty Corp., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—202-204 West 28th street and 312 Seventh avenue, Manhattan.

APPEARANCES—

For Petitioner: William I. Hohauser.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott

Negative

Absent: Mr. Dowd and Fire Chief Kenlon.....

THE RESOLUTION:

(1301-24-S)

WHEREAS, William I. Hohauser, for Longlast Realty Corp., owner, filed, November 5, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 202-204 West 28th street and 312 Seventh avenue, Manhattan; and

MINUTES

WHEREAS, the decision of the superintendent of buildings, Alt. App. No. 449-1924, dated October 10, 1924, reads:

"21. These windows should be fireproof automatic with panes not exceeding 720 square inches each—Labor Law—Sections 272-764. A Board of Appeals approval should be filed for proposed change:";

and

WHEREAS, the building is fireproof, 12 stories in height, 40 ft. 4 in. by 61 ft. 4 in. in area; OCCUPIED as follows: 1st story, stores; upper stories, light manufacturing, 45 persons on each story. EQUIPPED with a sprinkler and fire alarm signal system; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories, glazed with plate glass; the maximum area of the glass on the 1st story is 8 ft. by 10 ft.; on the 2nd story 6 ft. by 10 ft. and on the 3rd story 5 ft. by 10 ft.; and

WHEREAS, petitioner contends that to comply with the labor law as to the area of the glass would naturally affect the use intended for the lower three stories.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the three (3) lower stories on condition that all openings shall be provided with metal frames, glazed with polished plate glass, not less than 1/4 in. in thickness, and that the labor law requirements shall be complied with in all other respects.

1335-24-S.

PETITIONER—Samuel Rosenblum, for L. H. Stern, Inc., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—56-60 Pearl street, Brooklyn.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 12

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1335-24-S)

WHEREAS, Samuel Rosenblum, for L. H. Stern, Inc., owner, filed, November 10, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in order of the fire commissioner, affecting premises 56-60 Pearl street, Brooklyn; and

WHEREAS, the order of the fire commissioner reads:

"Enclose both the interior stairways serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides, with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof, constructed as per section 271 of the labor law, or carry out a proper alternative method of complying with the requirements of section 271 of the labor law.

"2. Remove the substandard fire escapes on the east and west sides or reconstruct same as per section 274 of the labor law and rule 3 amended May 9th, 1924;"

and

WHEREAS, the building is non-fireproof, six stories in height, 47 ft. by 75 ft., irregular in area; OCCUPIED on the 1st to 5th story for the manufacture of smoking pipes, and the 6th story for the manufacture of tin boxes, 149 per-

sons above the 1st story; EQUIPPED with a sprinkler system and a fire alarm signal system. EXITS: Two interior wooden stairways, the northerly one extending from the 1st story to the top story and the southwesterly stairway extending from the 1st story to the roof, both stairways enclosed in 4 in. wooden plank partitions with fireproof doors at openings. A straight run fire escape on the Pearl street front of the building extending from the top story to the 2nd story, with drop ladder to street; and also a 60 degree stairway on the Anchorage place front of the building extending from the top story to the 2nd story, with counterbalanced stair to street; windows along course of fire escape are non-fireproof, and roof of adjoining building to the north is five stories lower; and

WHEREAS, petitioner contends in view of the fact that the building is of very substantial character and sprinklered, that the existing means of exit are adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 1 on condition that the enclosure of the stairs shall comply with the requirements of the industrial code by covering the existing partition both sides with 26 gauge metal, and granted only so long as conditions as to use and occupancy remain unchanged; denied as to Item No. 2.

1342-24-S.

PETITIONER—Samuel Rosenblum, for Wm. F. Corwith, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—62-64 Greenpoint avenue, Brooklyn.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville, Moore and McDermott 11

Negative: Superintendent Kleinert 1

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1342-24-S)

WHEREAS, Samuel Rosenblum, for Wm. F. Corwith, owner, filed, November 13, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 62-4 Greenpoint avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated October 24, 1924, reads:

"Order No. 66692-LD:

"1. Arrange the fire escape on the front of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Sections 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law.

"Among the defects noted are the following:

"1. No counterbalanced stairway from lowest balcony to ground. 2. Windows on course not fireproof and self-closing.

"2. Remove the substandard fire escape on the rear of building or reconstruct same as per Section 274 of the Labor Law except that in lieu of a counterbal-

MINUTES

anced stair a drop ladder in guides from the lowest balcony to the ground may be provided, also proper egress to a point of safety shall be provided.

"3. Extend the interior stairway at the east side of building to the roof as per Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, four stories in height, 42 ft. by 95 ft. in area at the 1st story and 42 ft. by 50 ft. in area above. OCCUPIED: 1st story, crockery store, 4 persons; upper stories, mfr. of chairs and davenport, 7 persons above 1st story. EXITS: An interior wooden stairway extending from the 1st story to the top story, with iron ladder to scuttle in roof, partly enclosed in wooden partitions with wooden doors at the openings; a 60 degree fire escape on the front of the building extending from the top story to the 2nd story, with a drop ladder in guides to ground, the windows in the 2nd and 3rd stories along the course of the fire escape are fireproof; a sub-standard fire escape on the rear of the building, extending from the top story to the roof of the 1st story extension, with egress across adjoining one-story extensions; ROOFS of adjoining buildings, to east at same level, to west two stories lower; and

WHEREAS, petitioner proposes to counterweight the scuttle to roof in order to make it readily openable, and contends that in view of the light occupancy and the small area of the building, that the existing means of egress are adequate.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the action of the board of review of the fire department, dated January 14, 1919, shall be ratified, and the petition be and it hereby is *granted* only so far as it affects Items 1 and 3, only so long as conditions as to occupancy and use remain substantially unchanged; *denied* as to Item No. 2.

1343-24-S.

PETITIONER—Samuel Rosenblum, for Max Abrahams, lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—12-14 Greene street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Deputy Fire Commissioner Hannon, Superintendents Brady, Reville and McDermott	10
Negative	0
Absent: Fire Chief Kenlon, Superintendents Kleinert and Moore	3

THE RESOLUTION:

(1343-24-S)

WHEREAS, Samuel Rosenblum, for Max Abrahams, lessee, filed, November 13, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 12-14 Greene street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 3, 1924, in acting on Order No. 65655-LD, reads:

"1. Enclose the interior stairway at the north side of building serving as a required means of exit, and the

landings, platforms and passageways connecting therewith on all sides, with partitions of fire resisting material, extending continuously from the cellar to 3 feet above the roof * * *.

"2. Arrange the fire escape on the front of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of sections 273 and 274 of the Labor Law, * * *.

"NOTE: Among the defects noted are the following: Windows on course not fireproof, self-closing. No counterbalanced stairway from lowest balcony to street.

"3. Extend the interior stairway at the north side of building to the roof, as per Section 271 of the Labor Law, said extension and the landings and passageways connecting therewith to be enclosed on all sides with partitions of fire resisting material extending at least 3 ft. above the roof, as per Sections 271 and 272 of the Labor Law.";

and

WHEREAS, the premises consist of two non-fireproof buildings, each five stories in height, 28 ft. by 100 ft. in area at the 1st story and 28 ft. by 90 ft. in area above; separated into two sections by a fore and aft partition wall with openings protected with double fire doors on each story above the 1st story; OCCUPIED for the manufacture of radio horns, 35 persons above the 1st story in No. 12 and 46 persons above the 1st story in No. 14. EQUIPPED with a fire alarm signal system in No. 14 only. EXITS: An interior wooden stairway in each building, extending from the 1st story to the roof in No. 12 and extending from the 1st story to the top story, with iron ladder to scuttle in roof in No. 14; enclosed in fire-resisting partitions with fire doors at the openings in No. 12; stairway in No. 14 is an open stairway; a fire escape with fireproof windows along the course thereof on the front of building No. 12, extending from roof to balcony at 2nd story, and counterbalanced stair to street, and also a substandard fire escape on the front of building No. 14; ROOFS of adjoining buildings approximately 7 ft. higher; and

WHEREAS, petitioner contends, in view of the horizontal exits, that the existing means of egress are adequate.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 1 *on condition* that the fire-resisting enclosed stairway in building No. 12 shall be maintained accessible from No. 14 on all floors above the 1st story; that all horizontal openings between No. 12 and No. 14 on all floors above the 1st story shall be provided on each side with automatic fire doors; *granted* as to Item No. 2 *on condition* that an approved party wall fire escape shall be provided on the front of the building, with a counterbalanced drop ladder to the street on the north end, in addition to the counterbalanced stairway on the south end; *granted* as to Item No. 3 *on condition* that a 60 degree iron stairway shall be provided from the top story of No. 14 to scuttle in roof; and *granted on the further condition* that No. 12 and No. 14 shall remain in single occupancy above the 1st story and that the present occupancy be not increased.

1417-24-S.

PETITIONER—Frank T. Bassett, Jr., for Self Winding Clock Company, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—161-165 Grand avenue and 205-211 Willoughby avenue, Brooklyn.

APPEARANCES—

For Petitioner: Sidney Madison.

For Administration: Inspector Maher of fire department.

MINUTES

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.
THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,
Dowd, Gunnison, Holland, Deputy Fire
Commissioner Hannon, Superintendents
Brady, Reville and Moore 9
Negative 0
Absent: Mr. Connell, Fire Chief Kenlon, Su-
perintendents Kleinert and McDermott 4

THE RESOLUTION:

(1417-24-S)

WHEREAS, Frank T. Bassett, Jr., for Self Winding Clock Co., owner, filed, December 1, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 161-165 Grand avenue and 205-211 Willoughby avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 67953-LD, dated November 13, 1924, reads:

"1. Arrange iron bars on windows in cellar to east, west, north & south sides of building, so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress as per Section 272 of the Labor Law."

and

WHEREAS, the building is non-fireproof, six stories and basement in height, 95 ft. by 103 ft. in area; OCCUPIED for the manufacture of self-winding clocks, 165 persons in the entire building; 6 persons occupying the basement. EQUIPPED with a sprinkler system and a fire alarm signal system. EXITS from the basement being a fireproof stairway to yard and also a horizontal exit to an adjoining building to the east in the northerly wall; a double hinged door leading to area and iron ladder to street in the westerly wall and hinged bars over the three windows used as exits in the southerly wall; and

WHEREAS, petitioner contends that the windows other than the three exit windows in the basement are 10 ft. above the floor level and are too small to afford ready egress from basement.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the exits as indicated on plans filed in this case shall be maintained, marked with signs and red lights; granted only so long as conditions otherwise remain unchanged.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or department actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.
 The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.
 The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.
 The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.
 1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.
 1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.
 For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.
 Hydrated lime shall not be used in concrete which is to be deposited under water.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.
 The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

ANNUAL REPORT

CITY OF NEW YORK BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, CHAIRMAN

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

OFFICE—Municipal Building, Room 914.

TELEPHONE—Worth 0184.

OFFICE HOURS—9 a. m. to 5 p. m. Saturdays, 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, January 20, 1925.
- Minutes of Special Meeting, Board of Appeals, January 20, 1925.
- Reserve Calendar.
- Annual Report.
- Progress Report.
- Correction.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman of the engineers, pertaining to the work of either board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, January 27, 1925, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 3, 1925, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, January 27, 1925, at 10 o'clock*, in Room 919, Municipal Building, on the following matters:

- CAL. NO. 1181-24-BZ—Application, September 30, 1924, under the building zone resolution, of James Kearney, applicant, on behalf of Leopold Weil and Mayer S. Ames, owners, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1813-1815 Jerome avenue, The Bronx.
- CAL. NO. 1068-24-BZ—Application, August 26, 1924, under the building zone resolution, of John De Hart, applicant, on behalf of Wilaura Holding Corp., owner, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1898 Sedgwick avenue, southeast corner of Burnside avenue, The Bronx.
- CAL. NO. 629-24-BZ—Application, May 6, 1924, under the building zone resolution, of F. W. Rinn, architect, on behalf of Matthew Heine, owner, to permit in a residence district the maintenance of a garage for the storage of two (2) pleasure motor vehicles, two (2) spaces rented to persons not residing on the premises; premises 60 Buchanan place, The Bronx.
- CAL. NO. 287-24-BZ—Application, December 9, 1924, under the building zone resolution, of David G. McConnell, applicant, on behalf of Bayic Realty Co., Inc., owner, previously denied, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 524 Jackson avenue, The Bronx.
- CAL. NO. 1197-23-BZ—Application, December 23, 1924, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Vivadou Realty Co., owner, for a

modification of the resolution granted by the board on December 14, 1923; premises 712-748 Southern boulevard, The Bronx.

- CAL. NO. 354-24-BZ—Application, March 7, 1924, under the building zone resolution, of Thomas F. Cosgrove, applicant, on behalf of Interborough Auto Repair and Supply Co., owner, to permit in a business district the maintenance of a motor vehicle repair shop; premises 306-308 Broadway, West New Brighton, S. I., Richmond.
- CAL. NO. 479-24-BZ—Application, April 3, 1924, under the building zone resolution, of Croker National Fire Prevention Engineering Co., applicant, Gaetano Calandrillo, owner, Petro De Lucca, lessee, to permit in a business district the maintenance of a junk shop; premises 46 Lewis street, Corona, Borough of Queens.
- CAL. NO. 1266-24-BZ—Application, October 24, 1924, under the building zone resolution, of Philip J. Sinnott, applicant, Martha Vanson, owner, Kings County Milk Co., lessee, to permit in a business district the conversion of occupancy of an existing building from a one family and garage for the storage of five (5) motor vehicles to a milk distributing station; premises 5612 18th avenue, Brooklyn.
- CAL. NO. 1345-24-BZ—Application, November 13, 1924, under the building zone resolution, of John De Hart, applicant, on behalf of Estate of Frederick Fischer, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1160-1172 Intervale avenue, southeast corner of East 169th street, The Bronx.
- CAL. NO. 1346-24-BZ—Application, November 14, 1924, under the building zone resolution, of Edward P. Doyle, applicant, on behalf of Louis Blumberg, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side Coney Island avenue, 150.52 ft. south of Avenue T, Brooklyn.
- CAL. NO. 1405-24-BZ—Application, November 26, 1924, under the building zone resolution, of George Fred Pelham, architect, on behalf of Castle Realty Co., owner, to permit in a 1½ times height district the erection of the street wall to a height exceeding the limit required by the zone resolution; premises 442-450 West 31st street, Manhattan.
- CAL. NO. 1398-24-BZ—Application, November 24, 1924, under the building zone resolution, of G. A. & H. Boehm, architects, on behalf of The Harriman Realty and Security Corp., owner, to permit in a business 1¼ times height district the erection of the street wall to a height exceeding the limit required by the zone resolution; premises 523-529 Fifth avenue, southeast corner 44th street, Manhattan.

BOARD OF APPEALS.

SPECIAL MEETING.

Friday, February 27, 1925, at 2 p. m.

Appeal from Administrative Order.

331-24-A—508-534 West 212th street, Manhattan.

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Friday afternoon, February 27, 1925, at 2 o'clock*, in Room 919, Municipal Building, on the following matters:

CAL. NO. 378-24-BZ—Application, March 11, 1924, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Hesu Realty Co., Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1101-1109 Union avenue, The Bronx.

CAL. NO. 136-24-BZ—Application, January 29, 1924, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Max Katz, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 809 Union avenue, The Bronx.

CAL. NO. 811-24-BZ—Application, June 17, 1924, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Hattie W. Ayer, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 495-499 East 171st street, The Bronx.

CAL. NO. 812-24-BZ—Application, June 17, 1924, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Sadie Corn, owner, to permit in a residence district the alteration and extension of a business building which was erected under a previous resolution of the board; premises 101-107 West 188th street and 2451-2457 University avenue, The Bronx.

CAL. NO. 1298-23-BZ—Application, July 8, 1924, under the building zone resolution, of McIntyre & O'Leary, applicants, on behalf of Vincenzo Gargiulo, owner, previously denied, to permit partly in a business and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 3200 Villa avenue, The Bronx.

CAL. NO. 1369-24-BZ—Application, November 19, 1924, under the building zone resolution, of Edward P. Doyle, applicant, on behalf of Ida Van Rooyan, owner, to permit in a business district the change of occupancy from a garage for the storage of five (5) motor vehicles to a garage for the storage of more than five (5) motor vehicles; premises 1038-1040 Lafayette avenue, Brooklyn.

WILLIAM E. WALSH, *Chairman.*

BOARD OF APPEALS.

Tuesday, March 3, 1925, at 10 a. m.

Appeal from Administrative Order.

1446-24-A—63 Fulton street, Manhattan.

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, March 3, 1925, at 10 o'clock*, in Room 919, Municipal Building, on the following matters:

CAL. NO. 675-19-BZ—Application, June 24, 1924, under the building zone resolution, of Szerlip and Szerlip, applicants, on behalf of Otto Heepe, owner, previously denied, to permit in a residence district the maintenance of a garage space in which is rented to persons not residing on the premises; premises 325-327 16th street, Brooklyn.

CAL. NO. 1393-24-BZ—Application, November 24, 1924, under the building zone resolution, of Charles B. Meyers, applicant, on behalf of Ruthie Realty Co., owner, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 246-250 Dyckman street, Manhattan.

WILLIAM E. WALSH, *Chairman.*

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

MINUTES

BOARD OF APPEALS

REGULAR MEETING.

TUESDAY MORNING, JANUARY 20, 1925.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland and Connell	5
Negative	0
Absent: Mr. Kennedy and Fire Chief Kenlon	2

THE RESOLUTION:

(588-24-A)

WHEREAS, Nathaniel Seaman, for Olivett Distributing Co., lessee, filed, April 25, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 250 Hudson street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 23459-LC, dated March 20, 1924, reads:

"1. Provide a separate and distinct system of *Automatic Sprinklers* throughout the building * * *";

and

MINUTES

WHEREAS, the building is non-fireproof, six stories in height, 40 ft. by 73 ft. in area; OCCUPIED for the denaturing of alcohol; the maximum amount of alcohol on the premises being 300 (50-gallon) barrels; 10 persons above the 1st story; and

WHEREAS, appellant contends that there is no open flame on the premises; that the boiler room is enclosed by brick walls, with fireproof door at opening; and that the means of egress are adequate; and

WHEREAS, the inspector of the bureau of fire prevention stated that there was a large quantity of alcohol on the premises.

Resolved, that the appeal be and it hereby is *dismissed* for lack of prosecution.

1323-24-A.

APPELLANT—Cornell Utilities Co., Inc., for Henry Staats, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—2539 Davidson avenue, The Bronx.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,

Gunnison, Connell and Holland..... 5

Negative 0

Absent: Mr. Kennedy and Fire Chief Kenlon 2

THE RESOLUTION:

(1323-24-A)

WHEREAS, Cornell Utilities Co., Inc., for Henry Staats, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 2539 Davidson avenue, The Bronx; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 375-24, dated November 3, 1924, reads:

"1. Auxiliary supply tank shall not be located within 10 ft. of any fire or flame, as per Rule No. 22, Section 5.

"2. Burners must be of a type approved by the Board of Standards and Appeals.

"3. Tank will be tested in presence of a Fire Department Representative and afterwards coated with suitable rust resisting material."

and

WHEREAS, the building is non-fireproof, 2½ stories in height, 27 ft. by 39 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 550-gallon fuel oil tank buried outside the building, a 55-gallon auxiliary tank (located 8 ft. from the burner) and a NoKol Automatic Burner with the necessary valves and piping; and

WHEREAS, appellant contends that inasmuch as the tank is buried and covered with 12 in. of concrete and that the tank and piping were installed under the 1922 fuel oil rules, requests that a sworn affidavit to the fact that the tank has undergone a shop test be accepted; and further contends that otherwise the installation conforms with the fuel oil rules excepting that the burner is not an approved burner, and requests a temporary permit for 90 days.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 1 *on condition* that the door of gas water heater nearest the auxiliary oil tank shall be permanently closed and rigidly fixed; as to Item 2 *on condition* that the rules of the board of standards and appeals shall be complied with and that the door of fire box of

boiler shall be provided with a self-closing device; as to Item 3 *on condition* that certificate of factory test shall be filed with the fire commissioner; and that the fuel oil rules shall be complied with in all other respects.

1324-24-A.

APPELLANT—Cornell Utilities Co., Inc., for Mrs. S. Hess, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—222 Beaumont street, Brooklyn.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,

Gunnison, Connell and Holland..... 5

Negative 0

Absent: Mr. Kennedy and Fire Chief Kenlon 2

THE RESOLUTION:

(1324-24-A)

WHEREAS, Cornell Utilities Co., Inc., for Mrs. S. Hess, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 222 Beaumont street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 842-24, dated October 20, 1924, reads:

"1. Tanks shall preferably be built with dished heads. If Flat heads are used they must be braced as per Rule No. 5.

"2. Tank will be tested in presence of Fire Department Representative and afterwards coated with suitable rust resisting material. Show same on plan.

"3. Piping must be tested in presence of a Fire Department Representative.

"5. Burner must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is non-fireproof, two stories in height, 28 ft. by 36 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 1,000-gallon fuel oil tank buried in accordance with the fuel oil rules, a 55-gallon auxiliary tank and a NoKol Automatic Burner with the necessary valves and piping; and

WHEREAS, appellant contends that inasmuch as the tank is buried and covered with 12 in. of concrete and that the tank and piping were installed under the 1922 fuel oil rules, requests that a sworn affidavit to the fact that the tank has undergone a shop test be accepted; and further contends that otherwise the installation conforms with the fuel oil rules excepting that the burner is not an approved burner, and requests a temporary permit for 90 days.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 1 *on condition* that the tank shall be buried not less than 3 ft. below grade, outside of building, enclosed in 12 in. of cement concrete; as to Items 2, 3 and 5 *on condition* that certificate of factory test shall be filed with the fire commissioner; and that the fuel oil rules shall be complied with in all other respects.

1328-24-A.

APPELLANT—Cornell Utilities Co., Inc., for Hane Brassler, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—125 Buckingham road, Brooklyn.

MINUTES

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of bureau of buildings, fire department.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,

Gunnison, Connell, Holland and Fire

Chief Kenlon 6

Negative 0

Absent: Mr. Kennedy 1

THE RESOLUTION:

(1328-24-A)

WHEREAS, Cornell Utilities Co., Inc., for Hans Brassler, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 125 Buckingham road, Brooklyn; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 29-24, dated October 9, 1924, reads:

"1. Note on plan. Tank will be tested in the presence of Fire Department Representative and afterwards coated with suitable rust resisting material.

"4. Burner must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is frame, 2½ stories in height, 42 ft. by 59 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 700-gallon fuel oil tank, a 55-gallon auxiliary tank and a NoKol Automatic Burner with the necessary valves and piping; and

WHEREAS, appellant contends that inasmuch as the tank is buried and covered with 12 in. of concrete and that the tank and piping were installed under the 1922 fuel oil rules, requests that a sworn affidavit to the fact that the tank has undergone a shop test be accepted; and further contends that otherwise the installation conforms with the fuel oil rules excepting in that the burner is not an approved burner, and requests a temporary permit for 90 days.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 1 *on condition* that certificate of factory test shall be filed with the fire commissioner; that the tank shall be buried below grade, located outside of building, enclosed in 12 in. of cement concrete; as to Item 4 *on condition* that door of fire box shall be equipped with self-closing device; and that the fuel oil rules shall be complied with in all other respects.

1331-24-A.

APPELLANT—William F. Doyle, for Francis Devlin, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—393 Fourth avenue, Brooklyn.

APPEARANCES—

For Appellant: William F. Doyle.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,

Gunnison, Connell, Holland and Fire

Chief Kenlon 6

Negative 0

Absent: Mr. Kennedy 1

THE RESOLUTION:

(1331-24-A)

WHEREAS, William F. Doyle, for Francis Devlin, owner, filed, November 10, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 393 Fourth avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 81919-LC, dated August 4, 1923, reads:

"1. Discontinue the maintenance of Motor Vehicle Repair Shop on these premises.";

and

WHEREAS, the building, located in a business street, is non-fireproof, one story in height, 25 ft. by 97 ft. 10 in. in area; OCCUPIED for the sale and placing on of rubber tires for motor vehicles; and

WHEREAS, appellant contends that the premises are not used as a motor vehicle repair shop, but for the sale of rubber tires and placing of the same in motor vehicles.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the occupancy shall be restricted to present use and work conducted on premises, namely, placing and replacing of automobile tires only.

1347-24-A.

APPELLANT: John Marsa, for 656 West 177th Street Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—445-451 West 167th street, Manhattan.

APPEARANCES—

For Appellant: L. B. Angelo.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,

Gunnison, Connell, Holland and Fire

Chief Kenlon 6

Negative 0

Absent: Mr. Kennedy 1

THE RESOLUTION:

(1347-24-A)

WHEREAS, John Marsa, for 656 West 177th Street Corp., owner, filed, November 14, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 445-51 West 167th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 26170-LC, dated October 25, 1924, reads:

"3. Provide automatic sliding rolling iron shutters from ceiling with fusible links on 1st story at foot of ramp leading to second story and leading to garage, first story, as per approved plan 729-1924.";

and

WHEREAS, the building is non-fireproof, two stories and basement in height, 164 ft. by 121 ft. (irregular) in area; OCCUPIED as a public garage; and

WHEREAS, appellant, in lieu of installing rolling iron shutters, proposes to provide a kalameined door at top of ramp leading to 1st story and also a kalameined door with fusible link in ramp leading to 2nd story, contending that if the rolling iron shutters were installed there would be insufficient room for an automobile to pass beneath same.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that self-closing fireproof doors, equipped with fusible links shall be installed in the ramps at the 1st and 2nd stories, approximately at floor levels.

1030-24-A.

APPELLANT—E. A. Lee, for Durant Motor Cover Co., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—126-128-130 Sixth avenue, Manhattan.

APPEARANCES—

For Appellant: E. A. Lee.

For Administration: Inspector Lynch of fire department.

MINUTES

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,
Gunnison, Connell, Holland and Fire
Chief Kenlon 6
Negative 0
Absent: Mr. Kennedy 1

THE RESOLUTION:

(1030-24-A)

WHEREAS, E. A. Lee, for Haig Realty Corp., Inc., owner, filed, August 13, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 126, 128 and 130 Sixth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 18, 1924, reads:

"Order No. 24585-LC:

"1. All the vertical openings between floors, including stairways, elevators, dumbwaiters, etc., must be enclosed or otherwise protected throughout the building as specified in Articles 8 and 18 of the Building Code.";

and

WHEREAS, the building is non-fireproof, six stories in height, 65 ft. by 78 ft. in area, the stair enclosure cement plaster on metal lath, metal frames and kalameined doors; passenger elevator and freight elevator openings, 12 in. brick walls with self-closing kalameined doors at openings; OCCUPIED as a tenant factory, appellant occupying the 5th story for the manufacture of automobile tops and slip covers; and

WHEREAS, appellant contends that the maximum amount of celluloid is 40 pounds, all material not in actual use is stored in approved metal cabinet, vented to the outer air; that all scraps and clippings are immediately immersed in water; and that any change of address or removal would work a great hardship.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the celluloid maintained on the premises shall be restricted to sheet celluloid, not exceeding 25 pounds, stored in a double-walled metal cabinet, vented to outer air and located on 5th story.

1275-24-A.

APPELLANT—Crocker National Fire Prevention Engineering Co., for S. Kaplan & Co., Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—64-68 Fulton street, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,
Gunnison, Connell, Holland and Fire
Chief Kenlon 6
Negative 0
Absent: Mr. Kennedy 1

THE RESOLUTION:

(1275-24-A)

WHEREAS, Crocker Natl. Fire Prev. Eng. Co., for S. Kaplan & Co., Inc., owner, filed, October 28, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 64-68 Fulton street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 62425-F, dated July 28, 1924, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at east and south sides of building, or other approved protection, as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances.";

and

WHEREAS, the building is fireproof, 11 stories in height, 59 ft. by 79 ft. in area; OCCUPIED as offices and light manufacturing, mostly jewelry, averaging 30 persons per story; EQUIPPED with a standpipe system; and

WHEREAS, there are five windows in the southerly wall on each story above the 6th story within 50 ft. of a neighboring roof to the south and also other windows in this wall which are within 30 ft. of an opening at the 5th story of the building to the south and there are two windows in the east wall on 2nd to 4th story, inclusive, and also eight windows on the 5th to 9th stories, inclusive, above the main roof and extension roof of a building to the east; and

WHEREAS, appellant contends that the building which constitutes the exposure to the south is fireproof and also sprinklered and that the hazard therefrom is practically negligible; and in regard to the exposure to the east, proposes to provide fireproof windows in the easterly wall along the stairhall of the premises in question.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all windows in the stairhall in easterly gable wall shall be equipped with approved fireproof windows; and *granted* so long as occupancy of adjoining building remains substantially unchanged, and that the use and occupancy of this building remain substantially unchanged.

BUILDING ZONE CASES.

378-24-BZ.

APPLICANT—John J. Dunnigan, for Hesu Realty Co., Inc., owner.

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Connell and Fire

Chief Kenlon 6

Negative 0

Absent: Mr. Kennedy 1

MINUTES

THE RESOLUTION:

(1190-24-BZ)

WHEREAS, Nathan Shapiro, for Libland Realty Co., Inc., owner, filed, October 2, 1924, an application, under the building zone resolution, to permit the maintenance and use of an extension (located in a business district) of an existing garage, in an unrestricted district, for the storage of more than five motor vehicles; premises 352 Shepherd avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 20, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Shepherd avenue is an unrestricted district to within 100 ft. of Glenmore avenue; and Glenmore avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 11, 1924, in acting on Application No. 18034-1924, reads:

"1. Extension of public garage into a business district contrary to Art. II, Sect. 4, Zoning Resolution.";

and
WHEREAS, the building is of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 100 ft.; occupied as a garage for more than five motor vehicles, a portion 15 ft. in width now unoccupied extending into the business district; it is proposed to use this portion also for garage purposes; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act, and a permit to erect the structure having been issued by the building superintendent.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the store use shall be maintained in the corner of this structure within the business district, covering an area not less than 14 ft. by 19 ft. 6 in.; that the southerly gable wall and the rear wall shall be unpierced throughout their entire height and length; that there shall be no vehicular exit or entrance within the business area of the property; that all necessary permits for the prosecution of the work shall be obtained within thirty days and the work completed within sixty days from the date of this action.

1270-24-BZ.

APPLICANT—Jacob B. Lindner, for Bertha J. Lindner, owner.

SUBJECT—Application re: decision of superintendent of buildings) to permit in an "E" area district the erection and maintenance of a private garage on the street line of the lot, instead of setting back ten (10) feet as required by the zone resolution.

PREMISES AFFECTED—801 Avenue P, Brooklyn.

APPEARANCES—

For Applicant: Jacob B. Lindner.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Kennedy 1

THE RESOLUTION:

(1270-24-BZ)

WHEREAS, Jacob Lindner, for Bertha Lindner, owner, filed, October 27, 1924, an application, under the building zone

resolution, to permit in an "E" area district the maintenance of a private garage located on the street line of the lot instead of setting back ten (10) feet as required by the zone resolution; premises 801 Avenue P, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 20, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building zone resolution show that East 8th street and Avenue P are residence and "E" area districts; and

WHEREAS, the decision of the superintendent of buildings, rendered July 22, 1924, reads:

"Your request for re-denial of revocation of permit 2166-24 for a private garage, premises 801 Ave. P on account of violating the 10 ft. set back required in E Zone districts in order to make your appeal to the Board of Appeals within the prescribed time, is hereby granted as of today's date, July 22, 1924.";

and

WHEREAS, the building is of non-fireproof construction, one story in height, with a frontage of 18 ft. and a depth of 18 ft.; located at front of lot, occupied as a private garage for two pleasure motor vehicles; and

WHEREAS, the building was constructed in accordance with plans filed and approved by the superintendent of buildings and there would be hardship in compelling applicant to remove his building.

Resolved, that the board of appeals does hereby *make a variation* in the application of the area district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that all necessary permits be obtained within thirty days from the date of this action; and that the garage use be restricted and maintained exclusively as accessory private use of the occupants of the dwelling on the same property.

1312-24-BZ.

APPLICANT—Euell & Euell, for Ignazio E. Cavalluzzo, owner.

SUBJECT—Application (re: Decision of superintendent of buildings) to permit in a business district extending from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—1291 Inwood avenue and 1300 Cromwell avenue, The Bronx.

APPEARANCES—

For Applicant: George R. Euell.

For Opposition: None.

THE RESOLUTION:

(1312-24-BZ)

WHEREAS, Euell & Euell, for Ignazio Cavalluzzo, owner, filed, November 7, 1924, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 1291 Inwood avenue and 1300 Cromwell avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 20, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Cromwell avenue to a point

MINUTES

100 ft. north of West 169th street is a business district; Cromwell avenue north to a point 100 ft. north of West 169th street is an unrestricted district and West 169th street is a business district and Inwood avenue to a point 100 ft. north of West 169th street is a business district and Inwood avenue north of a point 100 ft. north of West 169th street is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 27, 1924, in acting on N. B. Application No. 2786, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in unrestricted district extending into business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 56.75 ft. on Cromwell avenue, 50 ft. on Inwood avenue and a depth of 97 ft.; to be occupied as a garage for more than five motor vehicles, a portion 15.2 ft. in width extending into the business district; and

WHEREAS, under the provisions of section 7, subdivision B, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the southerly gable wall be unpierced throughout its entire height and length; that there be no vehicular exit or entrance within the business area of the plot; and that all permits necessary for the prosecution of the work be obtained within nine months and the building completed within eighteen months from the date of this action.

422-24-BZ.

APPLICANT—Chester Baffa, attorney, for John Weidman and Katie Weidman, owners.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of four (4) pleasure motor vehicles, three (3) spaces rented to persons not residing on the premises.

PREMISES AFFECTED—10139 118th street, Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: Chester Baffa.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland and Connell..... 5

Negative 0

Absent: Mr. Kennedy and Fire Chief Kenlon 2

THE RESOLUTION:

(422-24-BZ)

WHEREAS, John Weidman, owner, filed, March 21, 1924, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of four (4) pleasure motor vehicles; three spaces rented to persons not residing on the premises; premises 10139 118th street, Richmond Hill, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 20, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 118th street is a residence district and Jerome avenue and Kimball avenue are business districts; and

WHEREAS, the order of the fire commissioner, dated March 1, 1924, reads:

"Order No. 867671-C:

"2. Discontinue the maintenance of a garage in which are kept motor vehicles that are not the property of persons residing in a dwelling on the same lot.";

and

WHEREAS, the building is of non-fireproof construction, one story in height, with a frontage of 39 ft. and a depth of 18 ft.; occupied as a four-car garage, three spaces rented to persons not residing on premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 92 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby make a variation in the application of the uses district regulation of the building zone resolution, and that the application be and it hereby is granted on condition that the capacity of the garage be limited to four automobiles of the pleasure car type, space for three of which may be rented to persons not residing on the premises; that no gasoline storage equipment shall be installed on the premises; that the rear and gable walls shall be unpierced throughout their entire height and length; that there shall be no sign, advertisement, display or lettering of any nature or description maintained on the premises; and that all necessary permits shall be obtained within sixty days from the date of this action.

636-20-BZ.

APPLICANT—Magnuson and Kleinert, for Constant Motor Service Corp., owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a business district the erection of a public garage.

APPEARANCES—

For Applicant: Hugo E. Magnuson.

For Opposition: None.

ACTION OF BOARD—Resolution modified as to subdivision and skylights.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN AND MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(636-20-BZ)

WHEREAS, Ebling, Magnuson & Kleinert, architects, for the Constant Motor Service Corp., owner, filed, September 15, 1920, with the board of appeals, an application under the building zone resolution to permit in a business district the erection of a garage for more than five motor vehicles; premises 437-483 66th street and 6502-20 Fifth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 4, 1921, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that the premises are located in a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 1, 1920, in acting on N. B. 10722-20, reads:

"Proposition contrary to Article II, Section 4, of the Zone Resolution. Denied.";

and

MINUTES

WHEREAS, it is proposed to erect a series of buildings of non-fireproof construction, one story in height, on a plot 164 ft. by 392 ft. 2 in. in area, arranged in groups of individual garages inside a fence; and

WHEREAS, the applicant has filed the duly acknowledged consents of all the property owners except the City of New York within the area deemed affected and has filed a statement from the park commissioner that he has no objection to the erection of said garage; and

WHEREAS, this application was granted by the board at its meeting, January 4, 1921, on certain conditions, and applicant requested a modification of the resolution as to partition separating portions of the garages and as to skylights.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that every five cars shall be housed in a separate compartment, separated from each other by a partition built of angle iron, with metal lath and cement mortar, or of 4 in. cement or terra cotta blocks, with a 4 ft. by 6 ft. skylight over each five-car

compartment, glazed with sheet glass and wire screened above and below; that each group of ten of such enclosures shall be enclosed by an 8 in. brick or 8 in. hollow tile wall, which shall be carried up as a parapet above the roof, and properly coped; that the frontage on Fifth avenue shall be confined to stores with fronts ornamental in design and sash and doors glazed with plate glass; that the brick wall on the Parkway front shall be constructed of tapestry brick with stone trim and to be of ornamental design; that any gas selling station shall be within the building lines and not on the roadway in front of the premises; that a 2½-in. pipe connected with the city main by a 2-in. tap shall be carried the length of the plot with outlets for hose connections not over 100 ft. apart, controlled by the necessary valves and with 50 ft. lengths of hose at each outlet; and that on completion of the structure the architect-appellant shall certify that the conditions as above laid down have been observed in spirit as well as the letter.

Absent: Mr. Dowd 1

THE RESOLUTION:

(1178-24-A)

WHEREAS, James Picker, Inc., for Picker Service Bldg. Corp., owner, filed, September 29, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 686 Lexington avenue Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 10, 1924, reads:

"1. Provide a separate and distinct system of *Automatic Sprinklers* throughout building having at least two sources of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919.

"2. Provide an approved fireproof vault constructed as prescribed by Sec. 232-3, Chapter 10, Code of Ordinances, for the storage of nitro-cellulose products. Sec. 232, Ch. 10, Code of Ord.";

and

WHEREAS, the building is non-fireproof, five stories in height, 33 ft. 4 in. by 85 ft. in area; OCCUPIED as a business building, 15 persons per story; appellant occupying basement and 3rd story for the sale of X-ray film and apparatus; and

WHEREAS, appellant contends that the X-ray film, having a nitro-cellulose base is being replaced by a "safety" film; that as quickly as possible the substitution will be made; meanwhile it is necessary to store 750 pounds of celluloid base films in their original packages, and appellant proposes to provide for the storage of same a fireproof vault, located outside the building line, in the basement of the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, *on condition* that a vault of approved masonry, as indicated on plans filed in this appeal, equipped with one jumbo sprinkler head, supplied from the street main, shall be erected in the rear yard; any opening in vault shall be equipped with self-closing fireproof door; that vault shall be vented to outer air by metal duct, extending above roof of main building; that not more than 750 pounds of celluloid photographic film shall be stored on these premises, for a temporary period of six months from the date of this action; and *granted* as to Item 2, *on condition* that the above stipulations shall be complied with.

1179-24-A.

APPELLANT—Underwood and Underwood, for Bonwit Teller Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—417 Fifth avenue, Manhattan.

APPEARANCES—

For Appellant: Clarence P. Moses.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Dowd 1

THE RESOLUTION:

(1179-24-A)

WHEREAS, Underwood & Underwood, for Bonwit Teller & Co., lessee, filed, September 29, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 417 Fifth avenue; and

WHEREAS, the order of the fire commissioner, No. 25463-LC, dated September 9, 1924, reads:

"1. Provide a fireproof vault, constructed, vented and sprinklered as prescribed by Sec. 232, Sub-division 3, Chapter 10 of Article 19 of the Code of Ordinances for the storage of negative and raw stock of nitro-cellulose film.";

and

WHEREAS, the building is fireproof, ten stories in height, 95 ft. by 180 ft. in area. OCCUPIED: 1st to 4th stories, department store; 5th to 10th stories, tenant factory; 11th story, photographer; and

WHEREAS, appellant proposes to entirely substitute as quickly as practicable "safety film" instead of the nitro-cellulose base film now in use and, meanwhile, requests permission to store 250 pounds of celluloid base film in a metal fireproof cabinet.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of photographic film stored on premises shall not exceed 100 pounds, maintained in a double-walled metal cabinet, vented to the outer air; and *granted* for a temporary period not exceeding six months from the date of this action.

1243-24-A.

APPELLANT—Cornell Utilities Co., for A. F. Dickson, owner.

SUBJECT—Appeal from order of fire commissioner.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Dowd 1

THE RESOLUTION:

(1243-24-A)

WHEREAS, Cornell Utilities Co., for A. F. Dickson, owner, filed, October 18, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 187 Beach 146th street, Neponsit, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, rendered December 30, 1924, in acting on Alteration Application No. 2650-24, reads:

"3. Note on tank drawing, tank will be tested in the presence of a Fire Department representative and

MINUTES

afterwards coated with a suitable rust resisting material.

"6. Note on plan: 'Piping will be tested in presence of a Fire Department Representative.'

"9. Burners must be of a type approved by the Board of Standards and Appeals.";

and
WHEREAS, the building is frame and stucco, 2½ stories in height, 33 ft. by 30 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a NoKol Automatic Burner, a 550-gallon fuel oil tank and a 55-gallon auxiliary tank; and

WHEREAS, appellant contends that the tank was installed under the fuel oil rules of 1922, and requests the acceptance of an affidavit that the tank has undergone a shop test, and further contends that otherwise the installation conforms with the fuel oil rules, excepting that the burner is not an approved burner.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 3 *on condition* that certificate of factory test shall be filed with the fire commissioner; that the tank shall be located outside of the building, buried below grade and enclosed in 12 in. of concrete; as to Item 6 *on condition* that standard wrought iron pipe shall be used throughout the fuel oil burning installation; as to Item 9 *on condition* that door of fire box of boiler shall be equipped with self-closing device; and that the fuel oil rules shall be complied with in all other respects.

BUILDING ZONE CASES.

996-24-BZ.

APPLICANT—William F. Doyle, for Walton Whyte Realty Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—East side Jerome avenue, 176.66 ft. north of E. Burnside avenue, The Bronx.

For Opposition: None.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell	6
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(1032-24-BZ)

WHEREAS, Emil Guterman, for Mattie Orlando, owner, filed, September 14, 1924, an application, under the building zone resolution, to permit in a residence district the maintenance of two garages for the storage of four pleasure cars, three spaces rented to persons not residing on the premises; premises 344 Webster avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 20, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Webster avenue and First avenue are residence districts and Coney Island avenue is a business district; and

WHEREAS, the order of the fire commissioner, dated September 10, 1924, reads:

"Order No. 82464-LC:

"Discontinue the maintenance of garage on these premises in which is kept motor vehicles that are not the property of persons residing on the same lot.";

and

WHEREAS, the premises consist of a plot of ground on which is located a two-story frame dwelling at the front and two one-story two-car non-fireproof garages, each 20 ft. by 20 ft., at the rear; it is proposed to rent three spaces for the storage of pleasure motor vehicles to persons not residing on the premises; and

WHEREAS, applicant failed to substantiate the basis of his application under section 20.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1168-24-BZ.

APPLICANT—John De Hart, for Green, Matthews, Taylor Co., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the alteration and extension of a building to be used as a garage for the storage of more than five (5) motor vehicles and motor repair shop.

THE RESOLUTION:

(993-24-BZ)

WHEREAS, Edward P. Doyle, for James Flanagan and F. H. Heaney, owners, filed, August 1, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1714-24 Eleventh avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 20, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Eleventh avenue is a business district and 18th street and Terrace place are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 18, 1924, in acting on Application No. 26411-24, reads:

"Proposition contrary to the Zone Resolution, Art. ... Sec. 4. The erection of a public garage for more than five motor vehicles in a business district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100

ft. and a depth of 100 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

Cal. No. 993-24-BZ.

Premises 1714-1724 Eleventh Avenue, Brooklyn.

December 29th, 1924.

On December 26th, 1924, a committee of the Board consisting of Chairman Walsh, Fire Chief Kenlon, Messrs. Holland, Connell and Dowd made an inspection of the premises 1714-1724 Eleventh Avenue, Brooklyn.

This appeal is brought under sections 7-E and 20 and seeks to obtain a permit for a public garage on the northwest corner of 11th Avenue and 18th Street, a plot 100 ft. by 100 ft. in area.

There is a substantial grade to 11th Avenue, which on 18th Street may be characterized as the brow of this hill, overlooking the neighborhood north and south. On the southwest corner of 18th Street and 11th Avenue there is in existence a one story stucco finished garage; to the rear on 18th Street a row of frame sheds or sheds, occupied in one instance as a factory, a one story stable and a storage shed. The property to the rear of proposed garage, 100 ft. square on 18th Street, is now vacant. Directly to the north on 11th Avenue there is a vacant plot 100 ft. by 200 ft. and the entire 11th Avenue street front opposite is vacant. 18th Street, west of 11th Avenue is now substantially developed and improved with attractive two story modern dwellings, the block below to the north on 11th Avenue, opposite the 11th Avenue front of existing laundry, there exist attractive two story private dwellings finished in lime stone facades.

There is no basis of appeal under section 7-e because of the garage on the southerly side of 18th Street, fronting on 11th Avenue, as that does not lie between the intersecting streets, 17th and 18th. As to the consideration under section 20, under the general application—

"equally well accomplished means so accomplished for the benefit of the community and not for the benefit of the applicant"

it appears to the committee contravenes any argument on this score.

The committee, believing that the affirmative consideration of the appeal under hardship would carry with it the same privilege to the owners of the adjacent vacant properties of extensive area, therefore committing the entire street front to prohibitive uses, unwarranted by circumstances or surroundings, and the committee therefore recommends *denial* of this application.

(Signed) WILLIAM E. WALSH,
JAMES P. HOLLAND,
JOHN DOWD,
JOHN KENLON,
HENRY L. CONNELL.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

942-24-BZ.

APPLICANT—A. I. Nova, for John C. Cochran, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—425-427 Coney Island avenue, Brooklyn.

APPEARANCES—

For Applicant: A. I. Nova.

For Opposition: Peter B. Hanson.

THE RESOLUTION:

(942-24-BZ)

WHEREAS, A. I. Nova, for John C. Cochran, owner, filed, July 17, 1924, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 425-447 Coney Island avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, January 20, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that the east side of Coney Island avenue is a business district and the west side of Coney Island avenue is an unrestricted district and East 10th street is a residence district and Church avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 27, 1924, in acting on Application No. 13334-24, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 3 and 4. A public garage for more than five motor vehicles in a business district and into a residential district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 200 ft. and a depth of 90 ft. 5 $\frac{3}{8}$ in. and 103 ft. 2 $\frac{1}{4}$ in., irregular in area; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

Cal. No. 942-24-BZ.

Premises 425-7 Coney Island Avenue, Brooklyn.

December 29th, 1924.

On December 26th, 1924, a committee of the Board, consisting of Chairman Walsh, Fire Chief Kenlon, Messrs. Holland, Connell and Dowd, made an inspection of the premises 425-427 Coney Island Avenue, Brooklyn.

This appeal is brought under sections 7-e and 20 and seeks to obtain a permit for a public garage on the east side of Coney Island Avenue between Church and Caton Avenues.

The westerly side of Caton Avenue, between Church and Caton Avenues is now invaded with public garages of substantial area and also business buildings in the nature of stores on the ground floors with dwellings, evidently, above. However, the westerly side of Coney Island Avenue for a distance of 100 ft. north from Church Avenue and 100 ft. south from Caton Avenue is designated on the zone maps as unrestricted area; the easterly side of Coney Island Avenue, other than than plot embraced in this appeal, is fronted with small garages, accessory to the private dwellings on East 10th Street. These private garages of one story height, do

not, by design, finish or construction, indicate or maintain the business influence or character of the Coney Island Avenue front. On East 10th Street, south of the proposed plot, there is in existence three small garages.

The committee believes that the erection of a public garage fronting on Coney Island Avenue, restricted to one story in height, certainly cannot be held to be inappropriate to the Coney Island Avenue front in view of the conditions as described above, and believe that substantial justice and equities would be maintained by permitting this garage of but one story height, attractively finished with architectural embellishment on the East 10th Street elevation, in harmony with the finish and design of the dwellings on this street and set back to the line of existing street walls of the dwelling; that there shall be no doorways of any nature, kind or description and the windows to be of substantial height above grade, which would give and maintain to the people on the easterly side of East 10th Street an exceptional breadth of sunlight which they would be deprived of by the erection of a business structure of four or five stories on Coney Island Avenue.

The committee, therefore, believes this to be an equitable and reasonable use of the property embraced in this appeal and recommends the granting of this variation with substantial restrictions as to commercial display on East 10th Street and as to architectural treatment of same, a return to be made to the Board for approval of the proposed design substantially in accordance with the foregoing outline.

(Signed) WILLIAM E. WALSH,
JAMES P. HOLLAND,
JOHN DOWD, dissenting,
JOHN KENLON,
HENRY L. CONNELL.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be restricted to a structure one story in height above grade; that the gable walls shall be unpierced throughout their entire height and length; that the exterior of the street walls on East 10th street shall be finished in face brick laid up in white mortar joints with flemish bond; that any openings in the 10th street wall shall be restricted to windows, glazed with translucent glass, the sills to be not less than 5 ft. 6 in. above grade, that the front elevation on Coney Island avenue shall be finished in a like manner as to material and design; that no signs of any nature or description shall be erected or maintained on any part of the roof; that no signs of any nature or description shall be maintained on any part of the street front of the building on East 10th street; and that the face of the street wall on East 10th street shall be set back from the building line on a line with the street walls of the 1st story of the dwellings abutting to the north; that any gasoline storage equipment installed shall be located approximately at the center of the structure on the Coney Island avenue front of the building; that no skylights shall be installed within 15 ft. of the 10th street front of the building and shall be glazed with plain glass, protected with wire guards above and below; that the architect shall make a return of the design of the elevations in accordance with the foregoing stipulations to this board for approval before submitting to building bureau.

Resolved, further, all permits necessary for the prosecution of the work shall be obtained within nine (9) months and the building completed within eighteen (18) months from the date of this action.

Adjourned 6 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

ANNUAL REPORT

CITY OF NEW YORK BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, CHAIRMAN
MUNICIPAL BUILDING

January 20, 1925.

HON. JOHN F. HYLAN,
Mayor, New York City.

Sir:—I have the honor to submit for your information the annual report of the Board of Appeals and Board of Standards and Appeals, combined, for the year ending December 31, 1924, which is set forth as follows:

CASES FILED AND PENDING, 1924.

FOURTH QUARTER.

Appeals from Administrative Orders	141
Applications under Building Zone Resolution	110
Petitions for Variation of Labor Law	81
Petitions for Approval of Appliances and Materials	23
Petitions for Adoption of Rules	0
Reopened and Restored to Calendar	20
Miscellaneous Docket	59
Cases filed, restored, etc., 4th Quarter	434
Cases filed, restored, etc., 3rd Quarter	420
Cases filed, restored, etc., 2nd Quarter	546
Cases filed, restored, etc., 1st Quarter	555
Cases pending December 31, 1923	627
Total Cases filed and pending up to and including December 31, 1924	2582

SUMMARY.

DOCKET.

Cases pending December 31, 1923	627
Cases filed up to and including December 31, 1924	1540

*CORRECTION.

The minutes of the meeting of the board of standards and appeals, held Tuesday afternoon, December 30, 1924, as they appeared in Bulletin No. 1, Vol. X, are hereby corrected to read as follows:

1238-24-S.

PETITIONER—Sugarman, Hess and Berger, for Two-L Realty Co., Inc., owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—243-245 West 30th street, Manhattan.

APPEARANCES—

For Petitioner: Edward Levey.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott

Negative

Absent: Mr. Dowd, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Kleinert

THE RESOLUTION:

(1238-24-S)

WHEREAS, Sugarman, Hess & Berger, for Two-L Realty Co., Inc., owner, filed, October 17, 1924, a petition, with

*Correction—Word "fire commissioner" in lines 3, 27 and 29 changed to "superintendent of buildings."

the board of standards and appeals, for a variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 243-5 West 30th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 60-1924, dated September 10, 1924, reads:

"10. Size of window panes must conform to Section 264, of Labor Law.;"

and

WHEREAS, the building is fireproof, 12 stories in height, 37 ft. 6¾ in. by 98 ft. 9 in. in area; OCCUPIED as stores and tenant factory, 35 persons in the basement, 40 persons on the 1st story, 20 persons mezzanine, and 70 persons per story above; EQUIPPED with a sprinkler system and fire alarm signal system; MEANS OF EGRESS consisting of an interior fireproof stairway and a fire tower. There are windows in the 1st and 2nd stories, the glass area of which exceeds 720 square inches; and

WHEREAS, petitioner contends that the windows are used for showroom purposes and that the building will comply with the labor law in all other respects.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the two (2) lower stories on condition that all openings shall be equipped with approved metal frames, glazed with polished plate glass not less than ¼ in. in thickness, and that the labor law requirements shall be complied with in all other respects.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.
Call of Clerk's Calendar.
The Trial Calendar.
Notices in Building Zone Cases.
Minutes of Meeting, Board of Appeals, January 27, 1925.
Minutes of Meeting, Board of Standards and Appeals, January 27, 1925.
Correction.
Notice of Amendments to Building Zone Resolution.
Reserve Calendar.
Progress Report.

IMPORTANT NOTICE

AMENDMENTS TO BUILDING ZONE RESOLUTION

Notice is hereby given that the Board of Estimate and Apportionment adopted on October 3, 1924, and amended on January 9, 1925, a Resolution Regulating and Limiting the Height and Bulk of Buildings Hereafter Erected and Regulating and Determining the Area of Yards, Courts and Other Open Spaces, and Regulating and Restricting the Location of Trades and Industries and the Location of Buildings Designed for Specified Uses and Establishing the Boundaries of Districts for the Said Purposes.

See page 130.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, February 3, 1925, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 10, 1925, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday afternoon, February 17, 1925, at 2 o'clock*, in Room 919, Municipal Building, on the following matters:

CAL. NO. 968-24-BZ—Application, July 24, 1924, under the building zone resolution, of Otto Henschel, applicant, on behalf of Michael E. Pellegrino, Nicholas Ciago, Dominick Lambiente and Antonette Salomone, owners, to permit in a residence district the erection and maintenance of buildings to be used for store purposes on first story, residence use above; premises 1922-1926, 1930-1932 Kings highway and 2110 Ocean avenue, Brooklyn.

CAL. NO. 994-24-BZ—Application, August 1, 1924, under the building zone resolution, of Jacob Lubroth, architect, on behalf of Louis Hernstat, owner, to permit in a business district extending from an unrestricted district the erection and maintenance of a poultry slaughter house; premises 2269-71 59th street, Brooklyn.

CAL. NO. 676-24-BZ—Application, May 15, 1924, under the building zone resolution, of John C. Wandell Co., applicant, on behalf of Dahl Bros., owners, to permit in a residence "E" area district the erection and maintenance of buildings nearer than ten (10) feet from the line of the street contrary to section 15 of the

CALENDAR

building zone resolution; premises 7511-15-17-19 and 23 Colonial road, northeast corner of 76th street, Brooklyn.

CAL. NO. 992-24-BZ—Application, August 1, 1924, under the building zone resolution, of Edward P. Doyle, applicant, on behalf of Vincent Scuderi, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises southeast corner of Trimble place and Roosevelt avenue, Woodside, Queens.

CAL. NO. 996-24-BZ—Application, August 1, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of Walton Whyte Realty Corp., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side of Jerome avenue, 176.66 ft. north of East Burnside avenue, The Bronx.

CAL. NO. 1346-24-BZ—Application, November 14, 1924, under the building zone resolution, of Edward P. Doyle, applicant, on behalf of Louis Blumberg, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side Coney Island avenue, 150.52 ft. south of Avenue T, Brooklyn.

CAL. NO. 1204-24-BZ—Application, October 7, 1924, under the building zone resolution, of Charles B. Meyers, architect, on behalf of Stuyvesant Fulton Co., Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1716-1728 Fulton street, Brooklyn.

CAL. NO. 1091-24-BZ—Application, September 2, 1924, under the building zone resolution, of John W. Clancy, applicant, on behalf of Valballe Corporation, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 341 East 184th street, northwest corner of Marion avenue, The Bronx.

CAL. NO. 1271-24-BZ—Application, October 27, 1924, under the building zone resolution, of Joseph McGinnis, applicant, on behalf of Weiman-McGinnis Corp., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2966-72 Jerome avenue, The Bronx.

Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(432-24-A)

WHEREAS, John T. Dooling, for Listoroel Realty Co.,
Inc., owner, filed, March 25, 1924, an appeal, with the board
of appeals, from an order of the fire commissioner, affect-
ing premises 509-17 West street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated Febru-
ary 25, 1924, reads:

"1. Discontinue use of these premises as a storage
garage. REASON: Adjoining place of public as-
sembly.

"2. Remove all gasoline from tanks except that in
fuel tanks of motor vehicles. Section 151-e, Chapter
10, Code of Ordinances.

"3. File plans for garage and have same approved.

"4. Install a standpipe 4 inches in diameter tested
to withstand a pressure of 300 lbs. per square inch,
extending from cellar to roof, with necessary check
valves and 2½ inch regulation Fire Department out-
lets on each story including basements, cellars and
roofs * * *.

"5. Provide fireproof self-closing door at opening
from ramp to garage, 1st story.

"6. Provide covering of fire retarding material in
ceiling of 2nd story within enclosure of stairway near
roof.

"7. Close up interior entrance to boiler room with
fireproof unpierced wall.

"8. Provide 24 approved sand buckets of at least
10 quarts capacity making a total of 48 on each floor.
Buckets to be painted RED and marked FIRE with
letters not less than 2½ inches in height, kept full of
clean sand and not used for any other purpose. Buck-
ets to be placed on permanent shelves, hooks or racks,

same to be not less than 2 feet nor more than 4½ feet
above the floor.

"9. Provide 4 waste cans with self-closing covers
for oil waste and rags making a total of 8 on each
floor. * * *.

"10. Post and keep posted conspicuously on above
premises, signs printed in English and other necessary
languages prohibiting smoking. Section 9, Chapter 10,
Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, two stories (40
ft.) in height, 109 ft. 7½ in. by 131 ft. (approximately
14,000 sq. ft.) in area; OCCUPIED as a garage, 10 per-
sons in each story; and

WHEREAS, appellant contends the property will soon be
taken over by the City of New York as part of the site
of a proposed Terminal Market.

Resolved, that the order of the fire commissioner be and
it hereby is *modified*, and the appeal be and it hereby is
granted on condition that the garage occupancy and use
shall be discontinued and vacated on or before May 1,
1925.

1019-24-A.

APPELLANT—Croker National Fire Prev. Eng. Co.,
for Alexander Lane, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—640 Broadway, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire de-
partment.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,
Dowd, Gunnison, Connell, Holland and Fire
Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(1019-24-A)

WHEREAS, Croker Natl. Fire Prev. Eng. Co., for Alexan-
der Lane, owner, filed, August 11, 1924, an appeal, with
the board of appeals, from an order of the fire commis-
sioner, affecting premises 640 Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner, dated April
17, 1924, reads:•

"1. Arrange the present standpipe system in proper
working order and comply with the following: Among
the defects are: A. Provide 2½ inch outlets at both
east and west sides of building in cellar and sub-
cellar with 75 feet of approved 2½ inch hose at each
outlet. B. Remove present valves and 2 inch pipe to
same and provide standard 2½ inch valves and 2½
inch pipe to same from standpipe outlets, all runs over
4 feet to be 3 inches, on all stories. C. Provide 4
inch cross connection between risers in the cellar.
D. Provide a tank on roof of at least 3500 gallons ca-
pacity for the standpipe system, said tank to be so
elevated that the bottom will be not less than 20 feet
above the roof level. * * *."

and

WHEREAS, the building is fireproof, nine stories in height,
25 ft. by 200 ft. in area. OCCUPIED: Offices and sales-
rooms, 35 persons per story; and

WHEREAS, appellant contends that the present standpipe
equipment was installed in 1896 and consists of a system
with 3 in. risers with a 3 in. cross connection; in re: ob-
jection "A" contends that the cellar and sub-cellar are
protected with sprinklers; in re: objection "B" contends
that there are now 2½ in. outlets with 75 ft. of hose at
each outlet; in re: objection "C" the cross connection be-

MINUTES

tween risers in the cellar is 3 in.; in re: objection "D" contends that there is an 8,000-gallon tank in the pent house on the roof.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that 2½ in. branch lines be provided to the 3 in by 2 in. tees on risers except that all pipe runs over 4 ft. be 3 in., all outlets equipped with 2½ in. valves and hose; that a 3,500-gallon reserve shall be maintained in roof tank for standpipe service; and that the cross connection throughout shall be not less than 4 in.; and *granted* only so long as conditions as to occupancy and use remain substantially unchanged.

1282-24-A.

APPELLANT—King-Parker, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—231-235 East 55th street, Manhattan.

APPEARANCES—

For Appellant: Madison G. Hawke.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Connell, Holland and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Gunnison	1

THE RESOLUTION:

(1282-24-A)

WHEREAS, King-Parker, Inc., owner, filed, October 30, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 231-5 East 55th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 1, 1924, reads:

"You are hereby notified that an inspection of premises 231-5 East 55th Street, Manhattan, used as a non-storage garage, shows that the following must be done before Permit No. 105099, expiring June 26th, 1925, can be transferred:

"1. Separate boiler from remainder of building by unpierced wall of solid masonry at least 8 inches in thickness. Entrance to boiler room to be from exterior of building only. Section 159-1, Chapter 10, Code of Ordinances."

and

WHEREAS, the building is fireproof, seven stories and cellar in height, 50 ft. by 100 ft. in area at 1st story and 50 ft. by 90 ft. in area above. OCCUPIED: Cellar, boiler room; 1st story, office and garage for business motor vehicles; upper stories, furniture storage warehouse, 10 persons in entire building; the boiler room is separated from the remainder of the cellar by a partition with self-closing tin-clad door at the opening therein; and

WHEREAS, appellant contends that there are watchmen on the premises at all times and contends further that to provide an entrance to the boiler room from exterior of the building would entail great hardship, owing to the fact that the material surrounding the building is solid rock.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all vertical and horizontal openings on 1st floor shall be equipped with self-closing fireproof doors; that the boiler room in basement shall be enclosed in not less than 8 in. approved masonry walls, with not more than one opening therein, equipped with a self-closing fireproof door; that the stairs to cellar from 1st story shall be provided with a self-closing fireproof door at top and bottom; that there shall be no gasoline storage equipment maintained on the premises; and that

the garage occupancy shall be restricted to four (4) automobiles, the property of the owner of the premises, used in the conduct of his business thereon and restricted to the 1st story at street grade.

1302-24-A.

APPELLANT—Beekman Street Hospital, owner.

SUBJECT—Appeal from orders of the fire commissioner.

PREMISES AFFECTED—117 Beekman street, Manhattan.

APPEARANCES—

For Appellant: Adolph Mertin.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1302-24-A)

WHEREAS, Beekman Street Hospital, owner, filed, November 5, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 117 Beekman street, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated September 9, 1924, and March 20, 1924, respectively, read:

"No. 25430-LC:

"1. Provide a fireproof vault, located outside of the building, in which to keep all inflammable X-Ray film. Said vault to be constructed, located, ventilated and protected in accordance with plans to be submitted to and approved by the Fire Department."

"No. 56271-LF:

"6. Provide a vent pipe for metal hood over (gas) cooking ranges in kitchen, top floor, this vent pipe to be connected to a proper chimney flue. Sec. 780, Greater New York Charter."

and

WHEREAS, the building is fireproof, seven stories in height, 50 ft. by 75 ft. in area; OCCUPIED as a hospital; a room on the 2nd story being occupied for the storage of X-ray film and a room on the top story occupied as a kitchen; and

WHEREAS, appellant proposes in order to ventilate the hood over the gas cooking range, to provide a copper flue, carry it through the roof immediately above the hood and have it terminate 5 ft. above the roof, and contends that the room used for the storage of X-ray film offers no hazard.

Resolved, that the order of the fire commissioner, No. 25430, be and it hereby is *modified*, and the appeal be and it hereby is *granted* only so far as it affects the storage of X-ray film *on condition* that said storage shall not exceed 10 pounds, maintained in the X-ray room on the 2nd story; that said X-ray room shall be vestibuled on line with wall of elevator shaft, with fireproof partition, the opening therein equipped with (additional) self-closing fireproof door; and that the order shall be complied with in all other respects; that the order of the fire commissioner, No. 56271, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a metal ventilator shall be provided from the top of the kitchen range hood and carried above roof to the outer air not less than 5 ft. above parapet level.

1333-24-A.

APPELLANT—Interborough Rapid Transit Company, owner.

SUBJECT—Appeal from order of fire commissioner.

MINUTES

PREMISES AFFECTED—West side of Eleventh avenue, from 58th street to 59th street, Manhattan.

APPEARANCES—

For Appellant: Frank D. Allen.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION :

(1333-24-A)

WHEREAS, Interborough Rapid Transit Company, owner, filed, November 10, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises west side of Eleventh avenue from 58th to 59th streets, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 21, 1924, reads:

“Order No. 26051-LC:

“1. Isolate garage from the boiler room and the generating plant by unpierced fireproof walls. Sec. 159-1, Ch. 10, Code of Ordinances.”;

and

WHEREAS, the premises are non-fireproof, one story (66 ft.) in height, 200 ft. by 700 ft. in area, divided into two sections by a fore and aft brick wall; the southerly room being approximately 90 ft. in width and the northerly portion approximately 110 ft. in width; near the Eleventh avenue front there is an opening in said wall about 15 ft. square protected by a drop roller metal door; and at the Eleventh avenue front of the building there is an 18 ft. runway being occupied as a parking space for motor vehicles by the Interborough R. T. Power House; and

WHEREAS, appellant contends that the boilers are all located in a pit in the southerly half of the building and are cut off from the northerly half of building by a brick wall with metal doors at the openings therein; that the nearest generator (enclosed in a metal hood) is 27 ft. from the runway used as parking space and that a large number of employees are in attendance at all hours and that they are an added protection against fire hazard.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be no gasoline storage equipment maintained on the premises; that any automobile storage, the property of the owner of the premises, used in the operation of its business, shall be confined to the runway described in the plans on appeal as 18 ft. 6 in. in width.

1309-24-A.

APPELLANT—Mary L. Richardson, owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—8891 Seventeenth avenue, Brooklyn.

APPEARANCES—

For Appellant: Joseph S. Byrne.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Mr. Holland	1
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire Chief Kenlon	6
Absent	0

THE RESOLUTION :

(1309-24-A)

WHEREAS, Mary L. Richardson, owner, filed, November 6, 1924, an appeal, with the board of appeals, from a deci-

sion of the superintendent of buildings, affecting premises 8891 Seventeenth avenue, Borough of Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered October 14, 1924, in acting on Application No. 16535-24, reads:

“Exit halls to fire escapes cannot be omitted. Means of escape in case of fire deemed inadequate. Therefore denied.”;

and

WHEREAS, the building is frame, four stories in height, 210 ft. by 38 ft., irregular in area; OCCUPIED as an hotel, with 16 suites on the 1st story, 25 suites on the 2nd, 25 suites on the 3rd story and 20 suites on the 4th story; and

WHEREAS, an application was filed in the bureau of buildings to permit the erection and construction of four new fire escapes on the east side of the building and the repairing of the existing fire escapes and the extension of them from the roof to the ground with additional corridors leading to these fire escapes; appellant now proposes to omit the additional corridors and to extend the fire escape to take in additional windows; and

WHEREAS, appellant contends that he has complied with a large number of orders of the superintendent of buildings and that the construction of additional corridors would cause loss of income.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

THE RESOLUTION :

(1320-24-A)

WHEREAS, Cornell Utilities Company, Inc., for W. H. Reid, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 32 West 76th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered October 20, 1924, in acting on Alteration Application No. 894-24, reads:

“2. (a) Tank will be tested in presence of a Fire Department Representative and afterwards coated with suitable rust resisting material.

“4. Piping must be tested in presence of a Fire Department Representative.

“5. Burner must be of a type approved by the Board of Standards and Appeals.”;

and

WHEREAS, the building is non-fireproof, four stories in height, 22 ft. by 58 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 675-gallon fuel oil tank buried outside the building, a 55-gallon auxiliary tank and two (2) NoKoi burners with the necessary valves and piping; and

MINUTES

WHEREAS, appellant contends that the system was installed in conformity with the 1922 Rules, and requests the acceptance of a sworn affidavit that the tank has undergone a shop test, and further requests, in lieu of a hydrostatic test, the acceptance of a statement to the effect that all piping is standard wrought iron piping.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 2, *on condition* that certificate of factory test shall be filed with fire commissioner; as to Item 4 *on condition* that standard wrought iron pipe shall be used throughout the fuel oil installation; as to Item 5 *on condition* that door of firebox shall be equipped with a self-closing device; and that the fuel oil rules shall be complied with in all other respects.

THE RESOLUTION:

(1325-24-A)

WHEREAS, Cornell Utilities Co., Inc., for C. F. Kuntz, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 261 East Kingsbridge road, Borough of Bronx; and

WHEREAS, the decision of the fire commissioner, rendered October 29, 1924, in acting on Alt. Application No. 376-24, reads:

"2. (a) Tank will be tested in presence of Fire Department Representative and afterwards coated with suitable rust resisting material.

"4. Piping must be tested in presence of a Fire Department Representative.

"6. Burner must be of a type approved by the Board of Standards and Appeals.

"9. Show auxiliary tank located at least 10 ft. from any fire or flame."

and

WHEREAS, the building is frame, 2½ stories in height, 19 ft. by 48 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system, consisting of a 550-gallon fuel oil tank buried outside the building, a 55-gallon auxiliary tank (located within 6 ft. of the burner), a NoKol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the system was installed in conformity with the 1922 Rules, and requests the acceptance of a sworn affidavit that the tank has undergone a shop test, and further requests, in lieu of a hydrostatic test, the acceptance of a statement to the effect that all piping is standard wrought iron piping.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 2 *on condition* that certificate of factory test shall be filed with the fire commissioner; as to Item 4 *on condition* that standard wrought-iron pipe shall be used throughout the fuel oil installation; as to Item 6 *on condition* that fire door of fire-box shall be equipped with self-closing device; and as to Item 9 *on*

condition that the door of the gas hot-water heater, facing auxiliary boiler, shall be permanently closed, with rigid attachment; and that the fuel oil rules shall be complied with in all other respects.

APPELLANT—James Kearney, for Seventh Avenue and 35th Street Corporation, owner.

SUBJECT—Application for reopening—appeal from decision of fire commissioner.

PREMISES AFFECTED—463-467 Seventh avenue and 153 West 35th street, Manhattan.

APPEARANCES—

For Appellant: James Kearney.

For Administration: None.

ACTION OF BOARD—Appeal reopened and resolution modified.

THE VOTE TO REOPEN AND MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(986-24-A)

WHEREAS, James Kearney, for Seventh Avenue and 35th Street Corp., owner, filed, July 31, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 463-467 Seventh avenue and 153 West 35th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, N. B. App. 13-24, dated July 24, 1924, reads:

"3. The building being over 250 feet in height, an 8 in. riser must be provided."

and

WHEREAS, the building is fireproof, 21 stories in height, 98 ft. 9 in. by 200 ft. in area; OCCUPIED as stores, show rooms, 25 per cent floor area used for manufacturing, 135 persons per story, the building being 259 ft. in height; equipped with a standpipe system with 6 in. risers; and

WHEREAS, appellant contends that the building is only 259 ft. in height, and that the height of the top story hose outlet is 252 ft.; and

WHEREAS, this appeal was granted by the board at its meeting November 5, 1924, on certain conditions, and appellant requested a modification of these conditions as to the sprinkler system.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* only so far as it affects the building as proposed in this appeal as to height and area, *on condition* that the building shall be equipped with an approved sprinkler system; and that the standpipe regulations shall be complied with in all other respects.

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon. 2

THE RESOLUTION:

(1110-24-A)

WHEREAS, Charles J. Heuser, for Julius Forstmann,

MINUTES

owner, filed, September 9, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 208 East 63rd street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 23875-C, dated August 25, 1924, reads:

"1. Discontinue the maintenance of a garage on these premises.";

and

WHEREAS, the building is non-fireproof, four stories in height, 25 ft. by 89 ft. 7 in. in area at 1st story and 25 ft. by 60 ft. 3 in. in area above. OCCUPIED: 1st story, private garage; 2nd story, vacant; 3rd and 4th stories, residences; MEANS OF EGRESS consisting of an interior stairway extending from the 1st story to the roof, a fire escape on the rear of the building with landing on extension roof; and

WHEREAS, appellant contends that there are never more than four (4) pleasure cars stored on the premises, the property of the owner of the premises; that there is no gasoline service tank maintained; that there is a heating plant in the basement separated from the remainder of the basement by a brick partition wall with an approved self-closing fire door at the opening. It is proposed to provide self-closing fireproof door at the head of the enclosed stairway leading to the basement, and to maintain a self-closing fireproof door at the foot of the stairway; and

WHEREAS, this appeal was granted by the board at its meeting November 25, 1924, on certain conditions, and appellant requested a modification of the conditions and permission to occupy the top story until March 1, 1925.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the top story shall not be occupied for living purposes after March 1, 1925; that the fire escapes on rear of building shall be maintained as indicated on plan; and that opening to cellar stairs from 1st story shall be provided with self-closing fireproof door, with sill at least 8 in. high at threshold; and that all other necessary permits shall be obtained.

APPELLANT—Tracy Lyon, for George Zabriskie, owner.

SUBJECT—Application for reopening—appeal from decision of fire commissioner.

PREMISES AFFECTED—23 Gramercy park, Manhattan.

APPEARANCES—

For Appellant: Tracy Lyon.

ACTION OF BOARD—Appeal reopened and 90 days' extension of permit granted.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(926-24-A)

WHEREAS, Tracy Lyon, for George Zabriskie, owner, filed, July 12, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 23 Gramercy park, Manhattan; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 846-24, dated July 10, 1924, reads:

"3. Pumps must be of a type approved by the Board of Standards and Appeals.

"4. Burners must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 27 ft. by 80 ft. in area; OCCUPIED as a dwelling; a fuel oil burning system has been installed; and

WHEREAS, appellant contends that the installation conforms with the rules of the board excepting the pump and burner are not approved, and requests a temporary permit pending an inspection of the installation; and

WHEREAS, this appeal was granted by the board at its meeting October 7, 1924, for a temporary period and appellant requests an extension of time.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary period of ninety (90) days, at owner's risk, pending action on pump and burner by the board of standards and appeals, *on condition* that the installation complies with the fuel oil rules in all other respects.

223-24-A.

APPELLANT—John Knierim, for Bertha Pflieger, lessee.

SUBJECT—Application for reopening—appeal from order of fire commissioner.

PREMISES AFFECTED—29 West 25th street, Manhattan.

APPEARANCES—

For Appellant: John Knierim.

ACTION OF BOARD—Appeal reopened and 90 days extension of permit granted.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(223-24-A)

WHEREAS, John Knierim, for Bertha Pflieger, lessee, filed, February 13, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 29 West 25th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 25, 1924, reads:

"Order No. 22575-I.C:

"Referring to your application, dated January 14, 1924, for a permit to store and use fuel oil at 29 West 25th Street, Manhattan, I regret to inform you that said application has been disapproved for the reason that your present method of storing and using fuel oil does not conform with the Fuel Oil Rules of the Board of Standards and Appeals on November 6, 1919.

"You are therefore, hereby, ordered to:

"1. Discontinue the storage and use of fuel oil on these premises.";

and

WHEREAS, the premises consist of two non-fireproof buildings, each four stories and basement in height, 25 ft. by 54 ft. in area; OCCUPIED as rooming houses, 20 persons in each house; and

WHEREAS, appellant contends that there is a fuel oil burning system installed in the basement, conforming with the fuel oil rules, excepting that the burner is not of an approved type, and asks for an inspection by a committee of the board; and

WHEREAS, this appeal was granted by the board at its meetings June 17, 1924, and September 23, 1924, for a temporary period of 90 days, and appellant requests a further extension of the permit.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary period of ninety (90) days, pending inspection by the board of the Powerlight Burner.

618--24-A.

APPELLANT—A. Hayden, owner.

SUBJECT—Application for extension of permit—appeal from order of fire commissioner.

MINUTES

PREMISES AFFECTED—517 83rd street, Brooklyn.
APPEARANCES—

For Appellant: Mrs. Hayden.

ACTION OF BOARD—Appeal reopened and 90 days' extension of permit granted.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5
Negative 0
Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(618-24-A)

WHEREAS, A. Hayden, owner, filed, May 2, 1924, an appeal, with the board of appeals, from an order of the fire-commissioner, affecting premises 517 83rd street, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 88135-LC, dated April 12, 1924, reads:

"With reference to your application for a permit to store fuel oil at the above location, I regret to inform you that I am without power to grant such a permit for the reason that the storage of fuel oil at the above location is not in accordance with the rules adopted by the Board of Standards and Appeals on Nov. 6, 1919, amended Jan. 18, 1924.

"You are therefore ordered to remove all fuel oil from the storage tank and discontinue the further storage and use of fuel oil at the above location.";

and

WHEREAS, the building is non-fireproof, two stories and basement in height, 20 ft. by 60 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, appellant contends that the installation conforms with the fuel oil rules excepting in that the burner (a Powerlight Oilheat) is not an approved burner; and

WHEREAS, this appeal was granted by the board at its meetings, July 15, 1924, and October 28, 1924, for a temporary period of 90 days, and appellant requests an extension of the period.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted for a temporary period of ninety days, pending the action of the board of standards and appeals on petition for approval of burner, on condition that the installation complies with fuel oil rules of the board of standards and appeals in all other respects.

1181-24-BZ.

APPLICANT—James Kearney, for Leopold Weil and
Mayer S. Ames, owners.

SUBJECT—Application (re: decision of superintendent
of buildings) to permit in a business district the
erection and maintenance of a garage for the
storage of more than five motor vehicles.

PREMISES AFFECTED—1813-1815 Jerome avenue,
The Bronx.

APPEARANCES—

For Applicant: James Kearney.
For Opposition: None.

ACTION OF BOARD—Application granted on condi-
tion.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Messrs. Kennedy, Dowd, Gunni-
son, Holland and Fire Chief Kenlon.... 5
Negative: Chairman Walsh and Mr. Connell 2
Absent 0

THE RESOLUTION:

(1181-24-BZ)

WHEREAS, James Kearney, for Leopold Weil and Mayer
S. Ames, owner, filed, September 30, 1924, an application,
under the building zone resolution, to permit in a business
district the erection and maintenance of a garage for the
storage of more than five motor vehicles; premises 1813-
1815 Jerome avenue, The Bronx; and

WHEREAS, a public hearing was held on this application
by the board of appeals, at its regular meeting, January
27, 1925, after due notice by publication in the Bulletin
of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the build-
ing zone resolution show that Jerome avenue is a business
district and Davidson avenue is a residence district; and

WHEREAS, the decision of the superintendent of build-
ings, rendered September 12, 1924, in acting on N. B.
App. No. 2502-24, reads:

"1. Erection of proposed garage for the storage of
more than five motor vehicles in business district is
contrary to the provisions of the Building Zone Reso-
lution.";

and

WHEREAS, the proposed building is to be of non-fireproof
construction, two stories in height, with a frontage of 75
ft. and a depth of 100 ft.; to be occupied as a garage for
the storage of more than five motor vehicles; and

WHEREAS, applicant contends that there would be great
hardship in preventing him from making the proposed use
of his property owing to the character of the surrounding
property and the garage immediately adjoining.

Resolved, that the board of appeals does hereby *make*
a variation in the application of the use district regula-
tions of the building zone resolution, and that the appli-
cation be and it hereby is *granted on condition* that the
building shall be restricted to a two-story structure above
sidewalk level; that the rear and gable walls shall be un-
pierced throughout their entire height and length; that the
front elevation shall be finished in face brick, laid out in
panel design, with architectural terra cotta or stone trim-

mings; that the start of any ramp installed in the premises
shall be set back at least five (5) feet from the street
wall; that there shall be no projecting signs nor advertis-
ing display, other than one sign indicating the name or
title of the garage, erected or exposed on the building;
that any gasoline storage equipment installed shall be lo-
cated at the north end of the proposed structure; and that
all permits necessary for the prosecution of the work shall
be obtained within nine months and the building completed
within eighteen months from the date of this action.

629-24-BZ.

APPLICANT—F. W. Rinn, for Matthew Heine, owner.
SUBJECT—Application (re: order of fire commissioner)

to permit in a residence district the maintenance
of a garage for the storage of two (2) pleasure
motor vehicles, two (2) spaces rented to persons
not residing on the premises.

PREMISES AFFECTED—60 Buchanan place, The
Bronx.

APPEARANCES—

For Applicant: F. W. Rinn.
For Opposition: None.

ACTION OF BOARD—Application granted on condi-
tion.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Ken-
nedy, Dowd, Gunnison, Holland, Con-
nell and Fire Chief Kenlon..... 7
Negative 0
Absent 0

THE RESOLUTION:

(629-24-BZ)

WHEREAS, F. W. Rinn, for Matthew Heine, owner, filed,
May 6, 1924, an application, under the building zone reso-
lution, to permit in a residence district the maintenance
of a garage for the storage of two (2) pleasure motor
vehicles, two (2) spaces rented to persons not residing on
the premises; premises 60 Buchanan place, The Bronx; and

WHEREAS, a public hearing was held on this application
by the board of appeals, at its regular meeting, January
27, 1925, after due notice by publication in the Bulletin
of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the build-
ing zone resolution show that Buchanan place, Grand ave-
nue and Aqueduct avenue are residence districts; and

WHEREAS, the order of the fire commissioner, dated
April 21, 1924, in acting on Order No. 23726-C, reads:

"1. Discontinue the maintenance of a garage which
is not maintained as an accessory use on these prem-
ises.";

and

WHEREAS, the existing building is of non-fireproof con-
struction, one story in height, with a frontage of 18 ft.
and a depth of 18 ft.; occupied as a garage for two motor
vehicles, two spaces rented to persons not residing on prem-
ises; and

WHEREAS, the applicant has complied with the provi-
sions of the exception under section 7, subdivision C, hav-
ing filed the duly acknowledged consents of the owners of
81 per cent of the property frontage deemed by the board
to be affected.

Resolved, that the board of appeals does hereby *make a*
variation in the application of the use district regulations
of the building zone resolution, and that the application
be and it hereby is *granted on condition* that the capacity
of the garage be limited to two automobiles of the pleasure
car type, space for one of which may be rented to persons
not residing on the premises; that there shall be no gaso-
line storage equipment installed and that no advertising,
sign or display of any nature or description be exposed
on the premises.

THE RESOLUTION:

(287-24-BZ)

WHEREAS, David McConnell, for Bayie Realty Co., Inc., owner, filed, February 25, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 524 Jackson avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jackson and Concord avenues are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 25, 1924, in acting on N. B. App. No. 121-24, reads:

"Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 41 ft. on Jackson avenue and 33 ft. on Concord avenue and a depth of 200 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, this application was denied by the board at its meeting, October 14, 1924, and reopened December 9, 1924, by vote of the board; and

WHEREAS, there existed on this street, Jackson avenue, between the intersecting streets, on July 25, 1916, a stable for more than five horses

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the structure be limited in height to one story above grade; that the gable walls shall be unpierced throughout their entire height and length; that there shall be no roof signs of any nature or description erected on the structure; that there shall be no advertising display, bill-boards or signs permitted on the street front of the building, other than one electric sign indicating the title of the garage; that the front elevation shall be finished in face brick, with architectural terra cotta or stone trimming; that any gasoline storage equipment installed shall be located at the Jackson avenue front of the premises; that all permits necessary for the prosecution of the work shall be obtained

within nine months and the building completed within eighteen months from the date of this action.

THE RESOLUTION:

(354-24-BZ)

WHEREAS, Thomas F. Cosgrove, for Interborough Auto Repair and Supply Company, owner, filed, March 7, 1924, an application, under the building zone resolution, to permit in a business district the maintenance of a motor vehicle repair shop; premises 306-308 Broadway, W. New Brighton, S. I., Borough of Richmond; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that High street, Broadway and State street are business districts; and

WHEREAS, the order of the fire commissioner, dated January 22, 1924, reads:

"1. Discontinue the maintenance of a motor vehicle repair shop on these premises."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 124 ft. on High street, 50 ft. on State street and 35 ft. on Broadway; occupied as automobile showroom and motor vehicle repair shop; and

WHEREAS, applicant contends that the repairs are a necessary accessory to the maintenance of the showroom and that there would be hardship in preventing him from continuing the occupancy and that there are no power-driven machines.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the work of repairs be limited to that incidental to the conduct of an automobile salesroom and agency, and that no motor-driven machinery be used on the premises other than a one-half horsepower portable electric drill, and that all necessary permits for the prosecution of the work shall be obtained within six months and the building completed within twelve months from the date of this action.

THE RESOLUTION:

(479-24-BZ)

WHEREAS, Croker National Fire Prevention Engineering Company, for Gaetano Calandrillo, owner, filed, April 3, 1924, an application, under the building zone resolution, to permit in a business district the maintenance of a rag and junk shop; premises 46 Lewis avenue, Corona, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Lewis avenue, Van Doran street and Corbin place are business districts; and

WHEREAS, the order of the fire commissioner, dated March 10, 1924, reads:

"Order No. 86942-LC:

"1. Discontinue the maintenance of a junk shop on these premises. The premises affected by this order located in a portion of the city designated by said resolution as a Business District.

"Building of wooden construction.

"You are therefore ordered to remove all combustible fibre (rags) from the premises and discontinue the business of junk shop on the premises."

and

WHEREAS, the building is of frame construction, one story in height, with a frontage of 17 ft. and a depth of 60 ft.; occupied as a rag, paper and junk shop; and

WHEREAS, the board deemed there would be hardship in preventing applicant from maintaining this occupancy owing to the character of the surrounding property.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* for a temporary permit of two years from the date of this action *on condition* that the interior walls and ceiling throughout be lined with metal; that the northerly gable wall on the lot line be unpierced throughout its entire height and length; and that any signs displayed shall be restricted to flat signs placed on the street wall of the building.

THE RESOLUTION:

(1405-24-BZ)

WHEREAS, George F. Pelham, for Castle Realty Co., owner, filed, November 26, 1924, an application, under the building zone resolution, to permit in an unrestricted 1½ times height district, the erection of the street wall of a building to a height exceeding the limit set by the building zone resolution; premises 442-450 West 31st street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

MINUTES

WHEREAS, the district maps accompanying the building zone resolution show that West 31st street is an unrestricted use and $1\frac{1}{2}$ times height district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 19, 1924, in acting on Alteration Application No. 2649-1924, reads:

"1. Provide lawful set back from building line above the legal height limit.";

and
WHEREAS, the existing building is fireproof, five stories (65 ft.) in height, and 83 ft. 4 in. by 102 ft. $6\frac{1}{2}$ in. in area; occupied as a factory. It is proposed to extend this building in height to 165 ft. and carry the street walls up to a height of 120 ft. without a setback, the allowable limit set by the zone resolution being 90 ft. without setback; and

WHEREAS, it appears that the building was originally designed before the adoption of the building zone resolution and the steel work arranged and the building erected in contemplation of the proposed height, and the board deemed that there would be hardship in preventing applicant from completing building as designed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall not exceed a height of one hundred and twenty feet (120 ft.) at the street front, without setback and that the requirements of the building zone resolution otherwise shall be complied with and carried out in all respects, and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action

1398-24-BZ.

APPLICANT—G. A. & H. Boehm, for The Harriman Realty & Security Corporation, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business $1\frac{1}{4}$ times height district the erection of the street wall to a height exceeding the limit required by the zone resolution.

PREMISES AFFECTED—523-529 Fifth avenue, Manhattan.

APPEARANCES—

For Applicant: George A. Boehm.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITION—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1398-24-BZ)

WHEREAS, G. and H. Boehm, for The Harriman Realty & Securities Corp., owner, filed, November 24, 1924, an application, under the building zone resolution, to permit in a business $1\frac{1}{4}$ times height district the erection of the street wall of a building to a height exceeding the limit set by the building zone resolution; premises 523-529 Fifth avenue, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, January 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the height district maps accompanying the building zone resolution show that the premises are located in a $1\frac{1}{4}$ times height district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 21, 1924, in acting on Alt. Application No. 2641-24, reads:

ITEM 2. Proposed addition on 5th Avenue is of excessive height—Zone Resolution, Section 8.";

and

WHEREAS, it is proposed to build an addition to an existing twelve-story fireproof building; the height of street wall permitted due to width of Fifth avenue (100 ft.) $1\frac{1}{4}$ times district, is 125 ft.; excess height due to eleven-story (163 ft.) high building across street and twelve-story (163 ft. 2 in.) existing building is 25 ft. 4 2-3 in. It is proposed to place mansard on extension at same angle as existing mansard, making a projection from 0 ft 1 ft. 2 in. or an average of 7 in. beyond setback line; and

WHEREAS, the board deemed that there would be hardship in preventing applicant from carrying out the proposed design to conform to the architecture and a modification as to the mansard only projecting beyond the rake of the setback line only from 0 in. to 1 ft. 2 in. being contemplated.

Resolved, that the board of appeals does hereby *make a variation* in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the proposed addition of the mansard shall line with the existing mansard; that the requirements of the building zone resolution shall be complied with in all other respects, and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

304-24-BZ.

APPLICANT—Henry J. Nurick, for Isaac Wiener, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit extending into a business district from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—104-112 Montgomery street, Brooklyn.

APPEARANCES—

For Applicant: Sol Sternback.

For Opposition: None.

ACTION OF BOARD—Application reopened and resolution modified.

THE VOTE TO REOPEN AND MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Ken-

neddy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(304-24-BZ)

WHEREAS, Henry J. Nurick, for Isaac Wiener, owner, filed, February 26, 1924, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 104-112 Montgomery street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, May 20, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Montgomery street, 100 ft. east of Washington avenue, is an unrestricted district and Washington avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 15, 1924, in acting on Application No. 2440-24, reads:

MINUTES

"Proposed one story brick public garage for more than five motor vehicles in a business district is contrary to Art. II, Sec. 4 (a) of the Zone Resolution."; and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 92 ft. 15/8 in. and a depth of 96 ft., irregular, to be occupied as a garage for more than five motor vehicles, a portion of the structure, approximately 8 ft. 6 in. in width, extending into the business district; and

WHEREAS, under the provisions of section 7, subdivision B, the board is empowered to act; and

WHEREAS, this application was granted by the board at its meeting, May 20, 1924, on certain conditions, and applicant requested a modification of the condition as to the wall overlooking the railroad cut.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be restricted to a two (2) story structure above grade; that the rear and westerly gable wall shall be unpierced throughout its entire height and length; that the front elevation shall be finished in face brick with architectural terra cotta or stone trimmings, and that the building zone resolution shall be complied with in all other respects;

Resolved, further, that all necessary permits for the prosecution of the work shall be obtained within nine (9) months and the building completed within eighteen (18) months from the date of this action.

AREAS FIXED. (91-23-BZ)

The chairman presented and read a communication from H. E. Horwood, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 1772 60th street, Brooklyn.

The following area was approved by the board:

Both sides of 60th street from a point 200 ft. east of Eighteenth avenue to a point 400 ft. west of proposed garage; the west side of Eighteenth avenue from 60th street to 61st street. Both sides of Eighteenth avenue from 60th street to 59th street, also the north side of 61st street from Eighteenth avenue to a point 180 ft. west of Eighteenth avenue.

(1379-24-BZ)

The chairman presented and read a communication from Benjamin R. Leinhardt, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 50-60 Pennsylvania avenue, Brooklyn.

The following area was approved by the board:

Both sides of Pennsylvania avenue from Fulton street to a point 400 ft. south of proposed garage; the south side of Fulton street from a point 100 ft. east of Pennsylvania avenue to a point 100 ft. west of Pennsylvania avenue, also the east side of Sheffield avenue from a point 100 ft. south of Fulton street to a point 250 ft. south of Fulton street.

Adjourned 2 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady and Moore 8

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Renville, Kleinert and McDermott..... 5

THE RESOLUTION:

(983-24-S)

WHEREAS, Building Operation Co., for Edgord Realty Corp., owner, filed, July 30, 1924, a petition, with the board

of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 6-8 West 20th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 56117-LF, dated March 18, 1924, reads:

"1. Install an adequate interior electric fire alarm system * * *";

and

WHEREAS, the building is fireproof, eleven stories in height, 50 ft. by 92 ft. in area in the 1st story, and 50 ft. by 82 ft. in area above; OCCUPIED as a tenant factory, 40 persons per story; EQUIPPED with a sprinkler system; MEANS OF EGRESS consisting of an interior stairway enclosed in fireproof partitions extending from the 1st story to the roof, an exterior iron stairway in the rear of the building extending from the 2nd story to the roof with connection at the 2nd story to building adjoining, with fire doors and windows along the course of the exterior stairway; and

WHEREAS, petitioner contends that the building has a National District Alarm System.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the occupancy and use shall remain substantially unchanged and that the requirements of resolutions of this board adopted under Cal. No. 1433-18-S shall be complied with and maintained in all respects.

1308-24-S.

PETITIONER—Richard R. Nevins, for Violet Beach, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—55 Fulton street, Manhattan.

APPEARANCES—

For Petitioner: None.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady and Moore 8

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Renville, Kleinert and McDermott..... 5

THE RESOLUTION:

(1308-24-S)

WHEREAS, Richard R. Nevins, for Violet Beach, owner, filed, November 6, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 55 Fulton street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 9, 1924, reads:

"1. Extend the interior stairway at the west side of building to the roof as per Section 271 of the Labor Law. * * *";

and

WHEREAS, the building is non-fireproof, five stories in height, with a frontage of 82 ft. on Cliff street and a frontage of 21 ft. 11 in. on Fulton street, divided into two sections by a fore and aft partition wall with openings on each story protected by double fireproof doors, OCCUPIED: 1st story, store; upper stories, glass manufacturing, 24 persons above the 1st story. EXITS: An interior wooden stairway in the Fulton street section of the building, extending from 1st story to the top story

MINUTES

with ladder on opposite side of loft to scuttle in roof; enclosed in fire resisting partitions up to the 2nd story; wooden partitions to the 3rd story and open above; with wooden doors at openings; a wooden stairway in the Cliff street section of the building extending from the 1st story to the top story with ladder to scuttle in roof; a sub-standard fire escape on the front of the building extending from 2nd to top story, with gooseneck ladder to roof; ROOFS of adjoining buildings 12 ft. lower; and

WHEREAS, petitioner contends that as the adjoining roof is 12 ft. lower and in view of the light occupancy and protected horizontal openings, contends that the existing means of exit are adequate.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that approved horizontal fire openings shall be provided in all stories above the 1st story and that a fixed double rung iron ladder shall be provided in the top story of the Fulton street section of the building, to the roof, and *granted* only so long as the present conditions as to occupancy and use remain unchanged..

1095-24-S.

PETITIONER—Croker National Fire Prevention Engineering Co., for The Gutta Percha & Rubber Mfg. Co., Inc., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—37-65 Franklin avenue and 22-46 Skillman street, Brooklyn.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition dismissed.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady and Moore 8

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and McDermott..... 5

THE RESOLUTION:

(1095-24-S)

WHEREAS, Croker National Fire Prevention Engineering Company, for The Gutta Percha & Rubber Mfg. Co., owner, filed, September 3, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in order of the fire commissioner, affecting premises 37-65 Franklin avenue and 22-46 Skillman street, Brooklyn.

WHEREAS, the order of the fire commissioner reads:

"1. Extend the interior stairway at the north side of building No. 6 from the second story to the 1st story and provide and maintain a continuous safe and unobstructed passageway of at least the same width as the stairway leading to the street from the termination of said stairway, as per section 271 of the labor law.";

and

WHEREAS, the building is non-fireproof, three stories in height, 51 ft. by 80 ft. in area; OCCUPIED for the manufacture and storage of gutta percha and rubber goods, 6 persons above the 1st story; and EQUIPPED with a sprinkler system and a fire alarm signal system. EXITS: An interior wooden stairway extending from the 3rd story to the 2nd story, enclosed in wooden partitions with wooden doors at the openings, an outside stairway on the rear of the building extending from the 3rd story to the roof of an adjoining one-story building, and also an outside stairway running from the 2nd story to the yard, with

egress through an open driveway to street; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that a similar petition on same premises was granted by the board under Cal. 2485-17-S on condition that the use and occupancy remain unchanged, and further contends that the use is unchanged and the occupancy is less; and

WHEREAS, the inspector of the bureau of fire prevention of the fire department reported that this order has been rescinded of record.

Resolved, that the petition be and it hereby is *dismissed* as the order is not enforceable at this time.

1251-24-S.

PETITIONER—419 West 55th Street Realty Corp., lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—419-421 West 55th street, Manhattan.

APPEARANCES—

For Petitioner: A. R. Perpall.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Superintendents Brady and Moore 8

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and McDermott..... 5

THE RESOLUTION:

(1251-24-S)

WHEREAS, 419 West 55th Street Realty Corp., lessees, filed, October 22, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 419-21 West 55th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 65218-LD, dated September 27, 1924, reads:

"1. Provide approved self-closing fire doors at openings leading to stairway on all stories opening outwardly so as not to obstruct the stairway, as per Section 271 of the Labor Law and Rule 507 and 505 of the Industrial Code, amended by the Board of Standards & Appeals April 3, 1923.

"Wire glass in doors exceeds 720 square inches in area.";

and

WHEREAS, the building is fireproof, six stories in height, 50 ft. by 100 ft. in area. OCCUPIED as follows: Basement, auto storage, 5 persons; 1st fl., auto tires, 5 persons; 2nd fl., auto repair, 6 persons; 3rd fl., auto body building, 10 persons; 4th fl., auto repair, 3 persons; 5th fl., auto repair, 4 persons; 6th fl., auto painting, 8 persons. EXITS: An interior fireproof stairway extending from 1st story to roof; enclosed in fireproof partitions with metal covered wire glass panelled doors at openings; a fire escape on the rear of the building extending from 2nd story to roof. ROOFS of adjoining buildings same height; and

WHEREAS, petitioner contends that the doors comply with the labor law except as to the area of the glass therein, and proposes to cover the wire glass with sheet iron in such a manner as to reduce the area of the glass to the required limit of 720 square inches.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that all openings shall be equipped with metal

MINUTES

covered doors equipped with self-closing device, and that the area of wire glass in each door shall not exceed 645 sq. in., and *granted* so long as the present use and occupancy shall remain unchanged.

1278-24-S.
PETITIONER—Sommerfeld & Steckler, for 112 West 38th Street Corp., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—106-114 West 38th street, Manhattan.

APPEARANCES—

For Petitioner: William C. Sommerfeld.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Fire Chief Kenlon, Superintendents Brady and Moore 9
Negative 0
Absent: Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and McDermott 4

THE RESOLUTION:

(1278-24-S)

WHEREAS, Sommerfeld & Steckler, for 112 West 38th St. Corp., owner, filed, October 29, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 106-114 West 38th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 478-1923, dated October 15, 1924, reads: "15. All windows in the building should be approved fireproof windows conforming with the requirements of Section 264 Labor Law and Rule 503 of the Industrial Code."; and

WHEREAS, the building is fireproof, twenty stories in height, 100 ft. by 98 ft. in area; OCCUPIED as offices, showrooms and 25 per cent manufacturing, 100 persons per story; EQUIPPED with a sprinkler system and also a fire alarm signal system; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories glazed with $\frac{1}{4}$ in. thick plate glass; the maximum area of the glass in the 1st story being 16 ft. 6 in. by 6 ft. 6 in. in area; on the 2nd story 5 ft. 2 in. by 7 ft. 6 in. in area and on the 3rd story 4 ft. 5 in. by 7 ft. 6 in. in area; and

WHEREAS, petitioner contends that to comply with the provisions of the labor law as to the area of the glass would materially affect the architectural design of the building and also the use intended for the three lowest stories.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* only so far as it affects the windows on the street front of the three (3) lower stories, *on condition* that all openings shall be equipped with approved metal frames and sash, glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness, and that the labor law shall be complied with in all other respects.

1279-24-S.
PETITIONER—William C. Sommerfeld, for Abraham Smith, owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—25-27 West 36th street, Manhattan.

APPEARANCES—

For Petitioner: William C. Sommerfeld.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

THE RESOLUTION:

(1280-24-S)

WHEREAS, William C. Sommerfeld, for Joseph H. Schwartz, owner, filed, October 29, 1924, a petition, with the board of standards and appeals, for variation from

MINUTES

the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 7-9 West 36th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated October 15, 1924, N. B. App. No. 147-1924, reads:

"1. Exterior openings at front at first, second, third floors should comply with Section 264 Labor Law, and Rule 503 Industrial Code.";

and

WHEREAS, the building is fireproof, sixteen stories in height, 50 ft. by 98 ft. in area; OCCUPIED as offices, showrooms and 25 per cent manufacturing, 50 persons per story; EQUIPPED with a fire alarm signal and also a sprinkler system; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories glazed with $\frac{1}{4}$ in. thick plate glass; the maximum area of the glass on the 1st story being 11 ft. by 9 ft. 3 in.; on the 2nd story 8 ft. 8 in. by 6 ft. 11 in. and on the 3rd story 8 ft. 8 in. by 6 ft. 11 in. in area; and

WHEREAS, petitioner contends that to comply with the provisions of the labor law as to the area of the glass would materially affect the architectural appearance of the building and also the use intended for the three lowest stories.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* only so far as it affects the windows on the street front of the three (3) lower stories, *on condition* that all openings shall be equipped with approved metal frames and sash, glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness, and that the labor law shall be complied with in all other respects.

1363-24-S.

PETITIONER—Samuel Rosenblum, for J. G. & A. C. Stabile, owners.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—164 Mulberry street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell, Fire Chief Kenlon, Superintendents Brady and Moore	9
Negative	0
Absent: Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and McDermott	4

THE RESOLUTION:

(1363-24-S)

WHEREAS, Samuel Rosenblum, for J. G. & A. C. Stabile, owners, filed, November 18, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 164 Mulberry street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 2, 1924, reads:

"1. Remove the substandard fire escape on the front of building or reconstruct in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to the ground may be provided. Fire escape shall be maintained structurally safe and

properly painted. No sign of any character shall be placed at openings leading to this fire escape, as per rules of the Board of Standards & Appeals amended May 9th, 1924.

"2. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Section 273 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 100 ft. in area at the 1st story and 25 ft. by 82 ft. in area above. OCCUPIED: 1st story, sorting and packing paper and rags, 7 persons; upper stories, manufacture of chairs, 18 persons above the 1st story. EXITS: An interior wooden stairway extending from 1st story to top story with iron ladder to scuttle in roof; enclosed in wooden partitions with wooden doors at openings; a substandard fire escape on the front of the building and also a 60 degree regulation fire escape on the rear of the building, with fireproof windows along the course thereof, extending from top story to the fireproof roof of one-story extension; with EGRESS from the termination of fire escape by means of iron stair to yard of building to south; thence through hallway of No. 194 Grand street to street. ROOFS of adjoining buildings: to south, one story lower; to north, same level; and

WHEREAS, petitioner contends that building No. 194 Grand street, affording egress from termination of fire escape, is leased by owners of premises in question, and in re to substandard fire escape on front of building, requests that same be accepted, provided that it be made structurally safe, in order that it may offer some facilities to the fire department in case of necessity.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 2 only so far as it affects egress from the termination of the fire escape *on condition* that a balcony shall be provided at roof level of the 1st story extension, with a 60 degree iron stairs to the adjoining yard to the south, with egress therefrom direct to street through public hallway of No. 194 Grand street; *granted* only so long as conditions otherwise as to occupancy and use remain substantially unchanged; and *denied* as to Item No. 1.

1430-24-S.

PETITIONER—Samuel Rosenblum, for Valksam Realty Co., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—41-43 East 28th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum, Joseph H Samuels.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

MINUTES

THE RESOLUTION:

(1430-24-S)

WHEREAS, Samuel Rosenblum, for Valksam Realty Co., owner, filed, December 4, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 41-3 East 28th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 11, 1924, reads:

"No. 67768-LD:

"1. Cease manufacturing on these premises for the reason that said premises were erected after October 1st, 1913, and building is of non-fireproof construction and does not conform with the requirements of Section 270 of the Labor Law."

and

WHEREAS, the building is non-fireproof, seven stories in height, 41 ft. by 98 ft. in area. OCCUPIED: 1st story, stores, 30 persons; 2nd to 7th stories, offices, showrooms and light manufacturing, 30 persons per story, not more than 25 per cent floor area used for manufacturing; EQUIPPED with a sprinkler system. EXITS: Two (2) interior fireproof stairways extending from 1st story to roof; enclosed in fireproof partitions with fire doors at openings; ROOFS of adjoining buildings to west two stories higher, to east two stories lower; and

WHEREAS, petitioner contends that owner of premises received a certificate of occupancy from the bureau of buildings permitting manufacturing not to exceed 25 per cent

of the floor area; that several floors have been leased for this purpose, and, in view of the existence of the fireproof stairways and a 100 per cent sprinkler system, requests that the existing conditions be permitted to remain.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the public corridor on each story shall be subdivided and each opening therein provided with self-closing fireproof doors, opening toward the front of the building; and that the existing doors to the manufacturing occupancies shall be made to open out; and that all premises occupied for manufacturing, upon being vacated, shall be restricted to an approved occupancy and the entire manufacturing occupancy shall be discontinued on or before May 1, 1927.

Negative 0

Absent: Mr. Dowd 1

*Correction—Word "Manhattan" to be inserted in line 4.

THE RESOLUTION:

(1179-24-A)

WHEREAS, Underwood & Underwood, for Bonwit Teller & Co., lessee, filed, September 29, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 417 Fifth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 25463-LC, dated September 9, 1924, reads:

"1. Provide a fireproof vault, constructed, vented and sprinklered as prescribed by Sec. 232, Sub-division 3, Chapter 10 of Article 19 of the Code of Ordinances for the storage of negative and raw stock of nitro-cellulose film."

and

WHEREAS, the building is fireproof, ten stories in height, 95 ft. by 180 ft. in area. OCCUPIED: 1st to 4th stories, department store; 5th to 10th stories, tenant factory; 11th story, photographer; and

WHEREAS, appellant proposes to entirely substitute as quickly as practicable "safety film" instead of the nitro-cellulose base film now in use and, meanwhile, requests permission to store 250 pounds of celluloid base film in a metal fireproof cabinet.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of photographic film stored on premises shall not exceed 100 pounds, maintained in a double-walled metal cabinet, vented to the outer air; and *granted* for a temporary period not exceeding six months from the date of this action.

NOTICE

CITY OF NEW YORK

BOARD OF ESTIMATE AND APPORTIONMENT

AMENDED BUILDING ZONE RESOLUTION.

(Adopted October 3, 1924)

A Resolution Regulating and Limiting the Height and Bulk of Buildings Hereafter Erected and Regulating and Determining the Area of Yards, Courts and Other Open Spaces, and Regulating and Restricting the Location of Trades and Industries and the Location of Buildings Designed for Specified Uses and Establishing the Boundaries of Districts for the Said Purposes.

Be it Resolved by the Board of Estimate and Apportionment of The City of New York:

Article I—Definitions.

§ 1. *Definitions.* Certain words in this resolution are defined for the purposes thereof as follows:

(a) Words used in the present tense include the future; the singular number includes the plural and the plural the singular; the word "lot" includes the word "plot"; the word "building" includes the word "structure."

(b) The "street line" is the dividing line between the street and the lot.

(c) The "width of the street" is the mean of the distances between the sides thereof within a block. Where a street borders a public place, public park or navigable body of water the width of the street is the mean width of such street plus the width, measured at right angles to the street line, of such public place, public park or body of water.

(d) The "curb level," for the purpose of measuring the height of any portion of a building, is the mean level of the curb in front of such portion of the building. But where a building is on a corner lot the curb level is the mean level of the curb on the street of greatest width. If such greatest width occurs on more than one street the curb level is the mean level of the curb on that street of greatest width which has the highest curb elevation. The "curb level" for the purpose of regulating and determining the area of yards, courts and open spaces is the mean level of the curb at that front of the building where there is the highest curb elevation. Where no curb elevation has been established or the building does not adjoin the street the average ground level of the lot shall be considered the curb level.

(e) A "street wall" of a building, at any level, is the wall or part of the building nearest to the street line.

(f) The "height of a building" is the vertical distance measured in the case of flat roofs from the curb level to the highest point of the roof beams adjacent to the street wall, and in the case of pitched roofs from the curb level to the mean height level of the gable. Where no roof beams exist or there are structures wholly or partly above the roof the height shall be measured from the curb level to the level of the highest point of the building. Where a building is a tenement house as defined in the Tenement House Law the height of the building on the street line shall be measured as prescribed in said law for the measurement of the height of a tenement house and such measurement shall be from the curb level as that term is used in said law.

(g) The "depth of a lot" is the mean distance from the street line of the lot to its rear line measured in the general direction of the side lines of the lot.

(h) A "rear yard" is an open unoccupied space on the same lot with a building between the rear line of the building and the rear line of the lot.

(i) The "depth of a rear yard" is the mean distance between the rear line of the building and the rear line of the lot.

(j) Lots or portions of lots shall be deemed "back to back" when they are on opposite sides of the same part of

a rear line common to both and the opposite street lines on which the lots front are parallel with each other or make an angle with each other of not over 45 degrees.

(k) A "court" is an open unoccupied space, other than a rear yard, on the same lot with a building. A court not extending to the street or to a rear yard is an "inner court." A court extending to the street or a rear yard is an "outer court." A court on the lot line extending through from the street to a rear yard or another street is a "side yard."

(l) The "height of a yard or a court" at any given level shall be measured from the lowest level of such yard or court as actually constructed or from the curb level, if higher, to such level. The highest level of any given wall bounding a court or yard shall be deemed to be the mean height of such wall. Where a building is a tenement house, as defined in the Tenement House Law, the height of a yard or a court shall be measured as prescribed in such law.

(m) The "least dimension" of a yard or court at any level is the least of the horizontal dimensions of such yard or court at such level. If two opposite sides of a yard or court are not parallel the horizontal dimension between them shall be deemed to be the mean distance between them.

(n) The "length of an outer court" at any given point shall be measured in the general direction of the side lines of such court from the end opposite the end opening on a street, or a rear yard, to such point.

Article II—Use Districts.

§ 2. *Use Districts.* For the purpose of regulating and restricting the location of trades and industries and the location of buildings designed for specified uses, the City of New York is hereby divided into three classes of districts: (1) residence districts, (2) business districts and (3) unrestricted districts; as shown on the amended use district map which accompanies this resolution and is hereby declared to be part hereof. The use districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended use district map designations and amended map designation rules which accompany said amended use district map are hereby declared to be part thereof. No building or premises shall be erected or used for any purpose other than a purpose permitted in the use district in which such building or premises is located.

§ 3. *Residence Districts.* In a residence district no building shall be erected other than a building, with its usual accessories, arranged, intended or designed exclusively for one or more of the following specified uses:

(1) Dwellings, which shall include dwellings for one or more families and boarding houses and also hotels which have thirty or more sleeping rooms.

(2) Clubs, excepting clubs the chief activity of which is a service customarily carried on as a business.

(3) Churches.

(4) Schools, libraries or public museums.

(5) Philanthropic or eleemosynary uses or institutions, other than correctional institutions.

(6) Hospitals and sanitariums.

(7) Railroad passenger stations.

(8) Farming, truck gardening, nurseries or green houses.

In a residence district no building or premises shall be used for any use other than a use above specified for which buildings may be erected and for the accessory uses customarily incident thereto. The term accessory use shall not include a business nor shall it include any building or use not located on the same lot with the building or use to which it is accessory. A private garage for more than five motor vehicles shall not be deemed an accessory use.

NOTICE

§ 4. *Business Districts.* (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

- (1) Ammonia, chlorine or bleaching powder manufacture.
- (2) Asphalt manufacture or refining.
- (3) Assaying (other than gold or silver).
- (4) Blacksmithing or horseshoeing.
- (5) Boiler making.
- (6) Brewing or distilling of liquors.
- (7) Carpet cleaning.
- (8) Celluloid manufacture.
- (9) Crematory.
- (10) Distillation of coal, wood or bones.
- (11) Dyeing or dry cleaning.
- (12) Electric central station power plant.
- (13) Fat rendering.
- (14) Fertilizer manufacture.
- (15) Garage for more than five motor vehicles, not including a warehouse where motor vehicles are received for dead storage only, and not including a sales-room where motor vehicles are kept for sale or for demonstration purposes only.
- (16) Gas (illuminating or heating) manufacture or storage.
- (17) Glue, size and gelatine manufacture.
- (18) Incineration or reduction of garbage, offal, dead animals or refuse.
- (19) Iron, steel, brass or copper works.
- (20) Junk, scrap paper or rag storage or baling.
- (21) Lamp black manufacture.
- (22) Lime, cement or plaster of paris manufacture.
- (23) Milk bottling and distributing station.
- (24) Oil cloth or linoleum manufacture.
- (25) Paint, oil, varnish or turpentine manufacture.
- (26) Petroleum refining or storage.
- (27) Printing ink manufacture.
- (28) Raw hides or skins—storage, curing or tanning.
- (29) Repair shop for motor vehicles.
- (30) Rubber manufacture from the crude material.
- (31) Saw or planing mill.
- (32) Shoddy manufacture or wool scouring.
- (33) Slaughtering of animals.
- (34) Smelting.
- (35) Soap manufacture.
- (36) Stable for more than five horses.
- (37) Starch, glucose or dextrine manufacture.
- (38) Stock yard.
- (39) Stone or monumental works.
- (40) Sugar refining.
- (41) Sulphurous, sulphuric, nitric or hydrochloric acid manufacture.
- (42) Tallow, grease or lard manufacturing or refining.
- (43) Tar distillation or manufacture.
- (44) Tar roofing or tar waterproofing manufacture.
- (45) Refrigerating plants, coal yards and coal pockets

(b) In a business district no building or premises shall be used, and no building shall be erected, which is arranged, intended or designed to be used for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise but car barns or places of amusement shall not be excluded.

(c) In a business district no building or premises shall be used, and no building shall be erected, which is arranged, intended or designed to be used for any kind of manufacturing, except that any kind of manufacturing not included within the prohibitions of paragraphs a and b of this section may be carried on provided not more than 25 per cent. of the total floor space of the building is so used, but space equal to the area of the lot may be so used in any case, although in excess of said 25 per cent. The printing of a

newspaper shall not be deemed manufacturing. No use permitted in a residence district by section 3 shall be excluded from a business district.

§ 5. *Unrestricted Districts.* The term "unrestricted district" is used to designate the districts for which no regulations or restrictions are provided by this article.

§ 6. *Existing Buildings and Premises.* (a) Any use existing in any building or premises on July 25, 1916, and not conforming to the regulations of the use district in which it is maintained, may be continued therein. No then existing building designed, arranged, intended or devoted to a use not permitted by this article in the district in which such use is located shall be enlarged, extended, reconstructed or structurally altered unless such use is changed to a use permitted in the district in which such building is located. Such building may, however, be reconstructed or structurally altered to an extent not greater than 50 per cent. of the value of the building, exclusive of foundations, provided that no use in such building is changed or extended, except as authorized in paragraph b of this section, and provided, further, that no use included in any one of the enumerated subdivisions of paragraph a of section 4 is changed into a use included in any other enumerated subdivision of paragraph a of section 4 or into a use prohibited by paragraph b of section 4, and also provided that no use prohibited by paragraph b of section 4 is changed into another use prohibited by paragraph b of section 4 or into a use included in an enumerated subdivision of paragraph a of section 4.

(b) Any use existing in any building or premises on July 25, 1916, and not conforming to the regulations of the use district in which it is maintained may be changed, and such use may be extended throughout the building, provided that in either case:

(1) No structural alterations shall be made in the building, except as authorized by paragraph a of this section, and

(2) In a residence district no portion of a building devoted to a use included in subdivision 1 of section 3 shall be changed to any use prohibited in a residence district, and

(3) In a residence district no building or premises, unless devoted to one of the uses that is by section 4 prohibited in a business district, shall be changed to any of such uses, and

(4) In a residence or business district no building or part thereof and no premises, unless devoted to one of the uses that is by paragraph a or b of section 4 prohibited in a business district, shall be changed to any of such uses.

If a use is changed as authorized in this section, the new use may thereafter be changed, subject to the limitations imposed by subdivisions 1, 2, 3 and 4 of this paragraph.

§ 7. *Use District Exceptions.* The Board of Appeals, created by chapter 503 of the laws of 1916, may, in appropriate cases, after public notice and hearing, and subject to appropriate conditions and safeguards, determine and vary the application of the use district regulations herein established in harmony with their general purpose and intent as follows:

(a) Permit the extension of an existing building and the existing use thereof upon the lot occupied by such building at the time of the passage of this resolution or permit the erection of an additional building upon a lot occupied at the time of the passage of this resolution by a commercial or industrial establishment and which additional building is a part of such establishment;

(b) Where a use district boundary line divides a lot in a single ownership at the time of the passage of this resolution, permit a use authorized on either portion of such lot to extend to the entire lot, but not more than 25 feet beyond the boundary line of the district in which such use is authorized;

(c) Permit the extension of an existing or proposed building into a more restricted district under such conditions as will safeguard the character of the more restricted district;

NOTICE

(d) Permit in a residence district a central telephone exchange or any building or use in keeping with the uses expressly enumerated in section 3 as the purposes for which buildings or premises may be erected or used in a residence district;

(e) Permit in a business district the erection or extension of a garage or stable in any portion of a street between two intersecting streets in which portion there exists a garage for more than five motor vehicles or a stable for more than five horses which existed on July 25, 1916.

(f) Grant in undeveloped sections of the city temporary and conditional permits for not more than two years for structures and uses in contravention of the requirements of this article.

(g) Permit in a business or residence district the erection of a garage provided the petitioner files the consents duly acknowledged of the owners of 80 per cent. of the frontage deemed by the Board to be immediately affected by the proposed garage. Such permit shall specify the maximum size or capacity of the garage and shall impose appropriate conditions and safeguards upon the construction and use of the garage.

Article III—Height Districts.

§ 8. *Height Districts.* For the purpose of regulating and limiting the height and bulk of buildings hereafter erected, the City of New York is hereby divided into eight classes of districts: (a) one-quarter times districts; (b) one-half times districts; (c) three-quarter times districts; (d) one times districts; (e) one and one-quarter times districts; (f) one and one-half times districts; (g) two times districts; (h) two and one-half times districts; as shown on the amended height district map which accompanies this resolution and is hereby declared to be part hereof. The height districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended height district map designations and amended map designation rules which accompany said amended height district map are hereby declared to be part thereof. No building or part of a building shall be erected except in conformity with the regulations herein prescribed for the height district in which such building is located.

(a) In a one-quarter times district no building shall be erected to a height in excess of one-quarter times the width of the street, but for each two feet that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(b) In a one-half times district no building shall be erected to a height in excess of one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(c) In a three-quarter times district no building shall be erected to a height in excess of three-quarter times the width of the street, but for each one foot that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(d) In a one times district no building shall be erected to a height in excess of the width of the street, but for each one foot that the building or a portion of it sets back from the street line two feet shall be added to the height limit of such building or such portion thereof.

(e) In a one and one-quarter times district no building shall be erected to a height in excess of one and one-quarter times the width of the street, but for each foot that the

building or a portion of it sets back from the street line two and one-half feet shall be added to the height limit of such building or such portion thereof.

(f) In a one and one-half times district no building shall be erected to a height in excess of one and one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line three feet shall be added to the height limit of such building or such portion thereof.

(g) In a two times district no building shall be erected to a height in excess of twice the width of the street, but for each one foot that the building or a portion of it sets back from the street line four feet shall be added to the height limit of such building or such portion thereof.

(h) In a two and one-half times district no building shall be erected to a height in excess of two and one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line five feet shall be added to the height limit of such building or such portion thereof.

§ 9. *Height District Exceptions.* (a) On streets less than 50 feet in width the same height regulations shall be applied as on streets 50 feet in width and, except for the purposes of paragraph d of this section, on streets more than 100 feet in width the same height regulations shall be applied as on streets 100 feet in width.

(b) Along a narrower street near its intersection with a wider street, any building or any part of any building fronting on the narrower street within 100 feet, measured at right angles to the side of the wider street, shall be governed by the height regulations provided for the wider streets. A corner building on such intersecting streets shall be governed by the height regulations provided for the wider street for 150 feet from the side of such wider street, measured along such narrower street.

(c) Above the height limit at any level for any part of a building a dormer, elevator bulkhead or other structure may be erected provided its frontage length on any given street be not greater than 60 per cent. of the length of such street frontage of such part of the building. Such frontage length of such structure at any given level shall be decreased by an amount equal to one per cent. of such street frontage of such part of the building for every foot such level is above such height limit. If there are more than one such structure, their aggregate frontage shall not exceed the frontage length above permitted at any given level.

(d) If the area of the building is reduced so that above given level it covers in the aggregate not more than 25 per cent. of the area of the lot, the building above such level shall be excepted from the foregoing provisions of this article. Such portion of the building may be erected to any height, provided that the distance which it sets back from the street line on each street on which it faces, plus half of the width of the street, equals at least 75 feet. But for each one per cent. of the width of the lot on the street line that such street wall is less in length than such width of the lot, such wall may be erected four inches nearer to the street line.

(e) When at the time plans are filed for the erection of a building there are buildings in excess of the height limits herein provided within 50 feet of either end of the street frontage of the proposed building or directly opposite such building across the street, the height to which the street wall of the proposed building may rise shall be increased by an amount not greater than the average excess height of the walls on the street line within 50 feet of either end of the street frontage of the proposed building and at right angles to the street frontage of the proposed building on the opposite side of the street. The average amount of such excess height shall be computed by adding together the excess heights above the prescribed height limit for the street frontage in question of all of the walls on the street line of the buildings and parts of buildings within the above defined

NOTICE

frontage and dividing the sum by the total number of buildings and vacant plots within such frontage.

(f) Nothing in this article shall prevent the projection of a cornice beyond the street wall to an extent not exceeding five per cent. of the width of the street nor more than five feet in any case. Nothing in this article shall prevent the erection above the height limit of a parapet wall or cornice solely for ornament and without windows extending above such height limit not more than five per cent. of such height limit, but such parapet wall or cornice may in any case be at least five and one-half feet high above such height limit.

(g) The provisions of this article shall not apply to the erection of church spires, belfries, chimneys, flues or gas holders.

(h) Where not more than 50 feet of a street frontage would otherwise be subjected to a height limit lower than that allowed immediately beyond both ends of such frontage, the height limit on such frontage shall be equal to the lesser of such greater height limits.

(i) If an additional story or stories are added to a building existing at the time of the passage of this resolution, the existing walls of which are in excess of the height limits prescribed in this article, the height limits for such additional story or stories shall be computed from the top of the existing walls as though the latter were not in excess of the prescribed height limits and the carrying up of existing elevator and stair enclosures shall be exempted from the provisions of this article.

Article IV—Area Districts.

§ 10. *Area Districts.* For the purpose of regulating and determining the area of yards, courts and other open spaces for buildings hereafter erected, the City of New York is hereby divided into six classes of area districts: A, B, C, D, E and F; as shown on the amended area district map which accompanies this resolution and is hereby declared to be part hereof. The area districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended area district map designations and amended map designation rules which accompany said amended area district map are hereby declared to be a part thereof. No building or part of a building shall be erected except in conformity with the regulations herein prescribed for the area district in which such building is located. Unless otherwise expressly provided the term rear yard, side yard, outer court or inner court when used in this article shall be deemed to refer only to a rear yard, side yard, outer court or inner court required by this article. No lot area shall be so reduced or diminished that the yards, courts or open spaces shall be smaller than prescribed in this article.

§ 11. *A Districts.* In an A district a court at any given height shall be at least one inch in least dimension for each one foot of such height.

§ 12. *B District.* In a B district a rear yard at any given height shall be at least two inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. An outer court or a side yard at any given height shall be at least one inch in least dimension for each one foot of such height. An outer court at any given point shall be at least one and one-half inches in least dimension for each one foot of length. But for each one foot that an outer court at any given height would, under the above rules, be wider in its least dimension for such height than the minimum required by its length, one inch shall be deducted from the required least dimension for such height for each 24 feet of such height. A side yard for its length within 50 feet of the street may for the purposes of the above rule be considered an outer court.

§ 13. *C Districts.* (a) In a C district a rear yard at any given height shall be at least three inches in least dimension

for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. An outer court or a side yard at any given height shall be at least one and one-half inches in least dimension for each one foot of such height. An outer court at any given point shall be at least one and one-half inches in least dimension for each one foot of length. On a lot not more than 30 feet in mean width an outer court or a side yard at any given height shall be not less than one inch in least dimension for each one foot of such height, and an inner court at any given height shall be either (1) not less than two inches in least dimension for each one foot of such height or (2) it shall be of an equivalent area as hereinafter specified in paragraph c of section 18.

(b) If the owner or owners of any part of a C district set aside perpetually for the joint recreational use of the residents of such part designated by them, an area at least equal to 10 per cent. of the area of such part in addition to all yard and court requirements for a B district, such part shall be subject to the regulations herein prescribed for a B district. Such joint recreational space shall be composed of one or more tracts, each of which shall be at least 40 feet in least dimension and 5,000 square feet in area and shall be approved by the Board of Appeals as suitable for the joint recreational use of such residents.

§ 14. *D Districts.* (a) In a D district a rear yard at any given height shall be at least four inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. If a building in a D district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 20 per cent. of the depth of the lot, but need not exceed 20 feet at such level. However, for each one foot in excess of 10 feet of the depth of such rear yard at its lowest level, there may be substituted one foot of depth of unoccupied space across the whole width of the front of the lot at the curb level between the street line and the street wall of the building.

(b) In a D district an outer court or a side yard at any given height shall be at least two inches in least dimension for each one foot of such height. An outer court at any given point shall be at least two inches in least dimension for each one foot of length. On a lot not more than 30 feet in mean width an outer court or a side yard at any given height shall be not less than one and one-half inches in least dimension for each one foot of such height. On such lot an outer court at any given point shall be not less than one and one-half inches in least dimension for each one foot of length. On such lot an inner court at any given height shall be either (1) not less than three inches in least dimension for each one foot of such height or (2) it shall be of an equivalent area as specified in paragraph c of section 18.

(c) In a D district no building located within a residence district as designated on the amended use district map shall occupy at the curb level more than 60 per cent. of the area of the lot, if an interior lot, or 80 per cent. if a corner lot. In computing such percentage any part of the area of any corner lot in excess of 8,000 square feet shall be considered an interior lot.

(d) If the owner or owners of any part of a D district set aside perpetually for the joint recreational use of the residents of such part designated by them, an area at least equal to 10 per cent. of the area of such part in addition to all yard and court requirements for a C district, such part shall be subject to the regulations herein prescribed for a C district. Such joint recreational space shall be composed of one or more tracts, each of which shall be at least 40 feet in least dimension and 5,000 square feet in area and shall be approved by the Board of Appeals as suitable for the joint recreation use of such residents.

NOTICE

§ 15. *E Districts.* (a) In an E district a rear yard at any given height shall be at least five inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 15 per cent. of the depth of the lot, but need not exceed 15 feet at such level. If a building in an E district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 25 per cent. of the depth of the lot, but need not exceed 25 feet at such level. However, for each one foot in excess of 10 feet of the depth of such rear yard at its lowest level, there may be substituted one foot of depth of unoccupied space across the whole width of the front of the lot at the curb level between the street line and the street wall of the building. In an E district on at least one side of every building located within a residence district there shall be a side yard along the side lot line for the full depth of the lot or back to the rear yard.

(b) In an E district an outer court or side yard at any given height shall be at least two and one-half inches in least dimension for each one foot of such height. On a lot not more than 50 feet in mean width an outer court or a side yard at any given height shall be at least two inches in least dimension for each one foot of such height. An outer court at any given point shall be at least two and one-half inches in least dimension for each one foot of length.

(c) In an E district no building located within a residence district as designated on the amended use district map shall occupy at the curb level more than 50 per cent. of the area of the lot, if an interior lot, or 70 per cent. if a corner lot, and above a level 18 feet above the curb no building shall occupy more than 30 per cent. of the area of the lot, if an interior lot, or 40 per cent. if a corner lot. In computing such percentage any part of the area of any corner lot in excess of 8,000 square feet shall be considered an interior lot.

(d) In an E district no portion of any building shall be erected nearer than 10 feet to the line of any street as laid out upon the City map.

§ 16. *F Districts.* (a) In an F district no portion of any building shall be erected nearer than 15 feet to the building line of any street.

(b) In an F district a rear yard at any given height shall be at least six inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 20 per cent. of the depth of the lot, but need not exceed 20 feet at such level. Excepting that if a building in an F district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 30 per cent. of the depth of the lot, but need not exceed 30 feet at such level. However, for each one foot in excess of 15 feet of the depth of such rear yard at its lowest level there may be substituted one foot of additional depth of unoccupied space to that hereinbefore provided across the whole width of the front of the lot at the curb level between the street line and the street wall of the building. In an F district, on both sides of every dwelling there shall be a side yard along the side lot line for the full depth of the lot or back to the rear yard. For every residential building located in a residence district both sides of such building shall be capable of being afforded direct light, air and access upon such side yards, for its entire length.

(c) In an F district an outer court or side yard at any given height shall be at least three inches in least dimension for each one foot of such height, excepting that on a lot not more than 50 feet in mean width an outer court or a side yard at any given height shall be at least two and one-half inches in least dimension for each one foot of such height. An outer court at any given point shall be at least three inches in least dimension for each one foot of length.

(d) In an F district no building shall occupy at the curb level more than 35 per cent. of the area of the lot, if an

interior lot, or 50 per cent. if a corner lot, and above a level 18 feet above the curb no building shall occupy more than 25 per cent. of the area of the lot, if an interior lot, or 30 per cent. if a corner lot, exclusive in each case of garages. In computing such percentage any part of the area of any corner lot in excess of 6,000 square feet shall be considered an interior lot.

§ 17. *Rear Yards.* (a) Except in A districts, for lots or portions of lots that are back to back there shall be rear yards extending along the rear lot lines of such lots or portions of lots wherever they are more than 55 feet back from the nearest street. Such rear yard shall be at least of the area and dimensions herein prescribed for the area district in which it is located at every point along such rear lot line. Within 55 feet of the nearest street no rear yards shall be required, except in F area districts. No rear yard shall be required on any corner lot nor, excepting in an F area district, on the portion of any lot that is back to back with a corner lot.

(b) Where a building is not within a residence district as designated on the amended use district map, the lowest level of a rear yard shall not be above the sill level of the second story windows, nor in any case more than 23 feet above the curb level. Where a building is within a residence district the lowest level of a rear yard shall not be above the curb level, except that not more than 40 per cent. of the area of the yard may be occupied by the building up to a level 18 feet above the curb level. In the case of a church, whether within or without a residence district, such 40 per cent. may be occupied up to a level of 30 feet above the curb level.

(c) Chimneys or flues may be erected within a rear yard provided they do not exceed five square feet in area in the aggregate and do not obstruct ventilation.

(d) Except in A districts, where a building on an interior lot between lots for which rear yards are required runs through the block from street to street or to within 55 feet of another street, there shall be on each side lot line above the sill level of the second story windows and in any case above a level 23 feet above the curb level a court of at least equivalent area at any given height to that required for an inner court at such height and having a least dimension not less than that required for an outer court at the same height.

(e) When a proposed building is on a lot which is back to back with a lot or lots on which there is a building or buildings having rear yards less in depth than would be required under this article, the depth of the rear yard of the proposed building shall not be required to be greater at any given level than the average depth of the rear yards directly back to back with it at such level, but in no case shall the depth of such rear yard be less at any height than the least dimension prescribed for an outer court at such height.

§ 18. *Courts.* (a) If a room in which persons live, sleep, work or congregate receives its light and air in whole or in part directly from an open space on the same lot with the building, there shall be at least one inner court, outer court, side yard or rear yard upon which a window or ventilating skylight opens from such room. Such inner court, outer court or side yard shall be at least of the area and dimensions herein prescribed for the area district in which it is located. Such rear yard shall be at least of the area and dimensions herein prescribed for an inner court in the area district in which it is located. In an A district, such inner court, outer court, side yard or rear yard shall be at least of the area and dimensions herein prescribed for a court in such district. The unoccupied space within the lot in front of every part of such window shall be not less than three feet, measured at right angles thereto. Courts, yards and other open spaces, if provided in addition to those required by this section, need not be of the area and dimensions herein prescribed. The provisions of this section shall not be deemed to apply to courts or shafts for bathrooms, 'oilet compartments, hallways or stairways.

NOTICE

(b) The least dimension of an outer court, inner court or side yard at its lowest level shall be not less than four feet, subject to the following exceptions:

(1) Where the walls bounding a side yard within the lot are more than 25 feet in mean height and not more than 40 feet in length such least dimension may be not less than three feet.

(2) In an E district such least dimension shall be four feet.

(3) In an F district such least dimension shall be five feet.

(4) Where any outer court opens on a street such street may be considered as part of such court.

(c) The least dimension of an inner court at any given height shall be not less than that which would be required in inches for each one foot of height for a rear yard of the same height, except that an inner court of equivalent area may be substituted for said court, provided that for such area its least dimension be not less than one-half of its greatest dimension. If an inner court is connected with a street by a side yard, for each one foot that such side yard is less than 65 feet in depth from the street, one square foot may be deducted from the required area of the inner court for each 15 feet of height of such court. If the lot is not required under this resolution to have a rear yard, an outer court, not opening on a street, shall open at any level on an inner court on the rear line of the lot and such inner court shall be deemed a rear yard in such case.

§ 19. *Area District Exceptions.* (a) The area required in a court or yard at any given level shall be open from such level to the sky unobstructed, except for the ordinary projections of skylights and parapets above the bottom of such court or yard, and except for the ordinary projections of window sills, belt courses, cornices and other ornamental features to the extent of not more than four inches. However, where a side yard or an outer court opens on a street a cornice may project not over five feet into such side yard or outer court within five feet of the street wall of the building. And provided that in an E district a one-family residence, detached on all sides and having on one side a side yard of a clear and unobstructed width of not less than five feet, may have a cornice or eave projecting not more than 2 feet 6 inches into a side yard on the opposite side, with the further provision that in an F district such cornice or eave, or a porte-cochere having a height of less than 18 feet, may project not more than 3 feet into both side yards.

(b) An open or lattice enclosed iron fire escape, fireproof outside stairway or solid-floored balcony to a fire tower may project not more than 4 feet into a rear yard or an inner court, except that an open or lattice enclosed iron fire escape may project not more than 8 feet into a rear yard or into an inner court when it does not occupy more than 20 per cent. of the area of such inner court.

(c) A corner of a court or yard may be cut off between walls of the same building provided that the length of the wall of such cut-off does not exceed 7 feet.

(d) An offset to a court or yard may be considered as a part of such court or yard provided that it is no deeper in any part than it is wide on the open side and that such open side be in no case less than 6 feet wide.

(e) If a building is erected on the same lot with another building the several buildings shall, for the purpose of this article, be considered as a single building, unless otherwise herein specifically provided for. Any structure, whether independent of or attached to a building, shall for the purposes of this article be deemed a building or a part of a building.

(f) If an additional story or stories are added to a building existing at the time of the passage of this resolution, the courts and yards of which do not conform to the requirements of this article, the least dimensions of yards and courts shall be increased from the top of the existing yard or court walls, as though they were of the prescribed dimensions at such heights and the carrying up of existing elevator

and stair enclosures shall be exempted from the provisions of this article.

Article V—General and Administrative.

§ 20. *Interpretation; Purpose.* In interpreting and applying the provisions of this resolution, they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by this resolution to repeal, abrogate, annul or in any way to impair or interfere with any existing provision of law or ordinance or any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to law relating to the use of buildings or premises; nor is it intended by this resolution to interfere with or abrogate or annul any easements, covenants or other agreements between parties; provided, however, that where this resolution imposes a greater restriction upon the use of buildings or premises or upon height of buildings or requires larger yards, courts or other open spaces than are imposed or required by such existing provision of law or ordinance or by such rules, regulations or permits or by such easements, covenants or agreements, the provisions of this resolution shall control.

§ 21. *Rules and Regulations; Modifications of Provisions.* The Board of Standards and Appeals, created by chapter 503 of the Laws of 1916, shall adopt from time to time such rules and regulations as they may deem necessary to carry into effect the provisions of this resolution. Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the provisions of this resolution the Board of Appeals shall have power in a specific case to vary any such provision in harmony with its general purpose and intent, so that the public health, safety and general welfare may be secured and substantial justice done. Where the street layout actually on the ground varies from the street layout as shown on the amended use, height or area district map, the designation shown on the mapped areas shall be applied by the Board of Appeals to the unmapped streets in such a way as to carry out the intent and purpose of the plan for the particular section in question. Before taking any action authorized in this section the Board of Appeals shall give public notice and hearing.

No garage for more than five cars may be erected or extended and no building not now used as a garage for more than five cars may have its use changed to a garage for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school; or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the nearest exit from or entrance to a public school; nor within 200 feet of any hospital maintained as a charitable institution. This protection shall also apply to duly organized schools for children under 16 years of age, giving regular instruction at least five days a week for eight months or more each year, owned and operated by any established religious body or educational corporation. This limitation on the location of garages shall apply to unrestricted as well as business and residence districts.

§ 22. *Unlawful Use; Certificate of Occupancy.* It shall be unlawful to use or permit the use of any building or premises or part thereof hereafter created, erected, changed or converted wholly or partly in its use or structure until a certificate of occupancy to the effect that the building or premises or the part thereof so created, erected, changed or converted and the proposed use thereof conform to the provisions of this resolution shall have been issued by the superintendent of buildings of the borough in which such building or premises is located, or, in the case of a tenement house as defined in the Tenement House Law, by the tenement house commissioner. In the case of such buildings or premises it shall be the duty of the superintendent of buildings or the tenement house commissioner, as the case may

NOTICE

be, to issue a certificate of occupancy within ten days after a request for the same shall be filed in his office by any owner of a building or premises affected by this resolution, provided said building or premises, or the part thereof so created, erected, changed or converted and the proposed use thereof conform with all the requirements herein set forth. Under rules and regulations of the Board of Standards and Appeals a temporary certificate of occupancy for a part of a building may be issued by the superintendent of buildings or the tenement house commissioner, as the case may be. Upon written request from the owner, the superintendent of buildings or the tenement house commissioner, as the case may be, shall issue a certificate of occupancy for any building or premises existing at the time of the passage of this resolution certifying after inspection the use of the building or premises and whether such use conforms to the provisions of this resolution.

§ 23. *Enforcement, Legal Procedure, Penalties.* This resolution shall be enforced by the tenement house commissioner, the fire commissioner and by the superintendent of buildings in each borough under the rules and regulations of the Board of Standards and Appeals. The tenement house commissioner shall enforce the provisions herein contained in so far as they affect or relate to tenement houses as defined by the Tenement House Law. The superintendent of buildings in each borough shall enforce the provisions herein contained in so far as they relate to buildings or premises other than tenement houses. The fire commissioner shall enforce the provisions herein contained in so far as they relate to the use of completed buildings or premises, or part thereof, other than tenement houses. For any and every violation of the provisions of this resolution or of the rules and regulations adopted thereunder, the owner, general agent or contractor of a building or premises where such violation has been committed or shall exist, and the lessee or tenant of an entire building or entire premises where such violation has been committed or shall exist, and the owner, general agent, contractor, lessee or tenant of any part of a building or premises in which part such violation has been committed or shall exist, and the general agent, architect, builder, contractor or any other person who commits, takes part or assists in such violation or who maintains any building or premises in which any penalties as are prescribed in any law, statute or ordinance for violations of the Building Code, and

for such violations the same legal remedies shall be had and they shall be prosecuted in the same manner as prescribed in any law or ordinance in the case of violations of said Building Code.

§ 24. *Amendments, Alterations and Changes in District Lines.* The Board of Estimate and Apportionment may from time to time on its own motion or on petition, after public notice and hearing, amend, supplement or change the regulations and districts herein established. Whenever the owners of 50 per cent. or more of the frontage in any district or part thereof shall present a petition duly signed and acknowledged to the Board of Estimate and Apportionment requesting an amendment, supplement, change or repeal of the regulations prescribed for such district or part thereof, it shall be the duty of the Board to vote upon said petition within 90 days after the filing of the same by the petitioners with the secretary of the Board. If, however, a protest against such amendment, supplement or change be presented, duly signed and acknowledged by the owners of 20 per cent. or more of any frontage proposed to be altered, or by the owners of 20 per cent. of the frontage immediately in the rear thereof, or by the owners of 20 per cent. of the frontage directly opposite the frontage proposed to be altered, such amendment shall not be passed except by the unanimous vote of the Board. If any area is hereafter transferred to another district by a change in district boundaries by an amendment, as above provided, the provisions of this resolution in regard to buildings or premises existing at the time of the passage of this resolution shall apply to buildings or premises existing at the time of passage of such amendment in such transferred area.

§ 25. *Restoration of Existing Buildings.* Nothing in this resolution shall prevent the restoration of a building wholly or partly destroyed by fire, explosion, act of God or act of the public enemy or prevent the continuance of the use of such building or part thereof as such use existed at the time of such destruction of such building or part thereof or prevent a change of such existing use under the limitations provided in section 6. Nothing in this resolution shall prevent the restoration of a wall declared unsafe by the superintendent of buildings or by a board of survey.

§ 26. *When Effective.* The zoning resolution of July 25, 1916, and all amendments thereto are hereby declared superseded by this resolution, which shall take effect immediately.

NOTICE

APPENDIX—MAP DESIGNATIONS AND MAP DESIGNATION RULES ACCOMPANYING AMENDED BUILDING ZONE RESOLUTION.

(Adopted October 3, 1924)

AMENDED HEIGHT DISTRICT MAP DESIGNATIONS.

— — — — — indicates the boundary of a Height District.
($\frac{1}{4}$) ($\frac{1}{2}$) ($\frac{3}{4}$) (1) ($1\frac{1}{4}$) ($1\frac{1}{2}$) (2) ($2\frac{1}{2}$) are symbols for district classifications as defined in the zoning resolution.

AMENDED HEIGHT DISTRICT MAP DESIGNATION RULES.

1. An area surrounded by a district boundary line shall be in the Height District designated therein, except as otherwise provided by these rules.

2. The boundaries of Height Districts shall be the limiting line to which the regulations provided in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In cases where the district boundary is within a block and extends along the direction of the length thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the bounding street lying within the less restrictive district.

(b) In cases where the district boundary is within a block and extends along the direction of the width thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the nearest street.

(c) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(d) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(e) In cases where a boundary line is shown along a railroad, such boundary shall be deemed to be the center line of the railroad right of way.

(f) In cases of navigable waters, the boundary line, unless otherwise fixed, shall be deemed to coincide with the pierhead line, except in cases where no pierhead line has been established, when the shore line shall govern.

(g) Any island outside of the shore or pierhead lines, unless otherwise designated, shall be deemed to be in a $1\frac{1}{2}$ -times height district.

NOTICE

AMENDED AREA DISTRICT MAP DESIGNATIONS.

indicates the boundary of an Area District.

(A) (B) (C) (D) (E) (F) are symbols for district classifications as defined in the zoning resolution.

AMENDED AREA DISTRICT MAP DESIGNATION RULES.

1. An area surrounded by a district boundary line shall be in the Area District designated therein, except as otherwise provided by these rules.

2. The boundaries of Area Districts shall be the limiting line to which the regulations provided in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In cases where the district boundary is within a block and extends along the direction of the length thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the bounding street lying within the less restrictive district.

(b) In cases where the district boundary is within a block and extends along the direction of the width thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the nearest street.

(c) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(d) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(e) In cases where a boundary line is shown as adjoining a railroad, unless otherwise fixed, it shall be deemed to coincide with the boundary line of the railroad right of way.

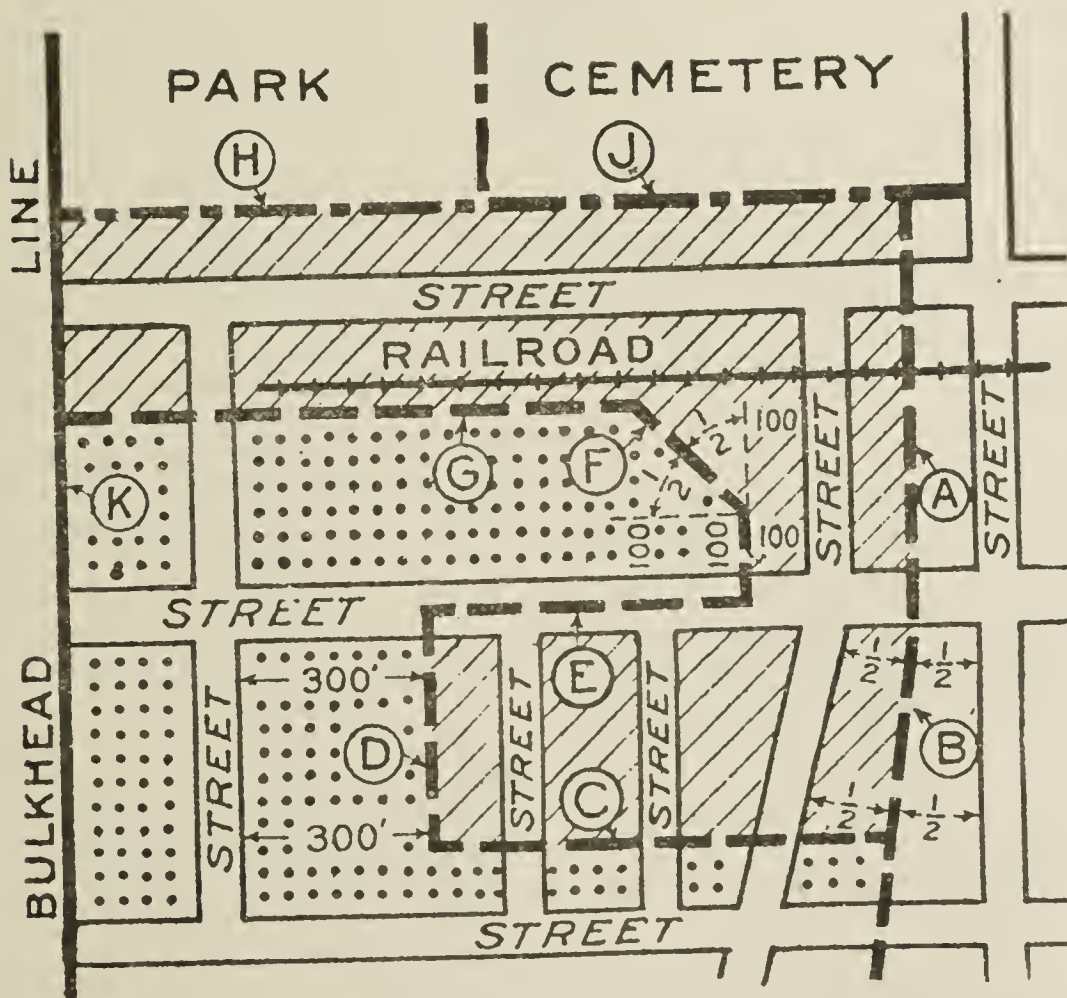

(f) In cases of navigable waters the boundary line, unless otherwise fixed, shall be deemed to coincide with the bulkhead line, except in cases where no bulkhead line has been established, when the shore line shall govern.

(g) Any island outside of the shore or bulkhead lines, unless otherwise designated, shall be deemed to be in an A district.

AMENDED USE DISTRICT MAP DESIGNATIONS.

	indicates the boundary of a Use District.
	indicates Residence District.
	indicates Business District.
	indicates Unrestricted District.
	indicates Undetermined District for which no restrictions or regulations as to use have been established.

*Diagram Illustrating Methods Used in Fixing Boundaries
of Use Districts.*

AMENDED USE DISTRICT MAP DESIGNATION RULES.

1. In general Use Districts are intended to have a depth of 100 feet. Where block widths are less than 200 feet and

no fixtures are shown, the district boundary is intended to be 100 feet from the street to which the less restrictive designation relates.

NOTICE

2. The boundaries of Use Districts shall be the limiting line to which uses permissible in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In case of parallel streets, unless otherwise fixed, the Use District boundary shall coincide with the center line of the block.

(b) In case of streets which are not parallel, the Use District boundary, unless otherwise fixed, shall be construed as the bisector of the angle formed by prolonging the street lines to an intersection.

(c) In cases where a block has a length in excess of 200 feet and the boundary line is parallel with and nearer one of the bounding streets, unless otherwise fixed, its position shall be considered as distant 100 feet from the nearest street.

(d) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(e) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(f) In cases where a boundary line is shown as having a position oblique to the streets bounding the block in which it is located, unless otherwise fixed, it shall be deemed to be the bisector of the angle formed by intersecting lines 100 feet from and parallel with the bounding streets, the said distance being measured at right angles or normal to the street lines.

(g) In cases where a boundary line is shown as adjoining a railroad, unless otherwise fixed, it shall be deemed to coincide with the boundary line of the railroad right of way.

(h-j-k) In cases of parks, cemeteries and navigable waters, the boundary line, unless otherwise fixed, shall be deemed to coincide with the boundary of the park, or the cemetery, or the bulkhead line, except in cases where no bulkhead line has been established, when the shore line shall govern.

4. Where two streets cross at different levels, the use designation of the lower street shall control, except that when the use designation of the lower street is less restrictive it shall control only to the curb level of the higher street. Above the curb level of the higher street the more restrictive designation shall apply for a distance of 100 feet measured along the intersecting streets from each street corner.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or department actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

IMPORTANT NOTICE

AMENDMENTS TO BUILDING ZONE RESOLUTION

Notice is hereby given that the Board of Estimate and Ap-
portionment adopted on October 3, 1924, and amended
on January 9, 1925, a Resolution Regulating and Limiting
the Height and Bulk of Buildings Hereafter Erected and
Regulating and Determining the Area of Yards, Courts
and Other Open Spaces, and Regulating and Restricting
the Location of Trades and Industries and the Location of
Buildings Designed for Specified Uses and Establishing the
Boundaries of Districts for the Said Purposes.

FEB 17 1925

See page 166.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the
Building Zone Resolution, and its object is to give inter-
ested property owners opportunity to file objections, if any,
and will be called in Room 919, on Tuesday, February 10,
1925, at 2 o'clock. At this call each case is set for hearing
on a definite day.

The next subsequent Call of the Calendar will be on
Tuesday, February 17, 1925, at 2 o'clock.

The Clerk's Calendar is not to be confused with the
calendar of cases that have been definitely set for hearing
on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in
connection with which court proceedings are pending or in
progress, nor accepted that are not filed within twenty
days from the date of the action of the Administrative Of-
ficial.

Any communication purporting to be an appeal, applica-
tion or petition shall be regarded as a mere notice of in-
tention to seek relief until it is filed on the form required
by the rules of this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his ap-
peal, application or petition, and if he fails to supply the
data required thereon, within twenty days, his case may be
dismissed for lack of prosecution.

At the time of filing an application, the appellant or peti-
tioner shall forward a signed notice of appeal addressed
to the administrative official (either superintendent of build-
ings or fire commissioner) and file with this board a dupli-
cate of said notice.

Petitioners are advised that their plans must indicate the
points of the compass so as to establish the true location and
position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and
expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

CALENDAR

spaces rented to persons not residing on the premises; premises 2251 Grand avenue, northwest corner of Buchanan place, The Bronx.

CAL. NO 922-24-BZ—Application, July 11, 1924, under the building zone resolution, of McKim, Mead and White, applicants, on behalf of Savoy Hotel Corp., owner, to per-

mit in a business two-times height district the erection of the street walls to a height exceeding the limit prescribed by the zone resolution; premises 761-767 Fifth avenue, 2-14 East 59th street and 1-11 East 58th street, Manhattan.

WILLIAM E. WALSH, *Chairman*.

MINUTES

BOARD OF APPEALS

SPECIAL MEETING.

FRIDAY AFTERNOON, JANUARY 30, 1925.

Present: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon.

APPEAL FROM ADMINISTRATIVE ORDER.

1096-24-A.

APPELLANT—Frederick Fox & Co., Inc., for Esther Polsky, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—30 Great Jones street, Manhattan.

APPEARANCES—

For Appellant: Alexander C. McNulty.

For Administration: Martin Murphy, assistant corporation counsel; Inspector Maher of fire department; George A. Brown, chief clerk, bureau of buildings, Borough of Queens.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon	7
Absent	0

THE RESOLUTION:

(1096-24-A)

WHEREAS, Frederick Fox & Co., Inc., for Esther Polsky, owner, filed, September 3, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 30 Great Jones street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 63454-F, dated August 12, 1924, reads:

“1. Provide an approved gas shut-off valve * * *”; and

WHEREAS, the building is non-fireproof, eight stories in height, 26 ft. by 104 ft. 7 in. in area; OCCUPIED for manufacturing, 175 persons above the 1st story; and

WHEREAS, appellant contends that the fire commissioner has no authority to make and serve this order; and that the order requires the owner of the premises to install a device to safeguard the property of the gas company; that the ordinance is inconsistent with the provisions of the Public Service Commission Law; that the ordinance is unreasonable; that there is no approved gas shut-off valve within the meaning of said order; that the charter provisions prohibit the fire commissioner from ordering any householder from using any patented article; and the rules of the board of standards and appeals are arbitrary.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

Adjourned 4.45 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

MINUTES

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon

Negative

Absent

THE RESOLUTION:

(1326-24-A)

WHEREAS, Cornell Utilities Co., Inc., for Miss Lenore Ulric, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 254 West 75th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered October 10, 1924, in acting on Alteration Application No. 1689-24, reads:

"2. (a) Tank will be tested in presence of Fire Department Representative and afterwards coated with suitable rust resisting material.

"4. Burner must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is non-fireproof, three stories in height, 18 ft. 6 in. by 52 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 200 gallon fuel oil storage tank buried outside the building, a 55 gallon auxiliary tank and a

MINUTES

NoKol burner with the necessary valves and piping; and WHEREAS, appellant contends that the system was installed in conformity with the 1922 Rules and requests the acceptance of a sworn affidavit that the tank has undergone a pop test and further requests, in lieu of a hydrostatic test, the acceptance of a statement to the effect that all piping is standard wrought iron piping.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby *granted* as to Item 2-a on condition that certificate of factory test shall be filed with the fire commissioner; as to Item 4 on condition that door to fire box of boiler shall be equipped with self-closing device; and that the fuel oil rules of the board of standards and appeals shall be complied with in all other respects.

1327-24-A.

APPELLANT—Cornell Utilities Co., Inc., for C. M. Munsch, owner.

SUBJECT—Appeal from decision of fire commissioner. PREMISES AFFECTED—410 East 50th street, Manhattan.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

THE RESOLUTION:

(1327-24-A)

WHEREAS, Cornell Utilities Co., Inc., for C. M. Munsch, owner, filed, November 8, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 410 East 50th street, Manhattan; and WHEREAS, the decision of the fire commissioner, rendered October 25, 1924, in acting on Alteration Application No. 293-23, reads:

"1. (a) Tank will be tested in presence of Fire Department Representative and afterwards coated with suitable rust resisting material.
"2. Piping must be tested in presence of a Fire Department Representative.
"3. Burner must be of a type approved by the Board of Standards and Appeals."

WHEREAS, the building is fireproof, four stories in height, 18 ft. by 40 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 525 gallon fuel oil storage tank, a 55 gallon auxiliary tank (located within 6 ft. of the burner), NoKol burner and the necessary valves and pipings; and WHEREAS, appellant contends that the system was installed in conformity with the 1922 Rules and requests the acceptance of a sworn affidavit that the tank has undergone a pop test and further requests, in lieu of a hydrostatic test, the acceptance of a statement to the effect that all piping is standard wrought iron piping.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby *granted* as to Item 1 on condition that certificate of factory test shall be filed with the fire commissioner; as to Item 2 on condition that standard wrought-iron pipe shall be used throughout the fuel oil installation; and as to Item 3 on condition that the door to fire box of boiler shall be equipped with self-closing device and that the remainder of the equipment shall be installed in accordance with the fuel oil rules in all other respects.

1364-24-A.

APPELLANT—Samuel Rosenblum, for J. G. & A. C. Stabile, owners.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—164 Mulberry street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

THE RESOLUTION:

(1364-24-A)

WHEREAS, Samuel Rosenblum, for J. G. & A. C. Stabile, owners, filed, November 18, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 164 Mulberry street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 16, 1924, reads:

"1. Provide a separate and distinct system of AUTOMATIC SPRINKLERS throughout building having at least one source of water supply arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919."

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 100 ft. in area at 1st story and 25 ft. by 82 ft. in area above. OCCUPIED: 1st story, sorting and packing paper and rags, 7 persons; upper stories for the manufacturing of chairs, 18 persons above the 1st story; and

WHEREAS, appellant contends, having complied with an order of the fire department requiring protection on the 1st story to separate the paper and rag use from the rest of the premises, and contends further that the building is small in area, height and occupancy; and that ample exits are provided.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1385-24-A.

APPELLANT—Cornell Utilities Co., Inc., for L. Siegel, owner.

SUBJECT—Appeal from decision of fire commissioner.

WHEREAS, the order of the fire commissioner, dated January 25, 1924, reads:

"Inspection made of your dwelling on January 2, 1924, showed that you are operating a fuel oil burning equipment which does not conform with the Fuel Oil Rules adopted by the Board of Standards and Appeals on November 6, 1919.

"You are therefore, hereby, ordered to:

"1. Discontinue the storage and use of fuel oil on these premises."

WHEREAS, the building is non-fireproof, three stories and basement in height, 23 ft. 6 in. by 75 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 48 gallon tank, a NoKol burner and the necessary valves and piping; and

WHEREAS, this case was dismissed by the board on November 25, 1924, and reopened by the vote of the board December 30, 1924; and

WHEREAS, appellant requests permission to store 25 gallons of fuel oil pending the approval of the burner.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, for a temporary period of ninety (90) days, on condition that the total storage of fuel oil maintained on premises shall not exceed 25 gallons, pending determination by the board of standards and appeals on petition respecting approval of NoKol burner; and that appellant execute plans in fire department in the meantime.

11-24-A.

APPELLANT—Israel Fishman, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—307 Snediker avenue, Brooklyn.

THE RESOLUTION:

(1411-24-A)

WHEREAS, Israel Fishman, owner, filed, November 28, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 307 Snediker avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner reads:

"Order No. 90899-C:

"YOU ARE HEREBY ORDERED AND REQUIRED, FORTHWITH

"Surrender to bearer Fire Department Permit 111269 issued to you on March 11th, 1924, to expire on January 17th, 1925, authorizing the storage of three (3) gallons of Benzine and fifteen (15) gallons of enamel in the business conducted by you on the above premises as it is revoked for the reason that the safe conduct of your business requires that you comply with the following:

"Separate the boiler from compartment where benzine is used by an unpierced wall of solid masonry at least 8 inches in thickness. Sec. 10, Chap. 10, Code of Ord.";

and

WHEREAS, the building is frame, two stories and basement in height, 15 ft. by 100 ft. in area. OCCUPIED: Basement, bed spring factory (with a 15 gallon dipping tank in which three gallons of benzine are used in the mixture, the tank being separated from the boiler room by a 6 in. brick partition wall with an unprotected opening therein); upper stories, dwellings; and

WHEREAS, appellant proposes to protect the openings in the partition wall separating the dipping room from the boiler room by installing therein a fireproof door.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that there shall be no benzine conveyed through the boiler room for use in the process of business conducted on the premises; and that the horizontal exit between the work shop and boiler room shall be equipped with a self-closing, fireproof door, with rabbeted jamb; and granted only so long as conditions otherwise as to occupancy and use remain unchanged.

BUILDING ZONE CASES

1057-24-BZ.

THE RESOLUTION:

(1266-24-BZ)

WHEREAS, Philip J. Sinnott, for Martha Vanson, owner, filed, October 24, 1924, an application, under the building zone resolution, to permit in a business district the conversion of occupancy of an existing building used as a dwelling and also a garage for the storage of five motor vehicles to a milk distributing station; premises 5612 Eighteenth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Eighteenth avenue is a business district and 56th street and 57th street are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 4, 1924, reads:

"Premises being occupied as a milk distributing station—contrary to Zone Resolution. You are required to discontinue use of premises for this use at once.";

and

WHEREAS, the building is of non-fireproof construction two stories in height, with a frontage of 40 ft. and a depth of 82 ft.; occupied as a garage for five motor vehicles and dwelling; it is proposed to occupy the premises as a milk distributing station; and

WHEREAS, the board deemed there would be hardship in preventing applicant from carrying on his business, which was technically a milk distributing station.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that there shall be no raw milk broken up or recanned on the premises; that the existing limited ice-box facilities, as indicated on plans filed in this case, shall not be extended or increased; that the rear and gable walls shall be unpierced, except for one door, equipped with a self-closing attachment, and not exceeding a width of 3 ft. 6 in., opening into the rear yard, property in the same ownership; that there shall be no signs, other than the existing painted title on street front, permitted or exposed on the structure; and that there shall be no gasoline storage equipment installed or maintained on the premises.

14-24-BZ.

APPLICANT—Virginia M. Mollenhauer, for Michael Kelly, owner.

SUBJECT—Application re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of five pleasure motor vehicles, four spaces rented to persons not residing on the premises.

PREMISES AFFECTED—2172 Aqueduct avenue, The Bronx.

APPEARANCES—

For Applicant: Virginia M. Mollenhauer.

Absent: 0

THE RESOLUTION:

(14-24-BZ)

WHEREAS, Virginia M. Mollenhauer, for Michael Kelly, owner, filed, January 4, 1924, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of five (5) pleasure motor vehicles; four (4) spaces rented to persons not residing on the premises; premises 2172 Aqueduct avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Aqueduct avenue and Clinton place are residence districts; and

WHEREAS, the order of the fire commissioner, dated December 14, 1923, in acting on Order No. 21327-C, reads:

"1. Discontinue the maintenance of a garage which is not maintained as an accessory use on these premises.";

and

WHEREAS, the building is of non-fireproof construction, one story in height, with a frontage of 45 ft. and a depth of 18 ft.; occupied as a garage for five motor vehicles, space for four of which is rented to persons not residing on premises; and

WHEREAS, a permit was issued by bureau of buildings, whether under misapprehension or misapplication of zoning resolution, for the erecting of said structure and use as indicated in appeal, and as it appears that the owner at least informed the administrative authority presumed to have knowledge of the law, the board feels an equitable adjustment supports at least a temporary use.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the applica-

MINUTES

tion be and it hereby is *granted* for a temporary period of two years from the date of this action, *on condition* that the storage be limited to five cars of the pleasure car type, space for four of which may be rented to persons not residing on the premises, and *on further condition* that no gasoline storage equipment shall be installed on the premises and that there shall be no signs of any nature or description exposed on the premises; and that this permit shall not be extended beyond two years from the date of this action.

119-24-BZ.

APPLICANT—New York Telephone Company.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the alteration and extension of an existing central telephone exchange building.

THE RESOLUTION:

(119-24-BZ)

WHEREAS, New York Telephone Company, owner, filed, January 25, 1924, an application, under the building zone resolution, to permit in a residence district the alteration and extension of an existing central telephone exchange building; premises 2411-2429 Tratman avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Tratman avenue and Rowland avenue are residence districts and Zerega avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 6, 1923, in acting on Alt. Application No. 580-23, reads:

"Proposed extension in height of existing business building extending into residence district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the present central telephone exchange building is "L" shape, two stories in height, 108 ft. by 142 ft. 6 in. in area and it is proposed to add one (1) additional story to the existing structure, thereby making it three (3) stories in height; and

WHEREAS, this case was withdrawn at the meeting held on May 6, 1924, and reopened by vote of the board on November 25, 1924; applicant contends that the great demand for more telephone service in the district is such, that a larger building is necessary for the installation of the required additional switchboards, and under the provisions of section 7, subdivision D, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* a permit for a one-story extension in height, *on condition* that it be maintained and operated exclusively as a telephone exchange; that no trucking, material or supply station be maintained on or

within the building or premises; and that all permits necessary for the prosecution of the work shall be obtained within six months and the building completed within eighteen months from the date of this action.

THE RESOLUTION:

(1089-24-BZ)

WHEREAS, Richard J. Cullinan, for Zengendal Realty Co., owner, filed, August 30, 1924, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 529-33 West 134th street and 532 West 135th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 134th street and West 135th street are residence districts and Broadway is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 12, 1924, in acting on N. B. Application No. 436-1924, reads:

"1. Proposed use as public garage is unlawful in either a residence or business district. Art. II, Building Zone Resolution."

and

WHEREAS, the proposed garage is to be of fireproof construction, three stories in height on West 134th street and one story in height on West 135th street, having a frontage of 70 ft. on West 134th street and 25 ft. on West 135th street. The westerly 10 ft. of the proposed garage is in the business district, the remainder is in the residence district. It is proposed to use the westerly part of the West 135th street section as a store and the remainder of the premises as a garage for the storage of more than five motor vehicles; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the entire structure shall be fireproof throughout; that, on the 135th street front, it shall be limited to one story in height, and for a width of not less than fifteen (15) feet at westerly side and a depth of not less than thirty-eight (38) feet, it shall be limited and operated as a store or shop; that the structure on the 134th street side shall be limited in height to two full stories above grade; that the rear and gable walls shall be unpierced throughout their entire height and length; that the run of any ramp construction on the 135th street front shall be set back not less than thirty-eight feet from the street front of the building; that no vehicular entrance on the 134th street front shall be located within twenty (20) feet of the westerly gable wall; that any gasoline storage equipment installed shall be confined to and located at the extreme easterly gable of the proposed structure; that there shall be no roof signs erected or maintained, and any exterior advertising or display shall be limited to one electric projecting sign hung from the face of the building; that the front elevations, other than show windows of store front, shall be finished in face brick, cement stucco, or natural stone, with architectural terra cotta or stone trimmings;

Resolved, further, that all permits necessary for the

prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

Absent: Fire Chief Kenlon.....	1

THE RESOLUTION:

(1216-24-BZ)

WHEREAS, Samuel Marer, owner, filed, October 12, 1924, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a building to be used for business purposes; premises east side of University avenue, 279.78 ft. north of West 192nd street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that University avenue is a residence district and Kingsbridge road is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 18, 1924, in acting on N. B. Application No. 1617-24, reads:

"Erection of proposed building for business purposes in residence district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 60 ft. and a depth of 50 ft.; to be occupied as stores; and

WHEREAS, owing to the character of the buildings adjoining and the location of the building with respect to the business district, the board deemed that there would be hardship in preventing applicant from making proposed use of premises.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be limited in height to a one-story structure and to the area indicated on the plans filed in this case, namely, sixty (60) foot front by a depth of fifty (50) feet; that the rear and gable walls shall be unpierced throughout their entire height and length, other than one window for ventilation of each dressing room; that the operation of the stores shall be restricted to the conduct of retail shops; that there shall be no all night or Sunday operation of business carried on in these premises; that any sign or advertising display shall be restricted to the show windows and confined exclusively to the plate glass of the store

fronts; that the front elevation, other than the show window construction, shall be finished in white glazed enamel brick, with colored decorative terra cotta panels; that no gasoline selling station shall be maintained or operated on the premises; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

367-24-BZ.

APPLICANT—William F. Doyle, for A. Provenzano, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a portion of a street between two intersecting streets, in which portion there exists an exit from and entrance to a public school, the extension and change of occupancy from a garage for five (5) cars to a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—225 Mott street, Manhattan.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application reopened and resolution modified.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN AND MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell	6
Negative	0
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(367-24-BZ)

WHEREAS, William F. Doyle, for A. Provenzano, owner, filed, March 10, 1924, an application, under the building zone resolution, to permit on a street in which there is an entrance and exit from a public school, the change in occupancy of a garage for five motor vehicles to a garage for nine motor vehicles; premises 225 Mott street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, June 27, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Mott street is an unrestricted district; and

WHEREAS, the decision of the fire commissioner, rendered March 6, 1924, in acting on Alteration Application No. 69-23, reads:

"1. Garage for the storage of more than five cars may not be permitted on the same street in which there is a school.";

and

WHEREAS, the building is non-fireproof, three stories in height, with a frontage of 24 ft. 11 in. and a depth of 99 ft. in the 1st story and 50 ft. 6 in. above. Occupied: 1st story, garage; upper stories, dwelling of owner's family. Proposes to store, in addition to the five motor cars for which a fire department permit has been granted, four more motor vehicles, making a total of seven passenger motor cars and two hearses, all cars to be used as accessory to owner's undertaking business; and

WHEREAS, the board deemed there would be hardship in preventing applicant from conducting his accessory use and business, which has been long established; and

WHEREAS, this application was granted by the board at its meeting, June 27, 1924, on certain conditions and description of premises and due to technical objections raised on the question of "business conducted on premises," and applicant requested a reopening of the case and a modifi-

MINUTES

cation of the resolution, which request was granted by vote of the board.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, only so far as permitted use is to be accessory to the undertaking business, *on condition* that garage storage occupancy shall be restricted to the 1st story rear; that the 1st story throughout and stair-hall enclosure shall be fire-retarded in accordance with the rules of the board of standards and appeals; that egress from garage portion direct to the street shall be maintained by an unobstructed and unpierced, fire-retarded runway; that the garage storage capacity and vehicular occupancy shall be limited to nine vehicles, not less than two of which shall be of the funeral hearse type; that the garage use shall be restricted and limited to storage of motor vehicles, the property of the owner of the premises and used in the conduct of his business; that there shall be no gasoline storage equipment maintained on the premises; and that all necessary permits shall be obtained within sixty days from the date of this action.

1122-23-BZ.

APPLICANT—New York Telephone Company, for Hans E. and Justine F. Zobel, et al., owners.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2-24 Van Sinderen avenue, Brooklyn.

APPEARANCES—

For Applicant: N. H. Egleston.

For Opposition: None.

ACTION OF BOARD—Application reopened and resolution modified.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN AND MODIFY RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6

Negative 0

Absent: Fire Chief Kenlon..... 1

THE RESOLUTION:

(1122-23-BZ)

WHEREAS, the New York Telephone Co., for Hans E. and Justine F. Zobel, et al., owners, filed, September 28, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2-24 Van Sinderen avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 18, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that the westerly portion of Van Sinderen avenue is a business and easterly portion an unrestricted district; that Herkimer street and Fulton street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered August 15, 1923, in acting on App. No. 8260-23, reads:

"A garage for more than five motor vehicles in a business district is contrary to Art. II, Sec. 4 of Zone Resolution.";

and

WHEREAS, this application was granted by vote of the board at its meeting September 30, 1924, and applicant requested a reopening of the case and an amendment of

the description of the building to conform to plans filed, which request was granted by vote of the board; and

WHEREAS, the proposed building is to be of fireproof construction, two stories and basement in height, with a frontage of 200 ft. and a depth of 250 ft., the 1st story for a depth of 175 ft. to be occupied as a garage and the remainder of the structure for conforming uses in a business district; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 83 per cent of the property frontage deemed by the board to be affected; and

WHEREAS, this application was granted by the board at its meeting December 18, 1923, on certain conditions, and applicant requests a modification of the conditions as to the time for obtaining permits.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the height of building be limited to a two-story fireproof structure; that the garage use be restricted to the 1st story and maintained and used only in the conduct of the business of the New York Telephone Company; *on further condition* that the rear and gable walls shall be unpierced, unless opening on property in the ownership of the New York Telephone Company; that the front elevations be finished with face brick and architectural terra cotta or stone trimmings;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months from the date of this action, and the building completed within eighteen months from the date of this action.

531-1924-BZ.

APPLICANT—William H. Wiley, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of three (3) pleasure motor vehicles; two (2) spaces rented to persons not residing on premises.

PREMISES AFFECTED—728 East 224th street, The Bronx.

APPEARANCES—None.

ACTION OF BOARD—Application dismissed.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6

Negative 0

Absent: Fire Chief Kenlon..... 1

THE RESOLUTION:

(531-24-BZ)

WHEREAS, William H. Wiley, owner, filed, April 14, 1924, an application, with the board of appeals, for variation from the requirements of the building zone resolution, as cited in order of the fire commissioner, affecting premises 728 East 224th street, The Bronx; and

WHEREAS, applicant failed to complete his papers, although duly notified so to do.

Resolved, that the application be and it hereby is *dismissed* for lack of prosecution.

545-24-BZ.

APPLICANT—Henry I. Perlin, for Bertha Freitag, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of five (5) pleasure motor vehicles, four (4) spaces rented to persons not residing on the premises.

THE RESOLUTION:

(383-24-A)

WHEREAS, Weber, McLoughlin Co., lessee, filed, March 13, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises foot of West 30th street and North River, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 23077-LC, dated February 21, 1924, reads:

"1. Provide a storage system of sufficient capacity for the proper storage of gasoline. Sec. 156, Chapter 10, Code of Ordinances.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 177 ft. 6 in. on the North River and a depth of 50 ft.; OCCUPIED as a coal handling plant and including a one-story corrugated iron oil house used for the storage of two (2) drums of gasoline; and

WHEREAS, appellant contends the building is located on the river front and is not a fire hazard; and

WHEREAS, no one appeared when this case was called.

Resolved, that the appeal be and it hereby is dismissed for lack of prosecution.

634-24-A.

APPELLANT—Emile Bauer, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—9120 89th street, Woodhaven, Borough of Queens.

APPEARANCES—

For Appellant: Otto Bauer.
For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Temporary permit granted.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(634-24-A)

WHEREAS, Emile Bauer, lessee, filed, May 7, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 9120 89th street, Woodhaven, Borough of Queens; and

WHEREAS, the order of the fire commissioner, No. 88237-LC, dated April 17, 1924, reads:

"With reference to your application for a permit to store fuel oil at the above location, I regret to inform you that I am without power to grant such a permit for the reason that the storage of fuel oil at the above location is not in accordance with the rules adopted by the Board of Standards and Appeals on Nov. 6, 1919, amended January 18, 1924.

"You are therefore ordered to remove all fuel oil from the storage tank and discontinue the further storage and use of fuel oil at the above location.";

WHEREAS, the building is frame 2½ stories in height, 20 ft. by 40 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 55 gallon storage tank, piping and a Power-light Burner; and

MINUTES

WHEREAS, appellant contends that the installation conforms with the fuel oil rules, excepting in that the burner is not an approved burner.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary period of ninety (90) days, at the owner's risk, pending the action of the board of standards and appeals on the petition for approval of the Powerlight Burner.

727-24-A.

SUBJECT—Appeal from order of fire commissioner.

APPELLANT—Frank Klein, lessee.

PREMISES AFFECTED—36-40 John street, Manhattan.

APPEARANCES—

For Appellant: Robert S. Tippin.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(727-24-A)

WHEREAS, Frank Klein, lessee, filed, May 23, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 36-40 John street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 24009 LC, dated May 3, 1924, reads:

"1. Have each operator supervising the operation of a blow-pipe or other similar device or apparatus for heating, melting or welding, apply for and secure a Certificate of Fitness."

and

WHEREAS, the building is non-fireproof, five stories in height, 62 ft. by 51 ft. in area; OCCUPIED, stores and offices, light manufacturing, 25 persons per story, appellant occupying a portion of the fifth story for the manufacture of jewelry, using blow torches; and

WHEREAS, appellant contends that the persons operating the blow torches do not operate the oxygen regulator or have anything to do with the cylinders containing oxygen and that the person operating the oxygen tank has a certificate of fitness.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the person operating the oxygen tank and blow torch shall obtain a certificate of fitness.

359-24-A.

APPELLANT—The Reich Ash Corp., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—59-61 Reade street, Manhattan.

APPEARANCES—

For Appellant: Matthew D. Leiman.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(359-24-A)

WHEREAS, The Reich Ash Corp., lessee, for Franklin Building Company, owner, filed, March 10, 1924, an appeal,

with the board of appeals, from an order of the fire commissioner, affecting premises 59-61 Reade street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 1, 1923, reads:

"Order No. 20851-LC:

"1. Remove all nitro-cellulose products from premises."

and

WHEREAS, the building is non-fireproof, five stories in height, 50 ft. by 75 ft. in area; OCCUPIED for the manufacture of cosmetics and novelties, 51 persons above the 1st story; and

WHEREAS, appellant contends that a small quantity of celluloid (about 30 pounds), cut to shape, is received, and a metal rim is clamped upon same, to make eyeshades; that this assembling is done in an isolated compartment on the 4th story; that there is no open flame used, and all celluloid, excepting that used in work, is stored in a metal cabinet, vented to the outer air.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be no cutting or further manufacturing done on the premises, other than the placing of the metal rim on the finished celluloid shade; that the quantity of celluloid on the premises at any one time shall not exceed 30 pounds, stored in double-walled metal cabinet; that the work of assembling and completing shall be confined to an enclosed room, 11 ft. by 15 ft. 6 in. in area, separate from the general floor area, located at front of building, said room ventilated to outer air with double-hung windows.

982-21-A.

APPELLANT—Eugene De Rosa, for Stadium Purchasing Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—2180 Third avenue, Manhattan.

APPEARANCES—

For Appellant: Alexander J. McManus.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Holland .. 6

Negative 0

Absent: Fire Chief Kenlon

THE RESOLUTION:

(982-21-A)

WHEREAS, Eugene De Rosa, for Stadium Purchasing Co. owner, filed, August 23, 1921, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 2180 Third avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated August 12, 1921, in acting on Standpipe Application No. 1008-21, reads:

"1. Standpipe must be supplied from a tank located at least 20 ft. above the highest outlets and having a standpipe fire-line reserve of at least 3500 gals. filled by means of a pump delivering 65 gals. per min. at tank.

"2. An auxiliary supply consisting of 25 H. P. electric pump, arranged to operate automatically on pressure in fireline and of a capacity of at least 250 gals. per min. drawing from a 5000 gal. steel suction tank must be provided."

and

WHEREAS, the building is of fireproof construction, one story, 32 ft. in height, 50 ft. by 185 ft. in area; OCCUPIED as a theatre, the auditorium seating 1,250 persons; the

MINUTES

building being equipped with 4 in. standpipe system connecting directly with the city water mains; the mains giving a pressure of 32 to 35 pounds; and

WHEREAS, appellant states that the building is less than 10,000 sq. ft. in area, the seating capacity is restricted to one floor; the theatre is used exclusively for motion pictures with no stage or movable scenery; and

WHEREAS, a letter from the department of water supply, gas and electricity indicates a pressure of 40 pounds on the street main, which is fed two ways.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a standpipe equipment be installed consisting of necessary risers and cross connections with a 4 in. street connection to street main, fed two ways.

69-22-A.

APPELLANT—Eugene De Rosa, for Ogden Amusement Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—North side Ogden avenue, 75 ft. north of West 171st street (75 Ogden avenue), The Bronx.

APPEARANCES—

For Appellant: Alaxender J. McManus.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Holland .. 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(69-22-A)

WHEREAS, Eugene De Rosa, for Ogden Amusement Corp., owner, filed, January 17, 1922, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises north side of Ogden avenue, 75 ft. north of West street (75 Ogden avenue), The Bronx; and

WHEREAS, the decision of the fire commissioner, rendered December 27, 1921, in acting on Application No. 1495-21, reads:

"Provide a 5000 gallon steel suction tank and electric pump, having a capacity of 250 gallons per min., connected to a 25 H. P. electric motor, also a filling pump capable of supplying gravity at the rate of 65 gallons per minute and show same in detail on both plan and section.";

and

WHEREAS, the building is of fireproof construction, one and two stories in height, 187 ft. 7¾ in. by 100 ft., irregular in area. OCCUPIED: 1st story, motion picture theatre and stores; 2nd story, dwelling; the theatre seating 1,400 persons; and

WHEREAS, appellant contends that the stores are separated from the theatre by a 12 in. fireproof wall and that the seating capacity is restricted to one floor, there being no stage or scenery, a 4 in. standpipe system is connected directly to the city water main with a pressure of 60 pounds and one 3,500 gallon gravity tank on the roof.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* only so far as it affects requirement of fire pump and suction tank and the height of the present gravity tank, *on condition* that the bottom of tank shall not be less than 20 ft. above the highest outlet; and that the installation of standpipe shall comply with the ordinance and the rules of the board of standards and appeals in all other respects.

BUILDING ZONE CASES.

1111-24-BZ.

APPLICANT—Louis A. Sheinart, for Irene Collerd, owner.

ACTION OF BOARD—Laid over to March 3, 1925, at 2 p. m., on request of applicant's representative.

1156-24-BZ.

APPLICANT—John J. Dunnigan, for Cosmo Saponaro, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

MINUTES

PREMISES AFFECTED—982 Morris avenue, The Bronx.

APPEARANCES—

For Applicant: Walter A. Dunnigan.

For Opposition: Dr. John J. Sinnott.

ACTION OF BOARD—Laid over to February 27, 1925, at 2 p. m., on request of applicant's representative.

31-24-BZ.

APPLICANT—F. W. Rinn, for Samuel Brenner, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of four pleasure motor vehicles, three spaces rented to persons not residing on the premises.

PREMISES AFFECTED—2251 Grand avenue, The Bronx.

APPEARANCES—

For Applicant: F. W. Rinn.

For Opposition: None.

ACTION OF BOARD—Laid over to March 3, 1925, at 2 p. m., to check consents.

1092-24-BZ.

APPLICANT—John W. Clancy, for Michael Naftal, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to grant partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—331 East 184th street, The Bronx.

APPEARANCES—

For Applicant: John W. Clancy.

For Opposition: Nathan Schwartz, D. Benedetto, and others.

ACTION OF BOARD—Laid over to March 3, 1925, at 2 p. m., for inspection and report by committee of board.

1223-24-BZ.

APPLICANT—Samuel Rosenblum, for Henry Grenhart, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the alteration and conversion of occupancy from a motor vehicle repair shop to a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—166-168 East 92nd street, Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum, William F. Feurst.

For Opposition: Henry Hofheimer, Ambrose McCall, William J. Callahan, Paul V. Donohy.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland 5

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1223-24-BZ)

WHEREAS, Samuel Rosenblum, for Henry Grenhart, owner, filed, October 14, 1924, an application, under the building zone resolution, to permit in a residence district the alteration of a building and also the conversion of occupancy from a motor vehicle repair shop to a garage for the storage of more than five motor vehicles; premises 166-168 East 92nd street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 92nd street is a residence district and Lexington avenue and Third avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered August 26, 1924, in acting on Alteration Application No. 2001-24, reads:

"1. The alteration and enlargement of this building for the proposed change in use is not permissible. Section 6, Building Zone Resolution."

and

WHEREAS, at present, situated on the rear of the lots, there is a two-story non-fireproof structure used as a motor vehicle repair shop. It is proposed to alter this structure, extending same to the front of the lot, making the whole a fireproof structure, two stories in height, 48 ft. by 100 ft. 8½ in. in area. To be occupied: 1st story, garage for twelve (12) pleasure cars, property of and to be used only by the owner of the premises; 2nd story, dwelling of employees of owner of premises; and

WHEREAS, the board deemed that the applicant had failed to substantiate the basis of his application under section 7, subdivisions A and 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1191-23-BZ.

APPLICANT—Nathan Langer, for Commonwealth Savings Bank, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—425-431 West 209th street, Manhattan.

For Applicant: Nathan Langer, Louis N. Adler.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,

Dowd, Gunnison and Holland 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1191-23-BZ)

WHEREAS, Nathan Langer, for Commonwealth Savings Bank, owner, filed, October 21, 1924, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 425-431 West 209th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 209th street is a residence district, Amsterdam avenue is a business district and Columbus avenue is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 24, 1923, in acting on N. B. App. No. 474-23, reads:

"1. Garages not permitted in a residence district.

"2. File complete plans for construction."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100

MINUTES

ft. and a depth of 99 ft. 11 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, variations of the building zone resolution were granted by the board for two similar uses under the same stated facts on this street and the board deemed there would be hardship in preventing applicant from recovering his property, which is now in escrow.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building shall be restricted to a one-story structure in height; that the rear and gable walls shall be unpierced throughout their entire height and length; that the front elevation shall be finished in face brick or architectural terra cotta or cement stucco; that there shall be no roof signs erected or maintained and no advertising other than one projecting electric sign on front of building; any gasoline storage equipment installed shall be located at the extreme westerly end of the structure at the street front;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine (9) months and the building completed within eighteen (18) months from the date of this action.

1230-23-BZ.

APPLICANT—James Ruburg, for Marie Ruburg, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the installation and maintenance of a gasoline selling station.

PREMISES AFFECTED—1-3 160th street (northeast corner of 20th street and Queens avenue), Borough of Queens.

APPEARANCES—

For Applicant: James Ruburg.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1230-23-BZ)

WHEREAS, James Ruburg, owner, filed, October 30, 1923, an application, under the building zone resolution, to permit in a residence district the installation and maintenance of a gasoline selling station; premises 1-3 160th street (northeast corner of 20th street and Queens avenue), Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 160th street is a residence district; Forty-sixth avenue is a residence and business district commencing 100 ft. east of 160th street, and 161st street is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 1, 1923, in acting on N. B. Plan No. 15492-23, reads:

"The erection of a gasoline selling station within a residence district would be contrary to Art. 2, Sec. 3 of the Zoning Resolution."

and

WHEREAS, it is proposed to install two pumps to an existing gasoline tank located on the front of the lot owned by the applicant and conduct thereon a gasoline selling station; and

WHEREAS, there exists diagonally opposite this property a garage and gas selling station and the property immediately adjoins the business district, and the board deemed that the provisions of section 7, subdivision F, applied.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted for a temporary period of two (2) years from the date of this action, on condition that the gasoline mechanical equipment shall not extend beyond the present position in relation to the curb, on the same premises as the dwelling of the owner, operator of this business, conducted thereon.

887-24-BZ.

APPLICANT—Ferdinand Savignano, for Olympia Gentile, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of one pleasure and four commercial motor vehicles.

PREMISES AFFECTED—8715 Sixteenth avenue, Brooklyn.

APPEARANCES—

For Applicant: A. W. Lederer.

For Opposition: E. L. Smart.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

THE RESOLUTION:

(887-24-BZ)

WHEREAS, Ferdinand Savignano, for Olympia Gentile, owner, filed, July 2, 1924, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of one (1) pleasure and four (4) commercial motor vehicles; premises 8715 16th avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Sixteenth avenue and Benson avenue are residence districts and Bath avenue is a business district; and

WHEREAS, the order of the fire commissioner, dated March 22, 1924, reads:

"Order No. 87404-LC:

"1. Discontinue the maintenance of a garage on these premises in which is kept motor vehicles that are used for business purposes;"

and

WHEREAS, the building is of non-fireproof construction, one story in height, with a frontage of 24 ft. and a depth of 60 ft.; occupied as a garage for one pleasure and four commercial cars; and

WHEREAS, it appears that a certificate of occupancy was issued by the superintendent of buildings, and the board deemed there would be hardship in preventing applicant from occupying premises.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted for a temporary period, not to extend beyond March 1, 1927, on condition that the number of cars shall be restricted to five (5) automobiles.

CITY OF NEW YORK

BOARD OF ESTIMATE AND APPORTIONMENT

AMENDED BUILDING ZONE RESOLUTION.

(Adopted October 3, 1924)

A Resolution Regulating and Limiting the Height and Bulk of Buildings Hereafter Erected and Regulating and Determining the Area of Yards, Courts and Other Open Spaces, and Regulating and Restricting the Location of Trades and Industries and the Location of Buildings Designed for Specified Uses and Establishing the Boundaries of Districts for the Said Purposes.

Be it Resolved by the Board of Estimate and Apportionment of The City of New York:

Article I—Definitions.

§ 1. *Definitions.* Certain words in this resolution are defined for the purposes thereof as follows:

(a) Words used in the present tense include the future; the singular number includes the plural and the plural the singular; the word "lot" includes the word "plot"; the word "building" includes the word "structure."

(b) The "street line" is the dividing line between the street and the lot.

(c) The "width of the street" is the mean of the distances between the sides thereof within a block. Where a street borders a public place, public park or navigable body of water the width of the street is the mean width of such street plus the width, measured at right angles to the street line, of such public place, public park or body of water.

(d) The "curb level," for the purpose of measuring the height of any portion of a building, is the mean level of the curb in front of such portion of the building. But where a building is on a corner lot the curb level is the mean level of the curb on the street of greatest width. If such greatest width occurs on more than one street the curb level is the mean level of the curb on that street of greatest width which has the highest curb elevation. The "curb level" for the purpose of regulating and determining the area of yards, courts and open spaces is the mean level of the curb at that front of the building where there is the highest curb elevation. Where no curb elevation has been established or the building does not adjoin the street the average ground level of the lot shall be considered the curb level.

(e) A "street wall" of a building, at any level, is the wall or part of the building nearest to the street line.

(f) The "height of a building" is the vertical distance measured in the case of flat roofs from the curb level to the highest point of the roof beams adjacent to the street wall, and in the case of pitched roofs from the curb level to the mean height level of the gable. Where no roof beams exist or there are structures wholly or partly above the roof the height shall be measured from the curb level to the level of the highest point of the building. Where a building is a tenement house as defined in the Tenement House Law the height of the building on the street line shall be measured as prescribed in said law for the measurement of the height of a tenement house and such measurement shall be from the curb level as that term is used in said law.

(g) The "depth of a lot" is the mean distance from the street line of the lot to its rear line measured in the general direction of the side lines of the lot.

(h) A "rear yard" is an open unoccupied space on the same lot with a building between the rear line of the building and the rear line of the lot.

(i) The "depth of a rear yard" is the mean distance between the rear line of the building and the rear line of the lot.

(j) Lots or portions of lots shall be deemed "back to back" when they are on opposite sides of the same part of

a rear line common to both and the opposite street lines on which the lots front are parallel with each other or make an angle with each other of not over 45 degrees.

(k) A "court" is an open unoccupied space, other than a rear yard, on the same lot with a building. A court not extending to the street or to a rear yard is an "inner court." A court extending to the street or a rear yard is an "outer court." A court on the lot line extending through from the street to a rear yard or another street is a "side yard."

(l) The "height of a yard or a court" at any given level shall be measured from the lowest level of such yard or court as actually constructed or from the curb level, if higher, to such level. The highest level of any given wall bounding a court or yard shall be deemed to be the mean height of such wall. Where a building is a tenement house, as defined in the Tenement House Law, the height of a yard or a court shall be measured as prescribed in such law.

(m) The "least dimension" of a yard or court at any level is the least of the horizontal dimensions of such yard or court at such level. If two opposite sides of a yard or court are not parallel the horizontal dimension between them shall be deemed to be the mean distance between them.

(n) The "length of an outer court" at any given point shall be measured in the general direction of the side lines of such court from the end opposite the end opening on a street, or a rear yard, to such point.

Article II—Use Districts.

§ 2. *Use Districts.* For the purpose of regulating and restricting the location of trades and industries and the location of buildings designed for specified uses, the City of New York is hereby divided into three classes of districts: (1) residence districts, (2) business districts and (3) unrestricted districts; as shown on the amended use district map which accompanies this resolution and is hereby declared to be part hereof. The use districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended use district map designations and amended map designation rules which accompany said amended use district map are hereby declared to be part thereof. No building or premises shall be erected or used for any purpose other than a purpose permitted in the use district in which such building or premises is located.

§ 3. *Residence Districts.* In a residence district no building shall be erected other than a building, with its usual accessories, arranged, intended or designed exclusively for one or more of the following specified uses:

(1) Dwellings, which shall include dwellings for one or more families and boarding houses and also hotels which have thirty or more sleeping rooms.

(2) Clubs, excepting clubs the chief activity of which is a service customarily carried on as a business.

(3) Churches.

(4) Schools, libraries or public museums.

(5) Philanthropic or eleemosynary uses or institutions, other than correctional institutions.

(6) Hospitals and sanitariums.

(7) Railroad passenger stations.

(8) Farming, truck gardening, nurseries or green houses.

In a residence district no building or premises shall be used for any use other than a use above specified for which buildings may be erected and for the accessory uses customarily incident thereto. The term accessory use shall not include a business nor shall it include any building or use not located on the same lot with the building or use to which it is accessory. A private garage for more than five motor vehicles shall not be deemed an accessory use.

NOTICE

§ 4. *Business Districts.* (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

- (1) Ammonia, chlorine or bleaching powder manufacture.
- (2) Asphalt manufacture or refining.
- (3) Assaying (other than gold or silver).
- (4) Blacksmithing or horseshoeing.
- (5) Boiler making.
- (6) Brewing or distilling of liquors.
- (7) Carpet cleaning.
- (8) Celluloid manufacture.
- (9) Crematory.
- (10) Distillation of coal, wood or bones.
- (11) Dyeing or dry cleaning.
- (12) Electric central station power plant.
- (13) Fat rendering.
- (14) Fertilizer manufacture.
- (15) Garage for more than five motor vehicles, not including a warehouse where motor vehicles are received for dead storage only, and not including a salesroom where motor vehicles are kept for sale or for demonstration purposes only.
- (16) Gas (illuminating or heating) manufacture or storage.
- (17) Glue, size and gelatine manufacture.
- (18) Incineration or reduction of garbage, offal, dead animals or refuse.
- (19) Iron, steel, brass or copper works.
- (20) Junk, scrap paper or rag storage or baling.
- (21) Lamp black manufacture.
- (22) Lime, cement or plaster of paris manufacture.
- (23) Milk bottling and distributing station.
- (24) Oil cloth or linoleum manufacture.
- (25) Paint, oil, varnish or turpentine manufacture.
- (26) Petroleum refining or storage.
- (27) Printing ink manufacture.
- (28) Raw hides or skins—storage, curing or tanning.
- (29) Repair shop for motor vehicles.
- (30) Rubber manufacture from the crude material.
- (31) Saw or planing mill.
- (32) Shoddy manufacture or wool scouring.
- (33) Slaughtering of animals.
- (34) Smelting.
- (35) Soap manufacture.
- (36) Stable for more than five horses.
- (37) Starch, glucose or dextrine manufacture.
- (38) Stock yard.
- (39) Stone or monumental works.
- (40) Sugar refining.
- (41) Sulphurous, sulphuric, nitric or hydrochloric acid manufacture.
- (42) Tallow, grease or lard manufacturing or refining.
- (43) Tar distillation or manufacture.
- (44) Tar roofing or tar waterproofing manufacture.
- (45) Refrigerating plants, coal yards and coal pockets.

(b) In a business district no building or premises shall be used, and no building shall be erected, which is arranged, intended or designed to be used for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise but car barns or places of amusement shall not be excluded.

(c) In a business district no building or premises shall be used, and no building shall be erected, which is arranged, intended or designed to be used for any kind of manufacturing, except that any kind of manufacturing not included within the prohibitions of paragraphs a and b of this section may be carried on provided not more than 25 per cent. of the total floor space of the building is so used, but space equal to the area of the lot may be so used in any case, although in excess of said 25 per cent. The printing of a

newspaper shall not be deemed manufacturing. No use permitted in a residence district by section 3 shall be excluded from a business district.

§ 5. *Unrestricted Districts.* The term "unrestricted district" is used to designate the districts for which no regulations or restrictions are provided by this article.

§ 6. *Existing Buildings and Premises.* (a) Any use existing in any building or premises on July 25, 1916, and not conforming to the regulations of the use district in which it is maintained, may be continued therein. No then existing building designed, arranged, intended or devoted to a use not permitted by this article in the district in which such use is located shall be enlarged, extended, reconstructed or structurally altered unless such use is changed to a use permitted in the district in which such building is located. Such building may, however, be reconstructed or structurally altered to an extent not greater than 50 per cent. of the value of the building, exclusive of foundations, provided that no use in such building is changed or extended, except as authorized in paragraph b of this section, and provided, further, that no use included in any one of the enumerated subdivisions of paragraph a of section 4 is changed into a use included in any other enumerated subdivision of paragraph a of section 4 or into a use prohibited by paragraph b of section 4, and also provided that no use prohibited by paragraph b of section 4 is changed into another use prohibited by paragraph b of section 4 or into a use included in an enumerated subdivision of paragraph a of section 4.

(b) Any use existing in any building or premises on July 25, 1916, and not conforming to the regulations of the use district in which it is maintained may be changed, and such use may be extended throughout the building, provided that in either case:

(1) No structural alterations shall be made in the building, except as authorized by paragraph a of this section, and

(2) In a residence district no portion of a building devoted to a use included in subdivision 1 of section 3 shall be changed to any use prohibited in a residence district, and

(3) In a residence district no building or premises, unless devoted to one of the uses that is by section 4 prohibited in a business district, shall be changed to any of such uses, and

(4) In a residence or business district no building or part thereof and no premises, unless devoted to one of the uses that is by paragraph a or b of section 4 prohibited in a business district, shall be changed to any of such uses.

If a use is changed as authorized in this section, the new use may thereafter be changed, subject to the limitations imposed by subdivisions 1, 2, 3 and 4 of this paragraph.

§ 7. *Use District Exceptions.* The Board of Appeals, created by chapter 503 of the laws of 1916, may, in appropriate cases, after public notice and hearing, and subject to appropriate conditions and safeguards, determine and vary the application of the use district regulations herein established in harmony with their general purpose and intent as follows:

(a) Permit the extension of an existing building and the existing use thereof upon the lot occupied by such building at the time of the passage of this resolution or permit the erection of an additional building upon a lot occupied at the time of the passage of this resolution by a commercial or industrial establishment and which additional building is a part of such establishment;

(b) Where a use district boundary line divides a lot in a single ownership at the time of the passage of this resolution, permit a use authorized on either portion of such lot to extend to the entire lot, but not more than 25 feet beyond the boundary line of the district in which such use is authorized;

(c) Permit the extension of an existing or proposed building into a more restricted district under such conditions as will safeguard the character of the more restricted district;

NOTICE

(d) Permit in a residence district a central telephone exchange or any building or use in keeping with the uses expressly enumerated in section 3 as the purposes for which buildings or premises may be erected or used in a residence district;

(e) Permit in a business district the erection or extension of a garage or stable in any portion of a street between two intersecting streets in which portion there exists a garage for more than five motor vehicles or a stable for more than five horses which existed on July 25, 1916.

(f) Grant in undeveloped sections of the city temporary and conditional permits for not more than two years for structures and uses in contravention of the requirements of this article.

(g) Permit in a business or residence district the erection of a garage provided the petitioner files the consents duly acknowledged of the owners of 80 per cent. of the frontage deemed by the Board to be immediately affected by the proposed garage. Such permit shall specify the maximum size or capacity of the garage and shall impose appropriate conditions and safeguards upon the construction and use of the garage.

Article III—Height Districts.

§ 8. *Height Districts.* For the purpose of regulating and limiting the height and bulk of buildings hereafter erected, the City of New York is hereby divided into eight classes of districts: (a) one-quarter times districts; (b) one-half times districts; (c) three-quarter times districts; (d) one times districts; (e) one and one-quarter times districts; (f) one and one-half times districts; (g) two times districts; (h) two and one-half times districts; as shown on the amended height district map which accompanies this resolution and is hereby declared to be part hereof. The height districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended height district map designations and amended map designation rules which accompany said amended height district map are hereby declared to be part thereof. No building or part of a building shall be erected except in conformity with the regulations herein prescribed for the height district in which such building is located.

(a) In a one-quarter times district no building shall be erected to a height in excess of one-quarter times the width of the street, but for each two feet that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(b) In a one-half times district no building shall be erected to a height in excess of one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(c) In a three-quarter times district no building shall be erected to a height in excess of three-quarter times the width of the street, but for each one foot that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(d) In a one times district no building shall be erected to a height in excess of the width of the street, but for each one foot that the building or a portion of it sets back from the street line two feet shall be added to the height limit of such building or such portion thereof.

(e) In a one and one-quarter times district no building shall be erected to a height in excess of one and one-quarter times the width of the street, but for each foot that the

building or a portion of it sets back from the street line two and one-half feet shall be added to the height limit of such building or such portion thereof.

(f) In a one and one-half times district no building shall be erected to a height in excess of one and one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line three feet shall be added to the height limit of such building or such portion thereof.

(g) In a two times district no building shall be erected to a height in excess of twice the width of the street, but for each one foot that the building or a portion of it sets back from the street line four feet shall be added to the height limit of such building or such portion thereof.

(h) In a two and one-half times district no building shall be erected to a height in excess of two and one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line five feet shall be added to the height limit of such building or such portion thereof.

§ 9. *Height District Exceptions.* (a) On streets less than 50 feet in width the same height regulations shall be applied as on streets 50 feet in width and, except for the purposes of paragraph d of this section, on streets more than 100 feet in width the same height regulations shall be applied as on streets 100 feet in width.

(b) Along a narrower street near its intersection with a wider street, any building or any part of any building fronting on the narrower street within 100 feet, measured at right angles to the side of the wider street, shall be governed by the height regulations provided for the wider streets. A corner building on such intersecting streets shall be governed by the height regulations provided for the wider street for 150 feet from the side of such wider street, measured along such narrower street.

(c) Above the height limit at any level for any part of a building a dormer, elevator bulkhead or other structure may be erected provided its frontage length on any given street be not greater than 60 per cent. of the length of such street frontage of such part of the building. Such frontage length of such structure at any given level shall be decreased by an amount equal to one per cent. of such street frontage of such part of the building for every foot such level is above such height limit. If there are more than one such structure their aggregate frontage shall not exceed the frontage length above permitted at any given level.

(d) If the area of the building is reduced so that above a given level it covers in the aggregate not more than 25 per cent. of the area of the lot, the building above such level shall be excepted from the foregoing provisions of this article. Such portion of the building may be erected to any height, provided that the distance which it sets back from the street line on each street on which it faces, plus half of the width of the street, equals at least 75 feet. But for each one per cent. of the width of the lot on the street line that such street wall is less in length than such width of the lot such wall may be erected four inches nearer to the street line.

(e) When at the time plans are filed for the erection of a building there are buildings in excess of the height limits herein provided within 50 feet of either end of the street frontage of the proposed building or directly opposite such building across the street, the height to which the street wall of the proposed building may rise shall be increased by an amount not greater than the average excess height of the walls on the street line within 50 feet of either end of the street frontage of the proposed building and at right angles to the street frontage of the proposed building on the opposite side of the street. The average amount of such excess height shall be computed by adding together the excess heights above the prescribed height limit for the street frontage in question of all of the walls on the street line of the buildings and parts of buildings within the above defined

NOTICE

frontage and dividing the sum by the total number of buildings and vacant plots within such frontage.

(f) Nothing in this article shall prevent the projection of a cornice beyond the street wall to an extent not exceeding five per cent. of the width of the street nor more than five feet in any case. Nothing in this article shall prevent the projection above the height limit of a parapet wall or cornice solely for ornament and without windows extending above such height limit not more than five per cent. of such height limit, but such parapet wall or cornice may in any case be at least five and one-half feet high above such height limit.

(g) The provisions of this article shall not apply to the projection of church spires, belfries, chimneys, flues or gas holders.

(h) Where not more than 50 feet of a street frontage would otherwise be subjected to a height limit lower than that allowed immediately beyond both ends of such frontage, the height limit on such frontage shall be equal to the lesser of such greater height limits.

(i) If an additional story or stories are added to a building existing at the time of the passage of this resolution, the existing walls of which are in excess of the height limits prescribed in this article, the height limits for such additional story or stories shall be computed from the top of the existing walls as though the latter were not in excess of the prescribed height limits and the carrying up of existing elevator and stair enclosures shall be exempted from the provisions of this article.

Article IV—Area Districts.

§ 10. *Area Districts.* For the purpose of regulating and determining the area of yards, courts and other open spaces for buildings hereafter erected, the City of New York is hereby divided into six classes of area districts: A, B, C, D, E and F; as shown on the amended area district map which accompanies this resolution and is hereby declared to be part hereof. The area districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended area district map designations and amended map designation rules which accompany said amended area district map are hereby declared to be a part thereof. No building or part of a building shall be erected except in conformity with the regulations herein prescribed for the area district in which such building is located. Unless otherwise expressly provided the term rear yard, side yard, outer court or inner court when used in this article shall be deemed to refer only to a rear yard, side yard, outer court or inner court required by this article. No lot area shall be so reduced or diminished that the yards, courts or open spaces shall be smaller than prescribed in this article.

§ 11. *A Districts.* In an A district a court at any given height shall be at least one inch in least dimension for each one foot of such height.

§ 12. *B District.* In a B district a rear yard at any given height shall be at least two inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. An outer court or a side yard at any given height shall be at least one inch in least dimension for each one foot of such height. An outer court at any given point shall be at least one and one-half inches in least dimension for each one foot of length. But for each one foot that an outer court at any given height would, under the above rules, be wider in its least dimension for such height than the minimum required by its length, one inch shall be deducted from the required least dimension for such height for each 24 feet of such height. A side yard for its length within 50 feet of the street may for the purposes of the above rule be considered an outer court.

§ 13. *C Districts.* (a) In a C district a rear yard at any given height shall be at least three inches in least dimension

for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. An outer court or a side yard at any given height shall be at least one and one-half inches in least dimension for each one foot of such height. An outer court at any given point shall be at least one and one-half inches in least dimension for each one foot of length. On a lot not more than 30 feet in mean width an outer court or a side yard at any given height shall be not less than one inch in least dimension for each one foot of such height, and an inner court at any given height shall be either (1) not less than two inches in least dimension for each one foot of such height or (2) it shall be of an equivalent area as hereinafter specified in paragraph c of section 18.

(b) If the owner or owners of any part of a C district set aside perpetually for the joint recreational use of the residents of such part designated by them, an area at least equal to 10 per cent. of the area of such part in addition to all yard and court requirements for a B district, such part shall be subject to the regulations herein prescribed for a B district. Such joint recreational space shall be composed of one or more tracts, each of which shall be at least 40 feet in least dimension and 5,000 square feet in area and shall be approved by the Board of Appeals as suitable for the joint recreational use of such residents.

§ 14. *D Districts.* (a) In a D district a rear yard at any given height shall be at least four inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. If a building in a D district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 20 per cent. of the depth of the lot, but need not exceed 20 feet at such level. However, for each one foot in excess of 10 feet of the depth of such rear yard at its lowest level, there may be substituted one foot of depth of unoccupied space across the whole width of the front of the lot at the curb level between the street line and the street wall of the building.

(b) In a D district an outer court or a side yard at any given height shall be at least two inches in least dimension for each one foot of such height. An outer court at any given point shall be at least two inches in least dimension for each one foot of length. On a lot not more than 30 feet in mean width an outer court or a side yard at any given height shall be not less than one and one-half inches in least dimension for each one foot of such height. On such lot an outer court at any given point shall be not less than one and one-half inches in least dimension for each one foot of length. On such lot an inner court at any given height shall be either (1) not less than three inches in least dimension for each one foot of such height or (2) it shall be of an equivalent area as specified in paragraph c of section 18.

(c) In a D district no building located within a residence district as designated on the amended use district map shall occupy at the curb level more than 60 per cent. of the area of the lot, if an interior lot, or 80 per cent. if a corner lot. In computing such percentage any part of the area of any corner lot in excess of 8,000 square feet shall be considered an interior lot.

(d) If the owner or owners of any part of a D district set aside perpetually for the joint recreational use of the residents of such part designated by them, an area at least equal to 10 per cent. of the area of such part in addition to all yard and court requirements for a C district, such part shall be subject to the regulations herein prescribed for a C district. Such joint recreational space shall be composed of one or more tracts, each of which shall be at least 40 feet in least dimension and 5,000 square feet in area and shall be approved by the Board of Appeals as suitable for the joint recreational use of such residents.

NOTICE

§ 15. *E Districts.* (a) In an E district a rear yard at any given height shall be at least five inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 15 per cent. of the depth of the lot, but need not exceed 15 feet at such level. If a building in an E district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 25 per cent. of the depth of the lot, but need not exceed 25 feet at such level. However, for each one foot in excess of 10 feet of the depth of such rear yard at its lowest level, there may be substituted one foot of depth of unoccupied space across the whole width of the front of the lot at the curb level between the street line and the street wall of the building. In an E district on at least one side of every building located within a residence district there shall be a side yard along the side lot line for the full depth of the lot or back to the rear yard.

(b) In an E district an outer court or side yard at any given height shall be at least two and one-half inches in least dimension for each one foot of such height. On a lot not more than 50 feet in mean width an outer court or a side yard at any given height shall be at least two inches in least dimension for each one foot of such height. An outer court at any given point shall be at least two and one-half inches in least dimension for each one foot of length.

(c) In an E district no building located within a residence district as designated on the amended use district map shall occupy at the curb level more than 50 per cent. of the area of the lot, if an interior lot, or 70 per cent. if a corner lot, and above a level 18 feet above the curb no building shall occupy more than 30 per cent. of the area of the lot, if an interior lot, or 40 per cent. if a corner lot. In computing such percentage any part of the area of any corner lot in excess of 8,000 square feet shall be considered an interior lot.

(d) In an E district no portion of any building shall be erected nearer than 10 feet to the line of any street as laid out upon the City map.

§ 16. *F Districts.* (a) In an F district no portion of any building shall be erected nearer than 15 feet to the building line of any street.

(b) In an F district a rear yard at any given height shall be at least six inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 20 per cent. of the depth of the lot, but need not exceed 20 feet at such level. Excepting that if a building in an F district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 30 per cent. of the depth of the lot, but need not exceed 30 feet at such level. However, for each one foot in excess of 15 feet of the depth of such rear yard at its lowest level there may be substituted one foot of additional depth of unoccupied space to that hereinbefore provided across the whole width of the front of the lot at the curb level between the street line and the street wall of the building. In an F district, on both sides of every dwelling there shall be a side yard along the side lot line for the full depth of the lot or back to the rear yard. For every residential building located in a residence district both sides of such building shall be capable of being afforded direct light, air and access upon such side yards, for its entire length.

(c) In an F district an outer court or side yard at any given height shall be at least three inches in least dimension for each one foot of such height, excepting that on a lot not more than 50 feet in mean width an outer court or a side yard at any given height shall be at least two and one-half inches in least dimension for each one foot of such height. An outer court at any given point shall be at least three inches in least dimension for each one foot of length.

(d) In an F district no building shall occupy at the curb level more than 35 per cent. of the area of the lot, if an

interior lot, or 50 per cent. if a corner lot, and above a level 18 feet above the curb no building shall occupy more than 25 per cent. of the area of the lot, if an interior lot, or 30 per cent. if a corner lot, exclusive in each case of garages. In computing such percentage any part of the area of any corner lot in excess of 6,000 square feet shall be considered an interior lot.

§ 17. *Rear Yards.* (a) Except in A districts, for lots or portions of lots that are back to back there shall be rear yards extending along the rear lot lines of such lots or portions of lots wherever they are more than 55 feet back from the nearest street. Such rear yard shall be at least of the area and dimensions herein prescribed for the area district in which it is located at every point along such rear lot line. Within 55 feet of the nearest street no rear yards shall be required, except in F area districts. No rear yard shall be required on any corner lot nor, excepting in an F area district, on the portion of any lot that is back to back with a corner lot.

(b) Where a building is not within a residence district as designated on the amended use district map, the lowest level of a rear yard shall not be above the sill level of the second story windows, nor in any case more than 23 feet above the curb level. Where a building is within a residence district the lowest level of a rear yard shall not be above the curb level, except that not more than 40 per cent. of the area of the yard may be occupied by the building up to a level 18 feet above the curb level. In the case of a church, whether within or without a residence district, such 40 per cent. may be occupied up to a level of 30 feet above the curb level.

(c) Chimneys or flues may be erected within a rear yard provided they do not exceed five square feet in area in the aggregate and do not obstruct ventilation.

(d) Except in A districts, where a building on an interior lot between lots for which rear yards are required runs through the block from street to street or to within 55 feet of another street, there shall be on each side lot line above the sill level of the second story windows and in any case above a level 23 feet above the curb level a court of at least equivalent area at any given height to that required for an inner court at such height and having a least dimension not less than that required for an outer court at the same height.

(e) When a proposed building is on a lot which is back to back with a lot or lots on which there is a building or buildings having rear yards less in depth than would be required under this article, the depth of the rear yard of the proposed building shall not be required to be greater at any given level than the average depth of the rear yards directly back to back with it at such level, but in no case shall the depth of such rear yard be less at any height than the least dimension prescribed for an outer court at such height.

§ 18. *Courts.* (a) If a room in which persons live, sleep, work or congregate receives its light and air in whole or in part directly from an open space on the same lot with the building, there shall be at least one inner court, outer court, side yard or rear yard upon which a window or ventilating skylight opens from such room. Such inner court, outer court or side yard shall be at least of the area and dimensions herein prescribed for the area district in which it is located. Such rear yard shall be at least of the area and dimensions herein prescribed for an inner court in the area district in which it is located. In an A district, such inner court, outer court, side yard or rear yard shall be at least of the area and dimensions herein prescribed for a court in such district. The unoccupied space within the lot in front of every part of such window shall be not less than three feet, measured at right angles thereto. Courts, yards and other open spaces, if provided in addition to those required by this section, need not be of the area and dimensions herein prescribed. The provisions of this section shall not be deemed to apply to courts or shafts for bathrooms, 'oilet compartments, hallways or stairways.

NOTICE

(b) The least dimension of an outer court, inner court or side yard at its lowest level shall be not less than four feet, subject to the following exceptions:

(1) Where the walls bounding a side yard within the lot are more than 25 feet in mean height and not more than 40 feet in length such least dimension may be not less than three feet.

(2) In an E district such least dimension shall be four feet.

(3) In an F district such least dimension shall be five feet.

(4) Where any outer court opens on a street such street may be considered as part of such court.

(c) The least dimension of an inner court at any given height shall be not less than that which would be required in inches for each one foot of height for a rear yard of the same height, except that an inner court of equivalent area may be substituted for said court, provided that for such area its least dimension be not less than one-half of its greatest dimension. If an inner court is connected with a street by a side yard, for each one foot that such side yard is less than 65 feet in depth from the street, one square foot may be deducted from the required area of the inner court for each 15 feet of height of such court. If the lot is not required under this resolution to have a rear yard, an outer court, not opening on a street, shall open at any level on an inner court on the rear line of the lot and such inner court shall be deemed a rear yard in such case.

§ 19. *Area District Exceptions.* (a) The area required in a court or yard at any given level shall be open from such level to the sky unobstructed, except for the ordinary projections of skylights and parapets above the bottom of such court or yard, and except for the ordinary projections of window sills, belt courses, cornices and other ornamental features to the extent of not more than four inches. However, where a side yard or an outer court opens on a street a cornice may project not over five feet into such side yard or outer court within five feet of the street wall of the building. And provided that in an E district a one-family residence, detached on all sides and having on one side a side yard of a clear and unobstructed width of not less than five feet, may have a cornice or eave projecting not more than 2 feet 6 inches into a side yard on the opposite side, with the further provision that in an F district such cornice or eave, or a porte-cochere having a height of less than 18 feet, may project not more than 3 feet into both side yards.

(b) An open or lattice enclosed iron fire escape, fireproof outside stairway or solid-floored balcony to a fire tower may project not more than 4 feet into a rear yard or an inner court, except that an open or lattice enclosed iron fire escape may project not more than 8 feet into a rear yard or into an inner court when it does not occupy more than 20 per cent. of the area of such inner court.

(c) A corner of a court or yard may be cut off between walls of the same building provided that the length of the wall of such cut-off does not exceed 7 feet.

(d) An offset to a court or yard may be considered as a part of such court or yard provided that it is no deeper in any part than it is wide on the open side and that such open side be in no case less than 6 feet wide.

(e) If a building is erected on the same lot with another building the several buildings shall, for the purpose of this article, be considered as a single building, unless otherwise herein specifically provided for. Any structure, whether independent of or attached to a building, shall for the purposes of this article be deemed a building or a part of a building.

(f) If an additional story or stories are added to a building existing at the time of the passage of this resolution, the courts and yards of which do not conform to the requirements of this article, the least dimensions of yards and courts shall be increased from the top of the existing yard or court walls, as though they were of the prescribed dimensions at such heights and the carrying up of existing elevator

and stair enclosures shall be exempted from the provisions of this article.

Article V—General and Administrative.

§ 20. *Interpretation; Purpose.* In interpreting and applying the provisions of this resolution, they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by this resolution to repeal, abrogate, annul or in any way to impair or interfere with any existing provision of law or ordinance or any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to law relating to the use of buildings or premises; nor is it intended by this resolution to interfere with or abrogate or annul any easements, covenants or other agreements between parties; provided, however, that where this resolution imposes a greater restriction upon the use of buildings or premises or upon height of buildings or requires larger yards, courts or other open spaces than are imposed or required by such existing provision of law or ordinance or by such rules, regulations or permits or by such easements, covenants or agreements, the provisions of this resolution shall control.

§ 21. *Rules and Regulations; Modifications of Provisions.* The Board of Standards and Appeals, created by chapter 503 of the Laws of 1916, shall adopt from time to time such rules and regulations as they may deem necessary to carry into effect the provisions of this resolution. Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the provisions of this resolution the Board of Appeals shall have power in a specific case to vary any such provision in harmony with its general purpose and intent, so that the public health, safety and general welfare may be secured and substantial justice done. Where the street layout actually on the ground varies from the street layout as shown on the amended use, height or area district map, the designation shown on the mapped areas shall be applied by the Board of Appeals to the unmapped streets in such a way as to carry out the intent and purpose of the plan for the particular section in question. Before taking any action authorized in this section the Board of Appeals shall give public notice and hearing.

No garage for more than five cars may be erected or extended and no building not now used as a garage for more than five cars may have its use changed to a garage for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school; or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the nearest exit from or entrance to a public school; nor within 200 feet of any hospital maintained as a charitable institution. This protection shall also apply to duly organized schools for children under 16 years of age, giving regular instruction at least five days a week for eight months or more each year, owned and operated by any established religious body or educational corporation. This limitation on the location of garages shall apply to unrestricted as well as business and residence districts.

§ 22. *Unlawful Use; Certificate of Occupancy.* It shall be unlawful to use or permit the use of any building or premises or part thereof hereafter created, erected, changed or converted wholly or partly in its use or structure until a certificate of occupancy to the effect that the building or premises or the part thereof so created, erected, changed or converted and the proposed use thereof conform to the provisions of this resolution shall have been issued by the superintendent of buildings of the borough in which such building or premises is located, or, in the case of a tenement house as defined in the Tenement House Law, by the tenement house commissioner. In the case of such buildings or premises it shall be the duty of the superintendent of buildings or the tenement house commissioner, as the case may

NOTICE

be, to issue a certificate of occupancy within ten days after a request for the same shall be filed in his office by any owner of a building or premises affected by this resolution, provided said building or premises, or the part thereof so created, erected, changed or converted and the proposed use thereof conform with all the requirements herein set forth. Under rules and regulations of the Board of Standards and Appeals a temporary certificate of occupancy for a part of a building may be issued by the superintendent of buildings or the tenement house commissioner, as the case may be. Upon written request from the owner, the superintendent of buildings or the tenement house commissioner, as the case may be, shall issue a certificate of occupancy for any building or premises existing at the time of the passage of this resolution certifying after inspection the use of the building or premises and whether such use conforms to the provisions of this resolution.

§ 23. *Enforcement, Legal Procedure, Penalties.* This resolution shall be enforced by the tenement house commissioner, the fire commissioner and by the superintendent of buildings in each borough under the rules and regulations of the Board of Standards and Appeals. The tenement house commissioner shall enforce the provisions herein contained in so far as they affect or relate to tenement houses as defined by the Tenement House Law. The superintendent of buildings in each borough shall enforce the provisions herein contained in so far as they relate to buildings or premises other than tenement houses. The fire commissioner shall enforce the provisions herein contained in so far as they relate to the use of completed buildings or premises, or part thereof, other than tenement houses. For any and every violation of the provisions of this resolution or of the rules and regulations adopted thereunder, the owner, general agent or contractor of a building or premises where such violation has been committed or shall exist, and the lessee or tenant of an entire building or entire premises where such violation has been committed or shall exist, and the owner, general agent, contractor, lessee or tenant of any part of a building or premises in which part such violation has been committed or shall exist, and the general agent, architect, builder, contractor or any other person who commits, takes part or assists in such violation or who maintains any building or premises in which any penalties as are prescribed in any law, statute or ordinance for violations of the Building Code, and

for such violations the same legal remedies shall be had and they shall be prosecuted in the same manner as prescribed in any law or ordinance in the case of violations of said Building Code.

§ 24. *Amendments, Alterations and Changes in District Lines.* The Board of Estimate and Apportionment may from time to time on its own motion or on petition, after public notice and hearing, amend, supplement or change the regulations and districts herein established. Whenever the owners of 50 per cent. or more of the frontage in any district or part thereof shall present a petition duly signed and acknowledged to the Board of Estimate and Apportionment requesting an amendment, supplement, change or repeal of the regulations prescribed for such district or part thereof, it shall be the duty of the Board to vote upon said petition within 90 days after the filing of the same by the petitioners with the secretary of the Board. If, however, a protest against such amendment, supplement or change be presented, duly signed and acknowledged by the owners of 20 per cent. or more of any frontage proposed to be altered, or by the owners of 20 per cent. of the frontage immediately in the rear thereof, or by the owners of 20 per cent. of the frontage directly opposite the frontage proposed to be altered, such amendment shall not be passed except by the unanimous vote of the Board. If any area is hereafter transferred to another district by a change in district boundaries by an amendment, as above provided, the provisions of this resolution in regard to buildings or premises existing at the time of the passage of this resolution shall apply to buildings or premises existing at the time of passage of such amendment in such transferred area.

§ 25. *Restoration of Existing Buildings.* Nothing in this resolution shall prevent the restoration of a building wholly or partly destroyed by fire, explosion, act of God or act of the public enemy or prevent the continuance of the use of such building or part thereof as such use existed at the time of such destruction of such building or part thereof or prevent a change of such existing use under the limitations provided in section 6. Nothing in this resolution shall prevent the restoration of a wall declared unsafe by the superintendent of buildings or by a board of survey.

§ 26. *When Effective.* The zoning resolution of July 25, 1916, and all amendments thereto are hereby declared superseded by this resolution, which shall take effect immediately.

NOTICE

APPENDIX—MAP DESIGNATIONS AND MAP DESIGNATION RULES ACCOMPANYING AMENDED BUILDING ZONE RESOLUTION.

(Adopted October 3, 1924)

AMENDED HEIGHT DISTRICT MAP DESIGNATIONS.

———— indicates the boundary of a Height District.

($\frac{1}{4}$) ($\frac{1}{2}$) ($\frac{3}{4}$) (1) ($1\frac{1}{4}$) ($1\frac{1}{2}$) (2) ($2\frac{1}{2}$) are symbols for district classifications as defined in the zoning resolution.

AMENDED HEIGHT DISTRICT MAP DESIGNATION RULES.

1. An area surrounded by a district boundary line shall be in the Height District designated therein, except as otherwise provided by these rules.

2. The boundaries of Height Districts shall be the limiting line to which the regulations provided in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In cases where the district boundary is within a block and extends along the direction of the length thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the bounding street lying within the less restrictive district.

(b) In cases where the district boundary is within a block and extends along the direction of the width thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the nearest street.

(c) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(d) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(e) In cases where a boundary line is shown along a railroad, such boundary shall be deemed to be the center line of the railroad right of way.

(f) In cases of navigable waters, the boundary line, unless otherwise fixed, shall be deemed to coincide with the pierhead line, except in cases where no pierhead line has been established, when the shore line shall govern.

(g) Any island outside of the shore or pierhead lines, unless otherwise designated, shall be deemed to be in a $1\frac{1}{2}$ -times height district.

NOTICE

AMENDED AREA DISTRICT MAP DESIGNATIONS.

— — — — — indicates the boundary of an Area District.

(A) (B) (C) (D) (E) (F) are symbols for district classifications as defined in the zoning resolution.

AMENDED AREA DISTRICT MAP DESIGNATION RULES.

1. An area surrounded by a district boundary line shall be in the Area District designated therein, except as otherwise provided by these rules.

2. The boundaries of Area Districts shall be the limiting line to which the regulations provided in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In cases where the district boundary is within a block and extends along the direction of the length thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the bounding street lying within the less restrictive district.

(b) In cases where the district boundary is within a block and extends along the direction of the width thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the nearest street.

(c) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(d) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(e) In cases where a boundary line is shown as adjoining a railroad, unless otherwise fixed, it shall be deemed to coincide with the boundary line of the railroad right of way.

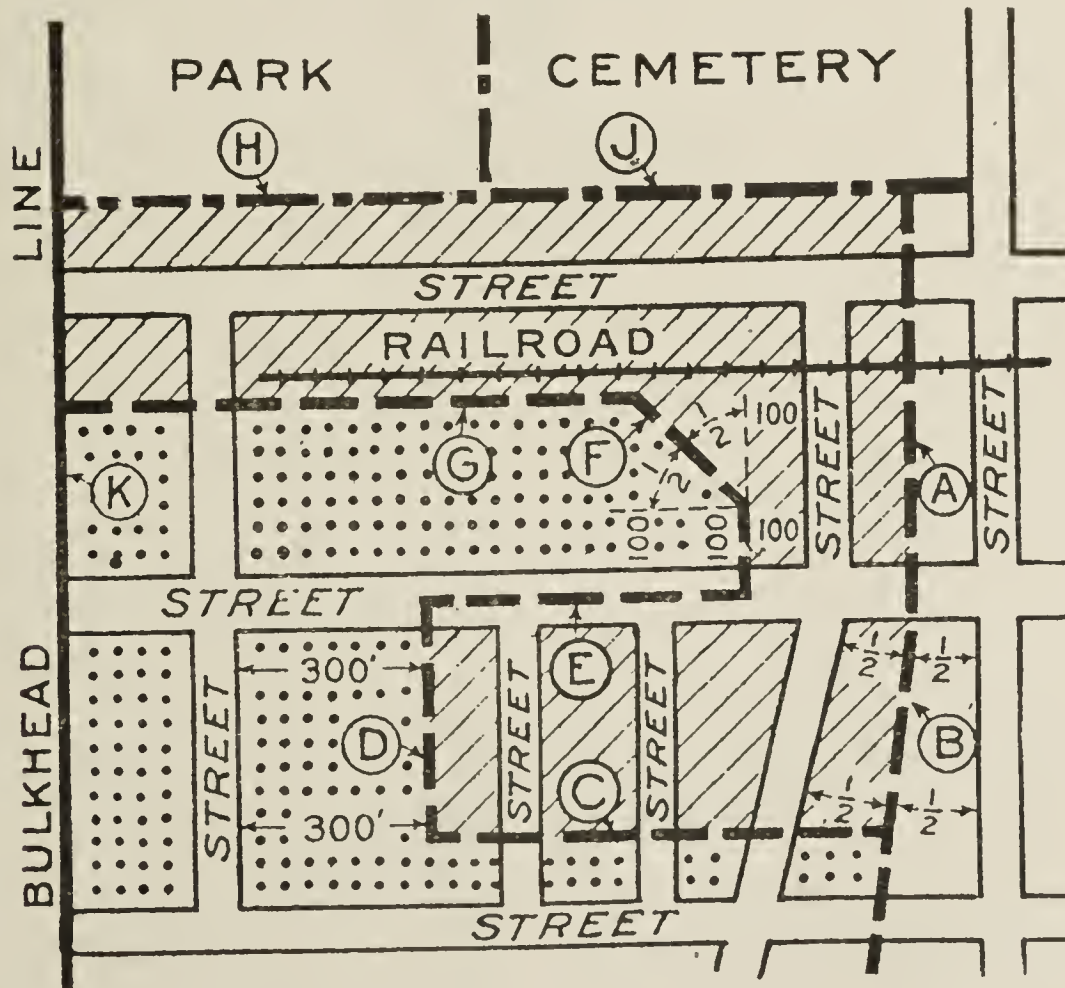

(f) In cases of navigable waters the boundary line, unless otherwise fixed, shall be deemed to coincide with the bulkhead line, except in cases where no bulkhead line has been established, when the shore line shall govern.

(g) Any island outside of the shore or bulkhead lines, unless otherwise designated, shall be deemed to be in an A district.

AMENDED USE DISTRICT MAP DESIGNATIONS.

— — — — — indicates the boundary of a Use District.
□ indicates Residence District.
▨ indicates Business District.
▤ indicates Unrestricted District.
UNDETERMINED indicates Undetermined District for which no restrictions or regulations as to use have been established.

Diagram Illustrating Methods Used in Fixing Boundaries of Use Districts.

AMENDED USE DISTRICT MAP DESIGNATION RULES.

1. In general Use Districts are intended to have a depth of 100 feet. Where block widths are less than 200 feet and

no fixtures are shown, the district boundary is intended to be 100 feet from the street to which the less restrictive designation relates.

NOTICE

2. The boundaries of Use Districts shall be the limiting line to which uses permissible in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In case of parallel streets, unless otherwise fixed, the Use District boundary shall coincide with the center line of the block.

(b) In case of streets which are not parallel, the Use District boundary, unless otherwise fixed, shall be construed as the bisector of the angle formed by prolonging the street lines to an intersection.

(c) In cases where a block has a length in excess of 200 feet and the boundary line is parallel with and nearer one of the bounding streets, unless otherwise fixed, its position shall be considered as distant 100 feet from the nearest street.

(d) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(e) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(f) In cases where a boundary line is shown as having a position oblique to the streets bounding the block in which it is located, unless otherwise fixed, it shall be deemed to be the bisector of the angle formed by intersecting lines 100 feet from and parallel with the bounding streets, the said distance being measured at right angles or normal to the street lines.

(g) In cases where a boundary line is shown as adjoining a railroad, unless otherwise fixed, it shall be deemed to coincide with the boundary line of the railroad right of way.

(h-j-k) In cases of parks, cemeteries and navigable waters, the boundary line, unless otherwise fixed, shall be deemed to coincide with the boundary of the park, or the cemetery, or the bulkhead line, except in cases where no bulkhead line has been established, when the shore line shall govern.

4. Where two streets cross at different levels, the use designation of the lower street shall control, except that when the use designation of the lower street is less restrictive it shall control only to the curb level of the higher street. Above the curb level of the higher street the more restrictive designation shall apply for a distance of 100 feet measured along the intersecting streets from each street corner.

For Applicant: Benjamin Driesler, Jr.

For Opposition: None.

ACTION OF BOARD—Plans approved.

THE VOTE TO APPROVE PLANS—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Holland.... 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon 2

Adjourned 7 p. m.

WILLIAM J. O'GORMAN, Secretary.

MINUTES

*CORRECTION.

Minutes of the meeting of the board of standards and appeals, held December 30, 1924, as they appeared in Bulletin No. 1, Volume X, are hereby corrected to read as follows:

*Correction—Word "rear" changed to "south" in line 38; "centre" changed to "north" in line 42; "front" changed to "north" in line 45.

THE RESOLUTION:

(1234-24-A)

WHEREAS, Croker Natl. Fire Prev. Eng. Co., for Morning Telegraph Co., lessee, filed, October 16, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 814-826 Eighth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 63751-F, dated August 14, 1924, reads:

MINUTES

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars, and roofs), placed within main stairway enclosure."

and

WHEREAS, the building is non-fireproof, four stories (58 ft. 4 in.) in height, divided by fire walls; on the 3rd and 4th stories, into two sections, the maximum partial area being less than 10,000 sq. ft. and combined area less than 15,000 sq. ft.; on the 2nd story, into three sections with openings therein, the opening in the northerly wall being protected with double fire doors, the partial area less than 10,000 sq. ft. and the total area less than 15,000 sq. ft.; on the 1st story the premises are divided into three sections, with fire doors at openings, the partial areas less than 10,000 sq. ft., but the total area being approximately 16,000 sq. ft. the two southerly sections being sprinklered; the build-

ing being OCCUPIED, 1st story, printing newspaper, 15 persons, stores, 15 persons; 2nd story, office and editorial room, 15 persons; 3rd story, north loft, composing rooms, 38 persons; center loft, vacant at present; south loft, toilet preparations, 12 persons; 4th story, north loft, storage of records, 2 persons; center loft, vacant at present; south loft, mfr. box couches, 12 persons.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the two south sections of building shall be equipped with an approved sprinkler system throughout; that the 50th street front, for a depth of 43 ft., shall be separated by unpierced walls on two upper stories; that the stair enclosure in the north section on the 2nd floor shall be fire retarded in accordance with the rules of the board of standards and appeals for fire retarding material; that the opening between the two north sections of building on 1st story shall be equipped with approved fire doors; and *granted* only so long as conditions as to occupancy and use otherwise remain unchanged.

RULES

*AMENDMENT TO THE EXIT RULES—REVOLVING DOORS—ADOPTED JANUARY 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

* Amendment consists of the removal of the comma after the word "revolving doors" in line 6 of rule 5.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

IMPORTANT NOTICE

AMENDMENTS TO BUILDING ZONE RESOLUTION

Notice is hereby given that the Board of Estimate and Apportionment adopted on October 3, 1924, and amended on January 9, 1925, a Resolution Regulating and Limiting the Height and Bulk of Buildings Hereafter Erected and Regulating and Determining the Area of Yards, Courts and Other Open Spaces, and Regulating and Restricting the Location of Trades and Industries and the Location of Buildings Designed for Specified Uses and Establishing the Boundaries of Districts for the Said Purposes.

See page 202.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, February 17, 1925, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, February 24, 1925, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

Absent: Mr. Dowd and Fire Chief Kenlon.. 2

THE RESOLUTION:

(1101-24-A)

WHEREAS, Euell & Euell, for Fort George Garage, Inc., owner, filed, September 5, 1925, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 2499 Amsterdam avenue, Manhattan; and

WHEREAS, appellant failed to complete his papers, although duly notified so to do.

Resolved, that the appeal be and it hereby is *dismissed* for lack of prosecution.

834-24-A.

APPELLANT—The New York Associated Architects, Inc., for Tunnel Garage Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—520-528 Broome street and 55 Thompson street, Manhattan.

APPEARANCES—

For Appellant: Gottlob E. Loeble and George L. Stivers.

For Administration: Inspector Carroll, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland and Connell.. 5

Negative 0

Absent: Mr. Dowd and Fire Chief Kenlon.. 2

THE RESOLUTION:

(834-24-A)

WHEREAS, The New York Associated Architects, Inc., for Tunnel Garage, Inc., owner, filed, June 21, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 520-28 Broome street and 55 Thompson street, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated May 9, 1924, reads:

"1. Piping connecting the siamese with the standpipe equipment proper, shall not be less than five inch in diameter as it is shown on approved plan N. B. No. 1370-22 and as Order No. 19582-LC calls for (See Rule No. 27). Wherever such piping is placed underground, same shall be of extra heavy cast iron (See Rule No. 21).";

and

WHEREAS, the building is fireproof, two stories in height, 120 ft. by 100 ft. in area; OCCUPIED as a garage, 2 persons on each story; equipped with a 4 in. line (wrought iron), located under floor, with 4 in. riser; and

WHEREAS, appellant contends that the 4 in. pipe will supply the requisite quantity of water, and requests that the existing piping be accepted; and

WHEREAS, this case was denied by the board at the meeting held on October 14, 1924, and reopened by vote of the board on January 6, 1925, and appellant proposes to install a 4 in. street connection.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby

is *granted on condition* that the standpipe equipment shall be in accordance with the rules, other than that cross connection shall be 4 in. throughout to the siamese, and that the connection to city main shall not be less than 4 in.

1329-24-A.

APPELLANT—Marian K. Clark, for Minnie Ash, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—38 West 56th Street, Manhattan.

APPEARANCES—

For Appellant: Marian K. Clark.

For Administration: Inspector Maher, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Dowd 1

THE RESOLUTION:

(1329-24-A)

WHEREAS, Marian K. Clark, for Minnie Ash, owner, filed, November 8, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 38 West 56th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 14, 1924, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above the 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at rear of building, or other approved protection, as per Section 375, Article 18, Chapter 5 of the Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 25 ft. by 100 ft. in area at 1st story and 25 ft. by 60 ft. in area above. OCCUPIED: Basement, showroom; 1st story, showroom and fitting room, 15 persons; 2nd story, factory; upper stories, dwellings; and

WHEREAS, there are three windows on each story above the 1st story within 30 ft. of openings in the wall of an adjoining building to the east; and

WHEREAS, appellant contends that the openings in the building to the east, forming the exposure, are protected with fire shutters.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* only so far as existing conditions as to use remain substantially unchanged and occupancy be as covered in Certificate of Occupancy No. 7970.

868-24-A.

APPELLANT—Edward P. Doyle, for Unity Fee Company, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—101 West 42nd Street and 737-745 Sixth avenue, Manhattan.

APPEARANCES—

For Appellant: Edward P. Doyle.

For Administration: Inspector Maher, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Gunnison, Holland, Connell and Fire Chief Kenlon 5

Negative 0

Absent: Messrs. Kennedy and Dowd..... 2

MINUTES

THE RESOLUTION:

(868-24-A)

WHEREAS, Edward P. Doyle, for Unity Fee Co., Inc., owner, filed, June 28, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 101-105 West 42nd street and 737-745 Sixth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 47636-dated June 19, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story * * * at rear of building.";

WHEREAS, the building is non-fireproof, four and five stories in height, 40 ft. by 100 ft. 5 in. in area; OCCUPIED: stores, offices, showrooms and factory, with a total of 1 persons; the building being divided into three sections by partition walls. There are 12 windows in the rear of No. 103 West 42nd street, which are within 30 ft. of openings in the adjoining section, No. 741 Sixth avenue. There are 7 windows in the rear of No. 741 Sixth avenue, which are within 30 ft. of the windows of No. 103 West 42nd street. There are 9 windows in the rear of No. 749 Sixth avenue which are within 50 ft. of the extension roof of No. 109 West 42nd street and of No. 751 Sixth avenue. There are 5 windows in the northerly wall of No. 749 Sixth avenue which are within 50 ft. of the roof of adjoining two-story building; and

WHEREAS, appellant contends that the window openings practically face one another in portions of the same structure and that the building is practically an office building.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted so long as existing conditions as to occupancy and remain unchanged.

100-24-A.

APPELLANT—Edwin C. Georgi, for Ankay Realty Co., Inc., owner.

SUBJECT—Appeal from order of fire commissioner. PREMISES AFFECTED—311 and 315 East 170th street, The Bronx.

APPEARANCES—

For Appellant: Edwin C. Georgi.

For Administration: Inspector Lynch, of fire department.

ACTION OF BOARD—Appeal granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Dowd 1

THE RESOLUTION:

(1390-24-A)

WHEREAS, Edwin C. Georgi, for Ankay Realty Co., Inc., owner, filed, November 22, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 311 and 315 East 170th street, The Bronx; and WHEREAS, the orders, No. 24533-LC and No. 24730-LC, the fire commissioner, dated June 10, 1924, and June 25, 1924, read:

"A. More than two stories immediately above garage used as a dwelling. Section 154, Chapter 10, Code of Ordinances.

"B. Living apartments occupied as dwellings contrary to the provisions of Section 154, Chapter 10, Code of Ordinances.

"Note: One family must be that of the applicant for the permit for the applicant's employe and not more than two families permitted.

"C. Boiler is not separated from the remainder of the building by an unpierced fireproof wall consisting

of solid masonry of at least 8 inches in thickness or its equivalent. Section 159-1, Chapter 10, Code of Ordinances.

"1. Discontinue the maintenance of a garage on these premises.";

and

WHEREAS, the premises consist of two non-fireproof buildings, each three stories and cellar in height and 25 ft. by 70 ft. in area. OCCUPIED: Cellar (rear), two-car garage; 1st story, store; 2nd and 3rd stories, dwellings; and

WHEREAS, appellant contends that a certificate of occupancy for the use of the building as stated was issued by the building department and that the boiler room is separated from the remainder of the building by a 20 in. stone wall with a fireproof self-closing door protecting the opening therein leading to the garage section.

Resolved, that the orders of the fire commissioner be and they hereby are modified, and the appeal be and it hereby is granted on condition that the garage space, not exceeding an area of 18 ft. 6 in. by 20 ft., shall be separated from the remainder of the structure by unpierced walls of approved masonry; that the ceiling shall be fire retarded in accordance with the rules of the board of standards and appeals and fire stops provided at ceiling and side walls; that a fixed open metal register shall be installed in the bottom and top rails of each door of the garage; that there shall be no gasoline storage equipment maintained on the premises; that the garage storage and use shall be restricted to cars, the property of the owners or occupants of the buildings; and granted only so long as conditions set forth in the certificate of occupancy issued by bureau of buildings and now in force be complied with and so maintained.

1431-24-A.

APPELLANT—August Misch, for W. J. Durr, owner. SUBJECT—Appeal from decision of fire commissioner. PREMISES AFFECTED—3294 Hull avenue, The Bronx.

APPEARANCES—

For Appellant: August Misch.

For Administration: Inspector Carroll, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Dowd 1

THE RESOLUTION:

(1431-24-A)

WHEREAS, August Misch, for William J. Durr, owner, filed, December 4, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 3294 Hull avenue, The Bronx; and

WHEREAS, the decision of the fire commissioner, rendered December 2, 1924, reads:

"Replying to your letter of the 8th inst. in which you requested a temporary permit to cover a fuel oil heating plant at the mentioned address, we regret to advise that we must deny your request in view of the fact that the plans covering the installation indicate that the burner which you intend using is not a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is non-fireproof, three stories in height, 25 ft. by 50 ft. in area. OCCUPIED: 1st story, stores; upper stories, dwellings; and

WHEREAS, a fuel oil burning setsym has been installed consisting of a 200 gallon fuel oil storage tank, a 55 gallon auxiliary tank and a "Universe" oil burner with necessary valves and piping; and

MINUTES

WHEREAS, appellant contends that the installation conforms with the fuel oil rules excepting in that the burner is not an approved burner, and requests a temporary permit pending approval of the burner by the board.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary period of ninety (90) days, on condition that the installation otherwise shall comply with the fuel oil rules of the board of standards and appeals, pending action on petition for approval of burner by the board of standards and appeals.

6-25-A.

APPELLANT—John J. Beatty, for Our Lady of Victory Parish, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—241 McDonough street, Brooklyn.

APPEARANCES—

For Appellant: John J. Beatty.

For Administration: Inspector Carroll, of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Dowd	1

THE RESOLUTION:

(6-25-A)

WHEREAS, John J. Beatty, for Our Lady of Victory Church, owner, filed, January 2, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 241 McDonough street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered December 20, 1924, in acting on Alteration Application No. 2033-1924, reads:

"1. The use of Grade B. Fuel Oil is not permitted in commercial plants and residences of more than two families unless the room in which equipment is used is cut off from the rest of the building by fire-proof partitions, ceilings and floors. Such rooms must also have direct entrance from street only and be adequately vented to the outer air.

"2. Capacity of inside storage tank above ground may not exceed 200 gallons.";

and

WHEREAS, the building is non-fireproof, one story in height, 43 ft. by 85 ft. in area; OCCUPIED as a parish house, with a boiler room in the cellar and gymnasium on the 1st story; plans have been filed in the building department and the fire department for the installation of a fuel oil burning plant for the use of Grade B fuel oil with an Aetna Automatic Burner, approved by the board of standards and appeals, with an 8,500 gallon tank installed in the brick and concrete enclosure in the centre of the cellar; a passageway is provided in the cellar from the boiler room to the adjoining school building, openings being protected by fire-proof self-closing doors on each side; there is also an opening in the division wall leading to the adjoining church; and

WHEREAS, appellant contends that the fuel oil rules have been complied with in all respects except as to subdivision G, rule 4, section 1, in that tank capacity is 8,500 gallons instead of 5,000 gallons, and as to subdivision H, that the boiler room is entirely separated from the remainder of the building.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Items No. 1 and No. 2 on condition that the fuel oil stored and used in operation of the plant on these

premises shall be restricted to Grade A oil and that the fuel oil burning equipment otherwise shall comply with the fuel oil rules in all other respects.

BUILDING ZONE CASES.

1367-23-BZ.

APPLICANT—John J. Dunnigan, for B. R. Construction Co., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a "B" area district the erection and maintenance of a building occupying more than 40 per cent of the rear yard area.

Absent: Mr. Dowd 1
THE RESOLUTION:

(1111-24-BZ)

WHEREAS, Louis A. Sheinart, for Irene Collerd, owner, filed, September 9, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises northwest corner of 189th street and Washington avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, November 18, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 189th street is a business district and Washington avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 5, 1924, in acting on N. B. Application No. 2447-24, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution."; and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 95 ft. and a depth of 100 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, this application was denied by the board at its meeting November 18, 1924, and applicant requested a reopening of the case to present further facts in support, which request was granted by vote of the board; and

WHEREAS, the board deemed that the further invasion of this street front is not justified.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1125-24-BZ.
APPLICANT—Eugene De Rosa for Sol Brice, owner.
SUBJECT—Application (re: decision of superintendent of buildings) to permit the extension, from a business district into a residence district, of a proposed building, to be used for theater and store purposes.
PREMISES AFFECTED—130-134 Dyckman street, Manhattan.

MINUTES

APPEARANCES—

For Applicant: Jonah J. Goldstein.
For Opposition: A. N. Gitterman.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland and Connell... 5
Negative: Fire Chief Kenlon..... 1
Absent: Mr. Dowd 1

THE RESOLUTION:

(1125-24-BZ)

WHEREAS, Eugene De Rosa, for Sol Brice, owner, filed, September 15, 1924, an application, under the building zone resolution, to permit the extension, from a business district into a residence district, of a proposed building, to be used for theatre and store purposes; premises 130-134 Dyckman street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Dyckman street, Sherman avenue and Nagle avenue are business districts and Thayer street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered September 11, 1924, in acting on N. B. Application No. 505-24, reads:

"1. The erection of a building for business and public amusement in a residence district is unlawful. Building Zone Resolution, Section 3.";

and

WHEREAS, the proposed building is to be of fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 200 ft.; to be occupied as a theatre and stores, a portion 100 ft. in depth extending into the residence district; and

WHEREAS, under the provisions of section 7, subdivision c, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution and that the application be and it hereby is granted on condition that the use of the building be restricted to the conduct and operation of a motion picture theatre; that the gable walls where exposed shall be faced with light colored brick and shall be unpierced throughout their entire height and length, except emergency exit openings on property within the same ownership embraced in the theatre plot; that the exterior wall of the Thayer street front shall be set back not less than 12 in. from building line and shall be laid up in face brick and natural stone trim of attractive architectural design; a return of the proposed finished design of the Thayer street elevation shall be made to this board for its approval before submitting same to the superintendent of buildings; that the business conduct and operation of the building shall be restricted to the Dyckman street frontage; that there shall be no advertising sign or display of any nature or description erected or maintained within the residence area of the plot, and there shall be no roof sign erected or permitted within the residence area of the plot;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

532-24-BZ.

APPLICANT—Mrs. John O'Brien, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of five (5)

pleasure motor vehicles, four (4) spaces rented to persons not residing on the premises.

PREMISES AFFECTED—1075 Summit avenue, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle and Mrs. John O'Brien.

For Opposition: Thomas J. Devine.

ACTION OF BOARD—Application granted for temporary period of two years on condition.

THE VOTE TO GRANT TEMPORARY PERMIT—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Dowd 1

THE RESOLUTION:

(532-24-BZ)

WHEREAS, Mrs. John O'Brien, owner, filed, April 14, 1924, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of five (5) pleasure motor vehicles, four (4) spaces rented to persons not residing on the premises; premises 1075 Summit avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Summit avenue and University avenue are residence districts and West 165th street is a business district; and

WHEREAS, the order of the fire commissioner, dated December 11, 1923, reads:

"Order No. 21157-C:

"1. Discontinue the maintenance of a garage not maintained as an accessory use on these premises.";

and

WHEREAS, the building is of non-fireproof construction one story in height, with a frontage of 18 ft. and a depth of 48 ft.; occupied as a garage for five automobiles, four spaces rented to persons not residing on premises; and

WHEREAS, under the provisions of section 7, subdivision F, the board is empowered to grant a temporary permit

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution and that the application be and it hereby is granted on condition that the existing temporary structure be limited in capacity to five automobiles of the pleasure car type, space for four of which may be rented to persons not residing on the premises, for a temporary period of two years from the date of this action; that there shall be no sign of any nature or description displayed or exposed on the premises that there shall be no gasoline storage equipment installed or maintained on the premises; and that all necessary permits shall be obtained within sixty days.

1340-24-BZ.

APPLICANT—John J. Dunnigan, for Walter S. Thomson, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district extending from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—1297 Jerome avenue, The Bronx.

APPEARANCES—

For Applicant: John J. Dunnigan.

For Opposition: Henry Molwitz, Herman Friedman and Jeremiah Mahoney.

ACTION OF BOARD—Application granted on condition.

MINUTES

CONDITIONS—As specified in resolution.
THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell and Fire Chief Kenlon 5
Negative 0
Absent: Mr. Dowd 1

THE RESOLUTION:

(1340-24-BZ)

WHEREAS, John J. Dunnigan, for Walter Thomson, owner, filed, November 12, 1924, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 1297 Jerome avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Inwood avenue is an unrestricted district and Jerome avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 6, 1924, in acting on N. B. Application No. 2816-24, reads:

"1. Proposed erection of garage for storage of more than five motor vehicles in unrestricted district extending into a business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height on Inwood avenue, with a frontage of 50 ft. and a depth of 200 ft.; to be occupied as a garage for more than five motor vehicles, approximately one-half of the structure being in the business district; and

WHEREAS, there existed on the business street between the intersecting streets on July 25, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution and that the application be and it hereby is granted on condition that the building be restricted to a one-story structure in height above the Jerome avenue grade; the roof to be of flat design and construction; that the southerly gable wall shall be unpierced throughout its entire height and length; that the Jerome avenue frontage shall be restricted to one vehicular entrance; that openings on Clark place in the business district shall be restricted to windows the sills of which shall be at least five ft. 6 in. above grade, and there shall be no vehicular entrance within the business area on the Clark place front; that the street elevations shall be finished with face brick and architectural terra cotta or stone trimmings; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1068-24-BZ.

APPLICANT—John DeHart, for Wilaura Holding Corporation, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a residence district and partly in a business district, the erection and maintenance of a garage for the storage of more than five(5) motor vehicles.

PREMISES AFFECTED—Southeast corner of Burnside and Sedgwick avenues, The Bronx.

APPEARANCES—

For Applicant: John DeHart.

For Opposition: Joseph A. Corbales, Herman Strully, Harriot Briggs, John J. Kerby.

John P. Collins, John Hermon, Henry Stauff and Alexander Brenner.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Messrs. Kennedy and Gunnison 2
Negative: Chairman Walsh, Messrs. Connell and Holland 3
Absent: Mr. Dowd and Fire Chief Kenlon... 2

THE RESOLUTION:

(1068-24-BZ)

WHEREAS, John De Hart, for Wilaura Holding Corp., owner, filed, August 26, 1924, an application, under the building zone resolution, to permit partly in a residence district and partly in a business district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises southeast corner of Burnside and Sedgwick avenues, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Sedgwick avenue is a residence district and Burnside avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 6, 1924, in acting on N. B. Application No. 2222-24, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business and residence district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 107 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there were no facts adduced at the hearing to substantiate the basis of this application under section 21 of the building zone resolution, and the board deemed that the invasion of the district is neither warranted nor justified by surrounding conditions.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

595-24-BZ.

APPLICANT—Thomas O'Rourke Gallagher, for Benjamin Taishoff, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a business district and partly in a residence district the erection and maintenance of a building to be used as a poultry market.

PREMISES AFFECTED—1169-1173 East New York avenue, Brooklyn.

APPEARANCES—

For Applicant: Lillian Corcoran, Benjamin Taishoff and Thomas O'Rourke Gallagher.

For Opposition: Henry Feller and Stanley S. Smith.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland and Connell... 5
Absent: Mr. Dowd and Fire Chief Kenlon... 2

THE RESOLUTION:

(595-24-BZ)

WHEREAS, Thomas O. Gallagher, for Benjamin Taishoff, owner, filed, April 28, 1924, an application, under the building zone resolution, to permit, partly in a residence district and partly in a business district, the erection and maintenance of a building to be used as a poultry market; premises 1169-1173 East New York avenue, Brooklyn; and

MINUTES

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East New York avenue is a business district and Union street and Portal street are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered April 7, 1924, in acting on Application No. 7918-24, reads:

"Proposed one-story poultry market partly in a business district and partly in a residence district is contrary to Art. II, Sec. 3 of the Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 50 ft. and a depth of 119 ft. 4½ in.; to be occupied as a poultry slaughter house, a portion of the premises extending into the residence district; and

WHEREAS, the applicant failed to submit any facts in support of the basis of his application under section 21, and the existing environs neither warrant nor justify the invasion of this district for the proposed prohibited use.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1371-24-BZ.

APPLICANT—Edward P. Doyle, for Joseph Spektorsky, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district extending from a business district the erection and maintenance of a business building.

PREMISES AFFECTED—East side Fox street, 98.22 ft. north of 165th street, The Bronx.

APPEARANCES—

For Applicant: Edward P. Doyle.

For Opposition: William Allen, Herman S. Goldstein and John DeHart.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland and Connell.. 5

Negative 0

Absent: Mr. Dowd and Fire Chief Kenlon.. 2

THE RESOLUTION:

(1371-24-BZ)

WHEREAS, Edward P. Doyle, for Joseph Spektorsky, owner, filed, November 20, 1924, an application, under the building zone resolution, to permit the extension, from a business district into a residence district, of a proposed building to be used for business purposes; premises east side of Fox street, 98.22 ft. north of East 165th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Fox street is a residence district and East 165th street and Westchester avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 18, 1924, in acting on N. B. Application No. 2920-24, reads:

"1. Erection of proposed building for business uses in residence and business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of

100 ft. and a depth of 120 ft.; to be occupied as stores and offices; and

WHEREAS, the board deemed that, owing to the extensive business use throughout the street, there would be hardship in preventing applicant from making a similar use of his premises.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution and that the application be and it hereby is granted on condition that the structure shall not exceed a two-story building above grade, subdivided as described and laid out on the plans filed in this appeal; that the business use of the 1st floor shall be restricted to stores or shops for conduct of retail business, and the 2nd story to executive offices, and no manufacturing shall be permitted on any part of the premises; that any signs or advertising displayed on the premises shall be restricted to the show windows of the stores; that no roof signs shall be permitted; that the side walls shall be unpierced throughout their entire height and length; that the front of the building, other than the show windows, shall be finished in face brick or natural stone; that the architect shall make a return of his drawings for approval of the elevation by this board before filing same with the superintendent of buildings;

Resolved, further that all necessary permits be obtained within nine months and building completed within eighteen months from the date of this action.

592-24-BZ.

APPLICANT—Edward P. Doyle, for St. John's Estates, Inc., owner.

SUBJECT—Application for approval of design (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—240-250 Empire boulevard, Brooklyn.

APPEARANCES—

For Applicant: Edward P. Doyle.

For Opposition: None.

ACTION OF BOARD—Application reopened, design approved and resolution modified in accordance with design submitted.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN, MODIFY RESOLUTION AND APPROVE DESIGN—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland and Connell.. 3

Negative 0

Absent: Mr. Dowd and Fire Chief Kenlon.. 2

THE RESOLUTION:

(592-24-BZ)

WHEREAS, Edward P. Doyle, for St. John's Est., Inc., owner, filed, April 28, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 240-250 Empire boulevard, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, July 1, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Empire boulevard and Rogers avenue are business districts and Sterling street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered April 10, 1924, in acting on App. No. 7907-24, reads:

"Proposed public garage in business district prohibited by Zone Resolution."

and

MINUTES

WHEREAS, the proposed building is to be of non-fire-proof construction, one story in height, with a frontage of 99 ft. 3 in. and a depth of 100 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a garage for more than five motor vehicles; and

WHEREAS, this application was granted by the board at its meeting July 1, 1924, on certain conditions, and applicant requested a modification of the conditions as to windows on the Rogers avenue front, which request was granted by vote of the board.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be restricted to a one-story structure above grade; that the rear and gable walls be unpierced throughout their entire height and length; that the front elevations on Empire boulevard and Rogers avenue be finished in face brick with architectural terra cotta or stone trimmings; that there shall be no vehicular entrance on Rogers avenue, and any openings other than an emergency exit not exceeding 3 ft. 8 in. in width, shall be restricted to show windows, glazed with polished plate glass in accordance with design approved by the board at this meeting; that there shall be no advertising or signs displayed on the Rogers avenue front of the building; that no roof signs shall be erected nor maintained on this building; that any vehicular entrance on Empire boulevard front shall be not less than 25 ft. from the corner of Rogers avenue;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

AREAS FIXED.

(1480-24-BZ)

The chairman presented and read a communication from Emil Guterman, requesting the board to fix an area deemed affected and within which to obtain consents for alteration and extension of a garage; premises 105-7 Jackson street, Brooklyn.

The following area was approved by the board:

Both sides of Jackson street from a point 100 ft. east of Manhattan avenue to a point 400 ft. west of the premises; the west side of Manhattan avenue from Jackson avenue to Withers street; also the south side of Withers street from Manhattan avenue to a point 325 ft. west of Manhattan avenue.

(1407-24-BZ)

The chairman presented and read a communication from McLain Realty Co., requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 6-8 Linden avenue, Borough of Queens.

The following area was approved by the board:

Both sides of Linden avenue from Broadway to a point 400 ft. north of proposed garage; both sides of Carlton place from Linden avenue to a point 200 ft. east of Linden avenue; the north side of Broad-

way from Farrington street to Linden avenue; the east side of Farrington street from Broadway to a point 100 ft. north of Broadway; also the south side of State street from Linden avenue to a point 160 ft. west of Linden avenue.

(1502-24-BZ)

The chairman presented and read a communication from A. P. Sorice, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises east side New York avenue, 185.92 ft. north of South street, Jamaica, Borough of Queens.

The following area was approved by the board:

Both sides of New York avenue from a point 100 ft. south of South street to a point 400 ft. north of proposed garage.

(1534-24-BZ)

The chairman presented and read a communication from William J. Conway, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 64-68 West 9th street, Borough of Brooklyn.

The following area was approved by the board:

Both sides of West 9th street from Henry street to a point 400 ft. west of proposed garage; also the north side of West 9th street from Henry street to a point 100 ft. east of Henry street.

(1533-24-BZ)

The chairman presented and read a communication from I. Seelig, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 486-510 St. Johns place, Borough of Brooklyn.

The following area was approved by the board:

Both sides of St. Johns place from Washington avenue to a point 400 ft. east of proposed garage; west side of Classon avenue from Lincoln place to St. Johns place; north side of Lincoln place from Washington avenue to Classon avenue; east side of Washington avenue from Lincoln place to St. Johns place.

(1527-24-BZ)

The chairman presented and read a communication from Jacob Lubroth, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises southwest corner Kings highway and West 12th street, Brooklyn, N. Y.

The following area was approved by the board:

Both sides of West 12th street from a point 200 ft. north of Kings highway to a point 400 ft. south of proposed garage; both sides of Avenue Q and also Kings highway from West 11th street to a point 400 ft. west of premises in question; also the east side of West 13th street from Avenue Q to Kings highway.

Adjourned 2.30 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

MINUTES

BOARD OF STANDARDS AND APPEALS.

THE RESOLUTION:

(1412-24-S)

WHEREAS, F. P. Keniston, for William C. Hart, owner, filed, November 29, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 137 Greene street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 7, 1924, reads:

"Order No. 67452-LD:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of sections 273 and 274 of the Labor Law * * *.

"NOTE: Among the defects noted on this fire escape are the following:

"Fireproof windows and doors opening on course not self-closing. Plain glass in skylight under balcony of 2nd story. Steps not provided from floor to sills of openings. No stairway from lowest balcony to ground. No fireproof passageway leading to the street from the termination.";

and

WHEREAS, the building is non-fireproof, six stories in height, 37 ft. by 93 ft. in area at the 1st story and 37 ft. by 83 ft. in area above. OCCUPIED: Basement, stock, 2 persons; 1st story, mfg. printing rolls, 8 persons; 2nd story, office and laboratory, 8 persons; 3rd story, stationery supplies, 3 persons; 4th story, vacant at present; 5th story, mfg. hat blocks, 10 persons; 6th story, mfg. straw hats, 25 persons; EQUIPPED with a fire alarm signal system. EXITS: An interior wooden stairway, extending from the 1st story to the roof, enclosed in fire resisting partitions, with fireproof doors at the openings; a party wall fire escape on the rear of the building with fireproof windows along the course thereof, extending from roof to 2nd story balcony, with intermediate balcony and vertical ladder to yard of building at the rear; with egress from the termination of fire escape to street, by means of door leading from yard to cellar of building in question; ROOFS of adjoining buildings, to south, same elevation; to north, 40 ft. lower; and

WHEREAS, petitioner proposes to provide flame plates under fire escape balcony at 2nd story in lieu of fireproof glass in the skylight and contends that the fire prevention bureau accepted this fire escape in 1920, as a secondary means of exit, after certain work had been done on the stairway within the building.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted only so far as it affects egress from the termination of fire escape and the glass in rear skylight on condition that the fire escape balconies at the 2nd story shall be extended to embrace the entire rear of these premises, with a drop ladder in guides terminating at the roof of extension at north; party-wall balconies to be maintained throughout the entire rear, embracing not less than two windows of building to south on each story from the 2nd story up; that the flame shields shall be provided on underside of balcony at 2nd story level; that skylight shall be glazed with heavy-ribbed skylight glass; that the use otherwise shall remain unchanged and that the occupancy shall not exceed the legal capacity of the interior stairway.

1299-24-S.

PETITIONER—Russell G. Cory, for Topping Brothers, owners.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—159-161 Varick street and 49-55 Van Dam street, Manhattan.

APPEARANCES—

For Petitioner: Walter M. Cory.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott..... 10
 Negative 0
 Absent: Mr. Dowd, Fire Chief Kenlon and Deputy Fire Commissioner Hannon.... 3

THE RESOLUTION:

(1299-24-S)

WHEREAS, Russell G. Cory, for Topping Bros., owners, filed, November 3, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 159-161 Varick street and 49-55 Van Dam street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated September 25, 1924, Alt. App. No. 2325-1923, reads:

"8. The lights in present show windows are of excessive dimensions, ribbed glass is not accepted for fireproof windows—Sec. 264 of Labor Law.";

and

WHEREAS, the building is fireproof, seven stories in height, 100 ft. by 125 ft. in area. OCCUPIED from the 1st to 4th stories, incl. for the storage of hardware, 81 persons; 5th story, vacant at present; 6th story, printing plant, 50 persons; 7th story, manufacture of printing ink, 45 persons; EQUIPPED with a sprinkler system; and

WHEREAS, there are openings on the 1st story, on both street fronts of the building, glazed with plate glass (the maximum area being 6 ft. 11 in. by 7 ft. 2 in.) and also openings on all stories above the 1st story, on both street fronts, being glazed with double strength ribbed glass (instead of wire glass) in standard steel sash and being in units of 280 square inches; and

WHEREAS, petitioner contends that to replace the large plate glass show windows on the 1st story with smaller units would destroy their intended purpose, and requests, also, the acceptance of the ribbed glass in view of the small area of the units.

MINUTES

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects windows on street front *on condition* that all openings, other than the plate-glass window, shall be equipped with approved steel frames, glazed with double thick plain glass, not less than $\frac{1}{4}$ in. in thickness, no light of glass to exceed an area of 14 in. by 20 in.; and that the requirements of the labor law shall be complied with in all other respects.

1348-24-S.

PETITIONER—Samuel Cohen, for Harry Frank, Joseph Luchs, Hand I. Ottenstein and Karp, Roth and Lohren, lessees.

SUBJECT—Variation of labor law as cited in order of superintendent of buildings.

PREMISES AFFECTED—222-224 West 37th street, Manhattan.

APPEARANCES—

For Petitioner: Max Siegel.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville, Moore and McDermott 9

Negative: Superintendent Kleinert 1

Absent: Mr. Dowd, Fire Chief Kenlon and Deputy Fire Commissioner Hannon.... 3

THE RESOLUTION:

(1348-24-S)

WHEREAS, Samuel Cohen, for Harry Frank, Joseph Luchs, Hand I. Ottenstein, and Karp, Roth & Lohren, lessees, filed, November 14, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the superintendent of buildings, affecting premises 222-24 West 37th street, Manhattan; and

WHEREAS, the order of the superintendent of buildings, Viol. 691-24, dated November 12, 1924, reads:

"Answering your letter of Nov. 11th, regarding the above mentioned order, covering the

"Erection of wood partitions sub-dividing the third and fourth floors, also sixth to fourteenth floors, inclusive. Contrary to Sections 264 & 270 of the Labor Law."

and your request that the matter be reconsidered to permit the erection of these partitions on the 3rd, 6th, 8th and 9th floors, this request is hereby denied, and the partitions will have to be removed."

and

WHEREAS, the building is fireproof, 14 stories in height, 37 ft. by 98 ft. in area. OCCUPIED: 1st story, stores; upper stories, tenant factory, 50 persons per story; EQUIPED with a sprinkler system and a fire alarm signal system. EXITS: An interior fireproof stairway and a fire tower, both extending from 1st story to roof; enclosed in fireproof partitions with fire doors at openings; the floor area on the 3rd, 6th, 8th and 9th stories being subdivided by combustible partitions, some extending to the ceiling and others 7 ft. 2 in. high; and

WHEREAS, petitioner contends that the partitions are so located that they do not obstruct egress to the stairs or fire tower.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects the showroom, office and entrance lobby on the 3rd, 6th, 8th and 9th stories, at front of building, subdividing front on line with elevator in two areas, *on condition* that the upper portion of said partition shall be glazed with thin glass, at least 18 in. below the

sprinkler line; and that the labor law requirements shall be complied with in all other respects.

1383-24-S.

PETITIONER—David M. Jones, for Morris Widman, owner.

SUBJECT—Variation of labor law as cited in decision of the health commissioner.

PREMISES AFFECTED—1792 Washington avenue, The Bronx.

APPEARANCES—

For Petitioner: David M. Jones.

For Administration: Chief Inspector Albert H. Lorenze of health department.

ACTION OF BOARD—Petition granted.

THE VOTE—

Affirmative: Messrs. Kennedy, Gunnison, Holland, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 9

Negative: Chairman Walsh and Mr. Connell 2

Absent: Mr. Dowd and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1383-24-S)

WHEREAS, David M. Jones, for Morris Widman, owner, filed, November 21, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the department of health, affecting premises 1792 Washington avenue, The Bronx; and

WHEREAS, the decision of the department of health, rendered November 6, 1924, reads:

"An application for a sanitary certificate to operate a bakery at 1792 Washington Avenue, was denied."

and

WHEREAS, the building is non-fireproof, five stories in height, 27 ft. by 96 ft. in area. OCCUPIED: Cellar, bakery; 1st story, store; upper stories, dwellings; the height of the dwelling from floor to ceiling varying from 8 ft. to 11 ft. 6 in.; the ceiling being 2 ft. above the curb level and the floor being level with the side yard; the means of ventilation consisting of four 2 ft. by 5 ft. 6 in. windows opening on the rear yard and also three 3 ft. by 6 ft. windows opening on the side yard; and

WHEREAS, petitioner contends that the building was erected in 1912 and that the tenement house department issued in 1921, a certificate of occupancy permitting the maintenance of a bakery in the cellar, and contends further that the premises have been used as a cellar bakery since 1912.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted*

1441-24-S.

PETITIONER—Samuel Rosenblum, for 44 West 56th Street Corporation, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—44 West 56th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Mr. Dowd and Deputy Fire Commissioner Hannon 2

MINUTES

THE RESOLUTION:

(1441-24-S)

WHEREAS, Samuel Rosenblum, for 44 West 56th Street Corp., owner, filed, December 5, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 44 West 56th street, Manhattan; and

WHEREAS, the order of the re commissioner, dated October 23, 1924, reads:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law * * *.

"Among the defects noted on this fire escape are the following:

"* * * no fireproof passageway leading to the street from the termination.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 90 ft. in area on the 1st, 2nd and 3rd stories and 25 ft. by 64 ft. in area above; OCCUPIED as a tenant factory, 85 persons above the 1st story. EXITS: An interior wooden stairway, extending from 1st story to roof, enclosed in fire resisting partitions with metal covered wooden doors at openings; a 45 degree fire escape on the rear of the building (with fireproof windows along the course thereof), extending from the main roof to the roof of the 3rd story extension, and a fire escape on the rear of the three-story extension extending from the roof thereof to the yard; with EGRESS from the termination of fire escape by means of a door in the fence to yard of premises to west; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that the existing means of egress are adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted only so far as it affects egress from termination of fire escape on condition that the fire escape shall be carried to the yard level with egress therefrom through fence to yard of adjoining premises; and that the premises otherwise conform to the requirements of the certificate of occupancy now in force.

1380-24-S.

PETITIONER—C. Alfred Foster, for S. Adelson, owner.

SUBJECT—Variation of labor law as cited in decision of fire commissioner.

PREMISES AFFECTED—141 Kosciusko street, Brooklyn.

APPEARANCES—

For Petitioner: C. Alfred Foster.

For Administration: Inspector Maher of fire department.

THE VOTE TO GRANT—

Affirmative: Fire Chief Kenlon and Superintendent Brady 2

Negative: Chairman Walsh, Messrs. Kennedy, Holland, Connell, Superintendents Reville, Kleinert, Moore and McDermott 8

Absent: Messrs. Dowd, Gunnison and Deputy Fire Commissioner Hannon..... 3

THE RESOLUTION:

(1380-24-S)

WHEREAS, C. Alfred Foster, for S. Adelson, owner, filed, November 2, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the fire commissioner, affecting premises 141 Kosciusko street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered October 7, 1924, reads:

"Replying to your letter of the 1st inst., relative to order No. 47700-LD, item 2—re fire escape (no passageway from termination of fire escape to street) you are advised that I am in receipt of a report which shows that the exit provided from termination of fire escape to street cannot be accepted by this Department as same does not conform with Sec. 273-4 of the Labor Law, and as the Fire Commissioner has no authority to deviate from the requirements of the Labor Law, your request is hereby denied.";

and

WHEREAS, the building is non-fireproof, three stories in height, 25 ft. by 88 ft. in area, with one-story extension at the rear west. OCCUPIED: 1st story, garage; upper stories, clothing factory, 35 persons above the 1st story. EXITS: An interior wooden stairway extending from the 1st story to the roof, enclosed in fire retarding partitions with metal covered wooden doors at openings; a fire escape on the front of the building, extending from the 3rd story to street and also a fire escape on the westerly side of the building (with reproof windows along the course thereof), extending from roof to iron bridge at 2nd story, crossing bridge over one-story extension, and thence by stationary iron stair to side court, with egress from the termination of fire escape by means of gate in fence to adjoining yard to west and also through basement of owner's residence (located on same lot) to street. ROOFS of adjoining buildings are one story lower; and

WHEREAS, petitioner contends that the existing means of exit are adequate.

Resolved, that the board of standards and appeals does hereby affirm the requirements of the labor law, and the petition be and it hereby is denied.

1464-24-S.

PETITIONER—Samuel Rosenblum, for Emma C. Rueff, owner.

SUBJECT—Variation of labor law as cited in orders of fire commissioner.

PREMISES AFFECTED—128-38 Mott street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition in part and denied in part.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Mr. Dowd and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1464-24-S)

WHEREAS, Samuel Rosenblum, for Emma C. Rueff, owner, filed, December 13, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 128-38 Mott street, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated February 19, 1924, read:

"Order No. 55149-LD—premises 128-32 Mott Street.

"2. Extend the interior stairway at the north side of building to roof, as per Section 271 of the Labor Law, said extension and the landings and passageways connecting therewith to be enclosed on all sides with partitions of fire resisting material extending at least 3 ft. above the roof as per Section 271 of the Labor Law."

"Order No. 55142-LD—premises 134-8 Mott Street.

"2. Extend the interior stairway at the south side

MINUTES

of building to the roof as per Section 271 of the Labor Law, said extension and the landings, and passageways connecting therewith to be enclosed on all sides with partitions of fire resisting material extending at least 3 ft. above roof as per Section 271 of the Labor Law.”;

and

WHEREAS, the premises consist of two non-fireproof buildings, each seven stories in height, No. 128-32 being 74 ft. 9 in. by 70 ft. in area and No. 134-38 being 75 ft. 1 in. by 80 ft. in area; connected on each story by an opening in the division wall at the stairhall enclosure; OCCUPIED as tenant factories, No. 128-32 having 184 persons above the 1st story and No. 134-38 having 139 persons above the 1st story; EQUIPPED with a fire alarm signal system, each building having as exits an interior fireproof stairway, extending from 1st story to top story, with iron ladder to scuttle in roof, enclosed in fireproof partitions, with fire doors at the openings; a fire escape on the front of each building (with fireproof windows along the course thereof) extending from roof to 1st story balcony, with counterbalanced stair to street; ROOF of building to south, one story lower; to north is two stories lower; and

WHEREAS, petitioner contends that these orders are similar to previous orders which were acted on by the board of review of the fire department, and, after certain work had been done, were considered sufficiently complied with.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, as cited in Order No. 55142, and the petition be and it hereby is granted on condition that the stairway in premises 128-132 Mott street shall be carried to roof; and that the petition on Order 55149 be and it hereby is denied.

1392-24-S.

PETITIONER—Samuel Rosenblum, for Nathaniel H. Lyons, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—297 Fulton street, Brooklyn.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott	11
Negative	0
Absent: Mr. Dowd and Deputy Fire Commissioner Hannon	2

THE RESOLUTION:

(1392-24-S)

WHEREAS, Samuel Rosenblum, for Nathaniel H. Lyons, owner, filed, November 24, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 297 Fulton street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated November 8, 1924, reads:

“Order No. 67528-LD:

“1. Extend the interior stairway at the north side of building to the roof, as per Section 271 of the Labor Law.

“2. Provide an outside iron balcony fire escape on the front west side of building with balconies 4 ft. in width connected by stairways not less than 22 in. wide, placed at an incline of not more than 45 degrees, extending from the ground to the highest story,

constructed as per Section 273 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with Section 271 of the Labor Law.

“3. Remove the substandard fire escape on the rear of building or reconstruct same as per Section 274 of the Labor Law * * *.”;

and

WHEREAS, the building is non-fireproof, four stories in height, 26 ft. by 120 ft. in area at the 1st story and 26 ft. by 103 ft. in area at the 2nd story; OCCUPIED as tenant factory, 10 persons above the 1st story. EXITS: An interior wooden stairway, extending from the 1st story to the top story (with wooden ladder to scuttle in roof), enclosed in wood lath and plaster partitions, with wooden doors at the openings; an iron stairway extending from the 4th story to the roof of the 2nd story extension roof and also a wooden accommodation stairway from the 2nd to the 3rd story, with egress from the termination of iron stairway by means of adjacent extension roof to north, at same height; ROOFS of adjoining building, to north, same height, to south, two stories lower; and

WHEREAS, petitioner proposes to provide a fixed iron ladder to scuttle in roof, a gooseneck ladder from the 4th story balcony to roof and a party wall balcony at the 2nd story rear, connecting to the building to north, which building is under same control as building in question.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted, as to Item 1, on condition that fixed double-rung iron ladder shall be carried to scuttle in roof; as to Item 2 on condition door openings shall be provided from the rear portion of 3rd story, one to the roof of extension adjoining on the north and the other leading to roof of two-story extension of this building, with party-wall balcony at rear of 2nd floor, with 60 degree stairway to roof of extension to the north; as to Item 3 on condition that modification affecting Items 1 and 2 shall be complied with; and granted so long as conditions as to occupancy and use remain unchanged.

920-24-S.

PETITIONER—Samuel Rosenblum, for Almond Realty Company, owner.

SUBJECT—Application for modification of resolution—variation of labor law as cited in order of superintendent of buildings.

PREMISES AFFECTED—251-259 West 36th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition reopened and resolution modified.

THE VOTE TO REOPEN AND MODIFY THE RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville, Kleinert, Moore and McDermott.....	10
Negative	0
Absent: Mr. Dowd, Fire Chief Kenlon and Deputy Fire Commissioner Hannon	3

THE RESOLUTION:

(920-24-S)

WHEREAS, Samuel Rosenblum, for Almond Realty Co., owner, filed, July 11, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the superintendent of buildings, affecting premises 251-9 West 36th street, Manhattan; and

WHEREAS, the order of the superintendent of buildings, dated February 1, 1924, reads:

MINUTES

"You are hereby directed to remove all wood partitions erected on the 2nd and 14th floors, inclusive."; and

WHEREAS, the building is fireproof, 14 stories in height, 84 ft. by 88 ft. in area. OCCUPIED: 1st story, stores and offices, 50 persons; mezzanine, offices, 20 persons; upper stories, offices and manufacturing, 120 persons per story; EQUIPPED with a sprinkler system. EXITS: Two interior fireproof stairways extending from 1st story to roof; enclosed in fireproof partitions with fire doors at openings; ROOFS of adjoining buildings are seven and twelve stories higher; and

WHEREAS, petitioner contends that the majority of the partitions are dwarf partitions, 6½ to 7 ft. high; that they do not obstruct the exits and are part of the factory equipment; and

WHEREAS, this petition was granted by the board at its meeting September 23, 1924, and petitioner requested a modification of the conditions of the resolution.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects the partitions around showrooms, office and entrance hall to office and showrooms, *on condition* that the upper portion of said partitions shall be glazed with thin glass not less than 18 in. below sprinkler line; that exit door not less than 36 in. wide shall be provided in said partition, leading direct from workroom and opening out to exit hall; that an exit sign at least 8 in. in height shall be erected and a red light placed over such door, in addition to other means of exit; that on any floor occupied by more than one tenant, the subdividing partitions shall be arranged so as to allow independent egress to all required means of exit for each tenant; that the partition subdividing one tenant from another shall extend from the floor to ceiling; and where partition prevents the effective discharge of water from sprinkler heads, additional heads shall be provided to cover entire area, to maintain sprinkler throughout entire premises; that all interior partitions, excepting showroom, office and entrance hall partitions, shall be constructed of incombustible material, as specified under subdivisions A to H of section 355 of the building code, or any approved fireproof partition; and that the occupancy and use shall remain substantially unchanged.

135-24-S.

PETITIONER—Charles T. E. Dieterlen, for 2067 Broadway Corporation, owner.

SUBJECT—Application for approval of plans—variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—2067 Broadway, Manhattan.

APPEARANCES—None.

THE VOTE TO APPROVE PLANS SUBMITTED—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Superintendents Brady, Reville and Kleinert 8

Negative 0

Absent: Mr. Dowd, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Moore and McDermott..... 5

THE RESOLUTION:

(135-24-S)

WHEREAS, 2067 Broadway Corporation, owner, filed, January 29, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 2067 Broadway, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 12, 1924, reads:

"Answering your letter of January 9, 1924, requesting a new certificate of occupancy to supersede Certificate of Occupancy No. 5784 permitting manufacturing in building, you are advised that as building does not comply with Section 270 of labor law manufacturing is not permitted in building.";

and

WHEREAS, the building is non-fireproof, seven stories in height, 32 ft. 11 in. by 99 ft. 11 in., irregular in area; OCCUPIED for offices, the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in fireproof partitions, with fire doors at the openings, the roof of the building to the north being 5 ft. above the roof of building in question and the building to the south being 15 ft. below roof of building in question; and

WHEREAS, petitioner contends that there are 140 occupants in the building, of which 44 are heads of offices, and 96 are employees; 11 of these employees have been designated as working hands. 5 of these are employed in the dress shop on the 2nd story; 2 are employed by tailor on the 6th story; 4 are employed on the 7th story; and that it is on account of these 11 employees that he has been requested to make the building comply with the labor law; that the building is not a factory building, within the meaning of section 2 of the labor law, in that not more than 25 persons are employed at factory work in the entire building, which is less than one-tenth of the occupancy; and

WHEREAS, this petition was granted by the board at its meeting December 2, 1924, on certain conditions and petitioner requested a substitution of plans for those accepted by the board on that date.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that a fire escape constructed in accordance with plan accepted this date shall be erected on the rear of the premises, with egress from termination through open yard of adjoining property on the south, and that the factory shall not be extended and permitted only during the tenancy of the existing factory use.

APPLIANCE SUBMITTED FOR APPROVAL

1396-24-SA.

PETITIONER—Northern Fire Apparatus Co.

SUBJECT—Approval of Northern Rotary Pump.

APPEARANCES—

For Petitioner: John A. Hense.

ACTION OF BOARD—Petition approved on condition.

THE VOTE TO APPROVE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11

Negative 0

Absent: Mr. Dowd and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1396-24-SA)

WHEREAS, John A. Hense, for Northern Fire Apparatus Co., filed, November 24, 1924, an application for approval of their device known as the Northern Rotary Pump; and

WHEREAS, this device is of standard mechanical construction of the rotary type.

Resolved, that the board of standards and appeals does hereby *approve* the device known as the Northern Rotary Pump for use with grade A and grade B fuel oil, *on condition* that the moving parts in contact with the oil shall be of brass, bronze or monel metal.

CITY OF NEW YORK

BOARD OF ESTIMATE AND APPORTIONMENT

AMENDED BUILDING ZONE RESOLUTION.

(Adopted October 3, 1924)

A Resolution Regulating and Limiting the Height and Bulk of Buildings Hereafter Erected and Regulating and Determining the Area of Yards, Courts and Other Open Spaces, and Regulating and Restricting the Location of Trades and Industries and the Location of Buildings Designed for Specified Uses and Establishing the Boundaries of Districts for the Said Purposes.

Be it Resolved by the Board of Estimate and Apportionment of The City of New York:

Article I—Definitions.

§ 1. *Definitions.* Certain words in this resolution are defined for the purposes thereof as follows:

(a) Words used in the present tense include the future; the singular number includes the plural and the plural the singular; the word "lot" includes the word "plot"; the word "building" includes the word "structure."

(b) The "street line" is the dividing line between the street and the lot.

(c) The "width of the street" is the mean of the distances between the sides thereof within a block. Where a street borders a public place, public park or navigable body of water the width of the street is the mean width of such street plus the width, measured at right angles to the street line, of such public place, public park or body of water.

(d) The "curb level," for the purpose of measuring the height of any portion of a building, is the mean level of the curb in front of such portion of the building. But where a building is on a corner lot the curb level is the mean level of the curb on the street of greatest width. If such greatest width occurs on more than one street the curb level is the mean level of the curb on that street of greatest width which has the highest curb elevation. The "curb level" for the purpose of regulating and determining the area of yards, courts and open spaces is the mean level of the curb at that front of the building where there is the highest curb elevation. Where no curb elevation has been established or the building does not adjoin the street the average ground level of the lot shall be considered the curb level.

(e) A "street wall" of a building, at any level, is the wall or part of the building nearest to the street line.

(f) The "height of a building" is the vertical distance measured in the case of flat roofs from the curb level to the highest point of the roof beams adjacent to the street wall, and in the case of pitched roofs from the curb level to the mean height level of the gable. Where no roof beams exist or there are structures wholly or partly above the roof the height shall be measured from the curb level to the level of the highest point of the building. Where a building is a tenement house as defined in the Tenement House Law the height of the building on the street line shall be measured as prescribed in said law for the measurement of the height of a tenement house and such measurement shall be from the curb level as that term is used in said law.

(g) The "depth of a lot" is the mean distance from the street line of the lot to its rear line measured in the general direction of the side lines of the lot.

(h) A "rear yard" is an open unoccupied space on the same lot with a building between the rear line of the building and the rear line of the lot.

(i) The "depth of a rear yard" is the mean distance between the rear line of the building and the rear line of the lot.

(j) Lots or portions of lots shall be deemed "back to back" when they are on opposite sides of the same part of

a rear line common to both and the opposite street lines on which the lots front are parallel with each other or make an angle with each other of not over 45 degrees.

(k) A "court" is an open unoccupied space, other than a rear yard, on the same lot with a building. A court not extending to the street or to a rear yard is an "inner court." A court extending to the street or a rear yard is an "outer court." A court on the lot line extending through from the street to a rear yard or another street is a "side yard."

(l) The "height of a yard or a court" at any given level shall be measured from the lowest level of such yard or court as actually constructed or from the curb level, if higher, to such level. The highest level of any given wall bounding a court or yard shall be deemed to be the mean height of such wall. Where a building is a tenement house, as defined in the Tenement House Law, the height of a yard or a court shall be measured as prescribed in such law.

(m) The "least dimension" of a yard or court at any level is the least of the horizontal dimensions of such yard or court at such level. If two opposite sides of a yard or court are not parallel the horizontal dimension between them shall be deemed to be the mean distance between them.

(n) The "length of an outer court" at any given point shall be measured in the general direction of the side lines of such court from the end opposite the end opening on a street, or a rear yard, to such point.

Article II—Use Districts.

§ 2. *Use Districts.* For the purpose of regulating and restricting the location of trades and industries and the location of buildings designed for specified uses, the City of New York is hereby divided into three classes of districts: (1) residence districts, (2) business districts and (3) unrestricted districts; as shown on the amended use district map which accompanies this resolution and is hereby declared to be part hereof. The use districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended use district map designations and amended map designation rules which accompany said amended use district map are hereby declared to be part thereof. No building or premises shall be erected or used for any purpose other than a purpose permitted in the use district in which such building or premises is located.

§ 3. *Residence Districts.* In a residence district no building shall be erected other than a building, with its usual accessories, arranged, intended or designed exclusively for one or more of the following specified uses:

(1) Dwellings, which shall include dwellings for one or more families and boarding houses and also hotels which have thirty or more sleeping rooms.

(2) Clubs, excepting clubs the chief activity of which is a service customarily carried on as a business.

(3) Churches.

(4) Schools, libraries or public museums.

(5) Philanthropic or eleemosynary uses or institutions, other than correctional institutions.

(6) Hospitals and sanitariums.

(7) Railroad passenger stations.

(8) Farming, truck gardening, nurseries or green houses.

In a residence district no building or premises shall be used for any use other than a use above specified for which buildings may be erected and for the accessory uses customarily incident thereto. The term accessory use shall not include a business nor shall it include any building or use not located on the same lot with the building or use to which it is accessory. A private garage for more than five motor vehicles shall not be deemed an accessory use.

NOTICE

§ 4. *Business Districts.* (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

- (1) Ammonia, chlorine or bleaching powder manufacture.
- (2) Asphalt manufacture or refining.
- (3) Assaying (other than gold or silver).
- (4) Blacksmithing or horseshoeing.
- (5) Boiler making.
- (6) Brewing or distilling of liquors.
- (7) Carpet cleaning.
- (8) Celluloid manufacture.
- (9) Crematory.
- (10) Distillation of coal, wood or bones.
- (11) Dyeing or dry cleaning.
- (12) Electric central station power plant.
- (13) Fat rendering.
- (14) Fertilizer manufacture.
- (15) Garage for more than five motor vehicles, not including a warehouse where motor vehicles are received for dead storage only, and not including a sales-room where motor vehicles are kept for sale or for demonstration purposes only.
- (16) Gas (illuminating or heating) manufacture or storage.
- (17) Glue, size and gelatine manufacture.
- (18) Incineration or reduction of garbage, offal, dead animals or refuse.
- (19) Iron, steel, brass or copper works.
- (20) Junk, scrap paper or rag storage or baling.
- (21) Lamp black manufacture.
- (22) Lime, cement or plaster of paris manufacture.
- (23) Milk bottling and distributing station.
- (24) Oil cloth or linoleum manufacture.
- (25) Paint, oil, varnish or turpentine manufacture.
- (26) Petroleum refining or storage.
- (27) Printing ink manufacture.
- (28) Raw hides or skins—storage, curing or tanning.
- (29) Repair shop for motor vehicles.
- (30) Rubber manufacture from the crude material.
- (31) Saw or planing mill.
- (32) Shoddy manufacture or wool scouring.
- (33) Slaughtering of animals.
- (34) Smelting.
- (35) Soap manufacture.
- (36) Stable for more than five horses.
- (37) Starch, glucose or dextrine manufacture.
- (38) Stock yard.
- (39) Stone or monumental works.
- (40) Sugar refining.
- (41) Sulphurous, sulphuric, nitric or hydrochloric acid manufacture.
- (42) Tallow, grease or lard manufacturing or refining.
- (43) Tar distillation or manufacture.
- (44) Tar roofing or tar waterproofing manufacture.
- (45) Refrigerating plants, coal yards and coal pockets.

(b) In a business district no building or premises shall be used, and no building shall be erected, which is arranged, intended or designed to be used for any trade, industry or use that is noxious or offensive by reason of the emission of odor, dust, smoke, gas or noise but car barns or places of amusement shall not be excluded.

(c) In a business district no building or premises shall be used, and no building shall be erected, which is arranged, intended or designed to be used for any kind of manufacturing, except that any kind of manufacturing not included within the prohibitions of paragraphs a and b of this section may be carried on provided not more than 25 per cent. of the total floor space of the building is so used, but space equal to the area of the lot may be so used in any case, although in excess of said 25 per cent. The printing of a

newspaper shall not be deemed manufacturing. No use permitted in a residence district by section 3 shall be excluded from a business district.

§ 5. *Unrestricted Districts.* The term "unrestricted district" is used to designate the districts for which no regulations or restrictions are provided by this article.

§ 6. *Existing Buildings and Premises.* (a) Any use existing in any building or premises on July 25, 1916, and not conforming to the regulations of the use district in which it is maintained, may be continued therein. No then existing building designed, arranged, intended or devoted to a use not permitted by this article in the district in which such use is located shall be enlarged, extended, reconstructed or structurally altered unless such use is changed to a use permitted in the district in which such building is located. Such building may, however, be reconstructed or structurally altered to an extent not greater than 50 per cent. of the value of the building, exclusive of foundations, provided that no use in such building is changed or extended, except as authorized in paragraph b of this section, and provided, further, that no use included in any one of the enumerated subdivisions of paragraph a of section 4 is changed into a use included in any other enumerated subdivision of paragraph a of section 4 or into a use prohibited by paragraph b of section 4, and also provided that no use prohibited by paragraph b of section 4 is changed into another use prohibited by paragraph b of section 4 or into a use included in an enumerated subdivision of paragraph a of section 4.

(b) Any use existing in any building or premises on July 25, 1916, and not conforming to the regulations of the use district in which it is maintained may be changed, and such use may be extended throughout the building, provided that in either case:

(1) No structural alterations shall be made in the building, except as authorized by paragraph a of this section, and

(2) In a residence district no portion of a building devoted to a use included in subdivision 1 of section 3 shall be changed to any use prohibited in a residence district, and

(3) In a residence district no building or premises, unless devoted to one of the uses that is by section 4 prohibited in a business district, shall be changed to any of such uses, and

(4) In a residence or business district no building or part thereof and no premises, unless devoted to one of the uses that is by paragraph a or b of section 4 prohibited in a business district, shall be changed to any of such uses.

If a use is changed as authorized in this section, the new use may thereafter be changed, subject to the limitations imposed by subdivisions 1, 2, 3 and 4 of this paragraph.

§ 7. *Use District Exceptions.* The Board of Appeals, created by chapter 503 of the laws of 1916, may, in appropriate cases, after public notice and hearing, and subject to appropriate conditions and safeguards, determine and vary the application of the use district regulations herein established in harmony with their general purpose and intent as follows:

(a) Permit the extension of an existing building and the existing use thereof upon the lot occupied by such building at the time of the passage of this resolution or permit the erection of an additional building upon a lot occupied at the time of the passage of this resolution by a commercial or industrial establishment and which additional building is a part of such establishment:

(b) Where a use district boundary line divides a lot in a single ownership at the time of the passage of this resolution, permit a use authorized on either portion of such lot to extend to the entire lot, but not more than 25 feet beyond the boundary line of the district in which such use is authorized;

(c) Permit the extension of an existing or proposed building into a more restricted district under such conditions as will safeguard the character of the more restricted district;

NOTICE

(d) Permit in a residence district a central telephone exchange or any building or use in keeping with the uses expressly enumerated in section 3 as the purposes for which buildings or premises may be erected or used in a residence district;

(e) Permit in a business district the erection or extension of a garage or stable in any portion of a street between two intersecting streets in which portion there exists a garage for more than five motor vehicles or a stable for more than five horses which existed on July 25, 1916.

(f) Grant in undeveloped sections of the city temporary and conditional permits for not more than two years for structures and uses in contravention of the requirements of this article.

(g) Permit in a business or residence district the erection of a garage provided the petitioner files the consents duly acknowledged of the owners of 80 per cent. of the frontage deemed by the Board to be immediately affected by the proposed garage. Such permit shall specify the maximum size or capacity of the garage and shall impose appropriate conditions and safeguards upon the construction and use of the garage.

Article III—Height Districts.

§ 8. *Height Districts.* For the purpose of regulating and limiting the height and bulk of buildings hereafter erected, the City of New York is hereby divided into eight classes of districts: (a) one-quarter times districts; (b) one-half times districts; (c) three-quarter times districts; (d) one times districts; (e) one and one-quarter times districts; (f) one and one-half times districts; (g) two times districts; (h) two and one-half times districts; as shown on the amended height district map which accompanies this resolution and is hereby declared to be part hereof. The height districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended height district map designations and amended map designation rules which accompany said amended height district map are hereby declared to be part thereof. No building or part of a building shall be erected except in conformity with the regulations herein prescribed for the height district in which such building is located.

(a) In a one-quarter times district no building shall be erected to a height in excess of one-quarter times the width of the street, but for each two feet that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(b) In a one-half times district no building shall be erected to a height in excess of one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(c) In a three-quarter times district no building shall be erected to a height in excess of three-quarter times the width of the street, but for each one foot that the building or a portion of it sets back from the street line one foot shall be added to the height limit of such building or such portion thereof.

(d) In a one times district no building shall be erected to a height in excess of the width of the street, but for each one foot that the building or a portion of it sets back from the street line two feet shall be added to the height limit of such building or such portion thereof.

(e) In a one and one-quarter times district no building shall be erected to a height in excess of one and one-quarter times the width of the street, but for each foot that the

building or a portion of it sets back from the street line two and one-half feet shall be added to the height limit of such building or such portion thereof.

(f) In a one and one-half times district no building shall be erected to a height in excess of one and one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line three feet shall be added to the height limit of such building or such portion thereof.

(g) In a two times district no building shall be erected to a height in excess of twice the width of the street, but for each one foot that the building or a portion of it sets back from the street line four feet shall be added to the height limit of such building or such portion thereof.

(h) In a two and one-half times district no building shall be erected to a height in excess of two and one-half times the width of the street, but for each one foot that the building or a portion of it sets back from the street line five feet shall be added to the height limit of such building or such portion thereof.

§ 9. *Height District Exceptions.* (a) On streets less than 50 feet in width the same height regulations shall be applied as on streets 50 feet in width and, except for the purposes of paragraph d of this section, on streets more than 100 feet in width the same height regulations shall be applied as on streets 100 feet in width.

(b) Along a narrower street near its intersection with a wider street, any building or any part of any building fronting on the narrower street within 100 feet, measured at right angles to the side of the wider street, shall be governed by the height regulations provided for the wider streets. A corner building on such intersecting streets shall be governed by the height regulations provided for the wider street for 150 feet from the side of such wider street, measured along such narrower street.

(c) Above the height limit at any level for any part of a building a dormer, elevator bulkhead or other structure may be erected provided its frontage length on any given street be not greater than 60 per cent. of the length of such street frontage of such part of the building. Such frontage length of such structure at any given level shall be decreased by an amount equal to one per cent. of such street frontage of such part of the building for every foot such level is above such height limit. If there are more than one such structure, their aggregate frontage shall not exceed the frontage length above permitted at any given level.

(d) If the area of the building is reduced so that above given level it covers in the aggregate not more than 25 per cent. of the area of the lot, the building above such level shall be excepted from the foregoing provisions of this article. Such portion of the building may be erected to any height, provided that the distance which it sets back from the street line on each street on which it faces, plus half of the width of the street, equals at least 75 feet. But for each one per cent. of the width of the lot on the street line that such street wall is less in length than such width of the lot, such wall may be erected four inches nearer to the street line.

(e) When at the time plans are filed for the erection of a building there are buildings in excess of the height limits herein provided within 50 feet of either end of the street frontage of the proposed building or directly opposite such building across the street, the height to which the street wall of the proposed building may rise shall be increased by an amount not greater than the average excess height of the walls on the street line within 50 feet of either end of the street frontage of the proposed building and at right angles to the street frontage of the proposed building on the opposite side of the street. The average amount of such excess height shall be computed by adding together the excess heights above the prescribed height limit for the street frontage in question of all of the walls on the street line of the buildings and parts of buildings within the above defined

NOTICE

frontage and dividing the sum by the total number of buildings and vacant plots within such frontage.

(1) Nothing in this article shall prevent the projection of a cornice beyond the street wall to an extent not exceeding five per cent. of the width of the street nor more than five feet in any case. Nothing in this article shall prevent the erection above the height limit of a parapet wall or cornice solely for ornament and without windows extending above such height limit not more than five per cent. of such height limit, but such parapet wall or cornice may in any case be at least five and one-half feet high above such height limit.

(g) The provisions of this article shall not apply to the erection of church spires, belltowers, chimneys, flues or gas holders.

(h) Where not more than 50 feet of a street frontage would otherwise be subjected to a height limit lower than that allowed immediately beyond both ends of such frontage, the height limit on such frontage shall be equal to the lesser of such greater height limits.

(i) If an additional story or stories are added to a building existing at the time of the passage of this resolution, the existing walls of which are in excess of the height limits prescribed in this article, the height limits for such additional story or stories shall be computed from the top of the existing walls as though the latter were not in excess of the prescribed height limits and the carrying up of existing elevator and stair enclosures shall be exempted from the provisions of this article.

Article IV—Area Districts.

§ 10. *Area Districts.* For the purpose of regulating and determining the area of yards, courts and other open spaces for buildings hereafter erected, the City of New York is hereby divided into six classes of area districts: A, B, C, D, E and F; as shown on the amended area district map which accompanies this resolution and is hereby declared to be part hereof. The area districts designated on said amended map, consisting of thirty-five sheets and an index sheet, each dated July 1, 1924, and signed by the Chief Engineer of the Board of Estimate and Apportionment, are hereby established. The amended area district map designations and amended map designation rules which accompany said amended area district map are hereby declared to be a part thereof. No building or part of a building shall be erected except in conformity with the regulations herein prescribed for the area district in which such building is located. Unless otherwise expressly provided the term rear yard, side yard, outer court or inner court when used in this article shall be deemed to refer only to a rear yard, side yard, outer court or inner court required by this article. No lot area shall be so reduced or diminished that the yards, courts or open spaces shall be smaller than prescribed in this article.

§ 11. *A Districts.* In an A district a court at any given height shall be at least one inch in least dimension for each one foot of such height.

§ 12. *B District.* In a B district a rear yard at any given height shall be at least two inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. An outer court or a side yard at any given height shall be at least one inch in least dimension for each one foot of such height. An outer court at any given point shall be at least one and one-half inches in least dimension for each one foot of length. But for each one foot that an outer court at any given height would, under the above rules, be wider in its least dimension for such height than the minimum required by its length, one inch shall be deducted from the required least dimension for such height for each 24 feet of such height. A side yard for its length within 50 feet of the street may for the purposes of the above rule be considered an outer court.

§ 13. *C Districts.* (a) In a C district a rear yard at any given height shall be at least three inches in least dimension

for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. An outer court or a side yard at any given height shall be at least one and one-half inches in least dimension for each one foot of such height. An outer court at any given point shall be at least one and one-half inches in least dimension for each one foot of length. On a lot not more than 30 feet in mean width an outer court or a side yard at any given height shall be not less than one inch in least dimension for each one foot of such height, and an inner court at any given height shall be either (1) not less than two inches in least dimension for each one foot of such height or (2) it shall be of an equivalent area as hereinafter specified in paragraph c of section 18.

(b) If the owner or owners of any part of a C district set aside perpetually for the joint recreational use of the residents of such part designated by them, an area at least equal to 10 per cent. of the area of such part in addition to all yard and court requirements for a B district, such part shall be subject to the regulations herein prescribed for a B district. Such joint recreational space shall be composed of one or more tracts, each of which shall be at least 40 feet in least dimension and 5,000 square feet in area and shall be approved by the Board of Appeals as suitable for the joint recreational use of such residents.

§ 14. *D Districts.* (a) In a D district a rear yard at any given height shall be at least four inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 10 per cent. of the depth of the lot, but need not exceed 10 feet at such level. If a building in a D district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 20 per cent. of the depth of the lot, but need not exceed 20 feet at such level. However, for each one foot in excess of 10 feet of the depth of such rear yard at its lowest level, there may be substituted one foot of depth of unoccupied space across the whole width of the front of the lot at the curb level between the street line and the street wall of the building.

(b) In a D district an outer court or a side yard at any given height shall be at least two inches in least dimension for each one foot of such height. An outer court at any given point shall be at least two inches in least dimension for each one foot of length. On a lot not more than 30 feet in mean width an outer court or a side yard at any given height shall be not less than one and one-half inches in least dimension for each one foot of such height. On such lot an outer court at any given point shall be not less than one and one-half inches in least dimension for each one foot of length. On such lot an inner court at any given height shall be either (1) not less than three inches in least dimension for each one foot of such height or (2) it shall be of an equivalent area as specified in paragraph c of section 18.

(c) In a D district no building located within a residence district as designated on the amended use district map shall occupy at the curb level more than 60 per cent. of the area of the lot, if an interior lot, or 80 per cent. if a corner lot. In computing such percentage any part of the area of any corner lot in excess of 8,000 square feet shall be considered an interior lot.

(d) If the owner or owners of any part of a D district set aside perpetually for the joint recreational use of the residents of such part designated by them, an area at least equal to 10 per cent. of the area of such part in addition to all yard and court requirements for a C district, such part shall be subject to the regulations herein prescribed for a C district. Such joint recreational space shall be composed of one or more tracts, each of which shall be at least 40 feet in least dimension and 5,000 square feet in area and shall be approved by the Board of Appeals as suitable for the joint recreational use of such residents.

NOTICE

§ 15. *E Districts.* (a) In an E district a rear yard at any given height shall be at least five inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 15 per cent. of the depth of the lot, but need not exceed 15 feet at such level. If a building in an E district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 25 per cent. of the depth of the lot, but need not exceed 25 feet at such level. However, for each one foot in excess of 10 feet of the depth of such rear yard at its lowest level, there may be substituted one foot of depth of unoccupied space across the whole width of the front of the lot at the curb level between the street line and the street wall of the building. In an E district on at least one side of every building located within a residence district there shall be a side yard along the side lot line for the full depth of the lot or back to the rear yard.

(b) In an E district an outer court or side yard at any given height shall be at least two and one-half inches in least dimension for each one foot of such height. On a lot not more than 50 feet in mean width an outer court or a side yard at any given height shall be at least two inches in least dimension for each one foot of such height. An outer court at any given point shall be at least two and one-half inches in least dimension for each one foot of length.

(c) In an E district no building located within a residence district as designated on the amended use district map shall occupy at the curb level more than 50 per cent. of the area of the lot, if an interior lot, or 70 per cent. if a corner lot, and above a level 18 feet above the curb no building shall occupy more than 30 per cent. of the area of the lot, if an interior lot, or 40 per cent. if a corner lot. In computing such percentage any part of the area of any corner lot in excess of 8,000 square feet shall be considered an interior lot.

(d) In an E district no portion of any building shall be erected nearer than 10 feet to the line of any street as laid out upon the City map.

§ 16. *F Districts.* (a) In an F district no portion of any building shall be erected nearer than 15 feet to the building line of any street.

(b) In an F district a rear yard at any given height shall be at least six inches in least dimension for each one foot of such height. The depth of a rear yard at its lowest level shall be at least 20 per cent. of the depth of the lot, but need not exceed 20 feet at such level. Excepting that if a building in an F district is located in a residence district as designated on the amended use district map, the depth of a rear yard at its lowest level shall be at least 30 per cent. of the depth of the lot, but need not exceed 30 feet at such level. However, for each one foot in excess of 15 feet of the depth of such rear yard at its lowest level there may be substituted one foot of additional depth of unoccupied space to that hereinbefore provided across the whole width of the front of the lot at the curb level between the street line and the street wall of the building. In an F district, on both sides of every dwelling there shall be a side yard along the side lot line for the full depth of the lot or back to the rear yard. For every residential building located in a residence district both sides of such building shall be capable of being afforded direct light, air and access upon such side yards, for its entire length.

(c) In an F district an outer court or side yard at any given height shall be at least three inches in least dimension for each one foot of such height, excepting that on a lot not more than 50 feet in mean width an outer court or a side yard at any given height shall be at least two and one-half inches in least dimension for each one foot of such height. An outer court at any given point shall be at least three inches in least dimension for each one foot of length.

(d) In an F district no building shall occupy at the curb level more than 35 per cent. of the area of the lot, if an

interior lot, or 50 per cent. if a corner lot, and above a level 18 feet above the curb no building shall occupy more than 25 per cent. of the area of the lot, if an interior lot, or 30 per cent. if a corner lot, exclusive in each case of garages. In computing such percentage any part of the area of any corner lot in excess of 6,000 square feet shall be considered an interior lot.

§ 17. *Rear Yards.* (a) Except in A districts, for lots or portions of lots that are back to back there shall be rear yards extending along the rear lot lines of such lots or portions of lots wherever they are more than 55 feet back from the nearest street. Such rear yard shall be at least of the area and dimensions herein prescribed for the area district in which it is located at every point along such rear lot line. Within 55 feet of the nearest street no rear yards shall be required, except in F area districts. No rear yard shall be required on any corner lot nor, excepting in an F area district, on the portion of any lot that is back to back with a corner lot.

(b) Where a building is not within a residence district as designated on the amended use district map, the lowest level of a rear yard shall not be above the sill level of the second story windows, nor in any case more than 23 feet above the curb level. Where a building is within a residence district the lowest level of a rear yard shall not be above the curb level, except that not more than 40 per cent. of the area of the yard may be occupied by the building up to a level 18 feet above the curb level. In the case of a church, whether within or without a residence district, such 40 per cent. may be occupied up to a level of 30 feet above the curb level.

(c) Chimneys or flues may be erected within a rear yard provided they do not exceed five square feet in area in the aggregate and do not obstruct ventilation.

(d) Except in A districts, where a building on an interior lot between lots for which rear yards are required runs through the block from street to street or to within 55 feet of another street, there shall be on each side lot line above the sill level of the second story windows and in any case above a level 23 feet above the curb level a court of at least equivalent area at any given height to that required for an inner court at such height and having a least dimension not less than that required for an outer court at the same height.

(e) When a proposed building is on a lot which is back to back with a lot or lots on which there is a building or buildings having rear yards less in depth than would be required under this article, the depth of the rear yard of the proposed building shall not be required to be greater at any given level than the average depth of the rear yards directly back to back with it at such level, but in no case shall the depth of such rear yard be less at any height than the least dimension prescribed for an outer court at such height.

§ 18. *Courts.* (a) If a room in which persons live, sleep, work or congregate receives its light and air in whole or in part directly from an open space on the same lot with the building, there shall be at least one inner court, outer court, side yard or rear yard upon which a window or ventilating skylight opens from such room. Such inner court, outer court or side yard shall be at least of the area and dimensions herein prescribed for the area district in which it is located. Such rear yard shall be at least of the area and dimensions herein prescribed for an inner court in the area district in which it is located. In an A district, such inner court, outer court, side yard or rear yard shall be at least of the area and dimensions herein prescribed for a court in such district. The unoccupied space within the lot in front of every part of such window shall be not less than three feet, measured at right angles thereto. Courts, yards and other open spaces, if provided in addition to those required by this section, need not be of the area and dimensions herein prescribed. The provisions of this section shall not be deemed to apply to courts or shafts for bathrooms, 'oilet compartments, hallways or stairways.

NOTICE

(b) The least dimension of an outer court, inner court or side yard at its lowest level shall be not less than four feet, subject to the following exceptions:

(1) Where the walls bounding a side yard within the lot are more than 25 feet in mean height and not more than 40 feet in length such least dimension may be not less than three feet.

(2) In an E district such least dimension shall be four feet.

(3) In an F district such least dimension shall be five feet.

(4) Where any outer court opens on a street such street may be considered as part of such court.

(c) The least dimension of an inner court at any given height shall be not less than that which would be required in inches for each one foot of height for a rear yard of the same height, except that an inner court of equivalent area may be substituted for said court, provided that for such area its least dimension be not less than one-half of its greatest dimension. If an inner court is connected with a street by a side yard, for each one foot that such side yard is less than 65 feet in depth from the street, one square foot may be deducted from the required area of the inner court for each 15 feet of height of such court. If the lot is not required under this resolution to have a rear yard, an outer court, not opening on a street, shall open at any level on an inner court on the rear line of the lot and such inner court shall be deemed a rear yard in such case.

§ 19. *Area District Exceptions.* (a) The area required in a court or yard at any given level shall be open from such level to the sky unobstructed, except for the ordinary projections of skylights and parapets above the bottom of such court or yard, and except for the ordinary projections of window sills, belt courses, cornices and other ornamental features to the extent of not more than four inches. However, where a side yard or an outer court opens on a street a cornice may project not over five feet into such side yard or outer court within five feet of the street wall of the building. And provided that in an E district a one-family residence, detached on all sides and having on one side a side yard of a clear and unobstructed width of not less than five feet, may have a cornice or eave projecting not more than 2 feet 6 inches into a side yard on the opposite side, with the further provision that in an F district such cornice or eave, or a porte-cochere having a height of less than 18 feet, may project not more than 3 feet into both side yards.

(b) An open or lattice enclosed iron fire escape, fireproof outside stairway or solid-floored balcony to a fire tower may project not more than 4 feet into a rear yard or an inner court, except that an open or lattice enclosed iron fire escape may project not more than 8 feet into a rear yard or into an inner court when it does not occupy more than 20 per cent. of the area of such inner court.

(c) A corner of a court or yard may be cut off between walls of the same building provided that the length of the wall of such cut-off does not exceed 7 feet.

(d) An offset to a court or yard may be considered as a part of such court or yard provided that it is no deeper in any part than it is wide on the open side and that such open side be in no case less than 6 feet wide.

(e) If a building is erected on the same lot with another building the several buildings shall, for the purpose of this article, be considered as a single building, unless otherwise herein specifically provided for. Any structure, whether independent of or attached to a building, shall for the purposes of this article be deemed a building or a part of a building.

(f) If an additional story or stories are added to a building existing at the time of the passage of this resolution, the courts and yards of which do not conform to the requirements of this article, the least dimensions of yards and courts shall be increased from the top of the existing yard or court walls, as though they were of the prescribed dimensions at such heights and the carrying up of existing elevator

and stair enclosures shall be exempted from the provisions of this article.

Article V—General and Administrative.

§ 20. *Interpretation; Purpose.* In interpreting and applying the provisions of this resolution, they shall be held to be the minimum requirements adopted for the promotion of the public health, safety, comfort, convenience and general welfare. It is not intended by this resolution to repeal, abrogate, annul or in any way to impair or interfere with any existing provision of law or ordinance or any rules, regulations or permits previously adopted or issued or which shall be adopted or issued pursuant to law relating to the use of buildings or premises; nor is it intended by this resolution to interfere with or abrogate or annul any easements, covenants or other agreements between parties; provided, however, that where this resolution imposes a greater restriction upon the use of buildings or premises or upon height of buildings or requires larger yards, courts or other open spaces than are imposed or required by such existing provision of law or ordinance or by such rules, regulations or permits or by such easements, covenants or agreements, the provisions of this resolution shall control.

§ 21. *Rules and Regulations; Modifications of Provisions.* The Board of Standards and Appeals, created by chapter 503 of the Laws of 1916, shall adopt from time to time such rules and regulations as they may deem necessary to carry into effect the provisions of this resolution. Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of the provisions of this resolution the Board of Appeals shall have power in a specific case to vary any such provision in harmony with its general purpose and intent, so that the public health, safety and general welfare may be secured and substantial justice done. Where the street layout actually on the ground varies from the street layout as shown on the amended use, height or area district map, the designation shown on the mapped areas shall be applied by the Board of Appeals to the unmapped streets in such a way as to carry out the intent and purpose of the plan for the particular section in question. Before taking any action authorized in this section the Board of Appeals shall give public notice and hearing.

No garage for more than five cars may be erected or extended and no building not now used as a garage for more than five cars may have its use changed to a garage for more than five cars on any portion of a street between two intersecting streets, in which portion there exists an exit from or an entrance to a public school; or in which portion there exists any hospital maintained as a charitable institution; and in no case within a distance of 200 feet from the nearest exit from or entrance to a public school; nor within 200 feet of any hospital maintained as a charitable institution. This protection shall also apply to duly organized schools for children under 16 years of age, giving regular instruction at least five days a week for eight months or more each year, owned and operated by any established religious body or educational corporation. This limitation on the location of garages shall apply to unrestricted as well as business and residence districts.

§ 22. *Unlawful Use; Certificate of Occupancy.* It shall be unlawful to use or permit the use of any building or premises or part thereof hereafter created, erected, changed or converted wholly or partly in its use or structure until a certificate of occupancy to the effect that the building or premises or the part thereof so created, erected, changed or converted and the proposed use thereof conform to the provisions of this resolution shall have been issued by the superintendent of buildings of the borough in which such building or premises is located, or, in the case of a tenement house as defined in the Tenement House Law, by the tenement house commissioner. In the case of such buildings or premises it shall be the duty of the superintendent of buildings or the tenement house commissioner, as the case may

NOTICE

be, to issue a certificate of occupancy within ten days after a request for the same shall be filed in his office by any owner of a building or premises affected by this resolution, provided said building or premises, or the part thereof so created, erected, changed or converted and the proposed use thereof conform with all the requirements herein set forth. Under rules and regulations of the Board of Standards and Appeals a temporary certificate of occupancy for a part of a building may be issued by the superintendent of buildings or the tenement house commissioner, as the case may be. Upon written request from the owner, the superintendent of buildings or the tenement house commissioner, as the case may be, shall issue a certificate of occupancy for any building or premises existing at the time of the passage of this resolution certifying after inspection the use of the building or premises and whether such use conforms to the provisions of this resolution.

§ 23. *Enforcement, Legal Procedure, Penalties.* This resolution shall be enforced by the tenement house commissioner, the fire commissioner and by the superintendent of buildings in each borough under the rules and regulations of the Board of Standards and Appeals. The tenement house commissioner shall enforce the provisions herein contained in so far as they affect or relate to tenement houses as defined by the Tenement House Law. The superintendent of buildings in each borough shall enforce the provisions herein contained in so far as they relate to buildings or premises other than tenement houses. The fire commissioner shall enforce the provisions herein contained in so far as they relate to the use of completed buildings or premises, or part thereof, other than tenement houses. For any and every violation of the provisions of this resolution or of the rules and regulations adopted thereunder, the owner, general agent or contractor of a building or premises where such violation has been committed or shall exist, and the lessee or tenant of an entire building or entire premises where such violation has been committed or shall exist, and the owner, general agent, contractor, lessee or tenant of any part of a building or premises in which part such violation has been committed or shall exist, and the general agent, architect, builder, contractor or any other person who commits, takes part or assists in such violation or who maintains any building or premises in which any penalties as are prescribed in any law, statute or ordinance for violations of the Building Code, and

for such violations the same legal remedies shall be had and they shall be prosecuted in the same manner as prescribed in any law or ordinance in the case of violations of said Building Code.

§ 24. *Amendments, Alterations and Changes in District Lines.* The Board of Estimate and Apportionment may from time to time on its own motion or on petition, after public notice and hearing, amend, supplement or change the regulations and districts herein established. Whenever the owners of 50 per cent. or more of the frontage in any district or part thereof shall present a petition duly signed and acknowledged to the Board of Estimate and Apportionment requesting an amendment, supplement, change or repeal of the regulations prescribed for such district or part thereof, it shall be the duty of the Board to vote upon said petition within 90 days after the filing of the same by the petitioners with the secretary of the Board. If, however, a protest against such amendment, supplement or change be presented, duly signed and acknowledged by the owners of 20 per cent. or more of any frontage proposed to be altered, or by the owners of 20 per cent. of the frontage immediately in the rear thereof, or by the owners of 20 per cent. of the frontage directly opposite the frontage proposed to be altered, such amendment shall not be passed except by the unanimous vote of the Board. If any area is hereafter transferred to another district by a change in district boundaries by an amendment, as above provided, the provisions of this resolution in regard to buildings or premises existing at the time of the passage of this resolution shall apply to buildings or premises existing at the time of passage of such amendment in such transferred area.

§ 25. *Restoration of Existing Buildings.* Nothing in this resolution shall prevent the restoration of a building wholly or partly destroyed by fire, explosion, act of God or act of the public enemy or prevent the continuance of the use of such building or part thereof as such use existed at the time of such destruction of such building or part thereof or prevent a change of such existing use under the limitations provided in section 6. Nothing in this resolution shall prevent the restoration of a wall declared unsafe by the superintendent of buildings or by a board of survey.

§ 26. *When Effective.* The zoning resolution of July 25, 1916, and all amendments thereto are hereby declared superseded by this resolution, which shall take effect immediately.

NOTICE

APPENDIX—MAP DESIGNATIONS AND MAP DESIGNATION RULES ACCOMPANYING AMENDED BUILDING ZONE RESOLUTION.

(Adopted October 3, 1924)

AMENDED HEIGHT DISTRICT MAP DESIGNATIONS.

— — — — — indicates the boundary of a Height District.

($\frac{1}{4}$) ($\frac{1}{2}$) ($\frac{3}{4}$) (1) ($1\frac{1}{4}$) ($1\frac{1}{2}$) (2) ($2\frac{1}{2}$) are symbols for district classifications as defined in the zoning resolution.

AMENDED HEIGHT DISTRICT MAP DESIGNATION RULES.

1. An area surrounded by a district boundary line shall be in the Height District designated therein, except as otherwise provided by these rules.

2. The boundaries of Height Districts shall be the limiting line to which the regulations provided in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In cases where the district boundary is within a block and extends along the direction of the length thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the bounding street lying within the less restrictive district.

(b) In cases where the district boundary is within a block and extends along the direction of the width thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the nearest street.

(c) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(d) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(e) In cases where a boundary line is shown along a railroad, such boundary shall be deemed to be the center line of the railroad right of way.

(f) In cases of navigable waters, the boundary line, unless otherwise fixed, shall be deemed to coincide with the pierhead line, except in cases where no pierhead line has been established, when the shore line shall govern.

(g) Any island outside of the shore or pierhead lines, unless otherwise designated, shall be deemed to be in a $1\frac{1}{2}$ -times height district.

NOTICE

AMENDED AREA DISTRICT MAP DESIGNATIONS.

— — — — — indicates the boundary of an Area District.

(A) (B) (C) (D) (E) (F) are symbols for district classifications as defined in the zoning resolution.

AMENDED AREA DISTRICT MAP DESIGNATION RULES.

1. An area surrounded by a district boundary line shall be in the Area District designated therein, except as otherwise provided by these rules.

2. The boundaries of Area Districts shall be the limiting line to which the regulations provided in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In cases where the district boundary is within a block and extends along the direction of the length thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the bounding street lying within the less restrictive district.

(b) In cases where the district boundary is within a block and extends along the direction of the width thereof and no fixtures are shown, said boundary shall be deemed located 100 feet from the nearest street.

(c) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(d) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(e) In cases where a boundary line is shown as adjoining a railroad, unless otherwise fixed, it shall be deemed to coincide with the boundary line of the railroad right of way.

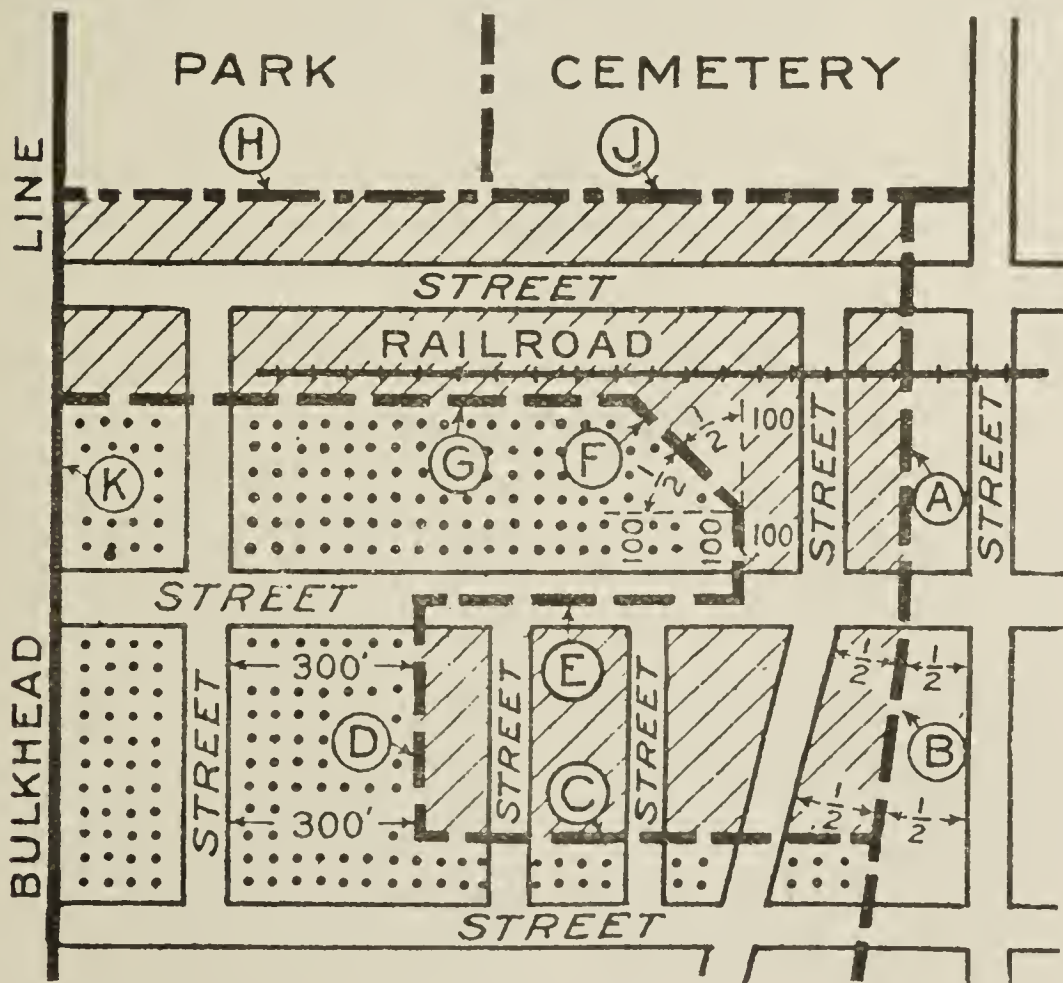

(f) In cases of navigable waters the boundary line, unless otherwise fixed, shall be deemed to coincide with the bulkhead line, except in cases where no bulkhead line has been established, when the shore line shall govern.

(g) Any island outside of the shore or bulkhead lines, unless otherwise designated, shall be deemed to be in an A district.

AMENDED USE DISTRICT MAP DESIGNATIONS.

— — — — — indicates the boundary of a Use District.
□ indicates Residence District.
▨ indicates Business District.
▤ indicates Unrestricted District.
UNDETERMINED indicates Undetermined District for which no restrictions or regulations as to use have been established.

Diagram Illustrating Methods Used in Fixing Boundaries of Use Districts.

AMENDED USE DISTRICT MAP DESIGNATION RULES.

1. In general Use Districts are intended to have a depth of 100 feet. Where block widths are less than 200 feet and

no fixtures are shown, the district boundary is intended to be 100 feet from the street to which the less restrictive designation relates.

NOTICE

2. The boundaries of Use Districts shall be the limiting line to which uses permissible in any given district may be availed of.

3. The precise location of a boundary line is to be interpreted as follows:

(a) In case of parallel streets, unless otherwise fixed, the Use District boundary shall coincide with the center line of the block.

(b) In case of streets which are not parallel, the Use District boundary, unless otherwise fixed, shall be construed as the bisector of the angle formed by prolonging the street lines to an intersection.

(c) In cases where a block has a length in excess of 200 feet and the boundary line is parallel with and nearer one of the bounding streets, unless otherwise fixed, its position shall be considered as distant 100 feet from the nearest street.

(d) In cases where the boundary line is shown as being located a specific distance from a street line, this distance shall control.

(e) In cases where the boundary line is given a position within a street, it shall be deemed to be in the center of the street.

(f) In cases where a boundary line is shown as having a position oblique to the streets bounding the block in which it is located, unless otherwise fixed, it shall be deemed to be the bisector of the angle formed by intersecting lines 100 feet from and parallel with the bounding streets, the said distance being measured at right angles or normal to the street lines.

(g) In cases where a boundary line is shown as adjoining a railroad, unless otherwise fixed, it shall be deemed to coincide with the boundary line of the railroad right of way.

(h-j-k) In cases of parks, cemeteries and navigable waters, the boundary line, unless otherwise fixed, shall be deemed to coincide with the boundary of the park, or the cemetery, or the bulkhead line, except in cases where no bulkhead line has been established, when the shore line shall govern.

4. Where two streets cross at different levels, the use designation of the lower street shall control, except that when the use designation of the lower street is less restrictive it shall control only to the curb level of the higher street. Above the curb level of the higher street the more restrictive designation shall apply for a distance of 100 feet measured along the intersecting streets from each street corner.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULES

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable

waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

RULES

*AMENDMENT TO THE EXIT RULES—REVOLVING DOORS—ADOPTED JANUARY 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

* Amendment consists of the removal of the comma after the word "revolving doors" in line 6 of rule 5.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, February 17, 1925.

Minutes of Special Meeting, Board of Appeals, February 17, 1925.

Reserve Calendar.

Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

THE ALL HEARINGS ARE HELD IN ROOM 919, MUNICIPAL BUILDING, MANHATTAN.

MAR 3 1925

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

UNIVERSITY OF CALIFORNIA
Any person desiring to consult the chairman or the engineers, pertaining to the work of either board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, February 24, 1925, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, March 3, 1925, at 2 o'clock.

The Clerk's Calendar is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

APPELLANT—Jeffery, Kimball & Eggleston, for De La Vergne Machine Company, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—910 East 138th street, The Bronx.

APPEARANCES—

For Appellant: T. M. Tonnele and Mr. For Der Heyde.

For Administration: Inspector Lynch, of fire department.

ACTION OF BOARD—Appeal denied

THE VOTE TO GRANT—

Affirmative

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire Chief Kenlon

Absent: Mr. Holland

THE RESOLUTION:

(1420-24-A)

WHEREAS, Jeffery, Kimball & Eggleston, for De La Vergne Machine Company, owner, filed, December 2, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 910 East 138th street, The Bronx; and

WHEREAS, the decision of the fire commissioner, rendered November 13, 1924, reads:

"You have requested the approval and consent of this Bureau to the use by you of a concrete tank of 22,000 gallons capacity for the storage of fuel oil.

"We regret we cannot consent to nor approve of this. The Fuel Oil Rules of the Board of Standards and Appeals prohibits the use of any but metal tanks."

and

WHEREAS, the premises consist of a plot of ground OCCUPIED by the De La Vergne Machine Co.; there is a buried reinforced concrete tank, 17 ft. 8 in. by 27 ft. 6 in. by 7 ft. 6 in. in height (capacity of 22,000 gallons) on the premises; the tank is safeguarded from the rest of the premises by a shed built with 12 in. fire walls on three sides and equipped with a metal roof; and

WHEREAS, appellant contends that the tank was constructed under the supervision of the U. S. Navy during the war and used for the storage of fuel oil, and now requests permission to use the tank for the same purpose.

Resolved, that the decision of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

MINUTES

06-24-A.

APPELLANT—Alexander C. MacNulty, for Adelstein & Avrutine, owners.

SUBJECT—Appeal from orders of fire commissioner. PREMISES AFFECTED—82-86 Rutgers Slip, Manhattan.

APPEARANCES—

For Appellant—Alexander C. MacNulty.

For Administration: Inspector Maher, of fire department.

ACTION OF BOARD—Appeal granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire Chief Kenlon

Negative

Absent: Mr. Holland

THE RESOLUTION:

(306-24-A)

WHEREAS, Alexander C. MacNulty, for Adelstein & Avrutine, owners, filed, February 26, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 82-86 Rutgers slip, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 54482-F, dated February 5, 1924, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at west and south sides of building, or other approved protection, as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances."

"Order No. 54483-F:

"1. Install a standpipe system with risers 4 in. in diameter * * *";

and

WHEREAS, the building is fireproof, seven stories in height, 10 ft. by 58 ft. in area. OCCUPIED: 1st story and basement, baking; upper stories, tenant factory, 75 persons per story; and

WHEREAS, there are eleven windows on each story above the 1st story within 50 ft. of the roof of a one-story garage to the west and four windows on each story above the 1st story, within 30 ft. of openings in the three-story building to the south; and

WHEREAS, appellant contends that the windows in the south wall of the building can be covered by hose streams from the street and yard and the one-story garage does not constitute a hazard relative to the windows in the westerly wall above the 4th story; and that in regard to the standpipe, the building is fireproof and there would be hardship in complying as the building is not heated.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted only so far as it affects the second line of windows from the westerly gable walls on condition that all other openings embraced in this order shall be equipped with approved fireproof windows, glazed with wire glass; that the order of the fire commissioner, No. 54483-F, affecting standpipe, be and it hereby is modified, and the appeal be and it hereby is granted on condition that an approved dry-valve 4 in. standpipe system shall be installed within the stairway enclosure.

08-24-A.

APPELLANT—William C. Sommerfeld, for S. & H. Realities, Inc., owner.

SUBJECT—Application for modification (re: appeal from order of fire commissioner).

PREMISES AFFECTED—527-531 West 34th street and 526-528 West 35th street, Manhattan.

APPEARANCES—

For Appellant: William C. Sommerfeld.

ACTION OF BOARD—Appeal reopened and resolution corrected.

THE VOTE TO REOPEN AND CORRECT RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Connell.... 5

Negative

Absent: Mr. Holland and Fire Chief Kenlon 2

THE RESOLUTION:

(308-24-A)

WHEREAS, Wm. C. Sommerfeld, for S. & H. Realities, Inc., owner, filed, February 27, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 527-31 West 34th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 22910-LC, dated February 7, 1924, reads:

"With reference to your application, dated January 24, 1924, for a permit to maintain a non-storage garage, at above location, I regret to inform you that I am without power to grant such a permit for the reason that building is more than 50 ft. in height, and is not fireproof as is required by Section 72 L-G of the Building Code.

"You are therefore hereby ordered to:

"1. Discontinue the maintenance of a garage on these premises";

and

WHEREAS, the building is non-fireproof, equipped with a sprinkler system, seven stories (68 ft. 6 in.) in height, on the 34th street front and six stories (69 ft. 6 in.) in height on the 35th street front; 75 ft. by 197 ft. 6 in. in area. OCCUPIED: 1st fl., 34th street, offices and show rooms, 20 persons; 1st fl., 35th street, shipping department (storage three auto trucks), 10 persons; upper fl., 34th street, show rooms; upper fl., 35th street, storage; top fl., 34th street, cabinet makers and finishers, 5 persons; top fl., 35th street, cabinet makers and finishers, 7 persons; and

WHEREAS, appellant contends alteration plans for this building, providing for storage of three auto trucks, were approved by the bureau of buildings on August 29, 1923, that the trucks are stored only at night and there is a watchman on the premises; and

WHEREAS, this case was denied by the board at the meeting held on May 13, 1924, and reopened by vote of the board on July 8, 1924; and appellant now files a letter from the bureau of buildings, which states a certificate of occupancy was issued for these premises for a storage for three cars on the 1st story; and

WHEREAS, this appeal was granted by the board at its meeting October 3, 1924, on certain conditions, and appellant requested a modification of the conditions as to standpipe.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the garage use be restricted to 1st story, or that portion of 35th street front only as indicated on plans filed in this appeal, limiting the garage storage to three (3) automobiles, the property of the owner of the premises, used in the conduct of his business; that there shall be no gasoline storage system installed or operated on the premises; that the garage portion or area of structure on 1st story shall be fireproof; that there shall be no cellar or other use under the garage area of structure; that any openings to any portion of building from garage shall be protected with approved fireproof self-closing doors; and that the entire structure shall be sprinklered. All permits required by law shall be obtained within ninety days.

872-22-A.

APPELLANT—Rudolph Kummer, owner.

SUBJECT—Application for reopening (re: appeal from order of fire commissioner).

PREMISES AFFECTED—267 Coles lane, The Bronx.

APPEARANCES—

For Appellant: Rudolph Kummer and Mrs. Slautter.

MINUTES

ACTION OF BOARD—Appeal reopened; extension of permit granted for two years.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Connell..... 5
Negative 0
Absent: Mr. Holland and Fire Chief Kenlon 2

THE RESOLUTION:

(872-22-A)

WHEREAS, Mrs. E. Wiese, owner, filed, June 29, 1922, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 267 Coles lane, Borough of Bronx; and

WHEREAS, the order of the fire commissioner reads:

"1. Discontinue the maintenance of a garage in which is kept motor vehicles that are not the property of persons residing in the dwelling on the same lot.";

and

WHEREAS, the building is frame, two stories in height, 25½ ft. by 18 1-5 ft. in area, located in a residence district outside the fire limits. OCCUPIED: 1st story, garage, space in which is rented for one automobile and the remaining space used for owner's car; 2nd story, storage of building materials; and

WHEREAS, appellant has filed statement that space in the garage was rented prior to July 25, 1916; and

WHEREAS, this appeal was granted by the board at its meeting September 26, 1922, for a temporary period of two years, and appellant requested an extension of time.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, permitting the occupancy of this garage for three (3) automobiles of the pleasure car type for a period of two years from September 26, 1924, on condition that space for not more than two (2) of these cars be rented, and on further condition that no gasoline be stored on the premises, other than that in the tanks of the cars, and that no exposed flame be used in the garage.

THE RESOLUTION:

(1037-24-BZ)

WHEREAS, Dominick Cancellieri, owner, filed, August 14, 1924, an application, under the building zone resolution, to permit in a residence district the alteration and extension of a building used as a private garage and also the change of occupancy to a store; premises 76 Queens avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Queens avenue and Smart avenue are residence districts; and

WHEREAS, the order of the superintendent of buildings, dated June 16, 1924, reads:

"You will please take notice that there exists a violation of the Building Code at the premises hereinafter described in that * * * zone resolution. Changing garage into store."

and

WHEREAS, the existing building was part of a frame private garage situated at the rear of the lot: a partition wall has been erected separating the garage portion; the building is one story in height, 17 ft. by 19 ft. in area, and it is proposed to use the structure as a store; and

WHEREAS, no facts were adduced at the hearing to justify the basis of the application under section 21 of the building zone resolution.

Resolved, that the order of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

THE RESOLUTION:

(1365-24-BZ)

WHEREAS, Nathan D. Shapiro, for Marcus Leavitt, owner, filed, March 18, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1839-1845 Cropsey avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Cropsey avenue, Bay 20th street and Bay 19th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 28, 1924, in acting on App. No. 21327-24, reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 4.

"A public garage for more than five motor vehicles in a business district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 70 ft. and a depth of 100 ft. (irregular in area), to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 28, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be limited to one story in height above grade; that the roof be of flat design and construction; that the exterior of the street walls on both fronts be finished in light colored face brick, laid out in panel design, with architectural terra cotta or stone trimmings; that any openings on the Bay 20th street side shall be restricted to windows the sills of which shall be not less than 5 ft. 6 in. above grade, and not more than one emergency exit door not exceeding a width of 3 ft. 8 in.; that there shall be no advertising signs or display on the Bay 20th street side of the structure; and there shall be no advertising sign other than one projecting electric sign on the Cropsey avenue front; that any gasoline storage equipment installed shall be located at the extreme westerly end of the building on the Cropsey avenue front;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

438-20-BZ.

APPLICANT—Mary J. Luckey, owner.

SUBJECT—Application for reopening (re: order of fire commissioner) to permit in a residence district the maintenance of a garage, space in which is rented to persons not residing on the premises.

PREMISES AFFECTED—1814 East 13th street, Brooklyn.

APPEARANCES—

For Applicant: Mary J. Luckey.

For Opposition: None.

ACTION OF BOARD—Application reopened; extension of permit granted for two years.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Connell..... 5

Negative 0

Absent: Mr. Holland and Fire Chief Kenlon 2

MINUTES

THE RESOLUTION:

(438-20-BZ)

WHEREAS, Mary J. Luckey, owner, filed, July 7, 1920, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage, space in which is rented to persons not residing on the premises; premises 1814 East 13th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, July 30, 1920, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 13th street is located in a residence district; and

WHEREAS, the order of the fire commissioner, dated May 26, 1920, No. 58359-LC, reads:

"With reference to your application dated Jan. 12th, 1920, for a permit to maintain a garage at the above location, I regret to inform you that I am without power to grant such a permit for the following reasons:

"Maintenance of your garage is a violation of section 3 of article 2 of the building zone resolution of the Board of Estimate and Apportionment of the City of New York adopted July 25, 1916, inasmuch as motor vehicles stored are for sale, for rent, or for hire or are subject to charges for storage.

"You are, therefore, ordered to remove all motor vehicles, the fuel tanks of which are not empty, stored by others than the occupants of dwelling on lot where garage is situated."

and

WHEREAS, the building is frame, one story in height, 18 ft. by 20 ft. in area; occupied as a garage for two pleasure cars, space in which is rented to persons not residing on the premises; and

WHEREAS, there would be undue hardship in preventing the owner from maintaining this garage, she having accepted rental for same in good faith and no one appeared in opposition to the granting of this application, and she has filed the duly acknowledged consents of the owners of 80 per cent of the frontage deemed by the board to be affected; and

WHEREAS, this application was granted by the board at its meeting July 30, 1920, and April 10, 1923, for a period of two years, and applicant appeared before the board and requested an extension of the time.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted* to permit the maintenance of the garage for the storage of two automobiles of the pleasure car type, space for one of which may be rented to persons not residing on the premises, for a period of two years from April 10, 1923.

1507-23-BZ.

APPLICANT—William F. Doyle, for Spencer Aldrich, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—1101-1113 Prospect avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application reopened and extension of time granted to obtain permits and to complete building.

THE VOTE TO REOPEN AND EXTEND TIME—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Connell.....	5
Negative	0
Absent: Mr. Holland and Fire Chief Kenlon	2

THE RESOLUTION:

(1507-23-BZ)

WHEREAS, Wm. F. Doyle, for Spencer Aldrich, owner, filed, December 21, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1101-1113 Prospect avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Prospect avenue and Eleventh avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 23, 1923, in acting on N. B. Application No. 22106-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A public garage for more than five motor vehicles in a business district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 130 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

TO THE BOARD OF APPEALS:

A Committee of Inspection, composed of Chairman Walsh, Chief Kenlon, Messrs. Holland, Beatty, Boulton and Connell, visited and inspected these premises and generally surveyed the site and its environs.

This application is for variation of the Building Zone Resolution, under section 7-c, seeking permission to erect a public garage on the northeast corner, formed by the intersection of 11th and Prospect Avenues, 100 ft. deep on 11th Avenue and 120 ft. frontage on Prospect Avenue. Both these highways are now designated on the zone maps as business streets.

"Directly opposite on Prospect Avenue, the entire street front, in fact, the entire square block, with the exception of a plot of ground 60 ft. by 100 ft., is occupied by a wet wash laundry, with all its attendant uses.

Immediately adjoining the premises under appeal, on the northerly side of Prospect Avenue and running from Terrace Place, a residence street, there exists a public garage of 200 ft. frontage, returning on Terrace Place 224 ft., permission to erect which was granted by this Board under applications 385-20-BZ and 751-20-BZ, section 7-c being the basis of appeal. The granting of this application, therefore, filling out the Prospect Avenue front contiguous to the existing garage, would, in the opinion of the Committee, be an equitable adjustment of the zoning regulations.

Examination of applications made affecting the street frontage show it was the opinion of the Board, regarding the establishment of the basis of appeal, that there seemed substantial community requirement for automobile storage and accommodation, and that the community interest would best be served and the integrity of the zoning resolution maintained by permitting the now existing garage to be erected directly opposite the steam laundry plant, which plant, from the viewpoint of design, material, general construction, utility and operation, is not conducive to residential development, and the Board therefore permitted the garage on Prospect Avenue.

MINUTES

The basis of appeal having been established in two former cases on this street frontage, the Committee of Inspection, with the idea of garage segregation in mind, is of the opinion that this application should be granted, with such restrictive provisions as will safeguard the properties to the north on Sherman Street, and prohibiting garage encroachment in the residence area of Sherman Street.

(Signed) WILLIAM E. WALSH,
ALFRED J. BOULTON,
JOHN KENLON (dissenting),
JAMES P. HOLLAND,
JOHN J. BEATTY (dissenting),
HENRY L. CONNELL.

and

WHEREAS, this application was granted by the board at its meeting March 25, 1924, on certain conditions, and applicant requested a modification of the time limit condition, the case having been before the court on a writ of certiorari.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure shall not exceed one story in height and shall be built of brick; that the rear and gable walls shall be unpierced throughout their entire height and length; that there shall be no vehicular opening on 11th avenue; that any emergency exit installed on the 11th avenue front shall not exceed 3 ft. 8 in. in width; that the sills of any windows opening on 11th avenue shall be at least 6 ft. above grade; that any vehicular opening on the Prospect avenue front shall be at least 25 ft. distant from the corner formed by the intersection of 11th avenue and Prospect avenue; that the front elevations shall be faced with buff colored brick and architectural terra cotta or stone trimmings; that there shall be no sign nor advertising display of any nature or description on the 11th avenue front of the building, and there shall be no roof sign erected on the building; that the owner shall file with this board a sworn stipulation and agreement, to run with the land, that any property other than the plot involved in this appeal that he owns within the confines of the square block on which this premises is located, that is, property within the square block bounded by Prospect avenue, Terrace place, Sherman street and 11th avenue, shall be restricted by covenant to conforming uses;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

AREAS FIXED.

(1538-24-BZ)

The chairman presented and read a communication from Augustus Bainbridge, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of four individual garages; premises, 8 Irving place and 180 Gates avenue (rear), Brooklyn.

The following area was approved by the board:

Both sides of Irving place from Gates avenue to a point 100 feet north of Putnam avenue; also both sides of Gates avenue from Downing street to a point 100 feet west of Classon avenue.

(49-25-BZ)

The chairman presented and read a communication from Abraham Propper, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, 1601-1613 Cropsey avenue, Brooklyn.

The following area was approved by the board:

Both sides of 16th avenue from a point 200 feet south of Cropsey avenue to a point 400 feet north of proposed garage; both sides of Cropsey avenue from a point 200 feet west of 16th avenue to a point 400 feet east of premises in question; also the west side of 13th street from Cropsey avenue to a point 275 feet north of Cropsey avenue.

(59-25-BZ)

The chairman presented and read a communication from Lawrence J. Frank, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, northwest corner of Sutter avenue and Pitkin avenue, Woodhaven, Borough of Queens.

The following area was approved by the board:

Both sides of Pitkin avenue from Cedar lane to a point 231 feet westerly from the westerly lot line of premises in question; both sides of Sutter avenue as indicated on diagram filed and also the properties at rear and for a distance of 50 feet on each side of the rear lot lines of the premises in question.

(61-25-BZ)

The chairman presented and read a communication from Magnuson & Kleinert, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, 3313 Tilden avenue, Brooklyn.

The following area was approved by the board:

Both sides of Tilden avenue from East 32nd street to a point 50 feet east of East 35th street; also the property at rear and contiguous to the side lot lines, for a distance of 50 feet on each side.

(60-25-BZ)

The chairman presented and read a communication from Edward Hoffman, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, 2115-2137 Webster avenue, The Bronx.

The following area was approved by the board:

Both sides of Webster avenue from East 180th street to a point 400 feet north of proposed garage; also the properties at the rear and for a distance of 50 feet on either side of the side lot lines of the premises in question.

(732-24-BZ)

The chairman presented and read a communication from William F. Doyle, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, 162-72 McDougall street, Brooklyn.

The following area was approved by the board:

Both sides of McDougall street from a point 200 feet east of Hopkinson avenue to a point 400 feet west of proposed garage. Both sides of Hopkinson avenue from a point 100 feet south of Hull street to a point 400 feet north of premises in question; also the north side of Hull street from Hopkinson avenue to a point 150 feet west of Hopkinson avenue.

1

THE RESOLUTION:

(1267-24-A)

WHEREAS, B. L. Kraus, for North Town Realty Corp., owner, filed, October 25, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 2065 Grand Concourse, Borough of Bronx; and

WHEREAS, the decision of the fire commissioner, rendered October 9, 1924, in acting on N. B. Application No. 1069-24, reads:

"Plans of fuel oil equipment as filed with this Bureau show substantial compliance with the Fuel Oil Rules, adopted by the Board of Standards and Appeals but standpipes are not shown to be provided in this building in accordance with Section 581, Article 28, Chapter 5 of the Code of Ordinances. You are, therefore, advised that a storage permit for fuel oil cannot be issued until the legal requirements for standpipe have been fully complied with."

and

WHEREAS, the building is non-fireproof, six stories in height, 175 ft. 4 $\frac{7}{8}$ in. by 116 ft. 6 $\frac{7}{8}$ in. (irregular) in area, subdivided into five separate areas by 8 in. brick and also 4 in. terra cotta walls, with fire doors at openings therein; a fuel oil burning system having been installed in the cellar; OCCUPIED as a tenement; and

WHEREAS, appellant contends that the building is subdivided by a fireproof corridor with 8 in. brick walls each side into two sections, each approximately 5,000 sq. ft., and that these sections are further subdivided into portions 2,360 sq. ft. in area, and that the building has been constructed entirely in accordance with plans approved by both the building and tenement house departments; that the building is provided with three sets of fireproof stairs.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the fuel oil burning equipment shall be installed, maintained and operated in accordance with the fuel oil rules of the board of standards and appeals. All permits required to be obtained from departments having jurisdiction.

470-24-A.

APPELLANT—Samuel Rosenblum, for Barney Scher, owner.

MINUTES

SUBJECT—Application for reopening—appeal from order of fire commissioner.

PREMISES AFFECTED—52-62 Ellery street, Brooklyn.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire

Chief Kenlon 6

Absent: Mr. Holland 1

THE RESOLUTION:

(470-24-A)

WHEREAS, Samuel Rosenblum, for Barney Scher, owner, filed, April 1, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 52-62 Ellery street, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 41910-F, dated January 11, 1923, reads:

"1. Provide a separate and distinct system of automatic sprinklers throughout building having at least one source of water supply arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, * * *";

and

WHEREAS, the premises consist of a main non-fireproof building, four stories and basement in height, 93 ft. 3 in. by 33 ft. 2 in. in area, with a one and two-story extension to the rear and a one-story extension to the west 25 ft. 7 in. by 33 ft. 2 in. in area; OCCUPIED as a furniture warehouse, 6 persons in entire building; and

WHEREAS, this case was denied by the board at its meeting held on July 29, 1924, and reopened by the vote of the board on January 20, 1925; and

WHEREAS, appellant proposes to enclose the interior stairway in fire retarding material and to make the elevator shaft doors fireproof and self-closing, and contends that there is no open flame on the premises and that there are water tanks and buckets distributed throughout the floors of the building.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1236-24-A.

APPELLANT—Harry A. Lanzner, for Ithal Realty Co., Inc., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—2-14 Northern avenue, Manhattan.

APPEARANCES—

For Appellant: Rudolph P. Miller, E. M. Cohen.

For Administration: Inspector Carroll of fire department.

1

THE RESOLUTION:

(1355-24-A)

WHEREAS, A. J. Feltault, for Jacob Ruppert Realty Corp., owner, filed, November 17, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 280 East 133rd street, The Bronx; and

WHEREAS, the order of the fire commissioner, dated November 5, 1924, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto.";

and

WHEREAS, the building is fireproof, four stories (93 ft.) in height, 152 ft. 8 in. by 60 ft. (9,160 sq. ft.) in area; OCCUPIED as an artificial ice manufacturing plant, 5 persons in the entire building; and

WHEREAS, appellant contends that the building is only 8 ft. higher than the limit prescribing standpipe installations; that there is nothing combustible in the premises; that there are adequate siamese connections for the ammonia lines and the plant is under supervision at all times.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the ammonia equipment installed and operated shall comply with all municipal requirements and so maintained, and *granted* only so long as conditions as to occupancy and use remain otherwise unchanged.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Connell....

Negative

Absent: Mr. Holland and Fire Chief Kenlon

THE RESOLUTION:

(968-24-BZ)

WHEREAS, Otto Henschel, for Michael Pellegrino and others, owners, filed, July 24, 1924, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of buildings to be used for store purposes on the 1st story and for dwelling use above, premises 1922-1926, 1930 and 1932 Kings highway, and 2110 Ocean avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Kings highway, south side and to a point 100 ft. west of Ocean avenue, is a residence district, the remainder of Kings highway at this point is a business district, and Ocean avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 10, 1924, in acting on Applications No. 1366, 1367, 1368 and 1369, reads:

"Proposed three story brick building to be occupied as a store on the 1st floor, one family on the 2nd floor and one family on the 3rd floor, in a residence district, is contrary to Art. II, Sec. 3 of the Zone Resolution."

and

WHEREAS, the premises consist of six (6) three-story non-fireproof buildings; four are 20 ft. by 59 ft. in area, one is 20 ft. by 61 ft. 8 in. in area and one is 38 ft. 4 in. by 30 ft. in area; all to be similarly occupied, stores on the 1st story and dwellings above; and

WHEREAS, the board deemed that there would be hardship in preventing applicant from using the Kings highway front for stores owing to the business use on this street.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted, restricted to business use of retail stores on the ground floor only, and only so far as it affects the frontage facing on Kings highway, on condition that the upper stories of the building shall be restricted to dwelling use and occupancy; the store fronts or show windows shall start at a point not less than 12 in. from the Ocean avenue building line; that there shall be no stores or business use evidenced or displayed on the Ocean avenue front of the structure; that there shall be no advertising signs or display of any nature or description on the Ocean avenue front, and that any advertising signs or display on the Kings highway front shall be restricted to lettering placed directly on show windows of the store fronts; and

MINUTES

t there shall be no entrance on the Ocean avenue front
er than those required for the dwelling use above; that
exterior of the street walls on Kings highway and
ean avenue front, other than the show windows of the
res on the Kings highway front, shall be finished in face
ck with architectural terra cotta or natural stone trim-
ings, that any windows on the Ocean avenue front, except
se opening directly to living apartments, shall have sills
less than 6 ft. above grade; that a return drawing shall
made to this board of the proposed elevations for ap-
val before submission to the superintendent of buildings;
d further granted on condition that the requirements of
e building zone resolution shall be complied with in all
er respects as to rear yard and area requirements; and
Resolved, further, all permits necessary for the prosecu-
tion of the work shall be obtained within nine (9) months
and the building completed within eighteen (18) months from
the date of this action.

4-24-BZ.

APPLICANT—Jacob Lubroth, for Louis Hernstat,
owner.

SUBJECT—Application (re: decision of superintendent
of buildings) to permit in a business district
extending into an unrestricted district the erec-
tion and maintenance of a poultry slaughter
house.

PREMISES AFFECTED—2269-71 59th street, Brook-
lyn.

APPEARANCES—

For Applicant: Norman N. Nacman, Jacob Lu-
broth.

For Opposition: J. M. Butterly, Rudolph Jastre.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Ken-
nedy, Dowd, Gunnison and Connell 5

Absent: Mr. Holland and Fire Chief Kenlon 2

THE RESOLUTION:

(994-24-BZ)

WHEREAS, Jacob Lubroth, for Louis Hernstat, owner, filed,
August 1, 1924, an application, under the building zone reso-
lution, to permit the extension, from an unrestricted dis-
trict into a business district, of a proposed building to be
used as a chicken slaughter house; premises 2269-71 59th
street, Brooklyn; and

WHEREAS, a public hearing was held on this application
by the board of appeals, at its special meeting, February 17,
1925, after due notice by publication in the Bulletin of the
Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the build-
ing zone resolution show that 59th street is an unrestricted
district to within 100 ft. of Dahill road, Dahill road north of
Avenue M is a business district and 23rd avenue is a resi-
dence district; and

WHEREAS, the decision of the superintendent of buildings,
rendered July 14, 1924, in acting on App. No. 11170-24,
reads:

“Denied—Proposition contrary to the Zone Resolution,
Art. II, Sect. 4, a chicken slaughter house extending
into a business district.”;

and

WHEREAS, the proposed building is to be of non-fireproof
construction, one story in height, with a frontage of 25 ft.
and a depth of 100 ft.; to be occupied as a chicken slaugh-
ter house; and

WHEREAS, the board deemed that an invasion of the busi-
ness district by a use of this character should not be per-
mitted.

Resolved, that the decision of the superintendent of build-
ings be and it hereby is affirmed, and the application be and
it hereby is denied.

676-24-BZ.

APPLICANT—John C. Wandell Co., for Dahl Bros.,
owners.

SUBJECT—Application (re: decision of superintendent
of buildings) to permit in a residence “E” area
district the erection and maintenance of build-
ings nearer than ten (10) feet from the line of
the street, contrary to section 15 of building
zone resolution.

PREMISES AFFECTED—7511-15-17-19 and 23 Col-
onial road, Brooklyn.

APPEARANCES—

For Applicant: John C. Wandell, Mr. Dahl.

For Opposition: John G. Michel, Georgina A.
Seaman, Jane Plant.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Ken-

nedy, Dowd, Gunnison and Connell.... 5

Negative 0

Absent: Mr. Holland and Fire Chief Kenlon 2

THE RESOLUTION:

(676-24-BZ)

WHEREAS, John Wandell, for Dahl Bros., owner, filed,
May 15, 1924, an application, under the building zone reso-
lution, to permit in a residence use, “E” area district, the
erection and maintenance of buildings less than 10 ft. from
the building line, contrary to section 15 of building zone
resolution; premises 7511-15-17-19 and 7523 Colonial road,
Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application
by the board of appeals, at its special meeting, February 17,
1925, after due notice by publication in the Bulletin of the
Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building
zone resolution show that Colonial road and 76th street
are residence use and “E” and “C” area districts; and

WHEREAS, the decisions of the superintendent of build-
ings read:

“Application No. 9023-24, rendered Apr. 30, 1924, af-
fecting premises 7505-19 Colonial Road, reads:

“Construction. Location. Residential E District
Building must be set back 10 ft. from building line.
Application denied.”

“Application No. 3887-24, rendered Apr. 29, 1924, af-
fecting premises 7523 Colonial Road, reads:

“1. Building to be set back 10 ft. from building line
on 76th Street side—Bd. of Estimate ruling.”;

and

WHEREAS, the premises in question consist of five frame
buildings, each two stories in height, the corner house be-
ing 18 ft. by 42 ft. in area and the four others being 16
ft. by 34 ft. in area; it is proposed to construct these houses
8 ft. from the building line on the Colonial road front and
the corner house to be built 8 ft. from the Colonial road
line and 6 ft. 6 in. from the 76th street building line; and

WHEREAS, it appears that the area district line between the
C and E districts divides the block, and that there would
be hardship in compelling applicant to set back a portion
of his development, he having obtained permission to erect
foundations before the fact that a portion of the premises
was in an E area district was discovered.

Resolved, that the board of appeals does hereby make a
variation in the application of the use district regulations
of the building zone resolution, and that the application be
and it hereby is granted on condition that no covered or en-
closed portion of the structure shall be erected on Colonial
road front within 8 ft. of the building line, and that the re-
turn on the 76th street front shall be set back not less than
6 ft. 6 in. from the building line; granted on further con-
dition that the requirements of the building zone resolution
shall be complied within all other respects; and

MINUTES

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within three (3) months and the buildings completed within eight (8) months from the date of this action.

992-24-BZ.

APPLICANT—Edward P. Doyle, for Vincent Scuderi, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—Southeast corner of Trimble place and Roosevelt avenue, Ridgewood, Borough of Queens.

APPEARANCES—.....

For Applicant: Edward P. Doyle.

For Opposition: W. M. Smith, R. Leslie Smith.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Connell..... 5

Absent: Mr. Holland and Fire Chief Kenlon 2

THE RESOLUTION:

(992-24-BZ)

WHEREAS, Edward P. Doyle, for Vincent Scuderi, owner, filed, August 1, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises southeast corner Trimble place and Roosevelt avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Roosevelt avenue and Trimble place are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered July 30, 1924, in acting on N. B. App. No. 12735-24, reads:

"1. The erection of a garage for more than five cars in a business district is prohibited by Art. 2, Sec. 4 of the Zone Law."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 120 ft. on Roosevelt avenue, 20 ft. on Trimble avenue; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the applicant, having failed to establish the basis of appeal, and no facts adduced to justify the variation for prohibitive use.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1346-24-BZ.

APPLICANT—Edward P. Doyle, for Louis Blumberg, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—East side Coney Island avenue, 150.52 ft. south of Avenue T, Brooklyn.

APPEARANCES—

For Applicant: Edward P. Doyle, Irving E. Meller.

For Opposition: T. J. Cox, Anna Steffans, Peter H. Henckel, Max Cohen, Florence Neuhaus, William H. Pitzer.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison and Connell.... 5

Absent: Mr. Holland and Fire Chief Kenlon 2

THE RESOLUTION:

(1346-24-BZ)

WHEREAS, Edward P. Doyle, for Louis Blumberg, owner, filed, November 11, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side of Coney Island avenue, 150.52 ft. south of Avenue T, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Coney Island avenue and Avenue U are business districts and Avenue T is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 10, 1924, in acting on N. B. Application No. 19948-24, reads:

"1. Proposition being contrary to Zone Resolution is hereby denied. (Public garage for more than five vehicles in business district. Zone Resolution, Art. II, Par. 4, Subd. 15.)"

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 140 ft. 6 in. and a depth of 100 ft. 4 3/8 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there were no facts adduced to warrant the invasion of a street otherwise uninvaded with prohibitive uses.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

NOTICE OF REMOVAL

NOTICE IS HEREBY GIVEN THAT ON AND AFTER MARCH 9, 1925, THE BOARD OF STANDARDS AND APPEALS WILL BE LOCATED ON THE TENTH FLOOR OF THE MUNICIPAL BUILDING, ROOMS 1001 TO 1015—NORTH END OF BUILDING.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of either board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, on *Tuesday, March 3, 1925*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, March 10, 1925*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

APPEARANCES—

For Appellant: Raymond Irrera.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire

Chief Kenlon 6

Negative 0

Absent: Mr. Holland 1

THE RESOLUTION:

(67-22-A)

WHEREAS, Herbert J. Krapp, for Broadway and Hamilton Place Corporation, owner, filed, January 16, 1922, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises block bounded by West 138th street, West 139th street, Broadway and Hamilton place, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered January 7, 1922, in acting on N. B. Application No. 1575-21, reads:

"4. Show the complete standpipe equipment for this theatre, the same must include a gravity tank on the roof (containing at least 3500 gallons of water for the fireline reserve) with all appurtenances and connections,

etc. Show also a 250 gallon per minute fire pump, to be driven by a 25 H. P. electric motor, with an automatic starting and stopping device as required; furthermore, show in the pump room an approved steel suction tank to hold at least 5000 gallons available for the fireline reserve."

and

WHEREAS, the building is one, three and five stories in height, 36 ft., 42 ft. and 61 ft., respectively, fronting 139 ft. on West 138th street, 217 ft. 1 in. on Hamilton place, 233 ft. 9¼ in. on West 139th street and 199 ft. 10 in. on Broadway; OCCUPIED as theatre, stores, offices and apartments; the theatre portion of the building being of fireproof construction, one story in height, 83 ft. by 199 ft. 10 in. in area, there being four standpipes installed in the auditorium, supplied direct from the city main; the theatre being separated from the apartments, stores and offices by 12 in. brick walls; and

WHEREAS, appellant states that the standpipes are connected to the street pressure, which is 65 pounds, and that the theatre contains only an auditorium, no stage or scenery, and used exclusively for motion pictures and that there are two siamese connections on two streets.

Resolved, that the decision of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted only so far as it affects the installation of the fire pump and the suction tank, on condition that the standpipe equipment otherwise shall comply with the regulations in all other respects.

1476-24-A.

APPELLANT—Albert E. Kleinert, superintendent of buildings, Brooklyn.

SUBJECT—Revocation of Certificate of Occupancy No. 2285.

PREMISES AFFECTED—26 Buckingham road, Brooklyn.

APPEARANCES—

For Appellant: Albert Conway.

In Opposition: A. I. Nova.

For Administration: Assistant Engineer Joseph P. Smithers of bureau of buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO REVOKE CERTIFICATE OF OCCUPANCY—

Affirmative 0

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire

Chief Kenlon 6

Absent: Mr. Holland 1

THE RESOLUTION:

(1476-24-A)

WHEREAS, Albert E. Kleinert, superintendent of buildings, Borough of Brooklyn, filed, November 26, 1924, an appeal, with the board of appeals from revocation of Certificate of Occupancy No. 2285 issued on September 25, 1921, for the use of premises No. 26 (official), No. 22 (displayed) Buckingham road, west side, 172 ft. 7 in. south of Caton avenue, Brooklyn; and

WHEREAS, it appears that this certificate of occupancy was issued for a boarding house for children at these premises on the basis of the statements made, which the superintendent of buildings contends were a misrepresentation of facts; and

WHEREAS, the superintendent of buildings contends that the building is a two-story and attic frame structure, OCCUPIED as a one-family dwelling, and which occupancy has always been a one-family dwelling; and

WHEREAS, there was no testimony adduced at the hearing to support the contention of the superintendent of buildings as to a misstatement of fact.

Resolved, that the application of the superintendent of buildings for revocation of certificate of occupancy be and it hereby is denied.

THE RESOLUTION:

(1444-24-A)

WHEREAS, E. A. Pierce, for Menley & James, Ltd., owner, filed, December 6, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises northeast corner of Rose avenue and Archer place, Jamaica, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 2348-24, dated December 6, 1924, reads:

"1. Burners must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is non-fireproof, two stories in height, 100 ft. by 100 ft. in area. OCCUPIED: 1st story, private garage; 2nd story, dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 2,600 gallon fuel oil storage tank, buried outside the building, a Caloril Burner and the necessary valves and piping; and

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary period of ninety (90) days at the owner's risk, pending the action of the board of standards and appeals for consideration of the burner, *on condition* that the fuel oil burning equipment complies with the fuel oil rules in all other respects.

THE RESOLUTION:

(1487-24-A)

WHEREAS, Cornell Utilities Co., Inc., for Mrs. George W. Perkins, owner, filed, December 20, 1924, an appeal, with the board of appeals from an order of the fire commissioner, affecting premises northwest corner of West 252nd street and Independence avenue, Riverdale, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, No. 26465-LC, dated November 19, 1924, reads:

"1. Make arrangements with this department to test the tanks and all piping in connection therewith.

"3. Discontinue the use of an unapproved burner.";

and

WHEREAS, the building is non-fireproof, three stories in height, 136 ft. by 54 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 1,000 gallon fuel oil storage tank buried outside the building, a 35 gallon auxiliary tank, one NoKol Burner and the necessary valves and piping; and

WHEREAS, appellant requests the acceptance of a sworn affidavit that the tank has undergone a shop test, and contends that all piping is standard wrought iron piping.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item No. 1 *on condition* that a certificate of factory test shall be filed with the fire commissioner, and all piping installed in the fuel oil equipment shall be of standard wrought iron; *granted* as to Item No. 3 *on condition* that the door to fire box of the boiler shall be arranged and equipped with self-closing device and that this installation shall comply with the fuel oil rules in all other respects.

THE RESOLUTION:

(1384-24-PZ)

WHEREAS, Edwin H. Denby, for Albert Freeman, owner, filed, November 21, 1924, an application, under the building zone resolution, to permit in a residence district the alteration and conversion of a dwelling to a business use; premises 515 Park avenue, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 24, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that the southeast corner of Park avenue and 60th street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 3, 1924, in acting on Alteration Application No. 2560-24, reads:

"2. This building is in a residence district and may not be converted to a business use. Building Zone Resolution, Section No. 3.;"

and

WHEREAS, the building is of fireproof construction, twelve stories in height, with a frontage of 90 ft. and a depth of 60 ft.; occupied as an apartment house; it is proposed to change the occupancy of the basement and 1st story to a bank; and

WHEREAS, the board deemed that, owing to permission having been granted for a bank in the building in the opposite corner and the existence of a garage adjoining to the north, there would be hardship in preventing applicant from making a similar use of his premises.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the use be restricted to the first and basement stories on the Park avenue front of the building and restricted to the conduct and operation of a public bank organized under the authority of the banking laws of the State of New York, or a national bank conducted under federal authority, with the accessory use incident to banking use requirements for the basement story; that there shall be no show window or business display of any nature or description on the 60th street side of the structure; that there shall be no advertising signs or display on any part of the structure other than the title of the bank, which title shall be limited to lettering on the plate glass show windows of the Park avenue front; that a return of the architect's drawings shall be submitted to this board for approval, before same is presented to the superintendent of buildings for consideration;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1483-24-BZ.

APPLICANT—James W. Byrnes, for Holland Laundry, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the alteration and extension of a laundry building.

PREMISES AFFECTED—225-235 25th street, Brooklyn.

APPEARANCES—

For Applicant: James W. Byrnes.

THE RESOLUTION:

(1483-24-BZ)

WHEREAS, James W. Byrnes, for Holland Laundry, owner, filed, December 17, 1924, an application, under the building zone resolution, to permit in a business district the alteration and conversion of a steam laundry building; premises 225-235 25th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 24, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 24th street and 25th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 28, 1924, in acting on Application No. 23339-24, reads:

"(1) Enlarging steam laundry in a business district, contrary to Art. 11-6 of Zone Resolution.;"

and

WHEREAS, the existing building is fireproof, three stories in height, 96 ft. by 100 ft. in area; occupied as a steam laundry; with a one-story fireproof garage 41 ft. 6 in. by 200 ft. in area to the west; it is proposed to extend the 2nd story of the laundry building westerly and across the roof of part of the one-story garage; and

MINUTES

WHEREAS, the board deemed there would be hardship in preventing applicant from making the proposed use of his premises under the existing conditions.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the addition be limited to one story in height above the existing one-story extension; that all necessary exits required by law shall be installed; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action; that the provisions of the resolution adopted under Cal. No. 707-22-BZ requiring "that the garage use be limited and confined to the one-story wing, westerly section; that any openings between that section and the laundry section be protected with self-closing fireproof doors, and that the side or gable wall of the garage be unpierced throughout its entire height and length" shall be complied with.

1503-24-BZ.

APPLICANT—William F. Doyle, for Broadway and West 38th Street Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business two times height district the erection of a street wall to a height exceeding the limit required by the zone resolution.

PREMISES AFFECTED—132-142 West 38th street and 1385-1391 Broadway, Manhattan.

APPEARANCES—

1

THE RESOLUTION:

(1503-24-BZ)

WHEREAS, William F. Doyle, for Broadway and 38th Street Corp., owner, filed, December 22, 1924, an application, under the building zone resolution, to permit in a business two times height district, the erection of the street wall of a building to a height exceeding the limit set by the zone resolution; premises 132-142 West 38th street and 1385-1391 Broadway, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 24, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that the premises are in a business and two (2) times height district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 17, 1924, in acting on N. B. Application No. 694-1924, reads:

"13. Building is of excessive height on West 38th Street. Height limit for westerly 24 ft. 6 1/8 in. is 120 ft. 0 in.";

and

WHEREAS, the proposed building is to be of fireproof construction, 23 stories in height, with a frontage of 104 ft. and a depth of 174 ft. 6 1/8 in.; and

WHEREAS, it appears that Broadway is 100 ft. wide and West 138th street is 60 ft. wide and both are in a two times height district. It is permissible for applicant to carry the allowable height (200 ft.) of the Broadway street wall westerly on 38th street for a distance of 150 ft.; applicant proposes to carry the Broadway permissible wall height (200

ft.) for the total depth of the building, 174 ft. 6 1/8 in. along 38th street, a length 24 ft. 6 1/8 in. in excess of the 150 ft. depth permitted by the zone resolution; and

WHEREAS, the board deemed that a strict compliance with the requirements of the building zone resolution would destroy the architectural effect and introduce an intricate and costly steel design, and that there would be hardship in compelling applicant to comply with the strict letter of the law.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed without delay or interruption of work; and that the building zone resolution shall be complied with in all other respects.

1457-24-BZ.

1

THE RESOLUTION:

(1457-24-BZ)

WHEREAS, William F. Doyle, for Fred Cineatti, owner, filed, December 10, 1924, an application, under the building zone resolution, to permit in a business district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 220-226 East 117th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 24, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 117th street, East 116th street and Third avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 3, 1924, in acting on App. No. 657-1924, reads:

"1. In a business district no building should be erected for occupancy as a garage for more than five motor vehicles.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 75 ft. and a depth of 100.11 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses, since converted to a garage for more than five motor vehicles.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be restricted to two stories in height and shall be constructed

MINUTES

fireproof; that a rear yard shall be maintained, not less than 10 ft. in depth, at the level of the second tier of beams; that the rear windows shall be equipped with fixed iron sash and shall have not more than one ventilator to each opening; that the gable walls shall be unpierced throughout the entire height and length; that no skylight shall be installed within 25 ft. of the westerly gable walls; all skylights installed to be glazed with plain glass protected with wire guards above and below; that any gasoline storage equipment shall be located at the easterly end of the street front; that vehicular entrance shall be maintained at the easterly side of the structure; that the run of any ramp installed shall begin at a point not less than 5 ft. back from the building line; that there shall be no roof signs erected; that any sign on the front of the building shall be restricted to one projecting electric sign and lettering on the showcase windows; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1470-24-BZ.

APPLICANT—William F. Doyle, for Walluner Construction Company, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence "E" area district the erection and maintenance of residence buildings nearer than ten (10) feet to the line of the street, and also to occupy more than 50 per cent of the area of an interior lot by the aggregate buildings; contrary to section 15 of the zone resolution.

PREMISES AFFECTED—238-44 86th street, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell and Fire

Chief Kenlon 6

Negative 0

Absent: Mr. Holland 1

THE RESOLUTION:

(1470-24-BZ)

WHEREAS, William F. Doyle, for Walluner Const. Company, owner, filed, December 15, 1924, an application, under the building zone resolution, to permit in a residence "E" area district the erection and maintenance of residence buildings without the required 10 ft. setback from the building line and also the occupancy of more than 50 per cent of the lot area; premises 238-244 86th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 24, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 86th street and 87th street are residence and "E" area districts; and

WHEREAS, the decisions of the superintendent of buildings, read:

App. No. 23318-24, rendered December 4, 1924:

"No. 1. Buildings should set back 10 ft. from building line.

"No. 2. Proposition contrary to Article 4, Section 15 of the Zone Resolution as to per cent of plot occupied by building."

App. No. 23492-24, rendered December 5, 1924:

"Proposed new garage building disapproved, as the combined area of buildings on plot exceeds 50 per cent of area of same. See Zone Resolution as to limited area in a residential zone district E, Art. 4, Section 15, Par. C.";

and

WHEREAS, it is proposed to erect on the premises three dwellings and two garages, having a total area of 5,025 sq. ft.; the area of the lot being 8,000 sq. ft. (62.7 per cent). The proposed setback is 3 ft. instead of the required 10 ft.;

and WHEREAS, the board deemed that there would be hardship in insisting that the requirements of the law be complied with owing to the fact that a foundation permit had been issued by the administrative officials.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the face of the street wall of this building shall not project beyond the street wall of the adjoining building to the east, and the porch shall be of open construction; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

AREAS FIXED.

(1404-24-BZ)

The chairman presented the request of John De Hart asking the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 3-5 Cottage place, The Bronx.

The following area was approved by the board:

Both sides of Cottage place from a point 100 feet north of East 170th street to Crotona Park south; both sides of Crotona Park south from Fulton avenue to Franklin avenue; also the east side of Fulton avenue from a point 100 feet north of East 170th street to Crotona Park south.

(1449-24-BZ)

The chairman presented and read a communication from Benjamin Ascher, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of a garage; premises 1962 Anthony avenue, The Bronx.

The following area was approved by the board:

Both sides of Anthony avenue from a point 100 ft. south of Burnside avenue to a point 100 ft. south of premises in question. Both sides of East 179th street from Anthony avenue to a point 100 ft. west of Anthony avenue; the north side of East 178th street from Anthony avenue to Rver avenue, also the west side of Rver avenue from East 178th street to a point 220 ft. north of East 178th street.

Adjourned 4:30 p. m.

Negative 0

Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott 5

THE RESOLUTION:

(1422-24-S)

WHEREAS, Croker Natl. Fire Prev. Eng. Co., for Chas. E. Johnson Co., lessee, filed, December 2, 1924, a petition, with

the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 410-412 Pearl street, and 46-48 New Chambers street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 65819-LD, dated October 7, 1924, reads:

"1. Remove the substandard fire escape on the west side (Pearl Street) as per Rule of the Board of Standards & Appeals adopted July 2nd, 1918.

"2. Provide an exterior screened iron stairway on the west side of building, as per Section 271 of the Labor Law, not less than 44 in. in width, extending from ground to roof, with a balcony on each floor and an independent means of egress from its lowest termination by means of an open court or courts or a fireproof passageway leading to the street, constructed as per Section 268 of the Labor Law * * *";

and

WHEREAS, the building, fronting on two streets, is fireproof, eight stories in height, 49 ft. by 78 ft., irregular in area. OCCUPIED: 1st, 2nd and 3rd stories, manufacture and storage of printing ink; upper stories, printers, 66 persons above the 1st story; EQUIPPED with a sprinkler system. EXITS: Two interior iron stairways, both extending from 1st story to roof, and enclosed in fireproof partitions with fire doors at openings; a 60 degree fire escape on the Pearl street front of the building extending from 2nd story to top story with gooseneck ladder to roof and a counterbalanced stairway to street, with fireproof windows along the course thereof; ROOFS of adjoining buildings to south two stories lower, to north five stories lower; and

WHEREAS, petitioner contends that a similar order was issued by the fire department, and after the railings were raised to a height of 4 ft. 6 in., steps to sills and railings around well house were provided, the violation was dismissed, and petitioner contends further that it would be a great hardship to remove the fire escape and to construct an exterior screened stairway.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted, as to Items No. 1 and 2, ratifying the action of the board of review, July 17, 1919, on condition that the stipulations of said action shall be complied with, and granted only so long as conditions as to occupancy and use otherwise remain unchanged.

1451-24-S.

PETITIONER—Jacob Fisher, for Zarelnek, lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—12 West 29th street, Manhattan.

APPEARANCES—

For Petitioner: Jacob Fisher.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Superintendents Brady, Reville and Moore... 8

Negative 0

Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott 5

THE RESOLUTION:

(1451-24-S)

WHEREAS, Jacob Fisher, for Joseph Zarelnek, lessee, filed, December 9, 1924, a petition, with the board of standards and appeals for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 12 West 29th street, Manhattan; and

MINUTES

WHEREAS, the order of the fire commissioner, No. 52190-LD, dated November 23, 1923, reads:

"1. Extend the interior stairway at the rear of the building to the roof as per Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories and basement in height, 18 ft. 9 in. by 98 ft. 9 in. in area; OCCUPIED as a tenant factory, 38 persons above the 1st story; EQUIPPED with a fire alarm signal system. EXITS: An interior wooden stairway at the front of the building extending from 1st story to roof; enclosed in wood stud, lath and plaster partitions with wooden doors at openings; a wooden stairway at the rear of the building, enclosed in wire lath and Portland cement partitions with wooden doors at openings extending from 1st story to top story; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that a similar order was issued, but that, owing to the location of the water tank immediately above the stairway, an outside iron stairway was provided from the top story landing to the roof, after plans for the same were approved by the bureau of buildings.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that the main stairs shall be continued direct to the roof, that an outside balcony with iron stairway from top story, rear, shall be carried direct to main roof, with exit signs not less than 8 in. in height, painted on the glass panel of the door leading to this balcony, and that the door shall be fireproof, glazed with wire glass, opening out, and *granted* only so long as conditions as to occupancy and use otherwise remain unchanged.

1475-24-S.

PETITIONER—Croker National Fire Prevention Engineering Co., for L. Schepp Co., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—165-169 Duane street, Manhattan.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative	0
Absent: Mr. Holland, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott	4

THE RESOLUTION:

(1475-24-S)

WHEREAS, Croker National Fire Prevention Engineering Company, for L. Schepp Co., owner, filed, December 15, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 165-9 Duane street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 26, 1924, reads:

"Order No. 68693-LD:

"1. Enclose the interior stairway at west side of division wall at centre of building serving as a required means of exit, and the landings, platforms and passages connecting therewith on all sides with partitions of fire resisting material extending continuously from the 1st story to 3 feet above the roof, constructed as per Section 271 of the Labor Law * * *.

"2. Remove the substandard fire escape on the east and west sides of building or reconstruct same in accordance with Section 274 of the Labor Law except that in lieu of a counterbalanced stair a drop ladder with guides from the lowest balcony to ground may be provided.

"3. Provide an additional required means of exit on each floor of the building, remote from existing stairway located at west side of division wall at centre of building, preferably located at the north side of building, in accordance with the requirements of Section 271 of the Labor Law.";

and

WHEREAS, the building is separated into two sections by a fore and aft brick wall with openings therein on all stories excepting the 1st, 3rd and 5th stories, and is non-fireproof, ten stories in height, 100 ft. 6 in. by 77 ft. 10 in. in area; OCCUPIED for drying, shredding and packing coconut and also for the storage of shoes on the 4th and 5th stories, 78 persons above the 1st story; EQUIPPED with a sprinkler system. EXITS: Two interior wooden stairways, the westerly one extending from the 1st to the top story and the easterly one extending from the 1st story to the roof, partly enclosed in wooden partitions with wooden doors at the openings; a sub-standard fire escape on the Hudson street front and also one on the Staple street front of the building; ROOFS of adjoining buildings are 6 ft. lower; and

WHEREAS, petitioner proposes to cut openings in the division wall on the 3rd and 5th stories and to provide fireproof doors at all openings in the wall from the 2nd to the 10th story, inclusive; and proposes also to change to 45 degrees the pitch of the connecting stairs between the fire escape balconies and also to raise the railings on the said balconies to a height of 4 ft. 6 in.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted* as to Item No. 2 *on condition* that the fire escapes shall be brought up to standard; *granted* as to Item No. 3 *on condition* that the stair hall enclosure in the easterly section shall be enclosed in fire retarding partitions throughout, in accordance with the rules of the board of standards and appeals; that the stair halls in each section of building shall be enclosed throughout; *denied* as to Item No. 1.

1514-24-S.

PETITIONER—Maynicke & Franke, for Henry Heide, Inc., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—293-303 Spring street, 303-313 Hudson street and 78-90 Vandam street, Manhattan.

APPEARANCES—

For Petitioner: Julius Franke.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott	5

THE RESOLUTION:

(1514-24-S)

WHEREAS, Maynicke & Franke, for Henry Heide, Inc., owner, filed, December 23, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire com-

MINUTES

missioner, affecting premises 293-303 Spring street, 303-313 Hudson street and 78-90 Vandam street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 69193-LD, dated December 3, 1924, reads:

"1. Arrange the doors leading to the stairway at southeast corner on all stories upon which five or more persons are employed, so as to open outwardly without obstructing the stairway, as per Section 271 of the Labor Law.";

and
WHEREAS, the building is fireproof, nine stories in height, 175 ft. by 214 ft. in area, divided into four sections by brick partition walls, with horizontal openings therein; OCCUPIED for the manufacture of candy, as follows: Basement, 50 persons; 1st story, 65 persons; 2nd story, 132 persons; 3rd story, 122 persons; 4th story, 63 persons; 5th story, 122 persons; 6th story, 113 persons; 7th story, 96 persons; 8th story, 80 persons; 9th story, 70 persons; having a total occupancy of 925 persons; EQUIPPED with a sprinkler and standpipe system. EXITS: Six (6) interior fireproof stairways, three of which extend from 1st story to roof and three extending from 1st story to top story, enclosed in fireproof partitions with tin-clad doors at openings. Three fire escapes on the interior court of the building extending from roof to inner courtyard; with EGRESS from the termination of fire escape by means of driveway to street; ROOFS of adjoining buildings are 30 and 40 ft. lower; and

WHEREAS, petitioner contends that the doors leading to the fireproof stairways are automatic sliding doors, equipped with fusible links, and requests the acceptance of these doors in view of the existing ample exit facilities and the hardship which would be involved in rearranging these doors.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted on condition that all existing vertical and horizontal exits and the stair halls be not reduced and that there shall be no open flame operated or permitted throughout the structure, and granted so long as conditions as to occupancy and use remain substantially unchanged.

1452-24-S.
PETITIONER—A. E. Nast, for Henry Phipps estate, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—14 West 22nd street, Manhattan.

APPEARANCES—

For Petitioner: C. T. Mettberg, C. L. Brown.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Superintendents Brady, Reville and Moore... 8
Negative 0
Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott 5

THE RESOLUTION:

(1452-24-S)

WHEREAS, A. E. Nast, for Henry Phipps Estate, owner, filed, December 9, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 14 West 22nd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 20, 1924, reads:

"Order No. 68204-LD:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building by constructing a fireproof passageway with an unob-

structed width of at least 3 feet throughout leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having a communication with the street, as per section 273 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, five stories in height, 27 ft. by 99 ft. in area at basement and 1st story and 27 ft. by 78 ft. in area above. OCCUPIED: Basement, restaurant; upper stories, tenant factory, 63 persons above the 1st story; EQUIPPED with a fire alarm signal system. EXITS: An interior wooden stairway extending from the 1st story to the roof, enclosed in fire retarding partitions with metal covered wooden doors at the openings; a fire escape with fireproof windows along the course thereof on the rear of the building, extending from the main roof to balcony at 2nd story; balcony continues east to yard of No. 10 West 22nd street, thence by stair to yard and egress from this yard through basement of No. 11 West 21st street; ROOFS of adjoining buildings, to east, same level, to west, three stories higher; and

WHEREAS, petitioner contends that the existing means of egress from the lower termination of the fire escape is adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a fire escape with 60 degree stairs shall be installed and maintained on the rear of the premises, with egress from the termination over the extension roofs of the two buildings to the east, with stairs from these roofs to the yard of No. 10 West 22nd street, with egress therefrom through the yards of premises 11 West 21st street, and that a balcony be provided at 2nd story level rear with 60 degree stairs to roof of extension, all properties in the same ownership and under the one control, and granted so long as conditions as to occupancy and use remain unchanged.

1477-24-S.

PETITIONER—Samuel Rosenblum, for 132 West 36th Street Corp., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—132-138 West 36th street and 139-145 West 35th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Superintendents Brady, Reville and Moore... 8
Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott 5

THE RESOLUTION:

(1477-24-S)

WHEREAS, Samuel Rosenblum, for 132 West 36th Street Corp., owner, filed, December 16, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 132-138 West 36th street and 139-45 West 45th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 59254-LD, dated May 8, 1924, reads:

"1. Replace all wood partitions on all stories with partitions of incombustible material as per Sections 263 and 270 of the labor law.";

and

WHEREAS, the building is fireproof, 12 stories in height, facing on two streets, 75 ft. by 187 ft. (irregular) in area; OCCUPIED as furniture show room, offices and 25 per cent of the 5th, 7th, 10th, 11th and 12th stories (only) for the manufacture of clothing, 298 persons above the 1st story;

MINUTES

EQUIPPED with a sprinkler system. EXITS: An interior fireproof stairway extending from 1st story to roof, enclosed in fireproof partitions with fireproof doors at openings; ROOFS of adjoining buildings to east and west six stories lower; and

WHEREAS, petitioner contends that all of the permanent partitions on the premises are fireproof and that the partitions in question do not obstruct any means of egress and are, in most cases dwarf partitions enclosing offices and show rooms.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the petition be and it hereby is *denied*.

PETITIONER—Regal Finance Corp., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—25 East 4th street, Manhattan.

APPEARANCES—

For Petitioner: Joseph Schultz.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Superintendents Brady, Reville and Moore... 8

Negative 0

Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott 5

THE RESOLUTION:

(1519-24-S)

WHEREAS, Regal Finance Corp., owner, filed, December 26, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 25 East 4th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 68142-LD, dated November 19, 1924, reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street * * * as per section 273 of the labor law."

and

WHEREAS, the building is non-fireproof, eight stories in height, 20 ft. by 130 ft. in area at 1st story and 20 ft. by 115 ft. in area above; OCCUPIED as a tenant factory, 86 persons above the 1st story; EQUIPPED with a fire alarm signal system. EXITS: An interior fireproof stairway extending from 1st story to roof, enclosed in fireproof partitions with fire doors at openings; a fire escape on the rear of the building (with fireproof windows along the course thereof) extending from roof to 2nd story fire escape balcony, with iron stair to extension roof of premises to the rear; ROOFS of adjoining buildings are four and five stories lower; and

WHEREAS, petitioner contends that there are four modes of egress—by means of fire escapes in adjoining buildings—from the extension roof to the rear upon which the fire escape in question terminates, and petitioner proposes to construct a stairway from the 2nd story balcony to the yard of premises No. 27 East 4th street, thus affording an exit by means of an 8 ft. driveway directly to the street.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that a standard fire escape be maintained from

the 2nd story to the roof, with egress from the termination at 2nd story level to the adjoining premises to the rear and the east, so long as conditions as to use and occupancy remain unchanged.

1526-24-S.

PETITIONER—David M. Jones, for Herman Gerofsky, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—19 Bond street, Manhattan.

APPEARANCES—

For Petitioner: David M. Jones.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Superintendents Brady, Reville and Moore... 8

Negative 0

Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and McDermott 5

THE RESOLUTION:

(1526-24-S)

WHEREAS, David M. Jones, for Herman Gerofsky, owner, filed, December 29, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 19 Bond street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 62972-LD, dated July 26, 1924, reads:

"1. Remove the substandard fire escape on the rear of the building or reconstruct same in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to the ground may be provided as per Resolution of the Board of Standards and Appeals adopted May 9, 1924."

and

WHEREAS, the building is non-fireproof, five stories in height, 37 ft. 6 in. by 109 ft. in area; OCCUPIED as a tenant factory, 170 persons above the 1st story; EQUIPPED with a sprinkler system and a fire alarm signal system. EXITS: An interior wooden stairway extending from 1st story to top story, with iron ladder to scuttle in roof; enclosed in fire resisting partitions with fireproof doors at openings, a standard fire escape on the Bond street front of the building and a substandard fire escape on the Shinnbone alley front of the building extending from the roof to 2nd story balcony, with counterbalanced drop ladder in guides to alley; with non-fireproof windows along the course thereof; ROOFS of adjoining buildings to east one story higher, to west four stories lower; and

WHEREAS, petitioner contends that the fire escape (Shinnbone alley front) meets the requirements of the labor law excepting in that the windows along the course thereof are not fireproof, but in so much as they are protected with fire shutters and that there are two other means of exit from the premises, requests that the existing exits be accepted.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that all windows along the course of the fire escape on the 2nd story shall be made fireproof and self-closing; that fire shutters shall be provided on all other windows on the course of this fire escape and that required legal exits otherwise are maintained, and that this modification shall be *granted* so long as conditions as to use and occupancy remain unchanged.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals, held Tuesday morning, February 17, 1925, as they appeared in Bulletin No. 7, Vol. 10, are hereby corrected to read as follows:

THE RESOLUTION:

(306-24-A)

WHEREAS, Alexander C. McNulty, for Adelstein & Avrutine, owners, filed, February 26, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 82-86 Rutgers slip, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 54482-F, dated February 5, 1924, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at west and south sides of building, or other approved protection, as per Sec. 375, Article 18, Chapter 5 of the Code of Ordinances."

*Correction—Word "valve" omitted in next to last line, and word "dry" transposed to follow word "in."

"Order No. 54483-F:

"1. Install a standpipe system with risers 4 in. in diameter * * *";

and

WHEREAS, the building is fireproof, seven stories in height, 80 ft. by 58 ft. in area. OCCUPIED: 1st story and basement, baking; upper stories, tenant factory, 75 persons per story; and

WHEREAS, there are eleven windows on each story above the 1st story within 50 ft. of the roof of a one-story garage to the west and four windows on each story above the 1st story, within 30 ft. of openings in the three-story building to the south; and

WHEREAS, appellant contends that the windows in the south wall of the building can be covered by hose streams from the street and yard and the one-story garage does not constitute a hazard relative to the windows in the westerly wall above the 4th story; and that in regard to the standpipe, the building is fireproof and there would be hardship in complying as the building is not heated.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted only so far as it affects the second line of windows from the westerly gable walls on condition that all other openings embraced in this order shall be equipped with approved fireproof windows, glazed with wire glass; that the order of the fire commissioner, No. 54483-F, affecting standpipe, be and it hereby is modified, and the appeal be and it hereby is granted on condition that an approved 4 in. dry standpipe system shall be installed within the stairway enclosure.

RULES

SMOKING IN FACTORIES.

Adopted by the Board of Standards and Appeals,
August 13, 1918.

RULE 1. PERMIT.

(a) **Prohibition.** No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the fire commissioner.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stairhall or room throughout the building, as well as in every elevator-car, in English, and also in such other language or languages as the fire commissioner shall direct, a notice of such prohibition, and the penalty for its violation.

(b) **Application.** Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the fire commissioner.

(c) **Time Limit.** Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) **Conditions.** The permit shall state the conditions under which, the hours between which, and the place or places in such factory where smoking may be permitted, and this permit shall be framed and kept posted in a conspicuous place in the factory.

(e) **Revocation.** Violation of any of the conditions specified in the permit, in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the fire commissioner, and he shall not again issue a permit for the same premises until at least one year has elapsed.

RULE 2. PERMISSIBLE CASES.

Smoking may be permitted in:—

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and, further, unless the building is of fireproof construction or equipped with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the fire commissioner may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the fire commissioner may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

NOTICE OF REMOVAL

NOTICE IS HEREBY GIVEN THAT THE
BOARD OF STANDARDS AND APPEALS IS
NOW LOCATED ON THE TENTH FLOOR OF
THE MUNICIPAL BUILDING, ROOMS 1001
TO 1015—NORTH END OF BUILDING.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Cal-
endar.
All hearings are held in Room 1013, Municipal Building,
Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the en-
gineers, pertaining to the work of either board, will be
seen only between the hours of ten in the morning and one
in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the
Building Zone Resolution, and its object is to give inter-
ested property owners opportunity to file objections, if any,
and will be called in Room 1013, on *Tuesday, March 10,*
1925, at 2 o'clock. At this call each case is set for hearing
on a definite day.

The next subsequent Call of the Calendar will be on
Tuesday, March 17, 1925, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the
calendar of cases that have been definitely set for hearing
on fixed days.

Absent: Mr. Dowd 1
THE RESOLUTION:

(352-21-A)

WHEREAS, Abraham H. Schwartz, owner, filed, April 26, 1921, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises southeast corner of Fulton street and New York avenue, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, dated April 22, 1921, rendered in acting on Standpipe Application 36-1920, reads:

"1. Gravity tank of 3500 gallons capacity for standpipe fire line supply may not be omitted.

"2. Steel suction tank of 5,000 gals. capacity and 25 H. P. 250 gallons per minute pump as auxiliary supply for standpipe fire lines may not be omitted."

and

WHEREAS, the building is of fireproof construction, 113 ft. 3 in. by 175 ft. 10½ in. in area, one story and balcony in height (47 ft. 5 in.), located on a corner plot inside the fire limits; OCCUPIED as a moving picture theatre; and

WHEREAS, the appellant, in lieu of complying with the order, proposes to install a standpipe system connected to the street pressure, omitting gravity tank on roof, suction tank and fire pumps, and contends that it is only a one-story and balcony moving picture theatre with no stage, no dressing rooms, and no movable scenery, and that the water pressure is 45 pounds to the square inch.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item No. 2, and *denied* as to Item No. 1.

355-21-A.

APPELLANT—A. H. Schwartz, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—946-956 Kings highway, Brooklyn.

APPEARANCES—

For Appellant: James J. Walker.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Holland, Connell and

Fire Chief Kenlon..... 6

Negative 0

Absent: Mr. Dowd 1

THE RESOLUTION:

(355-21-A)

WHEREAS, A. H. Schwartz, owner, filed, April 26, 1921, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 946-956 Kings highway, Brooklyn; and

WHEREAS, the decision of the fire commissioner, dated January 16, 1921, in acting on App. No. 14-1921, reads:

"1. Standpipe must be supplied from a 3500 gallons capacity gravity tank, the bottom of which shall be at least 20 ft. above the highest story outlet.

"2. An auxiliary supply consisting of 25 H. P., 250 gals. per minute pump, 5000 gal. steel suction tank, with all necessary valves, connections, etc., must be provided."

and

WHEREAS, the building is of fireproof construction, 100 ft. by 219 ft. in area in the 1st story, one story and balcony in height, 31 ft. 6 in. by 43 ft., located on the southwest corner of Kings highway and Coney Island avenue; OCCUPIED as a motion picture theatre, with 680 seats in the orchestra and 640 seats in the balcony; and

WHEREAS, appellant contends that the theatre is only one story and balcony in height, with no stage, dressing rooms or movable scenery, with an average water pressure in the street main of 46 pounds per square inch, and proposes to

install a standpipe system directly connected to the street pressure in lieu of complying with the order.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item No. 2, and *denied* as to Item No. 1.

MINUTES

THE RESOLUTION:

(1116-24-BZ)

WHEREAS, Edward P. Doyle, for Robert C. Shock, owner, filed, September 11, 1924, an application, under the building zone resolution, to permit in a business district the alteration and enlargement of a garage for the storage of more than five motor vehicles; premises 2906-8 Broadway, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Broadway is a business district and West 113th street and West 114th street are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered September 8, 1924, in acting on Alt. Application No. 2106-24, reads:

"1. Enlargement of building for a use not permitted in business district is unlawful. Art. II, Building Zone Resolution.";

and

WHEREAS, the existing garage is fireproof, three stories in height, 50 ft. by 97 ft. in area. It is proposed to add an additional story and use the entire building as a public garage for the storage of more than five motor vehicles; and

WHEREAS, this application was withdrawn November 12, 1924, and reopened January 6, 1925; denied by vote of the board on February 3, 1925, and reopened on February 10, 1925; and

WHEREAS, under the provisions of section 7, subdivisions A and E, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation from the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the proposed increased height shall not exceed one story, that the building zone regulations as to rear yard requirements and area shall be complied with in all respects other than that jog embracing the elevator and rear shaft; that there shall be no advertising signs of any description other than the title of the garage which shall be permitted on the front of the building; that there shall be no roof signs of any nature or description; that the front of the building shall be painted with light color; and that the gasoline storage equipment shall not be increased;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine (9) months and the building completed within eighteen (18) months from the date of this action.

1210-24-BZ.

APPLICANT—Edward P. Doyle, for Damax Homes Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—1407-15 West 8th street, Brooklyn.

APPEARANCES—

For Applicant: Edward P. Doyle.

For Opposition: Melvin D. Patron, Helen D. Bresler.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

THE RESOLUTION:

(1210-24-BZ)

WHEREAS, Edward P. Doyle, for Damax Homes Corp., owner, filed, October 10, 1924, an application, under the

building zone resolution, to permit partly in a business district and partly in a residence district, the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1407-1415 West 8th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 8th street is a residence district and 22nd avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 25, 1925, in acting on N. B. Application No. 18929-24, reads:

"1. Application denied. Proposed amendment to erect a public garage for more than five cars in a business district, contrary to Art. II, Sec. 4, Zoning Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 120 ft. and a depth of 82 ft. 6 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, no facts were adduced at the hearing to support the basis of the application under section 21 of the building zone resolution.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1443-24-BZ.

APPLICANT—Edward P. Doyle, for Estate of Henry Moeller, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district extending from a business district the change of occupancy from residence to business purposes.

PREMISES AFFECTED—52 East 55th street, Manhattan.

APPEARANCES—

For Applicant: Edward P. Doyle, E. B. Collister.

THE RESOLUTION:

(1443-24-BZ)

WHEREAS, Edward P. Doyle, for Estate of Henry Moeller, owner, filed, December 6, 1924, an application, under the building zone resolution, to permit the change of occupancy from dwelling to business and dwelling, of a building partly in a residence and partly in a business district; premises 52 East 55th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Madison avenue is a business district and East 55th street is a residence district; and

WHEREAS, the order of the superintendent of buildings, rendered November 19, 1924, reads:

"Violation Order 4979-24:

"* * * changing the occupancy of the above premises from dwelling to business and dwelling in a residence district, contrary to the Building Zone Resolution.

"Vacate the business occupancy of the above premises.";

and

WHEREAS, the building is of non-fireproof construction, four stories and basement in height, with a frontage of 26 ft. and a depth of 50 ft.; a portion of the structure,

MINUTES

8½ ft. in width, extending into the residence district; it is proposed to alter the building and change the occupancy of the basement, 1st story and part of the 2nd story into a restaurant; and

WHEREAS, under the provisions of section 7, subdivision B, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* from the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* only so far as it affects the basement and 1st story and limiting the use to a restaurant, the remainder of the building to be restricted to dwelling occupancy, *on condition* that there shall be no structural change or alteration to the exterior wall of street front; and that there shall be no commercial display or advertising signs exposed on the front of this building; and that all necessary permits shall be obtained within sixty days from the date of this action.

1445-24-BZ.

APPLICANT—Edward P. Doyle, for Brecher Building Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district extending from an unrestricted district and within 200 ft. of a hospital the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

THE RESOLUTION:

(1445-24-BZ)

WHEREAS, Edward P. Doyle, for Brecher Building Corp., owner, filed, December 8, 1924, an application, under the building zone resolution, to permit the extension from an unrestricted district into a business district, and also to within 200 ft. of a hospital, of a proposed garage for the storage of more than five motor vehicles; premises southeast corner of Hunter avenue and Crescent street, L. I. City, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 27, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Nott avenue is a business district, Hunter avenue is an unrestricted district and Jackson avenue is partly unrestricted and partly business district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 12, 1924, in acting on N. B. Application No. 12334-24, reads:

"1—Erection of this garage projecting into business district is prohibited by Zone Law.

"2—It is prohibited by the Zone Law to locate a public garage for more than five cars within 200 ft. of a hospital, as is proposed in this application."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 115.67 ft. and a depth of 112 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, there exists a hospital within 200 ft. of the premises in question, and no facts were adduced at the hearing to substantiate the basis of this application under section 21.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

Adjourned 5.30 p. m.

WILLIAM J. O'GORMAN, Secretary.

MINUTES

BOARD OF APPEALS

REGULAR MEETING.

TUESDAY MORNING, MARCH 3, 1925.

1446-24-A.

APPELLANT—Adolph Isaacsen & Son, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—63 Fulton street, Manhattan.

APPEARANCES—

For Appellant: Alexander Lederer, Leroy F. Hovey.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Holland, Connell and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(1446-24-A)

WHEREAS, Adolph Isaacsen & Son, Inc., for Francis E. Holliday, owner, filed, December 8, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 63 Fulton street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 26, 1924, in acting on Order No. 24748-LC, reads:

"1. Discontinue the manufacture of a combustible mixture on these premises.

"REASON: Section 141 of Article 10 of Chapter 10, Code of Ordinances, prohibits the manufacture of combustible mixtures in any building which is artificially lighted by any means other than electricity.";

and

WHEREAS, the building is non-fireproof, five stories in height, 17 ft. by 79 ft. in area at the 1st story and 17 ft. by 47 ft. in area above. OCCUPIED: 1st story, storage and sale of insecticide, 3 persons; upper stories, tenant factory, 13 persons above the 1st story; and

WHEREAS, appellant contends that the mixture referred to in the order is a petroleum product having a flash point of 160 degrees F., that the quantity on the premises is 50 gallons stored in a steel drum at the rear of the 1st story and that nothing is added to the mixture, but that it is refilled into small cans for the retail trade.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the quantity of the product stored on the premises shall not exceed fifty (50) gallons at any one time, maintained in metal drums and confined to the rear of the one-story extension on the 1st story, separated from the main portion of the building by a brick wall with self-closing fireproof doors in any opening.

451-24-A.

APPELLANT—Frank G. Whiteside, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—9005 218th place, Queens Village, Borough of Queens.

APPEARANCES—

For Appellant: Frank G. Whiteside.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Holland, Connell and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(451-24-A)

WHEREAS, Frank G. Whiteside, owner, filed, March 28, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 9005 218th place, Queens Village, Borough of Queens; and

WHEREAS, the order of the fire commissioner, No. 87090-LC, dated March 14, 1924, reads:

"Discontinue the maintenance of garage in which is kept motor vehicles that are used for business purposes.

"This order is issued for the reason that the maintenance of the use or occupancy referred to above is a violation of the building zone resolution adopted on July 25, 1916, by the Board of Estimate and Apportionment. The premises affected by this order located in a portion of the city designated by said resolution as a Residence District.";

and

WHEREAS, the premises consist of a plot of ground (located in a residence district) upon which is located a dwelling, and at the rear of the lot a non-fireproof garage 24 ft. by 20 ft. in area, for the storage of three motor vehicles; and

WHEREAS, appellant contends that the motor vehicle in question is a light delivery truck which is used only on camping trips by the owner.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted only so far as it affects one car, not of the pleasure car type of open body, maintained and used for the personal recreational service and the property of the owner of the premises.

1176-24-A.

APPELLANT—The Fidelity and Casualty Company of New York, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—92-94 Liberty street and 97-103 Cedar street, Manhattan.

APPEARANCES—

For Appellant: Hugo Magnuson.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Holland, Connell and Fire Chief Kenlon 6

Negative 0

Absent: Mr. Gunnison 1

THE RESOLUTION:

(1176-24-A)

WHEREAS, The Fidelity & Casualty Company of New York, owner, filed, September 29, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 92-94 Liberty street and 97-103 Cedar street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 8, 1924, reads:

MINUTES

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at East side of building and at north side of twelve-story portion of building and at East, North & South sides of Court at West side of twelve-story portion of building or other approved protection, as per Sec. 375, Art. 18, Ch. 5 of the Code of Ordinances.";

and
WHEREAS, the building, fronting on three streets, is fireproof, divided into two sections, the southerly section being 12 stories and the northerly portion being 21 stories in height, having a total area of 100 ft. 6 in. by 113 ft. 4 in.; OCCUPIED as an office building, approximately 45 persons on each story; EQUIPPED with a standpipe system; and

WHEREAS, there are in the easterly wall 16 windows on each story above the 1st story within 30 ft. of openings in the walls of a 14-story and also a 19-story building to the east, three windows in the northerly wall of the 12-story section on each story from the 5th to the 10th story, inclusive, within 50 ft. of the roof of a 5-story building to the north and also, on the inner court, there are seven windows in the 12-story section and two windows in the 21-story section on each story from the 2nd story to the 10th story, inclusive, within 30 ft. of openings or 50 ft. of the roof of a 5-story building to the west; and

WHEREAS, appellant contends the building is an office building; that all windows in both sections are glazed with heavy plate glass and that the buildings constituting the exposures are also office buildings.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the requirements of the certificate of occupancy now in force and issued by the superintendent of buildings shall be complied with in all respects, only so long as the use and occupancy is restricted as a business building; *denied* as to any openings on the course of the elevator or stair hall shafts.

1469-24-A.

APPELLANT—Samuel Rosenblum, for Nathan Anklet Support Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—2151-2165 Prospect avenue, The Bronx.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon..... 7

Negative 0

Absent 0

THE RESOLUTION:

(1469-24-A)

WHEREAS, Samuel Rosenblum, for Nathan Anklet Support Co., lessee, filed, December 15, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 2151-65 Prospect avenue, Borough of Bronx; and

WHEREAS, the order of the fire commissioner, dated May 29, 1924, reads:

"Order No. 24346-LC:

"You are hereby notified that an inspection of premises used for the storage and use of nitro-cellulose material, shows that the following must be done before permit requested by you can be issued:

"1. Provide a pressure tank in addition to gravity tank for sprinkler system and make sprinkler system conform in all respects with sprinkler rules of Board of Standards and Appeals.";

and

WHEREAS, the building is non-fireproof, three stories in height, 119 ft. 6 in. by 150 ft. 2 in. (irregular in area), separated into two sections by a brick division wall with openings therein (protected with fire doors) on the 2nd and 3rd stories; EQUIPPED with a sprinkler system supplied by a gravity tank and also a street main connection; OCCUPIED for the manufacture of curtains for automobiles, anklet supports and also for dyeing, 130 persons above the 1st story; the celluloid being stored on the 3rd story and used in work in the northerly section of the 2nd story; and

WHEREAS, appellant contends that there is no open flame used on the premises, that the stock of celluloid (100 pounds) not in work is carried in a metal cabinet; that the sprinkler system is supplied by a gravity tank and also from a connection to the street water main, said main having a pressure of 51 pounds per square inch.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the celluloid shall be limited to finished sheets not exceeding in quantity 100 pounds, to be stored in a double wall metal cabinet equipped with sprinkler head in accordance with the rules of the board of standards and appeals, and shall be maintained on the 2nd story at the front of the building in the northerly section of the premises; *granted on further condition* that a 3,500-gallon gravity tank shall be maintained exclusively for the sprinkler system and that an additional street main connection of not less than 4 in. shall be maintained.

1473-24-A.

APPELLANT—Samuel Rosenblum, for Eighth Avenue and 53rd Street Realty Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—302-6 West 53rd street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon..... 7

Negative 0

Absent: 0

THE RESOLUTION:

(1473-24-A)

WHEREAS, Samuel Rosenblum, for 8th Ave. & 53rd St. Realty Co., owner, filed, December 15, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 302-6 West 53rd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 1, 1924, reads:

"Order No. 60914-F:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at east, south and west sides of building or other approved protection, as per Section 375, Article 18, Chapter 5 of the Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, three and four stories in height, 54 ft. 4 in. by 90 ft. (irregular) in area; OCCUPIED on the 1st, 2nd and 3rd stories for the re-

MINUTES

pair and storage of automobiles and the 4th story to be used for light manufacturing, 20 persons above the 1st story; and

WHEREAS, there are two windows opening on each story above the 1st story, in the southerly wall of the premises within 30 ft. of openings in a 5-story building adjoining at the southeast and also one window in the south wall on each story above the 1st story, less than 50 ft. above a one-story extension roof to the southwest; and

WHEREAS, appellant proposes to protect the windows in the easterly gable wall which are immediately adjacent to the adjoining five-story building, which constitutes the exposure.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the two (2) mullion windows to the front of the easterly gable wall shall be equipped in accordance with the regulations, and *granted* only so long as conditions as to occupancy and use remain unchanged.

1513-24-A.

APPELLANT—Jacob Lubroth, for China Royal Rest. Co., Inc., lessee.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—523-545 Fulton street, Brooklyn.

APPEARANCES—

For Appellant: Jacob Lubroth.

For Administration: None.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon.....	7
Negative	0
Absent	0

THE RESOLUTION:

(1513-24-A)

WHEREAS, Jacob Lubroth, for Levy & Baird, owner, filed, December 23, 1924, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 523-45 Fulton street, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered December 12, 1924, reads:

"1—Required enclosed stairway to be 44 in. in width as per Sect. 153, Para. 3.";

and

WHEREAS, the building is non-fireproof, three stories and basement in height, facing on three streets, and having a frontage of 198 ft. on Fulton street, 69 ft. on Duffield street and 185 ft. on Gold street. OCCUPIED: Basement and 1st story, stores; upper stories, restaurant and stores, approximately 450 persons on each story, appellant occupying part of the basement and part of the 1st story as a 5 and 10 cent store; the exit in question is a 36 in. stairway on the Fulton street front, leading from the street to the basement; and

WHEREAS, appellant contends that there are three other means of egress from the basement, one stairway at the rear having direct egress to alley leading to street, at 1st story level.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the stairway leading directly to the Fulton street side of the building on the 1st story shall be enclosed in fireproof partitions; and *granted on further condition* that the said stairs shall have a clear width of not less than 3 ft., that two additional sets of stairs shall be maintained from the basement to the 1st story, and that an enclosed stairs shall be maintained at the rear of this section of the building with direct egress

at 1st story to an open alley leading direct to Gold street; *granted* only so long as conditions as to occupancy and use otherwise remain unchanged.

1468-24-A.

APPELLANT—American Cane & Umbrella Handle Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—37½ Broome street, Manhattan.

APPEARANCES—

For Appellant: Chas. Breslow.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal denied.

CONDITIONS—As specified in resolution.

THE VOTE TO GRANT—

THE RESOLUTION:

(1468-24-A)

WHEREAS, American Cane & Umbrella Handle Co., lessee, for Oscar Dike, owner, filed, December 13, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 37½ Broome street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 30, 1923, reads:

"Order No. 18894-LC:

"1. Forthwith remove all nitro-cellulose products from the premises.";

and

WHEREAS, the building is non-fireproof, seven stories in height, 125 ft. by 148 ft. in area; OCCUPIED as a tenant factory, 425 persons in the entire building; EQUIPPED with a two-source sprinkler system; appellant occupying a portion of the 2nd story for the manufacture of cane and umbrella handles of celluloid; and

WHEREAS, appellant contends that, under the provisions of section 232, subdivision 1, paragraph 2, article 219, chapter 10, Code of Ordinances, that celluloid occupancy under a lease existing November 1, 1922, is exempted from the provisions of the chapter and that his lease is dated October 11, 1922, and runs for a period of 3 years and 3½ months from October 15, 1922; and

WHEREAS, the chief of the bureau of fire prevention stated in writing that a hazard of imminent danger to life and property existed on these premises and the representative of the bureau of fire prevention stated at the hearing that the housekeeping conditions were bad and that an extreme hazard existed.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

THE RESOLUTION:

(1242-23-BZ)

WHEREAS, William F. Doyle, for Simon Harding, owner, filed, October 31, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 242-270 East 98th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 98th street and Howard avenue are business districts and Hunterfly road is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 10, 1923, reads:

"Denied. Proposition contrary to the zone resolution, art. II, sec. 4. A public garage in a business district."

and

WHEREAS, the proposed building is to be of non-fire-proof construction, one story in height, with a frontage of 218 ft. and a depth of 120 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, this case was denied by the board at its meeting June 27, 1924, and reopened by vote of the board October 3, 1924; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners, and the board deemed that a garage at this location was not warranted.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1054-24-BZ.

APPLICANT—William F. Doyle, for Joseph A. Lewis, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a residence district extending from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2201-17 59th street, Brooklyn.

APPEARANCES—
 For Applicant: William F. Doyle.
 For Opposition: None.

THE RESOLUTION:

(1054-24-BZ)

WHEREAS, William F. Doyle, for Joseph A. Lewis, owner, filed, August 20, 1924, an application, under the building zone resolution, to permit in a residence district extending from an unrestricted district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2201-2217 59th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 22nd avenue is a residence district, 59th street is an unrestricted and residence district and 60th street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 12, 1924, in acting on App. No. 16208-24, reads:

"Proposed one-story brick public garage for more than five motor vehicles, partly in a residence district and partly in an unrestricted district is contrary to Art. II, Sec. 3 of the Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 110 ft. and a depth of 80 ft. 8¼ in., irregular in area; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, this application was withdrawn by the applicant December 9, 1924, and reopened by vote of the board; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the extension shall be restricted to a line 50 ft. westerly from the line of the unrestricted use district area; that the remainder of the plot, 50 ft. front on 59th street by a frontage of 80 ft. on 22nd avenue, shall be restricted for conforming use designated on the zone use maps; the building shall be restricted to a one-story structure in height above grade; that the front elevation on 59th street shall be finished with face brick and architectural terra cotta or stone trimmings; that the westerly gable wall of the building shall be unpierced throughout its entire height and length; the westerly gable return, for a depth of 80 ft., shall be finished in light-colored face brick; there shall be no advertising of any nature or description, painted or otherwise, displayed or exposed on the westerly gable wall; that there shall be no roof sign erected or maintained on the premises; that no vehicular entrance shall be installed or maintained within 25 ft. of the westerly gable wall on 59th street; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1381-24-BZ

APPLICANT—William Tilden Koch, for Samuel Kessler and Jacob Kavovit, owners.

(1381-24-BZ)

WHEREAS, William T. Koch, for Samuel Kessler and J. Kavovit, owner, filed, November 21, 1925, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1817 Belmont avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 175th street is a business district and Belmont avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 17, 1924, in acting on N. B. Application No. 2951-24, reads:

"1. Erection of proposed garage for the storage of more than five motor vehicles in business and residence district is contrary to the provisions of the Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story and basement in height, with a frontage of 50 ft. and a depth of 85 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, no facts were adduced at the public hearing in support of the basis of the application under section 21 of the building zone resolution.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1294-24-BZ.

APPLICANT—Carl J. Itzel, for Fordhof Realty Co., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the alteration and conversion of occupancy from residence use to store purposes on first story.

PREMISES AFFECTED—2385-2389 Grand Concourse, The Bronx.

APPEARANCES—

For Applicant: Carl J. Itzel and John J. Fitzgerald.
For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6

Absent: Fire Chief Kenlon 1

MINUTES

THE RESOLUTION:

(1294-24-BZ)

WHEREAS, Carl J. Itzel, for Fordhof Realty Co., Inc., owner, filed, November 1, 1924, an application, under the building zone resolution, to permit in a residence district the alteration and also the conversion of occupancy of the 1st story of a building, from residence to store use; premises 2385-2389 Grand Concourse, Borough of Bronx; and

and WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Grand Concourse, west side, to a point 330 ft. north of East 184th street, is a residence district and Grand Concourse, east side, north of East 184th street, is a business district and Grand Concourse, east side, south of East 181th street, is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered June 14, 1924, in acting on Alt. Application No. 343-24, reads:

"1. Proposed alteration and conversion of building in residence district to be used for business purposes is contrary to provisions of Building Zone Resolution."

and WHEREAS, the existing building, occupied as an apartment house, is non-fireproof, five stories in height. It is proposed to lower the floor of the front portion of the 1st story, remove existing partition walls and use the altered portion for four stores; and

WHEREAS, this is the only remaining plot within the residence area not used for business purposes on this street front.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted only so far as it affects the ground floor of these premises, to permit its use for retail mercantile stores or shops, on condition that there shall be no advertising signs exposed on the premises other than the name of the business, restricted to the plate glass show windows of the store fronts; that all permits necessary for the prosecution of the work shall be obtained within nine months and the alterations completed within one year from the date of this action.

305-24-BZ.

APPLICANT—Philip J. Sinnott, for Emanuel Strauss, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a "B" area district and also partly in a residence district, the alteration and conversion of a garage for five (5) motor vehicles into a garage for more than five (5) motor vehicles and its extension to cover the entire lot with the omission of the rear yard required by the zone resolution.

PREMISES AFFECTED—1139 Ogden avenue, The Bronx.

APPEARANCES—

For Applicant: Philip J. Sinnott.

For Opposition: None.

ACTION OF BOARD—Application to be set for calendar call and public hearing.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs.
Dowd, Gunnison, Holland and Connell.. 5
Negative: Mr. Kennedy 1
Absent: Fire Chief Kenlon 1

AREAS FIXED.

(87-25-BZ)

The chairman presented and read a communication from David L. Malbin, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 617-33 Brooklyn avenue, Brooklyn.

The following area was approved by the board:

Both sides of Fenimore street from a point 200 ft. west of Brooklyn avenue to a point 400 ft. east of proposed garage. Both sides of Brooklyn avenue from Winthrop street to Rutland road, also the north side of Hawthorne street from Brooklyn avenue to a point 150 ft. east of Brooklyn avenue.

(1437-24-BZ)

The chairman presented and read a communication from John B. Johnston, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, 1265-67-69-71 60th street, Brooklyn.

The following area was approved by the board:

Both sides of 60th street from Twelfth avenue to a point 100 ft. east of Thirteenth avenue. The west side of Thirteenth avenue from 59th street to 60th street, also the south side of 59th street from Thirteenth avenue to a point 250 ft. west of Thirteenth avenue.

(149-25-BZ)

The chairman presented and read a communication from Richard H. Smythe, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, 437-451 Prospect avenue, Brooklyn.

The following area was approved by the board:

Both sides of Prospect avenue from a point 100 ft. west of Eighth avenue to a point 400 ft. east of proposed garage; the east side of Eighth avenue from Prospect avenue to Windsor place; also the south side of Windsor place from Eighth avenue to a point 330 ft. east of Eighth avenue.

(1428-24-BZ)

The chairman presented and read a communication from John DeHart, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises, 1223-29 Intervale avenue, The Bronx.

The following area was approved by the board:

Both sides of Intervale avenue from 169th street to a point 400 ft. north of proposed garage. Both sides of Home street from Intervale avenue to a point 100 ft. east of Intervale avenue; the south side of Chisholm street from Stebbins avenue to Intervale avenue; also the east side of Stebbins avenue from Chisholm street to a point 275 ft. south of Chisholm street.

Gunnison, Holland, Connell and Fire

Chief Kenlon

Absent

THE RESOLUTION:

(1374-24-A)

WHEREAS, Croker National Fire Prevention Engineering Company, for 305 Broadway Corporation, owner, filed, November 20, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 305-309 Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 20, 1924, reads:

"Order No. 58004-F:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at north and west sides of building or other approved protection as per Section 375, Article 18, Chapter 5 of the Code of Ordinances."

and

MINUTES

WHEREAS, the building is fireproof, fourteen stories in height, 74 ft. 6 in. by 124 ft. in area; OCCUPIED as an office building, 40 persons per story; equipped with a stand-pipe system; and

WHEREAS, there are four and five windows in the westerly wall on the 6th to 10th stories, inclusive, within 50 ft. of the roof of a neighboring building to the west; two windows in the northerly wall on the 2nd to 6th stories, inclusive, within 50 ft. of the roof of a neighboring one-story extension to the north, and windows in the northerly court within 30 ft. from openings in and within 50 ft. of the roof of neighboring buildings to the north; and

WHEREAS, appellant contends that all of the openings, constituting exposures in the adjoining buildings are equipped with fire shutters, and that the building under question is occupied solely as an office building.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1373-24-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Morris Sendar, lessee.

SUBJECT—Appeal from order of fire commissioner.

Negative	0
Absent	0

THE RESOLUTION:

(1373-24-A)

WHEREAS, Croker National Fire Preventoin Engineering Company, for Morris Sendar, lessee, filed, November 20, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 291-3 Bowery, Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 11, 1924, reads:

"Order No. 56835-F:

"1. Provide a separate and distinct system of Automatic Sprinklers in cellar and sub-cellar having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919."

and

WHEREAS, the building is non-fireproof, two stories, cellar and sub-cellar in height, 60 ft. by 130 ft. in area. OCCUPIED: Cellar and sub-cellar, storage of crockery, no occupancy; 1st story, crockery salesroom and also a religious mission, 6 persons; 2nd story, crockery storage, 3 persons; and

WHEREAS, appellant contends that the cellar and sub-cellar were formerly used for the storage of hay (which was used for packing crockery) and that the only hay in the entire premises is stored in the small room in No. 291, and, excepting for the mission occupancy, that the rest of the premises are used for the storage of crockery.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that an approved sprinkler system be provided in the cellar and sub-cellar.

1490-23-A.

APPELLANT—Patrick J. Cuskley, trustee, for Estate of Henry Hunt, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—406 Second avenue, Manhattan.

APPEARANCES—

For Appellant: Louis C. Haggerty, J. Anthony Probst and David M. Jones.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon.....	7
Absent	0

THE RESOLUTION:

(1490-23-A)

WHEREAS, Patrick J. Cuskley, trustee of Estate of Henry Hunt, owner, filed, December 17, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 406 Second avenue, Borough of Manhattan; and

WHEREAS, the orders of the fire commissioner, dated November 27, 1923, read:

"No. 50773-F:

"1. Provide an approved automatic closed circuit fire alarm system with a connection to Fire Department Headquarters. Automatic actuating devices are to cover all portions of the basement, 1st story, stairhalls, private halls and all interior shafts throughout the premises.

"2. Provide a separate and distinct system of Automatic Sprinklers in cellar, dumbwaiter shafts and all stairhalls having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919."

"No. 51492-F:

"1. Provide fireproof doors, windows and transoms for all openings leading to the stair enclosure.

"2. Provide fireproof windows on the course of fire escape on all stories."

and

WHEREAS, the building is non-fireproof, five stories in height, 23 ft. 3 in. by 55 ft. in area; OCCUPIED as flower shop and barber shop on the 1st story, and tenement above; means of egress consisting of an interior stairway extending from 1st story to roof, enclosed in lath and plaster partitions with wood doors at the openings, two fire escapes on the rear, one on each side, consisting of balconies and vertical ladders; and

WHEREAS, appellant contends that the fire commissioner is without jurisdiction to act and has no authority to act under the ordinance pursuant to which he has assumed to act.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1499-23-A.

APPELLANT—J. Anthony Probst, for Gold and Greenhut, owners.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—522 West 159th street, Manhattan.

THE RESOLUTION:

(1499-23-A)

WHEREAS, J. Anthony Probst, for Gold & Greenhut, owners, filed, December 19, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 522 West 159th street, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated December 4, 1923, read:

"No. 51859-F:

"1. Provide fireproof doors, windows and transoms for all openings leading to the stair enclosure.

"2. Provide fireproof windows on the course of fire escape on all stories. Sec. 20, Chap. 12, Code of Ordinances."

"No. 51860-F:

"1. Provide an approved automatic closed circuit fire alarm system with a connection to Fire Department Headquarters. Automatic actuating devices are to cover all portions of the basement, 1st story, stair halls, private halls and all interior shafts throughout the premises.

"2. Provide a separate and distinct system of *Automatic Sprinklers* in cellar, dumbwaiter shafts and all stairhalls having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards & Appeals May 24, 1917, * * *";

and

WHEREAS, the building is non-fireproof, four stories and cellar in height, 25 ft. by 82 ft. in area; OCCUPIED as a tenement house, eight families; and

WHEREAS, appellant contends the building is a tenement, and, as such, the fire commissioner has no jurisdiction or authority to issue the orders.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

744-24-A.

APPELLANT—Cornell Utilities Co., for Gaston Plaintiff, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—100 Groton street, Forest Hills, Borough of Queens.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon.....	7
Negative	0
Absent	0

THE RESOLUTION:

(744-24-A)

WHEREAS, Cornell Utilities Co., for Gaston Plaintiff, owner, filed, May 28, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 100 Groton street, Forest Hills, Borough of Queens; and

WHEREAS, the order of the fire commissioner, No. 88254-LC, dated April 17, 1924, reads:

"With reference to your application for a permit to store fuel oil at the above location, I regret to inform you that I am without power to grant such a permit for the reason that the storage of Fuel Oil at the above location is not in accordance with the rules

adopted by the Board of Standards and Appeals on Nov. 6, 1919, amended January 18, 1924.

"You are therefore ordered to remove all fuel oil from the storage tank and discontinue the further storage and use of fuel oil at the above location."; and the objection of the fire department, Alt. App. No. 132-23, dated January 30, 1925, reads:

"(2) Note on tank drawings, tank will be tested in presence of a Fire Department Representative and afterwards coated with a suitable rust resisting material.

"(3) Note on plan: 'Piping will be tested in presence of a Fire Department Representative.'

"(4) Burners must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is non-fireproof, 2½ stories in height, 29 ft. by 50 ft. in area; OCCUPIED as a dwelling, one family; and

WHEREAS, a fuel oil burning system has been installed consisting of one 700-gallon fuel oil tank buried outside the building, a 55-gallon auxiliary tank and a Nokol Automatic Burner; and

WHEREAS, appellant contends that the system was installed in accordance with the fuel oil rules of 1922, and requests the acceptance of an affidavit to the effect that the storage tank has undergone a shop test and that the piping is standard wrought iron pipe.

Resolved, that the order of the fire commissioner, No. 88254-LC, be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 2, *on condition* that a certificate of factory test be filed with the fire department; and, as to Item 3, *granted on condition* that standard wrought iron pipe be used throughout the equipment; and, as to Item 4, *granted on condition* that the door of the fire box of the boiler be equipped with self-closing device, and that the installation comply with the fuel oil rules in all other respects.

745-24-A.

APPELLANT—Cornell Utilities Co., for Clarence F. Simonson, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—9416 One Hundred and First avenue, Woodhaven, Borough of Queens.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon.....	7
Negative	0
Absent	0

THE RESOLUTION:

(745-24-A)

WHEREAS, Cornell Utilities Co., for Clarence F. Simonson, owner, filed, May 28, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 9416 101st avenue, Woodhaven, Borough of Queens; and

WHEREAS, the order of the fire commissioner, No. 88611-LC, dated May 3, 1924, reads:

"With reference to your application for the permit to store fuel oil at the above location, I regret to inform you that I am without power to grant such a permit for the reason that the storage of fuel oil at the above location is not in accordance with the rules adopted by the Board of Standards and Appeals on November 6, 1919, amended January 18, 1924.

"You are therefore ordered to remove all fuel oil from the storage tank and discontinue the further storage and use of fuel oil at the above location.";

MINUTES

and the decision of the fire commissioner, rendered December 29, 1924, in acting on Alteration Application No. 653-24, reads:

"1. Burners must be of a type approved by the Board of Standards and Appeals.

"2. The use of Grade B. Fuel Oil is not permitted in commercial plants and residences of more than two families unless the room in which equipment is used is cut off from the rest of building by fireproof partitions, ceilings and floors. Such rooms must also have direct entrance from street only and be adequately vented to the outer air."

WHEREAS, the building is non-fireproof, two stories in height, 20 ft. by 88 ft. in area. OCCUPIED: 1st story, undertaker; dwelling above; and

WHEREAS, a fuel oil burning system has been installed consisting of a 700-gallon oil tank buried outside the building, a 55-gallon auxiliary tank and a Nokol Automatic Oil Burner; and

WHEREAS, applicant contends that the fuel oil burning system conforms with the fuel oil rules excepting in that burner is not an approved burner; and further contends that, according to the rules of 1922, Grade B fuel oil was permissible in buildings where the heating installation supplies not over twenty-five hundred (2500) square feet of steam radiation or its equivalent nor in dwellings for the accommodation of more than two families; and, although the 1st story is not a dwelling, the 2nd story is, as stated above, and the installed steam radiation is 578 square feet.

Resolved, that the order of the fire commissioner, No. 88611-LC, and the decision rendered December 29, 1924, in acting on Alt. Application No. 2653-24, be and it hereby is modified, and that the appeal be and it hereby is granted, as to Item 1, on condition that the door of the fire box of the boiler be equipped with a self-closing device; as to Item 2, granted on condition that the fuel oil rules be complied with in all other respects, and that the occupancy and use remain unchanged; and that standard wrought iron pipe be used throughout; and that a certificate of factory test be filed with the fire commissioner.

THE RESOLUTION:

(850-24-BZ)

WHEREAS, Philip J. Sinnott, for Harry Gillman, owner, filed, June 25, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises west side of Broadway, 502 ft. north of 240th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting March 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Broadway and 240th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered May 23, 1924, in acting on N. B. Application No. 1767-24, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story and basement in height, with a frontage of 109 ft. and a depth of 100 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

REPORT OF COMMITTEE:

On February 12th, 1925, a Committee of the Board consisting of Chairman Walsh, Fire Chief Kenlon, Messrs. Holland, Connell and Gunnison visited these premises under appeal, for a public garage under Sec. 21 of the Zoning Resolution.

The entire West side of Broadway from 240th Street to Parkway Street is as yet undeveloped and unimproved other than two gasoline selling stations, the property is solely within as what is designated on the zone maps as business use district; directly opposite on the Easterly side of Broadway the entire frontage of this land is designated as Van Cortlandt Park property.

This appeal ordinarily in the absence of any non-conforming or prohibited use could only come within provision of exception 7G of the Building Zone Resolution and, therefore, would require the consent of the Sinking Fund Commission, which is unlikely to consent, and therefore improbable of obtaining.

The Park land property directly opposite is an extensive tract of swamp land though in the course of fill for at least the last ten years and to-date is far from completion, though still used as a dump for cinder and other practical and inoffensive refuse; the particular site is individual and peculiar to itself, as Broadway has the elevator railroad structure of the subway in operation in front of the property, an elevator railroad spur to the South running Westerly to the repair shop immediately to the rear of this site and an elevator steel runway from the shops to the elevator structure immediately abutting and contiguous at the Northerly line of the property under appeal.

A conforming business use seems improbable because of the surrounding elevator railroad structures and untenable beyond contradiction for the erection of the tenement house or similar dwelling use.

The Committee is of the opinion, therefore, that this proposed use is properly justified under the exercise of its discretionary authority and a proper adjustment

on the basis of equity and recommends the granting of this appeal with restrictions as to vehicular entrances and fireproof safeguards.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
HENRY L. CONNELL,
JAMES P. HOLLAND,
JOS B. GUNNISON (dissenting).

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be restricted to a 1½ story structure above grade, that the rear and gable walls shall be unpierced throughout their entire height and length; that the ramp to the 2nd story shall set back at least 10 ft. from the front or street wall of the structure; that the front elevation shall be finished in face brick of panel design with architectural terra cotta and stone trimmings; that no roof signs shall be erected or maintained on the premises and that there shall be no portable gasoline equipment maintained or operated outside of the structure;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine (9) months and the building completed within eighteen (18) months from the date of this action.

1092-24-BZ.

APPLICANT—John W. Clancy, for Michael Naftal, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—331 East 184th street, The Bronx.

APPEARANCES—

For Applicant: John W. Clancy.

For Opposition: Stanley Gartner, Michael T. McGlynn, Louis Pimnea, Mary Marsella, Nathan Schwartz.

ACTION OF BOARD—Application denied.

CONDITIONS—As specified in resolution.

THE RESOLUTION:

(1092-24-BZ)

WHEREAS, John W. Clancy, for Michael Naftal, owner, filed, September 2, 1924, an application, under the building zone resolution, to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 331 East 184th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the Board of Appeals, at its special meeting, March 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 184th street is a business district and Tiebout avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered August 23, 1924, in acting on N. B. Application No. 2349-24, reads:

MINUTES

"1. Erection of proposed garage for storage of more than five motor vehicles in business and residence district is contrary to the provisions of the Building Zone Resolution.";

nd
WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 73.88 ft. and a depth of 176 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, a committee of the board recommended the denial of an application for a garage on the opposite side of the street under Cal. No. 849-24-BZ, and the board deemed that, having made such recommendation, it would not be proper to grant this application.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1215-24-BZ.

APPLICANT—Hollis Operating Co., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district extending from a business district the erection and maintenance of a building to be used for stores, offices and theatre purposes.

PREMISES AFFECTED—South side Jamaica avenue, 60 ft. east of 191st street, Borough of Queens.

APPEARANCES—

For Applicant: None.

For Opposition: Florence Zimmerman, Rev. F. T. Steele, Rev. Arthur Flandreau and W. S. Kooser.

ACTION OF BOARD—Application dismissed.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Holland and Connell..... 5

Negative 0

Absent: Mr. Gunnison and Fire Chief Kenlon 2

THE RESOLUTION:

(1215-24-BZ)

WHEREAS, Hollis Operating Co., Inc., owner, filed, October 10, 1924, an application, under the building zone resolution, to permit the extension of a proposed building, to be used as a theatre, stores and offices, from a business district into a residence district; premises south side of Jamaica avenue, 60 ft. east of 191st street, Hollis, Borough of Queens; and

WHEREAS, no one appeared on behalf of applicant when this case was called.

Resolved, that the application be and it hereby is *dismissed* for lack of prosecution.

31-24-BZ.

APPLICANT—F. W. Rinn, for Samuel Brenner, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of four (4) pleasure motor vehicles, three (3) spaces rented to persons not residing on the premises.

PREMISES AFFECTED—2251 Grand avenue, The Bronx.

APPEARANCES—

For Applicant: F. W. Rinn.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Holland and Connell.... 5

Negative 0

Absent: Mr. Gunnison and Fire Chief Kenlon 2

THE RESOLUTION:

(31-24-BZ)

WHEREAS, F. W. Rinn, for Samuel Brenner, owner, filed, January 9, 1924, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of four (4) pleasure motor vehicles, three (3) spaces rented to persons not residing on the premises; premises 2251 Grand avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, March 3, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Grand avenue and Buchanan place are residence districts; and

WHEREAS, the order of the fire commissioner, dated December 17, 1923, in acting on Order No. 21644-LC, reads:

"1—Discontinue the maintenance of a garage which is not maintained as an accessory use on these premises.";

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 31 ft. and a depth of 20 ft.; occupied as a garage for the storage of four automobiles of the pleasure car type, three spaces rented to persons not residing on the premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 90 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the capacity of the garage shall be limited to four (4) automobiles of the pleasure car type, space for three (3) of which may be rented to persons not residing on the premises; that the interior of the garage shall be fire retarded in accordance with the rules of the board of standards and appeals, and that no gasoline storage equipment shall be maintained on the premises, and that no signs of any nature or description shall be exposed or displayed on the premises.

861-24-BZ.

APPLICANT—Hackenburg & Schwartz, for Bernard Corrigan, owner.

SUBJECT—Application (re: decision of fire commissioner) to permit in a residence district the construction and maintenance of a gasoline filling station.

PREMISES AFFECTED—Southwest corner Thwaites place and Boston road, The Bronx.

APPEARANCES—

For Applicant: Albert E. Schwartz, Bernard Corrigan.

For Opposition: Jack Friedman, Philip A. Moore and Henry Palezri.

ACTION OF BOARD—Application denied.

CONDITIONS—As specified in resolution.

THE VOTE TO GRANT—

Affirmative: Messrs Kennedy and Holland 2

Negative: Chairman Walsh, Messrs. Dowd, Gunnison and Connell 4

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(861-24-BZ)

WHEREAS, Hackenburg & Schwartz, for Bernard Corrigan, owner, filed, June 27, 1924, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a building to be used as a gasoline filling station; premises southwest corner of Boston road and Thwaites place, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, March 3,

MINUTES

1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Boston road and Thwaites place are residence districts; and

WHEREAS, the decision of the fire commissioner, rendered June 12, 1924, in acting on N. B. Application No. 996-24, reads:

"1. Zoning maps show this location in a residential district and gasoline filling station is not permitted."

and

WHEREAS, the proposed gas filling installation consists of two gasoline storage tanks, two outside pumps and a one-story galvanized steel structure 18 ft. by 16 ft. in area; and

WHEREAS, no facts were adduced at the public hearing in support of the basis of the application under section 21.

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1271-24-BZ.

APPLICANT—Joseph McGinnis, for Weiman-McGinnis Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—2966-2972 Jerome avenue, The Bronx.

APPEARANCES—

For Applicant: William T. White.

For Opposition: Henry E. Margoshes.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1271-24-BZ)

WHEREAS, Joseph McGinnis, for Weiman-McGinnis Corp., owner, filed, October 27, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage

of more than five motor vehicles; premises 2966-2972 Jerome avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, March 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue and Bedford Park boulevard are business districts and Villa avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 10, 1924, in acting on N. B. Application No. 2673-24, reads:

"1—Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fire-proof construction, two stories in height, with a frontage of 100 ft. and a depth of 100 ft.; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deemed that, owing to the character of the neighborhood and the presence of non-conforming uses on the street, that there would be hardship in preventing applicant from making proposed use of his property.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall not exceed a height of two stories above grade; that the rear and gable walls shall be unpierced throughout their entire height and length; and that the requirement of the zoning resolution as to rear yard area shall be complied with in all other respects; that the front elevation shall be finished in face brick of panel design with architectural terra cotta or stone trimmings; that there shall be no roof signs or advertising signs other than the title of the garage displayed on the front of the building;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine (9) months and the building completed within eighteen (18) months from the date of this action.

Adjourned 6:30 p. m.

EDWARD V. BARTON, *Acting Secretary*.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

BOARD OF STANDARDS AND APPEALS IS
NOW LOCATED ON THE TENTH FLOOR OF
THE MUNICIPAL BUILDING, ROOMS 1001
TO 1015—NORTH END OF BUILDING.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Cal-
endar.

All hearings are held in Room 1013, Municipal Building,
Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the en-
gineers, pertaining to the work of either board, will be
seen only between the hours of ten in the morning and one
in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the
Building Zone Resolution, and its object is to give inter-
ested property owners opportunity to file objections, if any,
and will be called in Room 1013, on Tuesday, March 17,
1925, at 2 o'clock. At this call each case is set for hearing
on a definite day.

The next subsequent Call of the Calendar will be on
Tuesday, March 24, 1925, at 2 o'clock.

The Clerk's Calendar is not to be confused with the
calendar of cases that have been definitely set for hearing
on fixed days.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—110 East 17th street, Manhattan.

APPEARANCES—

For Appellant: William Porter.
For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kennedy 1

THE RESOLUTION:

(1242-24-A)

WHEREAS, Cornell Utilities Co., for Katherine S. Tarr, owner, filed, October 18, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 110 East 17th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 1, 1924, reads:

"1. Arrange with this department to have tanks tested.

"Note: Tanks required to withstand a hydrostatic test of 25 lbs. to the square inch for at least 30 minutes and shall show no leaks. Rule 21.

"3. Arrange with this department to have all piping tested. (Hydrostatic test of 100 lbs. to the square inch.) Rule 25, Sec. 2 of the Fuel Oil Rules."

and

MINUTES

WHEREAS, the building is non-fireproof, four stories in height, 24 ft. by 68 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of two 55-gallon storage tanks, encased in 4 in. of terra cotta, one 55-gallon auxiliary tank, a NoKol oil burner and the necessary valves and piping to complete the installation; and

WHEREAS, appellant contends that the tank was installed under the fuel oil rules of 1922, and requests the acceptance of an affidavit to the effect that the tank has undergone a shop test, and requests, further, a temporary permit to use the installation for 90 days.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, *on condition* that certificate of factory test shall be filed with the fire commissioner; as to Item 3, *on condition* that standard wrought-iron pipe shall be used throughout equipment; that a self-closing device shall be provided to the door of the fire-box of boiler, and that the conditions of resolution under Cal. 360-24-A shall be complied with.

1423-24-A.

APPELLANT—Joseph L. Burke Corp., for Adolph Kopp, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—9316 219th street, Queens Village, Borough of Queens.

APPEARANCES—

For Appellant: G. S. De Grange, Jr.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Connell, Holland and Fire Chief Kenlon .. 5

Negative 0

Absent: Messrs. Kennedy and Gunnison 2

THE RESOLUTION:

(1423-24-A)

WHEREAS, Joseph L. Burke Corp., for Adolph Kopp, owner, filed, December 3, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 9316 219th street, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, rendered November 13, 1924, in acting on Alteration Application No. 82-24, reads:

"2. File a drawing showing details of construction of tank and with the following note:

"(a) Tank will be tested in presence of a Fire Department representative and afterwards coated with a suitable rust resisting material.

"5. Piping must be tested in presence of a Fire Department Representative.

"7. Burner must be of a type approved by the Board of Standards and Appeals.

"9. Provide a separate 1¼ inch vent for auxiliary tank.

"10. File a copy of burner as approved by the Board of Standards and Appeals."

and

WHEREAS, the building is frame, two stories in height, 24 ft. by 24 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 200-gallon storage tank buried outside the building, a 55-gallon auxiliary tank, a NoKol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the auxiliary tank is vented with the 1¼ in. pipe and that the installation conforms with the rules in all respects excepting as noted.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 2, only so far as it affects test, *on condition* that tank as now installed shall be buried

below grade, outside of the building; that certificate of factory test and detailed drawings of tank construction shall be filed with the fire commissioner, as to Item 5, *on condition* that standard wrought iron pipe shall be used throughout the fuel oil burning equipment; as to Item 7, permitting use of NoKol burner, *on condition* that the rules of the board of standards and appeals shall be complied with in all other respects, and that the door of fire-box shall be equipped with a self-closing device; *denied* as to Item 9; and *granted* as to Item 10 *on condition* that the foregoing requirements shall be complied with and that the installation otherwise shall comply with the fuel oil rules in all respects.

1459-24-A.

APPELLANT—Morse Dry Dock & Repair Co., for Roman Wet Wash Laundry Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—South side of Seventeenth avenue, 100 ft. east of Graham avenue, Astoria, Borough of Queens.

APPEARANCES—

For Appellant: David J. Irish.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Connell, Holland and Fire Chief Kenlon .. 5

Negative 0

Absent: Messrs. Kennedy and Gunnison 2

THE RESOLUTION:

(1459-24-A)

WHEREAS, Morse Dry Dock & Repair Co., for Roman Wet Wash Laundry Co., owner, filed, December 11, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises south side of Seventeenth avenue, 100 ft. east of Graham avenue, Astoria, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, rendered November 17, 1924, in acting on N. B. Application No. 1840-24, reads:

"12. Burners must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is non-fireproof, one story in height, 50 ft. by 175 ft. in area; OCCUPIED as a wet wash laundry, boiler room and garage, 20 persons in the entire premises; and

WHEREAS, a fuel oil burning system has been installed consisting of a 6,000-gallon storage tank buried outside the premises, a Morse fuel oil burner and the necessary valves and piping; and

WHEREAS, appellant requests a 90-day permit to operate the plant pending the approval of the Morse fuel oil burner by the board.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, for a temporary period of ninety (90) days, for use at owner's own risk, pending action of the board of standards and appeals on petition regarding approval of burner, *on condition* that the installation shall comply with the fuel oil rules in all other respects.

1511-24-A.

APPELLANT—Frank E. Hahn, for A. Finkenberg's Sons, lessees.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—771 East 133rd street, The Bronx.

APPEARANCES—

For Appellant: Frank E. Hahn, I. Finkenberg.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

MINUTES

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd,
Gunnison, Connell, Holland and Fire Chief
Kenlon 6
Negative 0
Absent: Mr. Kennedy 1

THE RESOLUTION:

(1511-24-A)

WHEREAS, Frank E. Hahn, for Sparkmount Realty Corporation, owner, filed, December 23, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 771 East 133rd street, The Bronx; and

WHEREAS, the decision of the fire commissioner, rendered December 12, 1924, reads:

"1. Gasoline system is not permitted in a building used for the storage of furniture, etc.";

and

WHEREAS, the building is fireproof, six stories in height, 206 ft. 5 in. by 153 ft. 2 in. in area at the 1st story and 206 ft. 5 in. by 110 ft. in area above; a portion of 1st story being occupied as a motor vehicle repair shop and the remainder of building for the storage of furniture; approximately 108 persons above the 1st story; EQUIPPED with a two-source sprinkler system and an approved stand-pipe installation, a 550-gallon gasoline tank (the fill box and the pump being located outside the premises) is located beneath the floor of the repair department at the southwest corner of the 1st story of the premises; and

WHEREAS, appellant contends that the repair department is isolated from the rest of the premises by an unpierced ceiling and also by unpierced 8 in. brick wall; that the tank will be filled by means of a buried pipe terminating at the curb, and contends further that the gasoline is necessary to supply the motor trucks used in the conduct of the owner's business.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the gasoline storage be limited to one approved tank, not exceeding a capacity of 550 gallons, located in a room on 1st floor, at the intersection of Willow avenue and East 133rd street, separated from floor area by brick wall of approved masonry, unpierced, of not less than 8 in. in thickness, with unpierced, reinforced concrete arches above and below; that the gas pump or sentinel shall be located outside of building; and that the use shall be restricted to the conduct of the owner's business, maintained on the premises.

630-24-A.

APPELLANT—E. F. DeYoung, owner.

SUBJECT—Appeal from order of superintendent of buildings.

Affirmative: Chairman Walsh, Messrs. Dowd,
Gunnison, Holland and Connell 5
Negative 0
Absent: Mr. Kennedy and Fire Chief Kenlon .. 2

THE RESOLUTION:

(630-24-A)

WHEREAS, E. F. DeYoung, owner of adjoining premises, filed, May 6, 1924, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 2210 Newkirk avenue, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered February 24, 1922, was the issuance of the certificate of occupancy, No. 644, for the use of premises as a restaurant and boarding house, which certificate of

occupancy the superintendent of buildings has no power to revoke; and

WHEREAS, the building is frame, two stories and attic in height, 35 ft. by 60 ft. in area; located in a residence district; OCCUPIED as a rooming house; and

WHEREAS, it appears that the certificate of occupancy, No. 644, for use of these premises as a restaurant and boarding house, was issued by the superintendent of buildings on February 24, 1922, after several affidavits had been received, in effect that the premises had been used for the purpose indicated, before July 25, 1916; and

WHEREAS, appellant now files affidavits to the effect that the premises were not used as a restaurant prior to July 25, 1916; that the board of health has no record of a permit for a restaurant issued prior to July 25, 1916, and requests that the board revoke the certificate of occupancy permitting the premises to be used as a restaurant; and

WHEREAS, no one appeared for the appellant when this case was called.

Resolved, that the appeal be and it hereby is *dismissed* for lack of prosecution.

1119-22-A.

APPELLANT—Cornell Vacuum Burner Co., Inc.

THE RESOLUTION:

(88-25-BZ)

WHEREAS, Frank Krall, owner, filed, January 23, 1924, an application, under the building zone resolution, to permit in a residence use and "E" area district the erection and maintenance of a building located less than ten (10) feet from the street line; premises 2108 Avenue P, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Avenue P and Kings highway are residence use and E area districts; and

WHEREAS, the decision of the superintendent of buildings rendered December 26, 1924, reads:

"Violation 8039-24 of the Building Zone Resolution at the premises hereinafter described, in that a footing and foundation letter has been granted for described premises. Frame structure is being erected and is now being enclosed; same projects beyond zone limit; no permit. In violation of art. 1, sec. 4 of the Building Code."

The decision of the superintendent of buildings, rendered December 18, 1924, in acting on Application No. 24326-24, reads:

"(1) 10 ft. setback required as per Board of Estimate."

and

WHEREAS, the proposed building is to be of frame construction, two stories in height, with a frontage of 20 ft. and a depth of 46 ft.; to be occupied as a dwelling the street wall being located 5 ft. 1½ in. back of the building line instead of 10 ft.; and

WHEREAS, the existing abutting houses on the block are set back but 3 ft. 8 in. and 5 ft. 1½ in. from the street line, and there would be hardship in compelling applicant to set back 10 ft.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the face of the front porch line shall be set back on a line with the front of the adjoining porch to the west, namely, 5 ft. 1½ in.; that any window openings in the said porch be equipped with removable sash, glazed with plain glass; that the requirements of the building zone resolution be complied with in all other respects; and that all necessary permits be obtained within ninety (90) days from the date of this action.

1089-23-BZ.

APPLICANT—Croker Nat. Fire Prevention Engineering Co., for Frank Mitchell, owner.

SUBJECT—Application for reopening (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of four (4) commercial motor vehicles owned by the person residing on the premises.

PREMISES AFFECTED—163 McDougal street, Brooklyn.

APPEARANCES—

For Applicant: Herman E. Horwood.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

Absent: Mr. Kennedy 1

THE RESOLUTION:

(1089-23-BZ)

WHEREAS, Croker National Fire Prevention Engineering Co., for Frank Mitchell, owner, filed, September 17, 1923, an application, under the building zone resolution, to permit in a residence district, the maintenance of a garage or the storage of four (4) commercial motor vehicles, owned by the persons residing on the premises; premises 163 McDougal street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that McDougal street is a residence district and Saratoga avenue and Hopkinson avenue are business districts; and

WHEREAS, the order of the fire commissioner, dated August 29, 1923, reads:

"Order No. 82274-LC:

"Maintenance of your garage is a violation of Section 3 of Art. 2 of the Bldg. Zone Resolution of the Board of Estimate and Apportionment of the City of N. Y. adopted July 25, 1916, inasmuch as motor vehicles stored are used for commercial purposes.";

and WHEREAS, the building is of non-fireproof construction, one story in height, with a frontage of 25 ft. and a depth of 30 ft.; occupied for the storage of two commercial and two pleasure motor vehicles; and

WHEREAS, this application was dismissed by the board at its meeting March 18, 1924, for lack of prosecution, and reopened by vote of the board January 13, 1925; and

WHEREAS, the applicant having filed the duly acknowledged consents of the owners of 82 per cent of the property frontage deemed by the board to be affected, fulfills the exception of the provisions of section 7, subdivision C.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the capacity of the garage be limited to four motor vehicles, all the property of the owner residing on the premises, and shall be restricted to two automobiles of the pleasure car type and two commercial trucks; that there shall be no gasoline storage equipment maintained on the premises; that there shall be no signs nor advertising of any nature or description displayed on the premises; and that the interior of the garage shall be fire-retarded in accordance with the rules of the board of standards and appeals.

1529-24-BZ.

APPLICANT—William F. Doyle, for Weprin Glass Bldg. Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

THE RESOLUTION:

(1529-24-BZ)

WHEREAS, William F. Doyle, for Weprin Glass Bldg. Corp., owner, filed, December 29, 1924, an application, under the building zone resolution, to permit in a business district the alteration and conversion of occupancy of existing buildings (stables and brewery) to a garage for the storage of more than five motor vehicles; premises 202-218 East 55th street and 211-213 East 54th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 10, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 55th street, East 54th street and Third avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 24, 1924, in acting on Alt. Application No. 2874-24, reads:

"Item 2—Garage for more than five cars will not be permitted in a business district. Art. 2, 'Building Zone Resolution.'";

and

WHEREAS, the proposed building is to be of fireproof construction, two stories and cellar in height, with a frontage of 200 ft. and a depth of 200 ft. 10 in. on East 55th street and 50 ft. 10 in. on East 54th street; to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses, and the board has granted application for several garages on this street on the same basis and under the same section.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure be erected fireproof and limited in height to two stories above grade; that the gable walls shall be unpierced throughout their entire height and length; that the street front elevations shall be finished in face brick and architectural terra cotta or natural stone trimmings, laid up in panel design; that there shall be no roof sign erected or maintained on the premises, and no advertising display other than one projecting sign on each street front indicating the title of the business conducted on the premises; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the structure completed within eighteen months from the date of this action.

Absent: Mr. Kennedy 1

MINUTES

THE RESOLUTION:

(1518-23-BZ)

WHEREAS, William J. McKeown, substituted for Philip J. Sinnott, for Service Realty Co., owner, filed, December 23, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises southwest corner of Davidson avenue and 181st street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting May 23, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and the application was denied; and

WHEREAS, the case was reopened by vote of the board February 3, 1925, and a further public hearing held March 10, 1925; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 181st street is a business district and Davidson avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 13, 1923, in acting on N. B. App. No. 2690-23, reads:

"1. Erection of public garage for storage of more than five motor vehicles in business district is contrary to provisions of the Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 92 ft. 10 in. and a depth of 98 ft. 6 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

REPORT OF COMMITTEE:

On May 2nd, 1924, a Committee of the Board, consisting of Chairman Walsh, Fire Chief Kenlon, Messrs. Boulton, Holland and Kerby, inspected the premises affecting which there is an appeal now pending before the Board, seeking a variation of the building zone resolution under section 20 for the erection of a public garage. The plot is located on the southwest corner of Davidson Avenue and 181st Street, approximately 92 feet in area.

On the southeast and southwest corners of Davidson Avenue and 181st Street there exist public garages one story above grade of Davidson Avenue, the one on the southeast corner having been erected prior to the adoption of the building zone resolution and the one on the northeast corner having been granted by an action of this Board.

The east side of Davidson Avenue south of 181st Street is occupied practically in its entirety by modern apartment houses. On the west side of Davidson Avenue contiguous to the garage site under appeal, there is in the course of completion a row of three story, two family dwellings. The northwest corner of Davidson Avenue and 181st Street is occupied by a recently completed modern six story apartment house. These dwelling developments in major part have been completed since the erection of the original garage on the southeast corner and it would therefore appear that the original garage was not a deterrent to the adjacent properties of structures of conforming uses.

The Committee is of the opinion that the appellant has failed to justify his basis of appeal under section 20, namely, hardship and practical difficulty, and therefore recommends that the application be denied.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
ALFRED J. BOULTON,
JAMES P. HOLLAND,
JOHN C. KERBY.

and

WHEREAS, no new facts were submitted or adduced on the re-hearing of this application, in support of section 21 at the public hearing March 10, 1925, and the surrounding conditions have been improved by the erection of dwellings.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

469-22-BZ.

APPLICANT—Walter L. Vaughn, owner.

SUBJECT—Application reopening (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for three (3) pleasure cars, spaces rented out.

PREMISES AFFECTED—1468 East 10th street, Brooklyn.

APPEARANCES—

For Applicant: Walter L. Vaughn.

For Opposition: None.

ACTION OF BOARD—Granted extension of permit for period not to extend beyond two years from date of this action.

THE VOTE TO GRANT TEMPORARY PERMIT—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon

Negative

Absent: Mr. Kennedy

THE RESOLUTION:

(469-22-BZ)

WHEREAS, Walter L. Vaughn, owner, filed, March 30, 1922, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of three (3) automobiles of the pleasure car type, spaces rented to persons not residing on the premises; premises 1468 East 10th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, February 20, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 10th street, East 9th street and Avenue O are residence districts; and

WHEREAS, the order of the fire commissioner, dated January 6, 1922, Order No. 69562-LC, reads:

"Maintenance of your garage is a violation of sec. 3 of art. 2 of the Bldg. Zone Resolution of the Board of Estimate and Apportionment of the City of N. Y. adopted July 25, 1916, inasmuch as garage is not an accessory to residence on lot."

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 26.65 ft. and a depth of 36.24 ft.; occupied as a garage for three automobiles, space rented to persons not residing on the premises; and

WHEREAS, there would be undue hardship in preventing applicant from maintaining the garage, he having purchased the property in good faith; and

WHEREAS, this application was granted by the board at its meeting, February 20, 1923, for a period of two years and the owner-applicant agrees that he shall discontinue the renting of space and restrict his garage to private personal use on the expiration of this permit; and that there shall be no further extension of permit beyond that time.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* for a temporary period of two years from the date of this action *on condition* that space for not more than two automobiles of the pleasure-car type shall be rented to persons not residing on premises.

THE RESOLUTION:

(1194-24-S)

WHEREAS, Julia B. Merrill, lessee, filed, October 3, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 40 West 56th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 2, 1924, reads:

"Order No. 63815-LD:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law * * *.

"Among the defects noted on this fire escape are the following: No fireproof passageway from termination to street. Windows on course not fireproof, self-closing.

"2. Extend the interior stairway at the west side of building to the roof as per Section 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 87 ft. in area at the 1st story and 25 ft. by 56 ft. in area above; OCCUPIED as follows: 1st story, salesroom and workroom, 12 persons; 2nd story, salesroom and workroom, 4 persons; 3rd story, salesroom and workroom, 3 persons; 4th story, upper stories, dwellings, 1 person each story. EXITS: An interior wooden stairway, extending from the 1st story to the top story, enclosed in wood lath and plaster partitions with wooden doors at openings; a fire escape on the rear of the building, extending from the main roof to the roof of the 1st story extension; ROOFS of adjoining buildings are at same level; and

MINUTES

WHEREAS, petitioner proposes to install on the top story an iron ladder to scuttle in roof, and in lieu of providing a fireproof pasageway to street proposes to make easy access to 1st story store by removing the iron bars on the windows at the rear of the 1st story extension.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted* for a temporary period, *on condition* that the factory occupancy shall be discontinued and vacated on or before August 1, 1926, and that a 45 degree fire escape with connecting stairs shall be maintained on the rear of the premises and that fixed iron ladder shall be provided from the top story hall to scuttle in roof, and that exit signs and red lights shall be provided at the exits, and that the use and occupancy in the interim shall remain unchanged and that the factory occupancy shall not exceed 25 per cent of the floor area of the premises.

1458-24-S.

PETITIONER—Starrett & Van Vleck, for Henry Phipps Estate, owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—603-609 Fifth avenue, Manhattan.

APPEARANCES—

For Petitioner: W. P. Litchenstein.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland, Fire Chief Kenlon, Superintendents Brady, Klei-
ert, Reville, Moore and McDermott.... 11

Negative 0

Absent: Mr. Kennedy and Deputy Fire
Commissioner Hannon 2

THE RESOLUTION:

(1458-24-S)

WHEREAS, Starrett and Van Vleck, for Henry Phipps Estate, owner, filed, December 10, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 603-609 Fifth avenue, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 583-1924, dated November 17, 1924, reads:

"17. All windows including show windows must be fireproof, and no pane must exceed 720 square inches. Section 264, Subd. 7, Labor Law.";

and

WHEREAS, the building is fireproof, 13 stories in height, having a frontage of 53 ft. on Fifth avenue and a frontage of 175 ft. on East 49th street (irregular in area); OCCUPIED as a department store on the four lower stories and above as offices and showrooms, approximately 100 persons per story; and

WHEREAS, there are openings in the Fifth avenue front and in the East 49th street front of the building on the 1st and 2nd stories, glazed with plate glass; the maximum area of the glass being as follows: 1st story, 49th street front, 8 ft. 8 in. by 15 ft. 8 in.; 2nd story, 49th street front, 5 ft. 9 in. by 6 ft. 6 in.; 1st story, Fifth avenue front, 8 ft. 6 in. by 10 ft. 6 in.; 2nd story, Fifth avenue front, 5 ft. 8 in. by 6 ft. in area; and

WHEREAS, petitioner contends that to comply with the provisions of the labor law as to the area of the glass would destroy the intended use of those lower two stories.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted* only so far as it affects the windows on the street front of the two lower stories, *on condition* that the labor law requirements shall be complied with in all other respects.

1472-24-S.

PETITIONER—Samuel Rosenblum, for Eighth Avenue and Fifty-third Street Realty Co., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—302-6 West 53rd street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland, Fire Chief Kenlon, Superintendents Brady, Klei-
ert, Reville, Moore and McDermott.... 11

Negative 0

Absent: Mr. Kennedy and Deputy Fire
Commissioner Hannon 2

THE RESOLUTION:

(1472-24-S)

WHEREAS, Samuel Rosenblum, for 8th Avenue and 53rd Street Realty Co., owner, filed, December 15, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 302-6 West 53rd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 12, 1924, reads:

"Order No. 60912-LD:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Sections 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law.

"2. Extend the interior stairway at the east side of building to the roof, as per Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, three and four stories in height, 53 ft. 4 in. by 90 ft., irregular in area. OCCUPIED: 1st story, automobile repairs, 4 persons; 2nd story, repairing fenders and radiators, 8 persons; 3rd story, automobile dead storage, 5 persons; 4th story, to be used for light manufacturing (vacant at present), 7 persons.

EXITS: An interior wooden stairway, extending from the 1st story to the top story, enclosed in wooden partitions with wooden doors at the openings; a door leading from the 4th story to the roof at the 3rd story section of the building; a fire escape on the front of the building, extending from the 4th story to the 2nd story balcony, with counterbalanced stair to street, with fireproof windows along the course thereof, and also a sub-standard fire escape on the rear of the premises; ROOFS of adjoining buildings—to west same height, to east 4 ft. lower; and

WHEREAS, petitioner proposes to cut an opening in the wooden partition on the 3rd story (which partition blocks the egress to the fire escape on the front of the building), and contends that ample egress will then be afforded from all portions of the premises.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted* as to Item No. 1 only so far as it affects the egress from termination of the fire escape, *on condition* that a 45-degree iron stairs shall be provided from the roof of the 1st story extension to the yard of premises No. 303 West 52nd street; *granted* as to Item No. 2 *on condition* that a horizontal exit shall be provided on the 4th story level in the westerly gable wall to the roof of the 3rd story section, and that the main stairs shall be enclosed on the top story, with approved fire-retarding partition and

MINUTES

a fixed double rung iron ladder shall be provided from the top story hall to roof, and *granted* only so long as conditions as to occupancy and use remain unchanged.

1201-24-S.

PETITIONER—Samuel Cohen, for John C. Tomlinson, owner.

SUBJECT—Petition for variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—45-47 West 57th street, Manhattan.

APPEARANCES—

For Petitioner: Max Siegel.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland, Fire Chief Kenlon, Superintendents Brady, Kleinert, Reville, Moore and McDermott.... 11

Absent: Mr. Kennedy and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1201-24-S)

WHEREAS, Samuel Cohen, for John C. Tomlinson, owner, filed, October 7, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 45-47 West 57th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 64827-LF, dated September 17, 1924, reads:

"1. Install an adequate interior electric fire alarm system in accordance with the Rules of the Board of Standards & Appeals and the enclosed approved layout."

and

WHEREAS, the building is non-fireproof, seven stories in height, 50 ft. by 100 ft. in area at the 1st story and 50 ft. by 90 ft. in area above. OCCUPIED: 1st story, stores; upper stories, showrooms, offices and factory, 60 persons on each story. EXITS: An interior fireproof stairway extending from 1st story to roof, enclosed in fireproof partitions with fire doors at openings; a fire escape on the rear of the building extending from main roof to roof of 1st story extension, with fireproof windows along the course thereof; and

WHEREAS, petitioner contends that there are less than 25 persons in the building employed at factory work, which number is less than 10 per cent of the total number of occupants permitted, and that the labor law, as to the installation of a fire alarm system, does not apply.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the petition be and it hereby is *denied*.

1356-24-S.

PETITIONER—Bertram L. Kraus, for Eva M. Moller, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—14 West 40th street, Manhattan.

APPEARANCES—

For Petitioner: William B. DeLacey.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland, Fire Chief Kenlon, Superintendents Brady, Kleinert, Reville, Moore and McDermott.... 11

Negative 0

Absent: Mr. Kennedy and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1356-24-S)

WHEREAS, Bertram L. Kraus, for Eva K. Moller, owner, filed, November 18, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 14 West 40th street, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated September 27, 1924, read:

"Order No. 65222-LF:

"1. Install an adequate interior electric fire alarm system in accordance with the Rules of the Board of Standards and Appeals and the enclosed approved layout."

"Order No. 65223-LF:

"An inspection of the premises 14 West 40th Street, Borough of Manhattan, shows that a fire drill should be established and maintained therein according to the requirements of Section 279 of the Labor Law."

"Order No. 65224-LD:

"1. Provide an outside iron balcony fire escape on the front of building with balconies 4 ft. in width connected by stairways not less than 22 in. wide, placed at an incline of not more than 45 deg., extending from the ground to the highest story, constructed as per Section 273 of the Labor Law * * *."

"Order No. 65225-LD:

"1. Reduce the area of wire glass in doors in partitions enclosing the interior stairway, so that no pane of wire glass in doors and partitions exceeds 360 square inches in area and not more than 720 square inches in area on any story.

"NOTE: Two panes of glass in doors 880 square inches total 1,760 square inches and windows contain more than 720 square inches in partitions as per Section 271 of the Labor Law * * *."

"Order No. 65226-LD:

"1. Provide exit signs, letters to be at least 8 in. in height, at all means of egress with a red light over all such exits for use in time of darkness, as per section 272 of the Labor Law."

"Order No. 65227-LD:

"1. Arrange the doors leading to the stairway on all stories upon which five or more persons are employed, so as to open outwardly without obstructing the stairway, as per Section 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, six stories in height, 25 ft. by 99 ft. in area at the 1st story and 25 ft. by 88 ft. in area above. OCCUPIED: 1st story and basement, shoe store, 8 persons; 2nd story, dealer in books, 6 persons; 3rd story, vacant at present; 4th story, tailors, 4 persons; 5th story, mimeographing, 19 persons; 6th story, diamond merchants, 5 persons. EXITS: An interior fireproof stairway extending from the 1st story to the roof, enclosed in fireproof partitions with fire doors at openings; ROOFS of adjoining buildings to east same height, to west 6 ft. higher; and

WHEREAS, petitioner contends that the only occupancy which may be deemed as factory use exists on the 5th story (mimeographing) and that this does not come within the definition of article 1, section 2 of the labor law as nothing more than office work is done, and if the board considers the premises a factory building, proposes to erect a fire escape on the rear of the building, with egress from termination thereof by means of adjoining buildings.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted on condition* that the factory occupancy shall be discontinued on or before March 31, 1926, and that a balcony fire escape (section 273, L. L.) shall be provided at window sill level, the fireproofing of the windows on the course of the

MINUTES

fire escape may be omitted, with egress from lowest balcony by ladder to balcony of fire escape of building to the east, and that the doors leading to the stairway on the 5th story shall be made to open out.

1313-24-S.

PETITIONER—Ernest E. Lorillard, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—243 Canal street, Manhattan.

APPEARANCES—

For Petitioner: John J. Gilmartin.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland, Fire Chief Kenlon, Superintendents Brady, Kleinert, Reville, Moore and McDermott.... 11

Negative 0

Absent: Mr. Kennedy and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(1313-24-S)

WHEREAS, Ernest E. Lorillard, owner, filed, November 8, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 243 Canal street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 30, 1924, reads:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law * * *.

"NOTE: Among the defects noted on this fire escape are the following:

"No fireproof passageway from termination to street.";

and

WHEREAS, the building is fireproof, six stories in height, 32 ft. by 104 ft. in area. OCCUPIED: 1st to 5th stories, repair and manufacture of electrical fixtures; 6th story, decorating glass, 65 persons above the 1st story; EQUIPPED with a fire alarm signal system. EXITS: An interior fireproof stairway extending from 1st story to roof, enclosed in fireproof partitions with fire doors at openings; a sub-standard fire escape on the front of the building and also fire escape on the rear of the building (with fireproof windows along the course thereof), extending from roof to yard; ROOFS of adjoining buildings are 20 ft. and 50 lower; and

WHEREAS, petitioner proposes to connect the 3rd story balcony of the rear fire escape with the roof of the two-story building to the east; egress from the roof of this building (No. 239 Canal street) may be had by means of two fireproof stairways to the street.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted on condition that the fire escape on the front of the building shall be reconstructed in accordance with the labor law requirements and the rules of the board of standards and appeals; and that the fire escape on rear be maintained; and granted only so long as conditions as to use and occupancy remain unchanged.

1440-24-S.

PETITIONER—Vespucci Petrone, for Antonio Calcaterra, owner.

SUBJECT—Variation of labor law as cited in decision of health commissioner.

PREMISES AFFECTED—3639 Holland avenue, The Bronx.

APPEARANCES—

For Petitioner: V. Petrone.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland, Superintendents Brady, Kleinert, Reville, Moore and McDermott 10

Negative 0

Absent: Mr. Kennedy, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(1440-24-S)

WHEREAS, Vespucci Petrone, for Antonio Calcaterra, owner, filed, December 5, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the health commissioner, affecting premises 3639 Holland avenue, Borough of Bronx; and

WHEREAS, the decision of the health commissioner, rendered October 31, 1924, reads:

"You are hereby informed that the cellar bakery of premises No. 3639 Holland Avenue, Bronx, is being used for baking foodstuffs in violation of Section 338 of Article 12 of the Labor Law.

"Owing to the fact that there has never been a certificate of exemption issued for this cellar, the application for a sanitary certificate to operate a bakery at No. 3639 Holland Avenue was denied by the Board of Health.";

and

WHEREAS, the building is frame, two stories and cellar in height, 22 ft. by 60 ft. in area. OCCUPIED: Cellar, bakery; 1st story, store; 2nd story, dwelling; the height of the bakery from floor to ceiling being 9 ft. 6 in.; the ceiling being 2 in. below the curb level and the floor being 6 in. above the yard level; the means of ventilation consisting of 3 ft. by 5 ft. windows opening on the side yard; and

WHEREAS, petitioner contends that the building was erected in 1905, operated as a cellar bakery until 1913, reopened as such in 1921 and has been in operation as a cellar bakery since that time, and further contends that the windows ventilating the bakery open on a large yard 28 ft. by 95 ft. in area;

WHEREAS, plans for the erection of this building were approved October 6, 1905, and also for the alteration August 4, 1913, due to a change of grade in the street, including use and occupancy as a bakery.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted on condition that the necessary permits shall be obtained from the department of health.

1139-17-S.

PETITIONER—Frank P. Keniston, for Mary E. Cervantes, owner.

SUBJECT—Reopened petition in re: variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—51 East 8th street, Manhattan.

APPEARANCES—

For Petitioner: Frank P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative 0

Absent: Mr. Kennedy, Fire Chief Kenlon and Deputy Fire Commissioner Hannon... 3

MINUTES

THE RESOLUTION:

(1139-17-S)

WHEREAS, F. P. Keniston, for Mary E. Cervantes, owner, filed, August 3, 1917, a petition, with the board of standards and appeals, for variation from the requirements of section 79-b-4, labor law, to be relieved of providing a passageway from the foot of rear fire escape to the street, and to accept in lieu thereof, exit through doorway in fence to adjoining westerly yard; premises 51 East 8th street, Manhattan; and

WHEREAS, the building is non-fireproof, four stories and basement in height, 25 ft. by 73 ft. in area at the basement, 1st and 2nd stories and 25 ft. by 50 ft. in area above; OCCUPIED as stores and tenant factory. EXITS: An interior wooden stairway, 36 ft. in width, extending from the 1st story to the top story, enclosed in wood lath and plaster partitions, with wooden doors at openings; a 60-degree fire escape on the rear of the building, extending from the roof to rear yard, with fireproof windows along the course thereof, with egress from the termination of fire escape by means of adjoining yards to the east and west; and

WHEREAS, this case was granted by the board at the meeting held on December 6, 1917, on condition that the conditions set forth remain substantially unchanged, there being at that time 30 persons engaged above the 1st story, of whom 15 were engaged on the 2nd story; and

WHEREAS, petitioner, through her representative, proposes to increase the occupancy of the premises to 45 persons above the 1st story, 20 of whom will be above the 2nd story.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted on condition that the number of occupants shall be limited to forty-five (45), of which not more than ten persons shall be permitted on the 4th story and not more than ten persons on the 3rd story, and that a approved labor law fire escape shall be provided on the rear of the building, with egress from the termination at yard level to adjoining yards to both east and west.

549-19-S.

PETITIONER—Croker National Fire Prevention Engineering Co., for Estate of Margaretta Metzger, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—238-244 Sixth avenue, Manhattan.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Gunnison, Connell, Holland, Superintendents Brady, Kleinert, Reville, Moore and McDermott 9

Negative 0

Absent: Messrs. Dowd, Kennedy, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 4

THE RESOLUTION:

(549-19-S)

WHEREAS, Frank J. Schefcik, architect, on behalf of Estate of Margaretta Metzger, owner, filed, July 18, 1919, a petition, with the board of standards and appeals, for variation from the requirement of section 83-a, labor law, as cited in an order of the fire commissioner, affecting premises 238-244 Sixth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 73146-LF, dated December 24, 1917, reads:

"1. Install an adequate interior electric fire alarm

system in accordance with the industrial code, State of New York, and the enclosed approved layout.";

and

WHEREAS, the building is of non-fireproof construction, five stories (63 ft.) in height, 39 ft. 5 in. by 70 ft. in area; OCCUPIED as a tenant factory, with not more than 15 occupants in each story; having one interior stairway enclosed in fireproof partitions except that the hall partitions in the 1st story are not covered on the store side with fire resisting material and the partition separating the 1st floor hallway from the stairs to the cellar is not fire-resisting; having one exterior fire escape on the rear of each building, with egress through the yards of adjoining buildings, complying with the requirements of law, except that the 1st floor windows on the course of the fire escape are not fireproof and there is no flame plate under the 2nd story balcony; and

WHEREAS, Frank J. Schefcik, architect, appeared before the board at its regular meeting, January 6, 1920, and requested a modification of the previous action of the board, which request was granted by vote of the board; and

WHEREAS, this petition was granted by the board at its meeting, January 6, 1920, on certain conditions, and the owner, through the present representative, Croker National Fire Prevention Engineering Company, now requests modification of these conditions and permission to maintain an occupancy of 15 persons in each section of the building, or a total of 30 persons per building per story, and contends that the exit facilities are good for 44 persons per building per story.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted on condition that the occupancy shall not exceed thirty (30) persons per story in each building, so long as the conditions of the original resolution shall be complied with in all other respects.

1435-24-S.

PETITIONER—Joseph E. Marx, for Penn Trading Co., Inc., lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—213 West 33rd street, Manhattan.

APPEARANCES—

For Petitioner: Joseph E. Marx.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Connell, Holland, Superintendents Brady, Kleinert, Reville, Moore and McDermott 10

Negative 0

Absent: Mr. Kennedy, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(1435-24-S)

WHEREAS, Joseph E. Marx, for William F. Inslee, owner, filed, December 4, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 213 West 33rd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 1, 1924, reads:

"1. Extend the interior stairway at the east side of building to the roof as per Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, four stories in height, 20 ft. by 100 ft. in area at the 1st story, 20 ft. by 75 ft. in area at the 2nd story and 20 ft. by 49 ft. in area above.

MINUTES

OCCUPIED: 1st story, restaurant; 2nd story, show-rooms and repair of furs, 6 persons; 3rd story, offices, 5 persons; 4th story, show-rooms and mfg. of embroidery, 11 persons. EXITS: An interior wooden stairway extending from 1st story to top story, with iron ladder to scuttle in roof; enclosed in wire lath and cement partitions with wooden doors at openings; a fire escape on the front of the building extending from the top story to the 2nd story, with counter-balanced stair to street; ROOFS of adjoining buildings are approximately at the same level; and

WHEREAS, petitioner contends, in view of the small size and occupancy of the premises, that the existing means of exit are adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted on condition that a fixed iron ladder shall be provided from the top story hall to scuttle in roof, and that the fire escape shall be extended to the roof, and that the occupancy shall not exceed 6 persons on the 2nd story, 3 persons on the 5th story and 11 persons on the 4th story; and granted only so long as conditions as to occupancy and use otherwise remain substantially unchanged.

THE RESOLUTION:

(1487-24-S)

WHEREAS, H. M. Sushan, for Laude & Miskend, lessee, filed, December 19, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 333 Seventh avenue (11th story, south), Manhattan; and

WHEREAS, the order of the fire commissioner, No. 68944-LD, dated November 29, 1924, reads:

"1. Remove all partitions not built of incombustible material as per Sections 263 and 270 of the Labor Law.";

and

WHEREAS, the building is fireproof, 20 stories in height, 197 ft. by 99 ft. in area; OCCUPIED for offices, show rooms and 25 per cent manufacturing, approximately 100 persons per story; EQUIPPED with a sprinkler system, and a fire alarm signal system. EXITS: Six fireproof stairways, four extending from 1st story to bulkhead to the roof and two extending from the 1st story to the setback on the 15th story; enclosed in fireproof partitions with fire doors at openings. There are partitions separating the loft portion of the premises from the offices and show rooms; and

WHEREAS, petitioner contends that the existing dwarf partitions are in the nature of furniture and that they do not obstruct the exits, and in the upper portions of the partitions which extend to the ceiling, proposes to provide thin glass, so that there will be no impediment to the operation of the sprinkler system.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the partitions around show rooms, office and entrance hall to office and show rooms and partitions office and entrance hall to office and show rooms, on condition that the upper portion of said partitions shall be glazed with thin glass not less than 18 in. below sprinkler line; that exit door not less than 36 in. wide shall be provided in said partition, leading from workroom and opening out to exit hall; that an exit sign at least 8 in. in height shall be erected and a red light placed over such door, in addition to other means of exit; that on any floor occupied by more than one tenant, the subdividing partitions shall be arranged so as to allow independent egress to all required means of exit for each tenant; that the partition subdividing one tenant from another shall extend from the floor to ceiling; and where partition prevents the effective discharge of water from sprinkler heads, additional heads shall be provided to cover entire area, to maintain sprinkler throughout entire premises; that all interior partitions, excepting show room, office and entrance hall partitions, shall be constructed of incombustible material as specified under subdivisions A to H of section 355 of the building code, or any approved fireproof partition; and that the occupancy and use shall remain substantially unchanged.

(1489-24-S)

WHEREAS, H. M. Sushan, for Al. Benjamin & Bro., lessee, filed, December 19, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 333 Seventh avenue (9th story, north side), Manhattan; and

WHEREAS, the order of the fire commissioner, No. 68933-LD, dated November 29, 1924, reads:

"1. Remove all partitions not built of incombustible material as per sections 263 and 270 of the Labor Law."

and
WHEREAS, the building is fireproof, 20 stories in height, 197 ft. by 99 ft. in area; OCCUPIED for offices, show rooms and 25 per cent manufacturing, approximately 100 persons per story; EQUIPPED with a sprinkler system and a fire alarm signal system. EXITS: Six fireproof stairways, four extending from 1st story to bulkhead to the roof and two extending from the 1st story to the setback on the 15th story; enclosed in fireproof partitions

with fire doors at openings. There are partitions separating the loft portion of the premises from the offices and show rooms; and

WHEREAS, petitioner contends that the existing dwarf partitions are in the nature of furniture and that they do not obstruct the exits, and in the upper portions of the partitions which extend to the ceiling proposes to provide thin glass, so that there will be no impediment to the operation of the sprinkler system.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects the partitions around show rooms, office and entrance hall to office and show rooms, *on condition* that the upper portion of said partitions shall be glazed with thin glass not less than 18 in. below sprinkler line; that exit door not less than 36 in. wide shall be provided in said partition, leading direct from work room and opening out to exit hall; that an exit sign at least 8 in. in height shall be erected and a red light placed over such door, in addition to other means of exit; that on any floor occupied by more than one tenant, the subdividing partitions shall be arranged so as to allow independent egress to all required means of exit for each tenant; that the partition subdividing one tenant from another shall extend from the floor to ceiling; and where partition prevents the effective discharge of water from sprinkler heads, additional heads shall be provided to cover entire area, to maintain sprinkler throughout entire premises; that all interior partitions, excepting shown room, office and entrance hall partitions, shall be constructed of incombustible material, as specified under subdivisions A to H of section 355 of the building code, or any approved fireproof partition; and that the occupancy and use shall remain substantially unchanged.

1490-24-S.

PETITIONER—H. M. Sushan, for I. Bailey & Co., lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—333 Seventh avenue, Manhattan.

APPEARANCES—

For Petitioner: H. M. Sushan.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Superintendents Brady, Kleinert, Reville, Moore and McDermott . . . 9
Negative 0

Absent: Messrs. Kennedy, Connell, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 4

THE RESOLUTION:

(1490-24-S)

WHEREAS, H. M. Sushan, for I. Bailey & Co., lessees, filed, December 19, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 333 Seventh avenue (8th story, south side), Manhattan; and

WHEREAS, the order of the fire commissioner, No. 68929-LD, dated November 29, 1924, reads:

"1. Remove all partitions not built of incombustible material as per Sections 263 and 270 of the Labor Law."

and

There are partitions separating the loft portion of the premises from the offices and show rooms; and

WHEREAS, petitioner contends that the existing dwarf partitions are in the nature of furniture, and that they do not obstruct the exits, and in the upper portions of the partitions which extend to the ceiling proposes to provide thin glass, so that there will be no impediment to the operation of the sprinkler system.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted, only so far as it affects the partitions around show rooms, office and entrance hall to office and show rooms, on condition that the upper portion of said partitions shall be glazed with thin glass not less than 18 in. below sprinkler line; that exit door not less than 36 in. wide shall be provided in said partition leading direct from work room and opening out to exit hall; that an exit sign at least 8 in. in height shall be erected and a red light placed over such door, in addition to other means of exit; that on any floor occupied by more than one tenant, the subdividing partitions shall be arranged so as to allow independent egress to all required means of exit for each tenant; that the partition subdividing one tenant from another shall extend from the floor to ceiling; and where partition prevents the effective discharge of water from sprinkler heads, additional heads shall be provided to cover entire area, to maintain sprinkler throughout entire premises; that all interior partitions, excepting show room, office and entrance hall partitions, shall be constructed of incombustible material, as specified under subdivisions A to H of the building code, or any approved fireproof partition; and that the occupancy and use shall remain substantially unchanged.

10-25-S.

PETITIONER—Century Ribbon Mills, Inc., lessee.
SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—3402-3406 Park avenue, The Bronx.

APPEARANCES—

For Petitioner: William Melniker.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Superintendents Brady, Kleinert, Moore and McDermott 9
Negative 0
Absent: Messrs. Kennedy, Connell, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 4

THE RESOLUTION:

(10-25-S)

WHEREAS, Century Ribbon Mills, Inc., for John G. Dolson, owner, filed, January 5, 1925, a petition, with the

board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 3402-3406 Park avenue, The Bronx; and

WHEREAS, the order of the fire commissioner, dated December 16, 1924, reads:

"1. Arrange bars on windows on 2nd story, east and north side, so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress, as per Section 272 of the Labor Law."

and

WHEREAS, the building is non-fireproof, two stories in height, 51 ft. by 227 ft. in area, having one-story extension at the rear, there being two windows in the northerly wall and four windows in the easterly wall of the 2nd story covered by fixed iron bars. OCCUPIED: 1st story, laundry; 2nd story by petitioner for the manufacture of silk ribbons, approximately 35 persons above the 1st story; EQUIPPED with a sprinkler system. EXITS: An exterior fireproof stairway at the northerly side of the premises, extending from the street to 2nd story, and a fire escape on the northerly side of the building, extending from 2nd story to alley, with direct egress to street; and

WHEREAS, petitioner contends that the bars were installed at the instance of the Insurance Rating Bureau and that the removal of these bars would deprive petitioner of all protection under insurance policies, and contends further that ample means of egress are provided by the stairways and the many other windows.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted only so far as it affects the openings in the rear, easterly, wall of the building.

13-25-S.

PETITIONER—Samuel Rosenblum, for Rubin M. Katz, lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—174 Sixth avenue, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Superintendents Brady, Kleinert, Moore and McDermott 9
Negative 0
Absent: Messrs. Kennedy, Connell, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 4

THE RESOLUTION:

(13-25-S)

WHEREAS, Samuel Rosenblum, for Rubin M. Katz, owner, filed, January 5, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 174 Sixth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 31, 1924, reads:

"1. Provide an outside iron balcony fire escape on the west side of building with balconies 4 ft. in width connected by stairways not less than 22 in wide, placed at an incline of not more than 45 degrees, extending

MINUTES

from the ground to the highest story, constructed as per Section 273 of the Labor Law or carry out a proper alternative method of complying with Section 271 of the Labor Law.

"2. Extend the interior stairway at the north side of building to the roof as per Section 271 of the Labor Law.

OR

"Reduce the number of persons to 10 above the 1st story and that no factory occupancy be conducted above the 2nd story, as per resolution of the Board of Standards and Appeals. Cal. 1416-18-S.";

and

WHEREAS, the building is non-fireproof, four stories in height, 20 ft. 4 in. by 80 ft. in area at the 1st and 2nd stories and 20 ft. 4 in. by 40 ft. in area above. OCCUPIED: 1st story, cafeteria; upper stories, furrier, 20 persons above the 1st story. EXITS: An interior wooden stairway, extending from the 1st story to the top story, with iron ladder to bulkhead in roof, enclosed in wood lath and plaster partitions, with wooden doors at the openings; a party wall balcony connecting the 2nd, 3rd and 4th stories with buildings to the north, with fireproof windows opening on the balconies; these exits are not remote from one another; ROOFS of adjoining buildings to north and south are 3 ft. higher; and

WHEREAS, under Cal. No. 1416-18-S, a similar petition was granted permitting an occupancy of 10 persons above the 1st story, and petitioner now proposes to increase this occupancy to 20 persons.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted*, as to Item No. 1, *on condition* that a fire escape, with 60-degree connecting stairs, shall be provided on the front of the building, with balcony stair to roof, with connecting stairs thereto from the top story balcony and counterbalanced drop ladder in guides from the lower terminations to street level; that all openings on the course of the fire escape shall be made fireproof, self-closing; *granted* as to Item No. 2 *on condition* that fixed double rung iron ladder shall be provided from the top story hall to bulkhead in roof, and *on further condition* that the occupancy shall not exceed twenty (20) persons above the 1st story.

43-25-S.

PETITIONER—Samuel Rosenblum, for Tilmar Holding Corp., lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—141-147 West 45th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Dowd, Gunnison, Holland, Superintendents Brady, Kleinert, Reville, Moore and McDermott 9

Negative: 0

Absent: Messrs. Kennedy, Connell, Fire Chief Kenlon and Deputy Fire Commissioner Hannon 4

THE RESOLUTION:

(43-25-S)

WHEREAS, Samuel Rosenblum, for Tilmar Bldg. Corp., lessee, filed, January 10, 1925, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 141-7 West 45th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 13, 1924, reads:

"Order No. 70012-LC:

"2. Arrange the exterior screened stairway at the rear of building and the openings leading thereto so that same are in compliance with the provisions of Section 268 of the Labor Law.

"NOTE. Among the defects noted are the following:

"* * * Treads are less than 10 in. wide. * * * No fireproof passageway leading directly to street.";

and

WHEREAS, the building is fireproof, 12 stories in height, 68 ft. 7 in. by 100 ft. 5 in. in area at the 1st story and 68 ft. 7 in. by 90 ft. in area above. OCCUPIED: 1st story, stores and restaurant; 2nd and upper stories, offices, show rooms and light manufacturing, 40 persons per story. EXITS: An interior fireproof stairway, extending from the 1st story to the roof, enclosed in non-fireproof partitions with non-fireproof doors at openings; a fire escape on the rear of the building (having nine (9) in. treads) and extending from the roof to basement level, with egress from the termination of fire escape by means of fireproof passageway in basement, thence upstairs to first story to street; roofs of adjoining buildings are four and six stories lower; and

WHEREAS, petitioner proposes to fireproof the stair enclosure; provide fireproof doors at the openings therein: to screen the fire escape to a height of five (5) feet, and also to provide a fireproof door in the basement passageway just to the south of the stairway, which leads to the 1st story, so that the passageway will be cut off from the front part of the basement.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law, and that the petition be and it hereby is *granted*, only so far as it affects the tread of the exterior iron stairway, *on condition* that they shall be not less than 9 in. in width; *granted*, so far as it affects the egress from the termination of the fire escape, *on condition* that 45-degree stairs shall be provided from the lowest balcony to the yard of adjoining premises in the rear, with egress therefrom through yard of 144 West 46th street (premises in the rear) to the street; that the present fireproof passageway through the cellar and connecting to the main stair-hall shall be maintained, and that the consent of egress of the owner of premises No. 144 West 46th street shall be filed with the fire commissioner, and copy of same with the board of standards and appeals.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals, held December 9, 1924, which appeared in Bulletin No. 51, Vol. IX, are hereby corrected to read as follows:

(1183-24-A)

WHEREAS, Cornell Utilities Co., for Mrs. Gertrude G. Anstie, owner, filed, September 30, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 421 West 154th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 25419-LD, dated September 9, 1924, reads:

"1. Encase the inside storage tank with four inch terra cotta or eight inches of approved masonry, as per Rule 19, Sec. 1-a of the Fuel Oil Rules.

"2. Place fuel oil storage tank or tanks in permanent position and make hydrostatic test in the presence of an inspector from the Fire Department, as per Rule 7, Sec. 1-a of the Fuel Oil Rules.

"5. Provide a hydrostatic test of not less than one hundred pounds per square inch for all Grade B Fuel Oil Carrying Piping, as per Rule 25, Sec. 2, of the Fuel Oil Rules.

"12. Provide fuel oil burner or burners of a type approved by the Board of Standards & Appeals, as per Rule 12 of the Fuel Oil Rules.

"20. Remove all fuel oil from the premises until

Correction—The words "a storage tank buried outside the building and" omitted in line 29.

a permit has been issued by the Fire Commissioner, as per Rule 16 of the Fuel Oil Rules.";

and

WHEREAS, the building is frame, three stories in height, 20 ft. by 52 ft. in area; and

WHEREAS, a fuel oil burning system has been installed consisting of a Nokol Burner, a 55-gallon auxiliary tank; and

WHEREAS, appellant contends the tank was tested and that the piping was installed and buried prior to the adoption of the 1924 fuel oil rules and that the installation conforms with the fuel oil rules excepting that the burner is not an approved burner.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* as to Item 1 *on condition* that the tank shall be installed and maintained in accordance with the rules of the board of standards and appeals; that the appeal as to Item 2 be and it hereby is *granted* so far as it affects test, provided a certificate of factory test is filed with fire commissioner, and that the tank shall be set and installed in accordance with the fuel oil rules; that the appeal as to Item 5 be and it hereby is *granted on condition* that standard wrought-iron pipe shall be used throughout the equipment; appeal as to Item 12 be and it hereby is *granted on condition* that the oil burning equipment and installation shall comply with the fuel oil rules of the board of standards and appeals in all other respects and that the fire door of furnace shall be equipped with self-closing device; and appeal as to Item 20 be and it hereby is *granted on condition* that all the other conditions laid down in this resolution shall be complied with within twenty (20) days.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES GOVERNING FIRE EXTINGUISHING APPLIANCES— SPRINKLER SYSTEMS.

[77-25-SR]

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 7, 1925, at 2 p. m., Room 1013, Municipal Building, on proposed amendments to Rules for Fire Extinguishing Appliances, Sprinkler Rules.

General Requirements. The rules contained herein cover the general details of a sprinkler equipment only. Before an equipment is installed or before a present equipment is remodeled, complete working plans should be submitted for approval to Fire Department.

These plans shall be drawn to an indicated scale; give correct address and points of compass; show sectional elevations of the building; and the essential features of the construction, viz., size, location and direction of joists, tim-

bers or other structural members. They shall also indicate the location and size of water supplies, connecting pipes, feed mains and risers, gate, check, alarm and dry-pipe valves, as well as the location, spacing, number and type of sprinklers.

Upon approval of preliminary plans such number of sets of clean, corrected plans on cloth as the Fire Commissioner may require, not exceeding three (3), shall be filed for final approval of the Fire Commissioner. A certified copy of the approved plans shall be forwarded to the Bureau of Buildings by the Bureau of Fire Prevention. Such application and specification forms as may be prescribed by the Fire Commissioner shall accompany preliminary plans. If a standpipe (fire line) equipment is provided throughout the building, the plans shall include a note to that effect.

PUBLIC HEARING

When entirely completed in accordance with the approved plans and as per test herein provided for, application shall be made to the Bureau of Fire Prevention for inspection of the completed installation. When the sprinkler equipment is approved the applicant will be so advised in writing by the Bureau of Fire Prevention.

All sprinkler equipments shall be installed in a thoroughly workmanlike manner.

Rule 1. Definition of Automatic Extinguisher Systems. Automatic extinguisher systems shall consist of a system of piping connected to one or more acceptable sources of water supply, or other extinguishing medium, provided with distributing devices so arranged and located as to discharge and diffuse automatically under the action of heat an effective stream or spray over every part of the interior of the building area in which a fire may start or to which it may be communicated.

Rule 2. Classification of Sprinkler Systems. For the purpose of these rules, sprinkler systems shall be classified as:

(a) Automatic Wet Pipe Systems, in which all pipes and sprinkler heads are at all times filled with water;

(b) Automatic Dry Pipe Systems, in which the pipes and sprinkler heads are filled with air, either compressed or at atmospheric pressure, and the water supply is operated by a Dry Pipe Valve as defined in Rule 27 of these Rules.

(c) Non-Automatic Systems, in which all pipes and sprinkler heads are maintained dry with a fire department connection for water supply.

Thermostatic fire alarm with direct connection to Central Office or Fire Department Headquarters shall be provided in connection with all non-automatic sprinkler systems.

Rules 3. Approved Devices. Automatic Sprinklers and accessory appliances shall include all devices approved as such by the Bureau of Standards, Washington, D. C.; by the Underwriters' Laboratories, Inc., of Chicago; by the Associated Factory Mutual Laboratories of Boston; and all devices which meet the tests prescribed by the Board of Standards and Appeals.

Rule 4. Water Supply. Approved sources of water supply shall be classified as Automatic and Auxiliary.

(a) Automatic Sources shall include the Gravity Tank, the Pressure Tank, [and] the Public Water System, and the Automatic Electric Fire Pump, installed as required under the provisions of Rule 8, hereinafter provided for.

(b) Auxiliary Sources shall include the non-automatic Fire Pump and the Fire Department Connection.

Rule 5. Gravity Tank. Gravity tanks shall contain an available quantity of water sufficient to supply twenty-five per cent (25%) of the number of sprinkler heads in the average protected fire area for twenty (20) minutes, but not less than 5,000 gallons; and the bottom of the tank shall have an elevation of not less than twenty (20) feet above the highest line of sprinklers below the main roof. *When the area of a pent house exceeds 2,500 sq. ft. the bottom of the tank shall be required to be not less than 20 feet above the highest line of sprinklers below the pent house roof, but where a pent house contains only pressure tanks this rule will not apply.*

Where a tank capacity in excess of [25,000] 30,000 gallons is required by this rule, the amount of water to be provided in excess of [25,000] 30,000 gallons shall be specified by the Board of Standards and Appeals, *except when tanks of unlimited capacities are supported on structures altogether independent of buildings.*

The tank shall be filled through a fixed pipe, independent of the sprinkler piping, not less than two (2) inches in size, discharging into the top of the tank, or through a by-pass not less than two (2) inches in size around the check valve in the discharge pipe, provided the supply is of sufficient pressure to fill the tank. The water supply and connections shall be capable of supplying the tank at a rate of not less than sixty-five (65) gallons per minute.

The filling pipe shall be carried up inside a frost-proof casing and may extend through tank bottom to discharge at top of tank above full water level. The portion of pipe inside tank must be of brass or copper or other non-corrosive material.

Tanks shall not be fed through sprinkler lines.

The sprinkler and standpipe tanks may be fed from a common source of supply, either a pump or a direct service main connection, provided that there are separate feed mains from the basement or lowest story and a control valve in each feed line in a pump or engine room.

The overflow pipe shall be not less than two (2) inches in diameter for tanks up to 30,000 gallons capacity and not less than three (3) inches in diameter for larger tanks. The top of the overflow pipe shall be three (3) inches below the top of the staves in wooden tanks and one (1) inch from the top in steel tanks. The pipe may extend through the bottom of tank provided the portion inside tank is of brass or copper or other non-corrosive metal and without joints or it may extend through side of tank. For tanks over roofs overflow pipes shall terminate not more than twenty-four (24) inches above roof and shall be fitted with a 90 degree elbow.

The discharge, heating or filling pipes where exposed to the weather shall be protected from freezing by a frost-proof covering which may be of three layers of one-inch (1") hair felt interspersed with building paper well wrapped and secured and covered with canvas well painted or by frost-proof boxing as specified by the National Board of Fire Underwriters.

Easy access to top of each tank shall be provided by means of a steel gooseneck ladder substantially constructed and rigidly braced, the top of which shall not tip outward from the vertical at any point.

Tanks above roofs shall be constructed according to the requirements of the Building Code and supporting structures shall be approved by the Superintendent of Buildings. Tanks not enclosed and exposed to the weather shall be covered with a double roof of acceptable construction consisting of a tight flat cover of matched boards and above this a conical roof which shall be covered with an approved roofing.

Where a gravity tank may supply both sprinklers and yard hydrants it shall not be of less than 30,000 gallons capacity and located on a structure altogether independent of buildings and the bottom shall not be less than 75 feet above the ground level, and not less than 20 feet above the highest line of sprinklers below the main roof of the highest building in a group of buildings.

Rule 6. Pressure Tank. Pressure tanks shall contain sufficient water to supply twelve and one-half per cent (12½%) of the number of sprinklers in the average protected fire area for twenty (20) minutes, but not less than [5,000] 3,000 gallons of water for a wet pipe system where supplemented by an auxiliary water supply, and not less than 5,000 gallons of water for a dry-pipe system. No single tank shall have a capacity greater than 9,000 gallons. The tank shall be kept two-thirds (2/3) full of water under a pressure of seventy-five (75) pounds per square inch, and shall be so proportioned and located that a pressure of not less than fifteen (15) pounds per square inch will be available on the highest line of sprinklers below the main roof when all the water has been discharged from the tank.

[The tank shall be placed either on the roof or in the highest sprinklered story.]

A pressure tank or tanks shall not be located below the highest line of sprinklers supplied by tank or tanks.

Where [a tank] the total capacity of the pressure tank supply is in excess of [25,000] 30,000 gallons as required by this rule, the amount of water to be provided in excess of [25,000] 30,000 gallons shall be specified by the Board of Standards and Appeals.

The water shall be supplied through a fixed pipe, independent of the sprinkler piping, not less than [two] one and one-half (1½) inches in size [with a one and one-quarter (1¼) inch connection to the tank], or through a

PUBLIC HEARING

by-pass not less than [two (2)] *one and one-half (1½)* inches in size around the check valve in the discharge pipe provided the supply is of sufficient pressure to fill the tank. The water supply and connections shall be capable of supplying the tank at a rate of not less than sixty-five (65) gallons per minute without reducing the pressure in the tank. The tank shall have a fixed metallic horizontal line on the end opposite the glass gauge, or other acceptable device, to indicate the level of the water when the tank is two-thirds full.

The air compressor shall be of sufficient capacity to increase the air pressure at the average rate of one (1) pound in two minutes in each pressure tank.

Rule 7. Public Water System. Direct connection to the city water supply shall be capable of furnishing water at not less than fifteen (15) pounds per square inch static pressure at the highest line of sprinklers under the main roof.

Subject to the requirements of the Department of Water Supply, Gas and Electricity, the size of each connection shall be as large as that of the main riser and not less than four (4) inches, and shall have a conveniently accessible control valve fixed to it at, or near, the curb, or, when possible, still further away from the building. The control valve shall be fitted with a frost and waterproof box, not less than four (4) feet nor more than six (6) feet below the curb, with a fixed stem extending to a compartment at the level of the sidewalk. The cover shall be bolted to the casing and shall be so marked as to be quickly located and to indicate the purpose of the valve. The valve shall be of indicating pattern, operated by a special socket wrench approved by the department of water supply, gas and electricity.

Where it is impractical to install a control valve box at the curb because of a vault under the sidewalk and within 18" thereof, the control valve may be located in the water supply connection at a point not more than two (2) feet from the point of entry into a vault.

Where a water meter is required in the water supply connection to an automatic sprinkler equipment, it shall be of a type which allows free flow of water and approved by the Department of Water Supply, Gas and Electricity, or a type of fire line meter which has been specifically approved by the Fire Commissioner for use in connection with fire extinguishing equipment.

Evidence establishing the fact that water supply conditions and pressures are as may be required shall be submitted to the Fire Department.

Rule 8. Fire Pump. An automatic electric fire pump as an automatic source of water supply is one approved for such use and controlled by an approved automatic controlling device, which shall be adjusted to maintain not less than 15 pounds water pressure at the highest sprinkler below main roof and in pent houses over 2,500 sq. ft., as provided in Rule 5. And shall receive water supply only from a direct connection to the city water main.

As auxiliary sources of water supply steam or electric standard fire pumps shall receive water supply from a suction tank, a direct connection to the city water main or other approved sources capable of supplying the pump at its rated capacity for sixty (60) minutes. The rated capacity of the pump shall be not less than five hundred (500) gallons per minute, and shall be sufficient to supply twenty-five per cent (25%) of the number of sprinklers in the average protected fire area.

The pump shall be located in a room of fireproof construction, properly ventilated, lighted and drained, enclosed in eight (8) inch brick or concrete walls with approved fire doors at openings and with fireproof floor and ceiling construction. If located in the lowest story of the building, the pump shall be placed on a foundation not less than one (1) foot in height. The pump room shall be readily accessible with safe egress for the attendant.

A reliable source of energy for driving the pump shall

be provided. For steam pumps, provision shall be made for sufficient steam power to operate the pumps at full rated capacity, and a steam pressure of not less than fifty (50) pounds shall be maintained at the pump at all times. Where there is more than one boiler, the pipes and valves shall be so arranged to permit the cutting out of any one boiler without interrupting the steam supply to the pump from the other boilers. The boiler room shall be cut off from the remainder of the building by fireproof floor and wall construction with approved fire doors at all openings.

Electrical energy from a public service plant shall be acceptable as a source of energy for driving electric fire pumps. When local power plants supply the energy for operating electric pumps, two motor generator units shall be provided, or one generator unit supplemented by a public service break-down switch. Local electric power plants shall be located in rooms of fireproof construction with approved fire doors at openings.

Rule 9. Sprinkler Discharge. For the purpose of computing the capacity of water supplies, standard one-half (½) inch sprinkler heads shall be assumed to have an average discharge of twenty (20) gallons per minute, and the discharge of larger heads shall be computed proportionately in the ratio of the areas of their respective orifices.

Rule 10. Fire Area. A fire area is any floor space enclosed on all sides by exterior walls or fire walls or a combination of both. The number of sprinklers in the average protected fire area shall be determined by the number of sprinklered stories in such section. In determining the required capacity of water supplies, the number of sprinklers in the average protected fire area need not include those located in low positions, such as under benches, low shelves, closets and platforms and between cars in car barns.

Rule 11. Fire Department Connection. All automatic sprinkler systems shall be provided with at least one two-way Siamese connection on each street front of the building for connection to the fire department hose. Buildings fronting on only one street shall be provided with at least two Siamese connections when the street frontage of building exceeds [one hundred and fifty (150)] *two hundred (200)* feet [in width].

Where buildings have frontages on more than one street there shall be a fire department connection on each street front where frontage is not continuous but in all cases where more than one fire department connection is required they shall be located as the Fire Commissioner may direct and shall not be grouped.

All Siamese hose connections hereafter installed, except those on piers or warehouses intended for fire boat use, shall be three (3) inches in size. Fire boat connections shall be three and one-half (3½) inches in size. All hose connections shall be female, with standard fire department threads.

The inlets shall be placed at least eighteen (18) inches and not more than two (2) feet above the sidewalk, in a horizontal position accessible to the fire department, and shall be provided with a four (4) inch discharge connecting with a four (4) inch pipe to the sprinkler system for three (3) inch fire department connection and with a six (6) inch discharge outlet and six (6) inch pipe for three and one-half (3½) inch fire boat connection. Each inlet shall be provided with a clapper valve machined to a true face.

Each Siamese connection shall be designated by raised letters at least one (1) inch in size, cast in the fitting in a clear and prominent manner and reading for the service designated, viz.: "Base. Spkr.," etc., as the case may be. If the entire building is sprinklered, the fitting shall be marked "Auto. Spkr."

Siamese hose connections may project through a street wall not more than twelve (12) inches beyond the building line except that where there is an angle formed by the street

PUBLIC HEARING

wall and a check piece or the base of a column, pilaster or ornamental projection, they may be so located that no part extends more than fifteen (15) inches from either side of such angle in accordance with the provisions of the Building Code.

In each fire department connection there shall be an approved straightway check valve installed in a horizontal position, unless suitably designed for vertical position, and the piping shall be arranged to drain between the check valve and the outside siamese coupling by either a ball drip having a one-half ($\frac{1}{2}$) inch pipe connection and one-half ($\frac{1}{2}$) inch orifice and a bronze ball of proper size, or by a three-quarter ($\frac{3}{4}$) inch drip connection, with plugged valve attached, and when necessary arranged to drain to a sewer. A drain connection may be tapped into the body of check valve only when located in a horizontal position.

Rule 12. Automatic Sprinkler Systems. Automatic sprinkler systems shall be classified as:

(a) One Source Systems, supplied with water from any one of the automatic sources; and

(b) Two Source Systems, supplied with water from a combination of any two of the automatic sources; two pressure tanks with a total water capacity twice that required for a one source supply; direct connection to the city water supply on two different streets, so located that the closing of the controlling valve on one main will not eliminate the main on the other street; or a direct connection to the city water supply and one of the auxiliary sources provided the water supply main is at least six (6) inches in size, the main is fed both ways and a two (2) inch test pipe at the top of the sprinkler riser shows a flowing pressure of fifteen (15) pounds per square inch between the hours of six a. m. to six p. m.

A gravity tank and pressure tank, or a gravity tank or pressure tank and one of the automatic sources or two pressure tanks having a total water capacity for a one-source supply may be considered as a two-source supply where the occupancy of the building does not conflict with Rules 38, 39 and 40 hereinafter provided for.

Rule 13. Sprinkler Spacing. Sprinkler heads and lines shall be spaced as herein provided:

Mill Construction. Under mill ceiling (smooth solid plank and timber construction, 5 to 12 foot bays) one line of sprinklers shall be placed in the center of each bay and the distance between the heads on each line shall not exceed the following:

(a) For Standard one-half ($\frac{1}{2}$) inch heads—

- 8 feet in 12 foot bays;
- 9 feet in 11 foot bays;
- 10 feet in 10 foot bays;
- 11 feet in 9 foot bays;
- 12 feet in 5 to 8 foot bays;

(b) For Conran* one (1) inch heads—

- 20 feet in 5 to 12 foot bays.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads—

- 25 feet in 5 to 12 foot bays.

(d) Vaults used for the storage of nitro-cellulose products and vaults used for the storage of inflammable motion picture films shall have one standard one-half ($\frac{1}{2}$) inch head for each 62½ cubic feet of available storage space, or one (1) inch Conran* head for each 250 cubic feet of available storage space.

Measurements shall be taken from center to center of timbers.

*Wherever the term "Conran head" is used in these Rules, it is to be taken as meaning either a Conran head of the type tested and approved by the Fire Department, or one that has passed similar tests by the Fire Department.

Ceilings of modified mill construction having bays less than three (3) feet wide shall be treated as open joist construction and sprinkler heads and lines spaced accordingly.

Bay timbers spaced three (3) feet or more on centers, but less than five (5) feet on centers, will require special ruling by the administrative official having jurisdiction.

Joisted Construction. Under open finish joisted construction ceilings, floor, decks and roofs, the sprinkler lines shall be run at right angles to the joists and the heads "Staggered spaced" so that heads on one line will be opposite a point half way between heads on adjacent lines.

(a) For Standard one-half ($\frac{1}{2}$) inch heads the distance between lines of sprinklers shall not exceed ten (10) feet, and the distance between heads on each line shall not exceed eight (8) feet, the end heads on alternate lines being spaced not more than two (2) feet from wall or partition. Permission may be given by the administrative official having jurisdiction to install but one line of sprinklers, in each bay where girders project below the under side of joists and divide the ceiling into bays ten (10) to eleven and one-half ($11\frac{1}{2}$) feet wide from center to center of girders, and the heads shall then be spaced on each line so that the area covered by a single head does not exceed eighty (80) square feet. In all cases where such bays are over eleven and one-half ($11\frac{1}{2}$) feet wide, two or more lines of sprinklers shall be installed in each bay as required by the rules for spacing. Where girders and joists are flush at the bottom, heads shall be spaced according to the general rule.

(b) For Conran* one (1) inch heads the distance between adjacent lines shall not exceed twenty (20) feet and the distance between the heads on each line shall not exceed sixteen (16) feet, the end heads on alternate lines being spaced not more than four (4) feet from wall or partition. Where girders project below the under side of joists and divide the ceiling into bays not exceeding twenty (20) feet in width, measured from center to center of girders, one line shall be placed in the center of each bay. In bays exceeding twenty (20) feet in width at least two (2) lines shall be installed in each bay and in no case shall the distance between adjacent lines exceed twenty (20) feet.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads the distance between adjacent lines shall not exceed twenty-five (25) feet and the distance between the head on each line shall not exceed twenty (20) feet, the end head on alternate lines being spaced not more than five (5) feet from wall or partition. Where girders project below the under side of joists and divide the ceiling into bays not exceeding twenty-five (25) feet in width, measured from center to center of girders, one line shall be placed in the center of each bay. In bays exceeding twenty-five (25) feet in width at least two (2) lines shall be installed in each bay, and in no case shall the distance between adjacent lines exceed twenty-five (25) feet.

Smooth Finish, Sheathed or Plastered Ceilings. Under smooth finish, sheathed or plastered ceilings, in bays six (6) feet wide and over (measurements to be taken from center to center of timber, girder or other projection or support forming the bay), sprinkler heads and lines shall be spaced as follows:

(a) For standard one-half ($\frac{1}{2}$) inch heads—

One line of sprinklers shall be placed in the center of each bay for bays not exceeding twelve (12) feet in width, and the distance between the heads on each line shall not exceed the following:

- 8 feet in 12 foot bays;
- 9 feet in 11 foot bays;
- 10 feet in 6 to 10 foot bays.

Bays in excess of twelve (12) feet in width and less than twenty-three (23) feet in width, shall contain at least two (2) lines of sprinklers; bays twenty-three (23) feet in width or over shall have the lines therein not over ten (10) feet apart. In bays in excess of twelve (12) feet in width, not more than one hundred (100) square feet of ceiling area shall be allotted to any single head.

PUBLIC HEARING

(b) For Conran* one (1) inch heads—

One line of sprinklers shall be placed in the center of each bay for bays not exceeding twenty (20) feet in width, and the distance between the heads on each line shall not exceed twenty (20) feet. Bays in excess of twenty (20) feet in width shall contain at least two (2) lines and in no case shall the distance between adjacent lines exceed twenty (20) feet.

(c) For Conran* one and one-quarter (1¼) inch heads—

One line of sprinklers shall be placed in the center of each bay for bays not exceeding twenty-five (25) feet in width and the distance between the heads on each line shall not exceed twenty-five (25) feet. Bays in excess of twenty-five (25) feet in width shall contain at least two (2) lines and in no case shall the distance between adjacent lines exceed twenty-five (25) feet.

Fireproof Construction. The rules of slow-burning mill construction shall apply as far as practicable. The rule may be modified, however, the intent being to arrange the spacing of heads to protect the contents rather than the ceilings; but in no case shall the distance between a head on one line and a head on an adjacent line exceed the following:

(a) For standard one-half (½) inch heads, 12 feet.

(b) For Conran one (1) inch heads, 20 feet.

(c) For Conran one and one-quarter (1¼) inch heads, 25 feet.

Distance From Walls. The distance from wall or partition to the first head on a sprinkler line shall not exceed one-half the allowable distance between the heads on such line. Additional heads may be required in the narrow pockets formed by bay timbers or beams and wall. Where beams, girders, columns, walls, partitions or other obstructions prevent the effective discharge of water, additional heads shall be installed to effectively sprinkle the area.

Vertical Shafts. In vertical shafts having inflammable sides, heads shall be provided within the shaft in addition to the head or heads at the tops of shafts, as follows:

(a) One standard one-half (½) inch head for each 200 square feet of inflammable surface.

(b) One Conran* one (1) inch head for each 400 square feet of inflammable surface.

(c) One Conran* one and one-quarter (1¼) inch head for each 500 square feet of inflammable surface.

Such head or heads shall be installed at each floor when practicable, and always when shaft is trapped. Where practicable, heads shall be "staggered" at the alternate floor levels, particularly when only one head is installed at each floor level.

Pitched Roofs. Under a pitched roof sloping more steeply than one (1) foot in three (3) feet, heads shall be located in peak of roof, and those on either side of the peak shall be spaced according to the foregoing requirements. The distance between heads shall be measured on a line parallel with the roof. Where the roof meets the side wall or the floor line, the heads shall be placed not more than the following distance from such intersection:

(a) For standard one-half (½) inch heads, 3½ feet.

(b) For Conran* one (1) inch heads, 7 feet.

(c) For Conran* one and one-quarter (1¼) inch heads, 8½ feet.

Heads spaced not to exceed the following distance each way from the peak of roof, measured on a line parallel with the roof, may be used in lieu of heads located in peak of roof:

(a) For standard one-half (½) inch heads, 2½ feet.

(b) For Conran* one (1) inch heads, 5 feet.

(c) For Conran* one and one-quarter (1¼) inch heads, 6¼ feet

In sawtooth roof construction, the end heads on the branch line shall be spaced not to exceed the following distance from the peak of the sawtooth:

(a) For standard one-half (½) inch heads, 2½ feet.

(b) For Conran* one (1) inch heads, 5 feet.

(c) For Conran* one and one-quarter (1¼) inch heads, 6¼ feet.

Special Locations and Variations. In special locations, such as over electric generating, power and transforming apparatus, over their controlling devices and switchboards, where water from the fire extinguishing equipment would be detrimental, the sprinkler lines and heads may be omitted at the discretion of the administrative official having jurisdiction, and when in his judgment a slight variation of this rule of spacing is desirable to effect a more efficient distribution of water for fire extinguishing purposes, the sprinkler lines and heads shall be spaced as he may direct.

Rule 14. Sprinkler Position. All sprinkler heads shall be located, wherever possible, in an upright position on top of the pipes, except that sprinkler heads on automatic wet pipe systems may be pendant on concealed piping and when construction or occupancy of a room or enclosure makes it preferable.

(a) Where standard one-half (½) inch heads are installed sprinkler deflectors shall be parallel to ceilings, roofs or the incline of stairs, but when installed in the peak of a pitched roof they shall be horizontal. Distance of deflectors from ceilings of mill or other smooth construction, or bottom of joists of open joist construction, shall be not less than three (3) inches nor more than ten (10) inches.

In fireproof buildings, the distance between deflectors and panel ceilings shall not exceed fifteen (15) inches.

Not less than eighteen (18) inches effective clear space shall be left below the sprinkler heads, so that they may discharge an unbroken spray blanket from sprinkler to sprinkler and sides of room when in operation. Any stock piles, racks or other obstructions interfering with such action shall not be permitted. *Sprinkler system piping shall not be used for the support of stock, clothing, etc.*

(b) Where Conran* heads are installed, the top of head shall be located the same distance below joists or ceiling as specified for deflectors in paragraph (a) of this rule; except that when heads are located under pitched roofs of piers or similar structures, they shall in general be installed in the upright position (not normal to slope of roof) and three (3) feet vertically below the underside of roof. When the administrative official having jurisdiction deems a variation of this rule advisable to obtain a more efficient distribution of water, the heads shall be located with respect to joists or ceiling, as he may direct.

Rule 15. Pipe Sizes. The number of heads on a given size pipe in one fire area in any story shall not exceed the following:

(a) For standard one-half (½) inch heads—

Size of Pipe	Maximum No. of Heads Allowed
¾ inch	1 head
1	2 heads
1¼	3 "
1½	5 "
2	10 "
2½	20 "
3	36 "
3½	55 "
4	80 "
5	140 "
6	200 "
7	300 "
8	420 "

(b) For Conran* one (1) inch heads—

Size of Pipe	Maximum No. of Heads Allowed
1 inch	1 head
1¼	2 heads
1½	3 "
2	4 "
2½	6 "

PUBLIC HEARING

3	"	9	"
4	"	18	"
5	"	34	"
6	"	51	"
7	"	75	"
8	"	105	"

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads—

Size of Pipe	Maximum No. of Heads Allowed
$1\frac{1}{4}$ inch	1 head
$1\frac{1}{2}$ "	2 heads
2 "	3 "
$2\frac{1}{2}$ "	4 "
3 "	6 "
4 "	12 "
5 "	21 "
6 "	40 "
7 "	60 "
8 "	84 "

When it is desired to use pipe of larger size than eight (8) inches in diameter, special ruling will be required by the administrative official having jurisdiction as to the permissibility of its use and the number of heads that may be fed thereby.

Where practicable, it is desirable to arrange the piping so that the number of heads on a branch line will not exceed eight.

When the piping is arranged on the "gridiron" plan, the permissible number of heads may be doubled, provided the feed main is of the size indicated in the schedule for the total number of heads.

Where feed mains supply branch lines of only two heads each, the conditions approach those of long single lines. Such feed mains shall usually be centrally supplied where there are over eight (8) or ten (10) branch lines. Branch lines up to fourteen (14) in number may be fed from end, provided a two and one-half ($2\frac{1}{2}$) inch pipe does not supply more than sixteen (16) standard one-half ($\frac{1}{2}$) inch heads, in lieu of twenty (20).

Buildings having slatted floors, or large unprotected floor openings without approved stops, shall be treated as one room with reference to the pipe sizes, and the feed main shall be of sufficient size to accommodate the number of heads called for. Larger pipe sizes than are allowed in the schedule for a given number of heads may be required wherever the construction or conditions introduce unusually long runs of feed mains or many angles. Buildings with blind attics with small unprotected openings to floor below, may be piped from the system on the ceiling of floor below, provided pipe size schedule is not overloaded on sizes three (3) inches or under.

Rule 16. Feed Mains. The size of feed mains shall not be less than the size of riser and shall be arranged to run as direct as possible from source of water supply to riser.

Feed mains for stair or other towers without approved stops between floors, when piped on independent riser, shall be of sufficient size to accommodate the total number of sprinklers in such tower.

Rule 17. Risers. There shall be one or more separate risers in each building and in each section of the building divided by fire walls. Risers shall be arranged to provide "Center Central" or "Side Central" supply to feed main. Each riser shall be of sufficient size to supply all the heads on said riser in one story, according to the schedule of pipe sizes in Rule 15.

In buildings of fireproof construction, and for the purposes of this rule, a blank wall, or one in which the openings are protected by standard fire doors, may be considered as a fire wall, if of equivalent construction.

If the conditions warrant, special permission will be granted allowing the heads in a fire section of small area to be fed from the risers in another section, provided the total number of heads in such area does not exceed the following number per floor:

(a) For standard one-half ($\frac{1}{2}$) inch heads, 48.

(b) For Conran* one (1) inch heads, 12.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads, 8.

Risers shall not be located close to windows, properly protected from mechanical injury and freezing and shall be properly supported on foundations and by floor plates, clamps, couplings or hangers.

No connections, such as for sill cocks, house service or hose outlets, shall be made with a sprinkler system riser or any part thereof.

Where gravity and pressure tanks feed through a common discharge pipe or "dead riser" to the foot of a riser and an air lock is likely to develop the discharge pipe of the gravity tank shall connect with the discharge pipe, or "dead riser", forty (40) feet below the bottom of the pressure tank.

Rule 18. Pipes and Fittings. All pipe shall be full-weight standard wrought iron or steel threaded pipe, well reamed and screwed up tight into fittings without reducing the waterway. Fittings shall be standard cast iron fittings, and shall be long turn pattern on feed mains and risers.

Such fittings shall be designed and guaranteed for a working pressure of 150 pounds per square inch and must be capable of withstanding a hydrostatic test pressure of 750 pounds per square inch without failure.

All pipe shall be secured to the ceiling, walls and other parts of the building with standard steel, wrought or malleable iron hangers.

Extra heavy fittings shall be employed where the normal pressure in the pipe system exceeds one hundred and fifty (150) pounds per square inch, and shall be designed for a working pressure of 250 pounds per square inch and be capable of withstanding a hydrostatic test pressure of 1,250 pounds per square inch without failure.

All underground pipe shall comply with the specifications for cast iron pipe of the American Water Works Association.

Rule 19. Protection of Pipes and Sprinklers. When exposed to moisture, sprinkler pipes and hangers shall be protected against corrosion whenever found necessary by thoroughly cleaning the pipe of all scale and grease and painting with a coat of red lead and linseed oil paint or other acceptable moisture resistive paint. When exposed to chemical fumes, the pipe and fittings shall be coated with graphite or other approved chemical resistive paint. Care shall be taken not to paint the sprinkler heads.

Supply pipes of risers in low basements or low spaces under ground floors exposed to frost, shall be properly protected by a masonry or wood enclosure, properly heated, or filled with mineral wool, sawdust or tar mixed with granulated cork, extending below bottom of pipe and through the top flooring of ground floor, or the pipe shall be protected with three alternate layers of one-inch hair felt and building paper or by other approved method. When of wood, such enclosure shall be constructed double with a layer of tar paper between the two thicknesses of wood.

Where risers, drains, heating pipes, etc., pass through cinder concrete floors or partitions, they shall be protected with a metal sleeve or be grouted with cement mortar.

Wherever sprinklers are exposed to corrosion, the heads shall be protected with an approved hermetically sealed cover, or with an approved wax coating.

Rule 20. Drainage. All sprinkler pipe and fittings shall be so installed that they can be thoroughly drained, and where practicable, all piping shall be arranged to drain at the main drips.

Drains or drip pipes shall be so arranged as not to expose any part of the sprinkler system to frost, and shall be so connected, either by check valves or other means, that they will not [overthrow] overflow domestic service or other connections to the same sewer or house drain, or if carried through the wall and exposed to the weather, they shall be fitted with hoods or down-turned elbows.

Drains, pitched not less than one-quarter ($\frac{1}{4}$) inch in ten (10) feet, shall be installed:

- At the base of the main riser;
- At each alarm valve;
- At each dry-pipe valve;
- At each gravity tank;
- At each pressure tank.

PUBLIC HEARING

At each fire department connection;
On each floor, if independent floor control valves are used;
and

At each supply main, when the water in the same cannot be removed through any of the above drains. Such drains shall be installed with controlling valves so that flow tests may be made to determine if the water supplies or connections from yard mains to the inside of the building are in order without causing water damage or overflowing service connections to the same house drain. Any such drain shall be not less than two (2) inches in size except that drains at independent floor valves [may be one and one-quarter ($1\frac{1}{4}$) inches in size] shall be not less than 1 inch in size where floor valves are not over $2\frac{1}{2}$ inches in size and $1\frac{1}{4}$ inches where floor valves are larger, and connected to a main drain riser of not less than $1\frac{1}{2}$ inches in size. The drain at the main riser shall discharge into a cone or tight drain, or if carried through the wall and exposed to the weather, it shall be fitted with a hood or down-turned elbow.

At an alarm valve at the top of a riser in a down-fed system a drain shall not be required.

At each gravity or pressure tank erected above roof of a building there shall be a 4-inch valved drain connection so arranged as to discharge on roof of building. And where a tank is on a separate structure altogether independent of buildings drain connection to be arranged to discharge at ground level.

On automatic wet pipe systems, the horizontal branch pipes shall be pitched not less than one-quarter ($\frac{1}{4}$) inch in ten (10) feet to drain towards the sources of supply with drip valves at the low points.

On automatic dry-pipe systems, branch pipes shall be pitched at least one-half ($\frac{1}{2}$) inch in ten (10) feet.

Rule 21. Test Pipe. [On] In all wet-pipe automatic sprinkler systems a test pipe of not less than $\frac{3}{4}$ inch in diameter shall be connected directly with each [riser] system but shall be connected to a pipe of not less than $1\frac{3}{4}$ inches in diameter in upper story and arranged to discharge, through a $\frac{1}{2}$ -inch brass outlet, preferably to a point where it can readily be seen. With long runs or many angles, size of test pipe [shall] should be increased to one (1) inch or larger. Controlling valve should be located at a sufficient distance from where the test pipe passes through the wall of the building so as to reduce to a minimum the chance of freezing of water in test pipe.

In all dry-pipe automatic sprinkler systems a $\frac{3}{4}$ -inch inspector's test pipe shall be installed at the end of the most distant branch line and fitted with a $\frac{3}{4}$ -inch shut-off valve stopped with a brass plug.

Rule 22. Pressure Gauges. A four and one-half ($4\frac{1}{2}$) inch double-spring Bourdon pressure gauge shall be provided in all automatic sprinkler systems as follows:

- Above dry-pipe valves;
- Below dry-pipe valves;
- At the pressure tank;
- At the air compressor;
- Above the alarm valve;
- Below the alarm valve; and

In the connections from city water supply.

Provision may be made for taking the pressure both above and below the alarm valve and the dry-pipe valve with only one gauge at each valve.

A gauge shall not be required at an alarm valve located at the top of a riser in a down-fed system.

Gauge connections shall be taken from the supply main or riser and not from the two-inch drain or test pipe.

Gauges shall be installed in a suitable place protected from freezing and be controlled by a valve with arrangements for draining. A plugged outlet, not less than one-quarter ($\frac{1}{4}$) inch in size, shall be located between each valve and gauge for purpose of installing the inspector's gauge.

Rule 23. Valves. All valves two (2) inches in diameter and under shall be of brass or bronze, or other approved [non-corrodible] non-corrosive material. Valves over two (2) inches in diameter shall be of brass, or bronze or iron

body, brass mounted, or of other approved [non-corrodible] non-corrosive material.

All sidewalk Siamcese inlet valves, caps and chains shall be of galvanized cast iron or other approved [non-corrodible] non-corrosive material.

All gate valves shall be solid or double wedge disc, sufficing box pattern with hand wheel, outside screw and yoke, or other approved indicator pattern.

All check valves shall be approved straight way regrinding pattern, so built that the clappers may be readily removed for repairs.

Rule 24. Water Supply Gate Valves. The piping connecting each source of water supply with the sprinkler system shall be provided with a gate valve of the outside screw and yoke type, sealed open and tagged to designate its purpose, so located as to control each source of water supply except that from fire department hose connections. All such gate valves shall be located within the building where easily visible and readily accessible and as close as possible to the supply inlet.

Rule 25. Water Supply Check Valves. The piping connecting each source of water supply with the sprinkler system, including fire department connections, shall be provided with a check valve.

On two-source systems, check valves shall have a gate valve on each side to permit repair of check without shutting off both supplies, except that where the two sources of supply consist of tanks located above the highest line of sprinklers, a gate valve need only be provided on the downstream side of each check valve.

Rule 26. Control Valves. All automatic sprinkler systems shall be provided with a main control or shutoff valve arranged to be readily accessible and sealed in the open position; except that when the sprinkler system is fed from water supplies on the roof of the building, independent and readily accessible floor control valves, sealed in the open position, may be installed.

When not more than ten (10) standard one-half ($\frac{1}{2}$) inch sprinkler heads or three (3) Conran* heads in any automatic wet pipe system are exposed to cold and subject to freezing, shutoff valves may be provided to discontinue the water supply to such heads between November 1 and April 1. A greater number of heads than specified above, located in places which cannot be properly heated, shall be controlled by an automatic dry-pipe valve.

Rule 27. Dry-Pipe Valves. A dry-pipe valve shall be taken to mean a valve automatically controlling the water supply of the sprinkler system in such a manner that under normal conditions its piping system beyond the valve is maintained dry, but in the event of fire, the valve automatically releases the water into the sprinkler system, for fire extinguishing purposes.

Dry-pipe valves shall, for the purpose of these rules, be classified as follows:

Type A, in which the valve is actuated by the release of compressed air in the sprinkler piping system, due to the opening of a sprinkler head; and

Type B, in which the valve is actuated by an approved trip under electric control of an approved automatic thermostatic fire alarm system.

Dry-pipe valves shall be located as near as practicable to the sprinkler system in an enclosed and accessible place protected from mechanical injury and freezing.

When anti-columning pipes are used, they shall be either lead lined or of brass.

Automatic wet-pipe sprinkler systems in which only twenty-five (25) per cent of the heads are required to be maintained dry for protection from freezing, shall have only such heads under dry-pipe valve control.

(a) When "Type A" valve is installed, the air pressure in sprinkler systems under such dry-pipe valve control shall not exceed forty (40) pounds per square inch, nor be permitted to fall below twenty-five (25) pounds per square inch, nor shall it be less than one-sixth ($1/6$) of the water pressure in any case.

The air compressor shall have a capacity of not less than

PUBLIC HEARING

eleven (11) cubic feet per minute and the air supply for the pump shall be taken, if possible, from a room containing dry air, or it shall be passed through a drying chamber containing calcium chloride, in order to avoid the introduction of moisture into the system.

The air pressure on such dry-pipe systems shall be maintained throughout the year.

Not more than the following number of heads shall be controlled by one "Type A" dry-pipe valve:

- (a) For standard one-half ($\frac{1}{2}$) inch heads400
- (b) For Conran* one (1) inch heads100
- (c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads 64

Where equipped with an approved quick-opening device the following number of heads may be controlled by one "Type A" dry-pipe valve:

- (a) For Standard one-half ($\frac{1}{2}$) inch heads800
- (b) For Conran* one (1) inch heads200
- (c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads.128

(b) When "Type B" valve is installed the actuating alarm system shall be designed to operate at a temperature lower than that required to open the sprinkler heads, and all connections between the alarm system and the dry-pipe valve shall be adequately protected against injury of any kind.

When required by the administrative official having jurisdiction, the dead end of every feed main in such dry-pipe system shall be provided with an air relief valve or vent, so constructed as to be normally open in order to permit the free escape of air from the system, but to close automatically against the escape of water.

Not more than the following number of heads shall be controlled by one "Type B" dry-pipe valve:

- (a) For Standard one-half ($\frac{1}{2}$) inch heads500
- (b) For Conran* one (1) inch heads125
- (c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads. 84

Rule 28. Alarm Valve. All automatic wet pipe sprinkler systems shall be equipped with an alarm valve so constructed that a flow of water through a one-half ($\frac{1}{2}$) inch orifice will operate an electric or mechanical gong.

Dry pipe valves shall be equipped with a reliable device to give either an electrical or mechanical alarm.

Rule 29. High and Low Water and Pressure Alarm. All gravity tanks shall be equipped with a device to indicate when the water falls below or rises above the normal level in the tank, with an indicator or alarm located in the engineer's room near the pump.

All pressure tanks shall be equipped with a device to indicate when the pressure in the tank falls below seventy (70) or rises above eighty (80) pounds per square inch with an indicator or alarm located in the engineer's room [near the compressor.].

Rule 30. Heating of Tanks. The water in all sprinkler tanks subject to freezing shall be protected by internally heating the water or enclosing the tank in a frost-proof house properly heated and lighted.

Rule 31. Concealed Pipe Systems. All pipe in concealed pipe systems shall be of standard full-weight wrought iron or steel, painted with two coats of protective paint, one before and one after installation. Such pipe shall be installed in ducts or be encased in cement mortar and shall be inspected prior to concealment. When installed in the concealed space between floor arches and ceiling, such pipe shall be supported by hangers and all pipe, fittings and hangers be protected with two coats of paint.

Rule 32. Preparation of Building. Floor or wall openings and other structural defects which prevent the banking up of heated air and retard the automatic action of sprinkler heads shall be provided with the necessary curtain boards and draft stops to permit specific control of the fire by the local sprinklers.

Curtain boards shall project at least three (3) inches below the lowest sprinkler.

Rule 33. Approval of Sprinkler System [Tests]. Before acceptance all automatic sprinkler systems, excluding the water supply tanks, shall be subjected after installation to a hydrostatic pressure of a test of at least fifty (50) pounds per square inch in excess of that which will be normally carried and observed in the sprinkler system such test

pressure, however, never to be less than one hundred and fifty (150) pounds per square inch in any part of the system.

All pressure tanks shall be tested after erection to a test pressure of one and one-half ($1\frac{1}{2}$) times the working pressure. To prevent the possibility of serious water damage in case of a break, the pressure shall be maintained by a small pump, the main controlling gate being meanwhile kept shut. Brine or other corrosive chemicals shall not be used for testing systems.

In automatic dry-pipe systems with "Type A" valve control, an air pressure of forty (40) pounds per square inch shall be pumped up, be held for twenty-four (24) hours, and all leaks stopped which allow a loss of pressure of over two (2) pounds per square inch for the twenty-four (24) hours.

In the case of automatic dry-pipe systems with differential "Type A" valve, the valve shall be held off its seat during the test to prevent injuring the valve.

Non-automatic systems shall be tested after installation at not less than fifty (50) pounds per square inch in excess of the pressure necessary to reach the highest line of sprinklers.

All tests of installed systems shall be made by the contractor in the presence of the Fire Commissioner, or his authorized representative.

No piping, devices nor any portion of a newly constructed sprinkler system shall be covered up or permanently concealed until tested by the Bureau of Fire Prevention and approved of in writing, except piping passing through floors, walls, partitions or beams for distances equal to the thickness of such floors, walls, partitions or beams.

Rule 34. Non-fireproof Business Buildings. Automatic sprinklers required in non-fireproof business buildings under the provisions of Chapter 5, Article 4, Section 72, Code of Ordinances, unless otherwise specifically provided in these rules, shall consist of at least a One Source System.

Rule 35. Dangerous or Hazardous Buildings. Automatic sprinklers required in buildings having occupancies considered to be dangerous or hazardous by the Fire Commissioner shall consist of at least a one-source system unless otherwise specifically provided for in these rules.

Rule 36. Factories and other Buildings. Automatic sprinklers required in buildings under the provisions of the Code of Ordinances and the Labor Law shall consist of at least a one-source system.

Rule [35] 37. Theatre Buildings. Automatic sprinklers required in theatre buildings under the provisions of Chapter 5, Article 25, Section 524, Code of Ordinances, shall consist of at least a One Source System.

Rule [36] 38. Firework Storage. Automatic sprinklers required in buildings in which fireworks are stored or sold under the provisions of Chapter 10, Article 6, Section 92, Code of Ordinances, shall consist of a Two Source System.

Rule [37] 39. Nitro-Cellulose Products. Automatic sprinklers as required in buildings in which nitro-cellulose products are stored under the provisions of Chapter 10, Article 19, Section 232, Code of Ordinances, shall consist of a system supplied from both approved gravity tank supply and an approved pressure tank supply, except that no change shall be required in supplies to automatic sprinkler equipments previously approved by the Fire Commissioner as two source systems, in conformity with the provisions of this rule as in force up to December 1, 1921.

In buildings wherein are stored or handled only limited quantities of nitro-cellulose products, not exceeding 500 pounds, the automatic sprinklers may consist of a two source system as provided for in Rule 12.

Rule [38] 40. Inflammable Motion-Picture Films. Automatic sprinklers, required in buildings in which inflammable motion-picture films are stored under the provisions of Chapter 10, Article 20, Section 241, Code of Ordinances, shall consist of a system supplied from both an approved gravity tank supply and an approved pressure tank supply except that no change shall be required in supplies to automatic sprinkler equipments previously approved by the Fire Com-

PUBLIC HEARING

missioner as two source systems in conformity with the provisions of this rule as in force up to December 1st, 1921.

Rule [39] 41. Existing Installations and Approvals. Automatic extinguisher systems and devices heretofore approved and accepted by the authorities having jurisdiction shall not be required to conform to the provisions of these rules; and all such systems heretofore installed shall not be required to be altered to conform to these rules so long as the fire hazard due to construction and occupancy of the building is not increased or where substantial additions or extensions in height or area is made to the building when these rules shall apply if deemed advisable or necessary by the Fire Commissioner and the system after inspection is found to be in good working order.

Rule 42. Communicating Openings. When a building fully equipped with sprinklers communicates with another not so equipped the openings must be protected by approved fire doors on both sides of the wall, one of which must be automatic.

Rule 43. Maintenance Inspections. Automatic sprinkler

systems shall be inspected at least once a month by the person in charge of the building, or by other competent person employed by the owner, to see that all parts of the system are in perfect working order, and the fire department connection or connections, if any, ready for immediate use by the Fire Department. A detailed record of each inspection shall be kept for examination by a representative of the Fire Department.

There shall be kept available at all times in the premises a supply of extra sprinklers, never less than six (6), to replace promptly any fused or damaged sprinklers. And there shall be one or more employes instructed in the maintenance of sprinkler system.

Rule 44. Open Sprinklers. When open sprinklers are required for exposure protection by the Fire Department as specified in the Building Code they shall be installed in accordance with the rules of the National Board of Fire Underwriters. Plans for such installation to be filed with the Fire Department for approval.

NOTICE OF REMOVAL
NOTICE IS HEREBY GIVEN THAT THE BOARD OF STANDARDS AND APPEALS IS NOW LOCATED ON THE TENTH FLOOR OF THE MUNICIPAL BUILDING, ROOMS 1001 TO 1015—NORTH END OF BUILDING.

DATES AND HOURS OF MEETING.
Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 1013, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.
10 A. M. to 1 P. M.
Any person desiring to consult the chairman or the engineers, pertaining to the work of either board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.
The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 1013, on *Tuesday, March 24, 1925*, at 2 o'clock. At this call each case is set for hearing on a definite day.
The next subsequent Call of the Calendar will be on *Tuesday, March 31, 1925*, at 2 o'clock.
The *Clerk's Calendar* is not to be confused with the calendar of cases that have been definitely set for hearing on fixed days.

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 7
Absent 0

MINUTES

THE RESOLUTION:

(2-25-A)

WHEREAS, Charles N. Whinston, for Ed. Dolthin, owner, filed, January 2, 1925, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 564 State street, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered December 27, 1924, in acting on Application No. 25016, reads:

"1. Original permit was granted on condition that this stairway will be provided. Omitting this stairway is therefore not permitted.";

and

WHEREAS, the building is non-fireproof, four stories in height, 40 ft. by 70 ft. (irregular) in area; separated into two sections by a partition wall with horizontal openings therein on each story. OCCUPIED: 1st story, store and restaurant, 75 persons; 2nd story, store and dance hall, 50 persons, and dwellings above; and

WHEREAS, appellant proposes to omit the stairway (shown upon the plans), extending from the 1st to the top story, and to provide, in lieu thereof, horizontal openings on each story, leading to the stairway in the easterly section of the premises, and further proposes to provide an additional exit from the rear of the restaurant on the 1st story by means of a door leading to the yard of the premises to the rear.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

8-25-A.

APPELLANT—F. P. Keniston, for 31st Street & 4th Avenue Realty Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—107 East 31st street, Manhattan.

APPEARANCES—

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal dismissed on report of inspector of fire prevention bureau.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon

Negative

Absent

THE RESOLUTION:

(8-25-A)

WHEREAS, F. P. Keniston, for 31st Street and 4th Avenue Realty Corp., owner, filed, January 5, 1925, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 107 East 31st street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 70478-F, dated December 30, 1924, reads:

"I, Thomas J. Drennan, Fire Commissioner, of the City of New York, hereby certify that the conditions existing in the premises known as number 107 East 31st Street, Borough of Manhattan, City of New York, are eminently dangerous to life; that an emergency exists requiring that the said building be vacated. You are hereby ordered to vacate the said premises by noon on the 31st day of December, 1924.";

and

WHEREAS, the building is non-fireproof, five stories in height, 22 ft. by 99 ft. 8 in. in area. OCCUPIED: 1st story, store; upper stories, offices, showrooms and manufacturing, 37 persons above the 1st story; and

WHEREAS, appellant proposes to provide adequate exits and also to reduce the occupancy of the premises; and

WHEREAS, on report of the inspector of the fire prevention bureau, that the order had been complied with, the board deemed that the appeal should be dismissed.

Resolved, that the appeal be and it hereby is *dismissed*.

12-25-A.

APPELLANT—Samuel Rosenblum, for Frank Giove, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—86-88 Cherry street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon

Negative

Absent

THE RESOLUTION:

(12-25-A)

WHEREAS, Samuel Rosenblum, for Frank Giove, lessee, filed, January 5, 1925, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 86-88 Cherry street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 25726-LC, dated September 27, 1924, reads:

"1. Reduce the quantity of combustible fibre to one ton for the reason that the Fire Commissioner considers the storage of combustible fibre in these premises unduly hazardous.";

and

WHEREAS, the building is non-fireproof, three stories and attic in height, 34 ft. by 100 ft. in area; divided into three sections by a fore and aft wall and also by a cross wall above the 1st story. OCCUPIED: 1st story and 2nd story, rear, junk shop, also for the sorting and packing of waste paper, 5 persons; upper stories, dwellings; and

WHEREAS, appellant contends that permits for the storage of 15 tons of paper have been issued since 1920 and that there are water pails distributed throughout the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the ceiling, side walls and partitions, also stair hall partition enclosures on 1st story, shall be fire-retarded throughout with plaster boards and metal in accordance with the rules of the board of standards and appeals; that the entire quantity of paper stock on premises shall be limited to five (5) tons, stored and maintained on 1st story of premises, not more than one ton of which shall be of loose paper and that sufficient water pails, painted red and marked "FIRE," shall be maintained and distributed on premises.

22-25-A.

APPELLANT—W. L. Rouse and L. A. Goldstone, for Murray Hill Offices Corporation, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—25-29 East 40th street and 279-293 Madison avenue, Manhattan.

APPEARANCES—

For Appellant: William L. Rouse and Edward A. Sears.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon

Negative

Absent

THE RESOLUTION:

(22-25-A)

WHEREAS, W. L. Rouse and L. A. Goldstone, for Murray Hill Offices Corporation, owner, filed, January 8, 1925, an

MINUTES

appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 25-29 East 40th street and 279-293 Madison avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered December 22, 1924, in acting on N. B. Application No. 2399-24, reads:

"15. As pent house is over 12 ft. in height and considered a story as per Chapter 5, Article 20, Section 426, Building Code, the bottom of gravity tank must be 20 ft. above pent house roof."

and

WHEREAS, the building is fireproof, 25 stories in height, 150 ft. by 175 ft. in area. OCCUPIED: 1st story, bank; upper stories, offices, 80 persons per story; the pent house is 22 ft. 10 in. high; OCCUPIED for elevator and ventilating machinery and also as a studio; the tank is located over the pent house and is 10 ft. above the roof thereof; and

WHEREAS, appellant contends that the area of the pent house is small (1,600 sq. ft.), that it is protected by standpipes, and to raise the tank 20 ft. above the pent house roof would be a hardship.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that an approved standpipe system shall be installed throughout the premises, with sufficient outlets provided in the pent house, the height of which shall be not less than 5 ft. 6 in. above the main roof level; and that there shall be no open flame maintained or installed in the pent house story.

30-25-A.

APPELLANT—Cornell Utilities Co., Inc., for C. S. Winston, owner.

SUBJECT—Appeal from decision of fire commissioner. PREMISES AFFECTED—36 Beverly road, Kew Gardens, Borough of Queens.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Connell, Holland and Fire Chief

Kenlon 6
Negative 0
Absent: Mr. Dowd 1

THE RESOLUTION:

(30-25-A)

WHEREAS, Cornell Utilities Co., Inc., for C. S. Winston, owner, filed, January 9, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 36 Beverly road, Kew Gardens, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 2633-24, dated December 26, 1924, reads:

"5. Burner must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is non-fireproof, two stories in height, 45 ft. by 26 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 540-gallon fuel oil tank, buried outside the building, a 55-gallon auxiliary tank, a NoKol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the installation conforms with the fuel oil rules excepting in that the burner is not an approved burner.

Resolved, that the decision of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, only so far as it affects the burner, on condition that the door to fire-box of boiler shall be equipped with self-closing device; and that the installation shall comply with the fuel oil rules in all other respects.

31-25-A.

APPELLANT—Cornell Utilities Co., Inc., for P. D. King, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—382 Mott avenue, The Bronx. APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

Gunnison, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Dowd 1

(31-25-A)

WHEREAS, Cornell Utilities Co., Inc., for P. D. King, owner, filed, January 9, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 382 Mott avenue, The Bronx; and

WHEREAS, the decision of the fire commissioner, No. 2264-24, dated December 19, 1924, reads:

"4. Burner must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is non-fireproof, three stories in height, 17 ft. by 45 ft. in area; OCCUPIED as a store and dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 200-gallon fuel oil tank, a 55-gallon auxiliary tank, a NoKol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the installation conforms with the fuel oil rules, excepting in that the burner is not an approved burner.

Resolved, that the decision of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the door to the fire-box of boiler shall be equipped with self-closing device; and that the installation shall comply with the fuel oil rules in all other respects.

32-25-A.

APPELLANT—Cornell Utilities Co., Inc., for W. A. Trock, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—8 Grenfell avenue, Kew Gardens, Borough of Queens.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,

Gunnison, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Dowd 1

THE RESOLUTION:

(32-25-A)

WHEREAS, Cornell Utilities Co., Inc., for W. A. Trock, owner, filed, January 9, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 8 Grenfell avenue, Kew Gardens, Borough of Queens; and

WHEREAS, the decision of the fire Commissioner, Alt. App. No. 1895-24, dated December 17, 1924, reads:

"5. Burner must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is non-fireproof, two and one-half stories in height, 45 ft. by 25 ft. in area; OCCUPIED as a dwelling; and

MINUTES

WHEREAS, a fuel oil burning system has been installed consisting of a 500-gallon fuel oil tank buried outside the building, a 55-gallon auxiliary tank, a Viking pump, a No-Kol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the installation conforms with the fuel oil rules, excepting in that the burner is not an approved burner.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the door to the fire-box of boiler shall be equipped with self-closing device; and that the installation shall comply with the fuel oil rules in all other respects.

APPELLANT—Cornell Utilities Co., Inc., for A. D. Sunday, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—8535 112th street, Richmond Hill, Borough of Queens.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Gunnison, Connell, Holland and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Dowd	1

THE RESOLUTION:

(33-25-A)

WHEREAS, Cornell Utilities Co., Inc., for A. D. Sunday, owner, filed, January 9, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 8535 112th street, Richmond Hill, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 2523-24, dated December 15, 1924, reads:

"1. Proposed method of storing and using fuel is not in accordance with Rules of the Board of Standards and Appeals.

"2. Burner must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is frame, two stories in height, 17 ft. by 39 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 55-gallon fuel oil tank, a NoKol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the tank is an auxiliary tank; that there is no main storage tank and that the installation conforms with the fuel oil rules, excepting in that the burner is not an approved burner.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 1, only so far as it affects a single, 55-gallon storage tank; as to Item 2, *on condition* that the door of fire-box of boiler shall be equipped with a self-closing device; and that the installation shall otherwise comply with the fuel oil rules of the board of standards and appeals in all other respects.

THE RESOLUTION:

(34-25-A)

WHEREAS, Cornell Utilities Co., Inc., for Sarah Burns, owner, filed, January 9, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 231 Beaumont street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered December 26, 1924, in acting on Alteration Application No. 2635-24, reads:

"2. Note on tank drawing, tank will be tested in presence of a Fire Department representative and afterwards coated with a suitable rust-resisting material.

"4. Note on plan: 'Piping will be tested in presence of a Fire Department representative.'

"7. Burners must be of a type approved by the Board of Standards and Appeals."

and

WHEREAS, the building is frame, two stories in height, 28 ft. by 44 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 270-gallon fuel oil storage tank buried outside the premises, a 55-gallon auxiliary tank, a NoKol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the storage tank was installed in accordance with the fuel oil rules of 1922, and requests the acceptance of a sworn affidavit to the effect that the tank has undergone a shop test, and further contends that the installation conforms with the fuel oil rules in all other respects, excepting in that the burner is not an approved burner.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, as to Item 2, *on condition* that certificate of factory test shall be filed with the fire commissioner; as to Item 4, *on condition* that standard wrought-iron piping shall be used in the installation; as to Item 7, *on condition* that the door to fire-box of boiler shall be equipped with a self-closing device; and that the installation otherwise shall comply with the fuel oil rules of the board of standards and appeals in all other respects.

APPELLANT—Cornell Utilities Co., Inc., for George W. Yepsen, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—Northwest corner of Onslow place and Austin street, Kew Gardens, Borough of Queens.

APPEARANCES—

For Appellant: William Porter.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,

Gunnison, Connell, Holland and Fire Chief

Kenlon 5

Negative 0

Absent: Mr. Dowd 1

THE RESOLUTION:

(36-25-A)

WHEREAS, Cornell Utilities Co., Inc., for George W. Yepsen, owner, filed, January 9, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises northwest corner of Onslow place and Austin street, Kew Gardens, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, rendered December 27, 1924, reads:

"5. Note on tank drawing, tank will be tested in presence of a Fire Department Representative and afterwards coated with a suitable rust-resisting material.

"8. Note on plan: 'Piping will be tested in presence of a Fire Department Representative.'

"12. Show auxiliary tank located at least 10 ft. from any fire or flame.

"15. Burners must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is frame, two and one-half stories in height, 35 ft. by 28 ft. in area; OCCUPIED as a dwelling; and

WHEREAS, a fuel oil burning system has been installed consisting of a 500-gallon fuel oil storage tank buried outside the premises, a ten (10) gallon auxiliary tank (located within 6 ft. of the burner flame), a NoKol burner and the necessary valves and piping; and

WHEREAS, appellant contends that the system was installed

in accordance with the fuel oil rules of 1922, which permitted the location of the auxiliary tank in its present location, and requests the acceptance of a sworn affidavit to the effect that the tank has undergone a shop test, and further contends that otherwise the installation conforms with the fuel oil rules, excepting in that the burner is not an approved burner.

Resolved, that the decision of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, as to Item 5, on condition that an affidavit shall be filed with the fire commissioner, stipulating the use of rust-resisting material and thickness of concrete enclosure of said tank; as to Item 8, on condition that standard wrought-iron piping shall be used throughout the installation; as to Item 12, on condition that the capacity of auxiliary tank shall not exceed ten (10) gallons, located not less than 10 ft. from the fire-door of boiler; that the boiler shall be encased and covered throughout with asbestos covering; as to Item 15, on condition that the door to fire-box of the boiler shall be equipped with self-closing device; and that the installation otherwise shall comply with the fuel oil rules of the board of standards and appeals in all other respects.

APPELLANT—Ravenswood Company, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—825 Vernon avenue, L. I. City, Borough of Queens.

APPEARANCES—

For Appellant: Frederick E. King and Allan Good-sall.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,

Dowd, Gunnison, Connell, Holland and Fire

Chief Kenlon 7

Negative 0

Absent 0

THE RESOLUTION:

(38-25-A)

WHEREAS, Ravenswood Company, owner, filed, January 9, 1925, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 825 Vernon avenue, L. I. City, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated January 21, 1923, reads:

"Order No. 29423-F:

"(1) Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ inch standard hose attached thereto * * *";

and

WHEREAS, the building is non-fireproof, three stories in height, irregular, being in dimension approximately 106 ft. by 135 ft., and having an area of 10,900 sq. ft. on the 1st story, 9,900 sq. ft. on the 2nd story and 8,000 sq. ft. on the 3rd story; OCCUPIED for the manufacture of interior cabinet work; and

WHEREAS, appellant contends that the building is equipped with an automatic sprinkler system (supplied from a 50,000 gallon tank elevated on a trestle outside the building) and a fire alarm signal system, and further contends that the area of only the 1st story of the premises warrants the installation of the standpipe system.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that an approved sprinkler system shall be maintained in accordance with the rules of the board of

MINUTES

standards and appeals; that a supervised watchman system with Central Office connection shall be maintained on the premises, with not less than two (2) boxes on each floor.

BUILDING ZONE CASES.

1432-24-BZ.

APPLICANT—Joseph McGinnis, for Charles E. Manierre, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—421-429 West 209th street and 420-428 West 210th street, Manhattan.

APPEARANCES—

For Applicant: William T. White.

For Opposition: J. H. Levinson and Silas Alacchi.

ACTION OF BOARD—Application laid over to April 7, 1925, at 10 a. m., to amend plans.

1391-24-BZ.

APPLICANT—Samuel Rosenblum, for Christina Schneider, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the alteration and extension of an existing garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—102-11 92nd avenue, Richmond Hill, Borough of Queens.

APPEARANCES—

For Applicant: Samuel Rosenblum, Christina Schneider and Mr. Schneider.

For Opposition: Samuel Ertrachter, Mr. Oglowith, Alexander Beggs, Mrs. Minzer and others.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Messrs. Kennedy, Dowd and Gunnison 3

Negative: Chairman Walsh, Messrs. Holland and Connell and Fire Chief Kenlon 4

Absent 0

THE RESOLUTION:

(1391-24-BZ)

WHEREAS, Samuel Rosenblum, for Christina Schneider, owner, filed, November 22, 1924, an application, under the building zone resolution, to permit in a residence district the extension, over an area now occupied by a frame stable, of a garage for the storage of more than five motor vehicles; premises 102-111 92nd avenue, Richmond Hill, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the build-

ing zone resolution show that 92nd avenue and 91st avenue are residence districts and 102nd street is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 3, 1924, in acting on Alt. Application No. 2805-24, reads:

"Extension of garage as proposed in residence district is prohibited by the zone law."; and

WHEREAS, the existing one-story public garage is partly concrete block and partly frame, 31 ft. 4 in. by 43 ft. in area; it is proposed to build a one-story brick extension 57 ft. by 25 ft. in area over premises now used as a public stable and occupy the whole as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board does not deem the application of exception provided under section 7, subdivision C, is warranted from the testimony presented, and further, surrounding existing conditions should be protected from further invasion of prohibited uses.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1419-24-BZ.

APPLICANT—I. Margon and C. Glaser, for Leo Silver, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district extending from a business district the erection and maintenance of a building to be used for theatre purposes.

PREMISES AFFECTED—East side of Walton avenue, 45.0 ft. north of Mt. Eden avenue and north side of Mt. Eden avenue, 75 ft. east of Walton avenue, The Bronx.

APPEARANCES—

For Applicant: Felix A. Muldoon and Leo Silver.

For Opposition: None.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland, Connell and Fire Chief Kenlon 7

Absent 0

THE RESOLUTION:

(1419-24-BZ)

WHEREAS, I. Margon and C. Glaser, for Leo Silver, owner, filed, December 5, 1924, an application, under the building zone resolution, to permit the extension of a proposed theatre building from a business district into a residence district; premises north side of Mt. Eden avenue, 75 ft. east of Walton avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Mt. Eden avenue is a business district, Grand boulevard is a residence district and Walton avenue is a business district to a point 100 ft. north of Mt. Eden avenue and residence district northerly therefrom; and

WHEREAS, the decision of the superintendent of buildings, rendered November 15, 1924, in acting on N. B. App. No. 2938-24, reads:

"1. Erection of proposed theatre in business district extending into a residence district is contrary to provisions of building zone resolution."; and

WHEREAS, the proposed building is fireproof, one story and balcony in height, irregular in area, having a frontage of 125 ft. on Walton avenue and 25 ft. on Mt. Eden avenue; occupied as a moving picture theatre (880 seats on 1st

MINUTES

tory and 520 seats in balcony); 75 ft. of the northerly portion of the theatre and also an irregular area on the easterly portion extends into the residence district; and

WHEREAS, the residence area of street would be unwarrantably invaded by business use; moreover, the situation could be reasonably adjusted by the inclusion of that portion of plot on corner now occupied by one-story taxpayer, so characterized and admitted in same ownership.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

1479-24-BZ.

APPLICANT—Charles D. Cords, for Charles Dougherty, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district extending from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—42-44 Schenectady avenue, Brooklyn.

APPEARANCES—

For Applicant: Charles D. Cords.

For Opposition: Philip Termini, Maud Duester, Mrs. Schwartz, Dora Klein, Joseph Snow and others.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—as specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell. 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1479-24-BZ)

WHEREAS, Charles D. Cords, for Charles Dougherty, owner, filed, December 16, 1924, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 42-44 Schenectady avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 17, 1925, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Herkimer street is a business district and Atlantic avenue is an unrestricted district and Schenectady avenue is an unrestricted district to a point 100 ft. north of Atlantic avenue and northerly from this point is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 26, 1924, in acting on Application No. 23364-24, reads:

"Proposition contrary to the Zone Resolution, Art. II, Sec. 4.

"The erection of a public garage for more than five motor vehicles partly in a business district."

and

WHEREAS, the proposed garage is to be of non-fireproof construction, one story in height above grade, irregular in area, having a frontage of 50 ft. on Schenectady avenue, a width across the rear of 135 ft. 6 in. and a depth of 375 ft. About 50 per cent of the proposed garage is in the unrestricted district and the remainder is in the business district; and

WHEREAS, under the provisions of section 7, subdivision C, and section 21, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution and that the application be and it hereby is granted on condition that the building shall not exceed one story in height above grade and shall be fireproof throughout; that all walls of this structure, other

than the street front on Schenectady avenue, shall be unpierced throughout their entire height and length, except such means of egress from the southerly gable wall to Atlantic avenue as may be required, located within the unrestricted use area of plot; that there shall be no skylights installed within 25 ft. of the northerly gable wall within the business area; that all skylights installed shall be glazed with plain glass, equipped with wire guards above and below; that there shall be no roof signs of any nature or description erected or maintained; that the exterior of the brick gable walls within the business area shall be laid up with struck joints throughout; that any gasoline storage equipment installed shall be located at the Schenectady avenue street front of the building; that the street front of the walls on Schenectady avenue shall be finished in face brick with architectural terra cotta or stone trimmings; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

34-20-BZ.

APPLICANT—Beekman, Menken & Griscom, for New Pine Street Real Estate Corporation, owner.

SUBJECT—Application for extension of time (re: decision of superintendent of buildings) to permit in a B area district the omission of a rear yard.

PREMISES AFFECTED—31-33 Pine street, Manhattan.

APPEARANCES—

For Applicant: Robert L. Luce.

For Opposition: None.

ACTION OF BOARD—Extension of time granted for one year from date of this action.

CONDITIONS—As specified in resolution.

THE VOTE TO GRANT EXTENSION OF TIME—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(34-20-BZ)

WHEREAS, Cross & Cross, architects, on behalf of New Pine Street Real Estate Corporation, owner, filed, January 14, 1920, with the board of appeals, an application, under the building zone resolution, to permit in a "B" district the omission of a rear yard; premises 31-33 Pine street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, February 3, 1920, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use, height and area maps accompanying the building zone resolution show that the premises in question are located in a business use district, a 2½ times height district and a "B" area district; and

WHEREAS, the decision of the superintendent of buildings, rendered January 7, 1920, in acting on Alteration 2905-1919, reads:

"11. Provide lawful rear yard;"

and

WHEREAS, the plans for the existing four-story structure were approved and permit granted by the superintendent of buildings, New Building Application 838 of 1905; and these plans so filed embrace sheets showing that the grillage under columns which support the structure, and the columns installed, were designed for a nine-story structure; but owing to the rules of the bureau of buildings the structure was designated as a four-story building, in order to comply with these requirements when turned in as "completed" in the files; and

WHEREAS, these plans so filed also show the framing of the floor beams provide for an extra elevator, for the service of the proposed additional stories; and the interior vent shafts were constructed of sufficient area to provide for a nine-story building; and

WHEREAS, the floor beams for the 5th story were laid level

MINUTES

and the supporting columns for the additional stories were carried above these floor beams and capped at the level of the temporary roof which was placed on the structure; and

WHEREAS, on the premises directly in the rear and fronting on Wall street there has been constructed an eight-story building, for which there has been provided a yard which varies from approximately 6 ft. to 11 ft. 7 in. in width; and

WHEREAS, in the light of the conditions above recited, it would inflict unnecessary hardship upon the applicant to comply with the strict letter of the zoning resolution, as it would require the tearing down of the entire rear wall and a portion of the existing four-story structure; and

WHEREAS, conditions are hereby imposed that will fully carry out the spirit of the zoning resolution, without doing injustice to the owners of the abutting property in Wall street; and

WHEREAS, this application was granted by the board at its meeting February 3, 1920, on certain conditions, and applicant requested a modification of the time limit imposed in these conditions, the property being involved in litigation restricting applicant from availing himself of the variation originally granted, and applicant now requests a further extension of time.

Resolved, that the board of appeals does hereby *make a variation* in the application of the area district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the additional portion of the rear wall of the structure shall be faced with cream or white glazed brick; and that the upper sash of any windows placed in said wall shall be glazed with prism glass; and

Resolved, further, that any permits necessary for the prosecution of the work shall be obtained and that the building shall be completed within one year from the date of this action.

THE RESOLUTION:

(632-23-BZ)

WHEREAS, Thomas O. Gallagher, for Antonio Gugliano, owner, filed, August 14, 1924, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 1711-29 Neptune avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, October 7, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Neptune avenue is a business district and the district to the north is unrestricted; and

WHEREAS, the decision of the superintendent of buildings, rendered May 14, 1923, in acting on Application No. 8639-23, reads:

"Denied. Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A public garage partly in a business district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 157 ft. 6¼ in. and a depth of 277 ft. 4½ in., irregular in area; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the board deemed that owing to the location of these premises there would be hardship in preventing applicant from erecting the proposed structure; and

WHEREAS, this application was granted by the board at its meeting, October 7, 1924, on certain conditions, and applicant requested a modification of these conditions as to size of store, and location of gasoline tanks.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted on condition* that the structure be limited in height to a one-story structure, set back 40 ft. from the building line of Neptune avenue; that the rear and gable walls shall be unpierced throughout their entire height and length; that the front elevations on Neptune avenue and West 19th street shall be finished in face brick, laid out in panel design, with architectural terra cotta or stone trimmings; that the corner of the building at the intersection of Neptune avenue and 19th street for a minimum distance of 18 ft. square, shall be maintained for store use and occupancy; that there shall be no roof sign

MINUTES

structed or maintained on these premises; that there be no vehicular entrance on West 19th street within 100 ft. of Neptune avenue; that the architect shall make a return to this board for approval of the proposed design of front elevation and plan as now modified before filing working drawings with the superintendent of buildings; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this order.

1922-BZ.

APPLICANT—Emma J. Wright, owner.

SUBJECT—Application for reopening (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of five (5) motor vehicles, spaces rented out.

PREMISES AFFECTED—57 Evelyn place, The Bronx.

APPEARANCES—

For Applicant: William J. Wright.

For Opposition: None.

ACTION OF BOARD—Application reopened, subject to calendar call and amendment to 7-g.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and

Connell 6

Negative 0

Absent: Fire Chief Kenlon 1

1927-24-BZ.

APPLICANT—Jacob Lubroth, for Leo Greenfield, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—Southwest corner of Kings highway and West 12th street, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Chairman read request to withdraw. Application withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and

Connell 6

Negative 0

Absent: Fire Chief Kenlon 1

1950-25-BZ.

APPLICANT—Edward P. Doyle, for 237-239 Madison Ave., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of a building to be used for office and loft purposes.

PREMISES AFFECTED—237-239 Madison avenue, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Chairman read request to withdraw. Application withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and

Connell 6

Negative 0

Absent: Fire Chief Kenlon 1

AREA FIXED.

(1466-24-BZ)

The chairman presented and read a communication from James McKillop, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 192-194 Huron street, Brooklyn.

The following area was approved by the board:

The south side of Huron street from Manhattan avenue to Oakland street; the north side of Huron street from Manhattan avenue to a point 100 ft. west of Oakland street; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 2 p. m.

EDWARD V. BARTON, *Acting Secretary.*

MINUTES

BOARD OF APPEALS

*CORRECTION

The minutes of the meeting of the board of appeals, held Tuesday afternoon, February 3, 1925, as they appeared in Bulletin No. 6, Vol. X, are hereby corrected to read as follows:

THE RESOLUTION:

(727-24-A)

WHEREAS, Frank Klein, lessee, filed, May 23, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 36-40 John street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 24009 C, dated May 3, 1924, reads:

"1. Have each operator supervising the operation of a blow-pipe or other similar device or apparatus

*Correction—Word "main" added in line 24 and word "large" added in line 25.

for heating, melting or welding, apply for and secure a Certificate of Fitness.";

and

WHEREAS, the building is non-fireproof, five stories in height, 62 ft. by 51 ft. in area; OCCUPIED, stores and offices, light manufacturing, 25 persons per story, appellant occupying a portion of the fifth story for the manufacture of jewelry, using blow torches; and

WHEREAS, appellant contends that the persons operating the blow torches do not operate the oxygen regulator or have anything to do with the cylinders containing oxygen and that the person operating the oxygen tank has a certificate of fitness.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the person operating the main oxygen tank and large blow torch shall obtain a certificate of fitness.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES GOVERNING FIRE EXTINGUISHING APPLIANCES— SPRINKLER SYSTEMS.

[77-25-SR]

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 7, 1925, at 2 p. m., Room 1013, Municipal Building, on proposed amendments to Rules for Fire Extinguishing Appliances, Sprinkler Rules.

General Requirements. The rules contained herein cover the general details of a sprinkler equipment only. Before an equipment is installed or before a present equipment is remodeled, complete working plans should be submitted for approval to Fire Department.

These plans shall be drawn to an indicated scale; give correct address and points of compass; show sectional elevations of the building; and the essential features of the construction, viz., size, location and direction of joists, timbers or other structural members. They shall also indicate the location and size of water supplies, connecting pipes, feed mains and risers, gate, check, alarm and dry-pipe valves, as well as the location, spacing, number and type of sprinklers.

Upon approval of preliminary plans such number of sets of clean, corrected plans on cloth as the Fire Commissioner may require, not exceeding three (3), shall be filed for final approval of the Fire Commissioner. A certified copy of the approved plans shall be forwarded to the Bureau of Buildings by the Bureau of Fire Prevention. Such application and specification forms as may be prescribed by the Fire Commissioner shall accompany preliminary plans. If a standpipe (fire line) equipment is provided throughout the building, the plans shall include a note to that effect.

When entirely completed in accordance with the approved plans and as per test herein provided for, application shall be made to the Bureau of Fire Prevention for inspection of the completed installation. When the sprinkler equipment is approved the applicant will be so advised in writing by the Bureau of Fire Prevention.

All sprinkler equipments shall be installed in a thoroughly workmanlike manner.

Rule 1. Definition of Automatic Extinguisher Systems. Automatic extinguisher systems shall consist of a system of piping connected to one or more acceptable sources of water supply, or other extinguishing medium, provided with distributing devices so arranged and located as to discharge and diffuse automatically under the action of heat an effective stream or spray over every part of the interior of the building area in which a fire may start or to which it may be communicated.

Rule 2. Classification of Sprinkler Systems. For the purpose of these rules, sprinkler systems shall be classified as:

(a) Automatic Wet Pipe Systems, in which all pipes and sprinkler heads are at all times filled with water;

(b) Automatic Dry Pipe Systems, in which the pipes and sprinkler heads are filled with air, either compressed or at atmospheric pressure, and the water supply is operated by a Dry Pipe Valve as defined in Rule 27 of these Rules.

(c) Non-Automatic Systems, in which all pipes and sprinkler heads are maintained dry with a fire department connection for water supply.

Thermostatic fire alarm with direct connection to Central Office or Fire Department Headquarters shall be provided in connection with all non-automatic sprinkler systems.

Rules 3. Approved Devices. Automatic Sprinklers and accessory appliances shall include all devices approved as such by the Bureau of Standards, Washington, D. C.; by the Underwriters' Laboratories, Inc., of Chicago; by the Associated Factory Mutual Laboratories of Boston; and all devices which meet the tests prescribed by the Board of Standards and Appeals.

Rule 4. Water Supply. Approved sources of water

supply shall be classified as Automatic and Auxiliary.

(a) Automatic Sources shall include the Gravity Tank, the Pressure Tank, [and] the Public Water System, and the Automatic Electric Fire Pump, installed as required under the provisions of Rule 8, hereinafter provided for.

b) Auxiliary Sources shall include the non-automatic Fire Pump and the Fire Department Connection.

Rule 5. Gravity Tank. Gravity tanks shall contain a available quantity of water sufficient to supply twenty-five per cent (25%) of the number of sprinkler heads in the average protected fire area for twenty (20) minutes, but not less than 5,000 gallons; and the bottom of the tank shall have an elevation of not less than twenty (20) feet above the highest line of sprinklers below the main roof. Where the area of a pent house exceeds 2,500 sq. ft. the bottom of the tank shall be required to be not less than 20 feet above the highest line of sprinklers below the pent house roof, but where a pent house contains only pressure tanks this rule will not apply.

Where a tank capacity in excess of [25,000] 30,000 gallons is required by this rule, the amount of water to be provided in excess of [25,000] 30,000 gallons shall be specified by the Board of Standards and Appeals, except when tanks of unlimited capacities are supported on structures altogether independent of buildings.

The tank shall be filled through a fixed pipe, independent of the sprinkler piping, not less than two (2) inches in size, discharging into the top of the tank, or through a by-pass not less than two (2) inches in size around the check valve in the discharge pipe, provided the supply is of sufficient pressure to fill the tank. The water supply and connections shall be capable of supplying the tank at a rate of not less than sixty-five (65) gallons per minute.

The filling pipe shall be carried up inside a frost-proof casing and may extend through tank bottom to discharge at top of tank above full water level. The portion of pipe inside tank must be of brass or copper or other non-corrosive material.

Tanks shall not be fed through sprinkler lines.

The sprinkler and standpipe tanks may be fed from a common source of supply, either a pump or a direct service main connection, provided that there are separate feed mains from the basement or lowest story and a control valve in each feed line in a pump or engine room.

The overflow pipe shall be not less than two (2) inches in diameter for tanks up to 30,000 gallons capacity and not less than three (3) inches in diameter for larger tanks. The top of the overflow pipe shall be three (3) inches below the top of the staves in wooden tanks and one (1) inch from the top in steel tanks. The pipe may extend through the bottom of tank provided the portion inside tank is of brass or copper or other non-corrosive metal and without joints or it may extend through side of tank. For tanks over roofs overflow pipes shall terminate not more than twenty-four (24) inches above roof and shall be fitted with a 90 degree elbow.

The discharge, heating or filling pipes where exposed to the weather shall be protected from freezing by a frost-proof covering which may be of three layers of one-inch (1") hair felt interspersed with building paper well wrapped and secured and covered with canvas well painted or by frost-proof boxing as specified by the National Board of Fire Underwriters.

Easy access to top of each tank shall be provided by means of a steel gooseneck ladder substantially constructed and rigidly braced, the top of which shall not tip outward from the vertical at any point.

Tanks above roofs shall be constructed according to the requirements of the Building Code and supporting structures shall be approved by the Superintendent of Buildings. Tanks not enclosed and exposed to the weather shall be covered with a double roof of acceptable construction con-

PUBLIC HEARING

ing of a tight flat cover of matched boards and above is a conical roof which shall be covered with an approved roofing.

Where a gravity tank may supply both sprinklers and fire hydrants it shall not be of less than 30,000 gallons capacity and located on a structure altogether independent of buildings and the bottom shall not be less than 75 feet above ground level, and not less than 20 feet above the highest line of sprinklers below the main roof of the highest building in a group of buildings.

Rule 6. Pressure Tank. Pressure tanks shall contain sufficient water to supply twelve and one-half per cent (12½%) of the number of sprinklers in the average protected fire area for twenty (20) minutes, but not less than [5,000] 3,000 gallons of water for a wet pipe system here supplemented by an auxiliary water supply, and not less than 5,000 gallons of water for a dry-pipe system. No single tank shall have a capacity greater than 9,000 gallons. The tank shall be kept two-thirds (2/3) full of water under a pressure of seventy-five (75) pounds per square inch, and shall be so proportioned and located that a pressure of not less than fifteen (15) pounds per square inch will be available on the highest line of sprinklers below the main roof when all the water has been discharged from the tank.

[The tank shall be placed either on the roof or in the highest sprinklered story.]

A pressure tank or tanks shall not be located below the highest line of sprinklers supplied by tank or tanks.

Where [a tank] the total capacity of the pressure tank supply is in excess of [25,000] 30,000 gallons as required by this rule, the amount of water to be provided in excess of [25,000] 30,000 gallons shall be specified by the Board of Standards and Appeals.

The water shall be supplied through a fixed pipe, independent of the sprinkler piping, not less than [two] one and one-half (1½) inches in size [with a one and one-quarter (1¼) inch connection to the tank], or through a bypass not less than [two (2)] one and one-half (1½) inches in size around the check valve in the discharge pipe provided the supply is of sufficient pressure to fill the tank. The water supply and connections shall be capable of supplying the tank at a rate of not less than sixty-five (65) gallons per minute without reducing the pressure in the tank. The tank shall have a fixed metallic horizontal line on the end opposite the glass gauge, or other acceptable device, to indicate the level of the water when the tank is two-thirds full.

The air compressor shall be of sufficient capacity to increase the air pressure at the average rate of one (1) pound in two minutes in each pressure tank.

Rule 7. Public Water System. Direct connection to the city water supply shall be capable of furnishing water at not less than fifteen (15) pounds per square inch static pressure at the highest line of sprinklers under the main roof.

Subject to the requirements of the Department of Water Supply, Gas and Electricity, the size of each connection shall be as large as that of the main riser and not less than four (4) inches, and shall have a conveniently accessible control valve fixed to it at, or near, the curb, or, when possible, still further away from the building. The control valve shall be fitted with a frost and waterproof box, not less than four (4) feet nor more than six (6) feet below the curb, with a fixed stem extending to a compartment at the level of the sidewalk. The cover shall be bolted to the casing and shall be so marked as to be quickly located and to indicate the purpose of the valve. The valve shall be of indicating pattern, operated by a special socket wrench approved by the department of water supply, gas and electricity.

Where it is impractical to install a control valve box at the curb because of a vault under the sidewalk and within 18" thereof, the control valve may be located in the vault

supply connection at a point not more than two (2) feet from the point of entry into a vault.

Where a water meter is required in the water supply connection to an automatic sprinkler equipment, it shall be of a type which allows free flow of water and approved by the Department of Water Supply, Gas and Electricity, or a type of fire line meter which has been specifically approved by the Fire Commissioner for use in connection with fire extinguishing equipment.

Evidence establishing the fact that water supply conditions and pressures are as may be required shall be submitted to the Fire Department.

Rule 8. Fire Pump. An automatic electric fire pump as an automatic source of water supply is one approved for such use and controlled by an approved automatic controlling device, which shall be adjusted to maintain not less than 15 pounds water pressure at the highest sprinkler below main roof and in pent houses over 2,500 sq. ft., as provided in Rule 5. And shall receive water supply only from a direct connection to the city water main.

As auxiliary sources of water supply steam or electric standard fire pumps shall receive water supply from a suction tank, a direct connection to the city water main or other approved sources capable of supplying the pump at its rated capacity for sixty (60) minutes. The rated capacity of the pump shall be not less than five hundred (500) gallons per minute, and shall be sufficient to supply twenty-five per cent (25%) of the number of sprinklers in the average protected fire area.

The pump shall be located in a room of fireproof construction, properly ventilated, lighted and drained, enclosed in eight (8) inch brick or concrete walls with approved fire doors at openings and with fireproof floor and ceiling construction. If located in the lowest story of the building, the pump shall be placed on a foundation not less than one (1) foot in height. The pump room shall be readily accessible with safe egress for the attendant.

A reliable source of energy for driving the pump shall be provided. For steam pumps, provision shall be made for sufficient steam power to operate the pumps at full rated capacity, and a steam pressure of not less than fifty (50) pounds shall be maintained at the pump at all times. Where there is more than one boiler, the pipes and valves shall be so arranged to permit the cutting out of any one boiler without interrupting the steam supply to the pump from the other boilers. The boiler room shall be cut off from the remainder of the building by fireproof floor and wall construction with approved fire doors at all openings.

Electrical energy from a public service plant shall be acceptable as a source of energy for driving electric fire pumps. When local power plants supply the energy for operating electric pumps, two motor generator units shall be provided, or one generator unit supplemented by a public service break-down switch. Local electric power plants shall be located in rooms of fireproof construction with approved fire doors at openings.

Rule 9. Sprinkler Discharge. For the purpose of computing the capacity of water supplies, standard one-half (½) inch sprinkler heads shall be assumed to have an average discharge of twenty (20) gallons per minute, and the discharge of larger heads shall be computed proportionately in the ratio of the areas of their respective orifices.

Rule 10. Fire Area. A fire area is any floor space enclosed on all sides by exterior walls or fire walls or a combination of both. The number of sprinklers in the average protected fire area shall be determined by the number of sprinklered stories in such section. In determining the required capacity of water supplies, the number of sprinklers in the average protected fire area need not include those located in low positions, such as under benches, low shelves, closets and platforms and between cars in car barns.

PUBLIC HEARING

Rule 11. Fire Department Connection. All automatic sprinkler systems shall be provided with at least one two-way Siamese connection on each street front of the building for connection to the fire department hose. Buildings fronting on only one street shall be provided with at least two Siamese connections when the street frontage of building exceeds [one hundred and fifty (150)] two hundred (200) feet [in width].

Where buildings have frontages on more than one street there shall be a fire department connection on each street front where frontage is not continuous but in all cases where more than one fire department connection is required they shall be located as the Fire Commissioner may direct and shall not be grouped.

All Siamese hose connections hereafter installed, except those on piers or warehouses intended for fire boat use, shall be three (3) inches in size. Fire boat connections shall be three and one-half (3½) inches in size. All hose connections shall be female, with standard fire department threads.

The inlets shall be placed at least eighteen (18) inches and not more than two (2) feet above the sidewalk, in a horizontal position accessible to the fire department, and shall be provided with a four (4) inch discharge connecting with a four (4) inch pipe to the sprinkler system for three (3) inch fire department connection and with a six (6) inch discharge outlet and six (6) inch pipe for three and one-half (3½) inch fire boat connection. Each inlet shall be provided with a clapper valve machined to a true face.

Each Siamese connection shall be designated by raised letters at least one (1) inch in size, cast in the fitting in a clear and prominent manner and reading for the service designated, viz.: "Base. Spkr.," etc., as the case may be. If the entire building is sprinklered, the fitting shall be marked "Auto. Spkr."

Siamese hose connections may project through a street wall not more than twelve (12) inches beyond the building line except that where there is an angle formed by the street wall and a check piece or the base of a column, pilaster or ornamental projection, they may be so located that no part extends more than fifteen (15) inches from either side of such angle in accordance with the provisions of the Building Code.

In each fire department connection there shall be an approved straightway check valve installed in a horizontal position, unless suitably designed for vertical position, and the piping shall be arranged to drain between the check valve and the outside siamese coupling by either a ball drip having a one-half (½) inch pipe connection and one-half (½) inch orifice and a bronze ball of proper size, or by a three-quarter (¾) inch drip connection, with plugged valve attached, and when necessary arranged to drain to a sewer. A drain connection may be tapped into the body of check valve only when located in a horizontal position.

Rule 12. Automatic Sprinkler Systems. Automatic sprinkler systems shall be classified as:

(a) One Source Systems, supplied with water from any one of the automatic sources; and

(b) Two Source Systems, supplied with water from a combination of any two of the automatic sources; two pressure tanks with a total water capacity twice that required for a one source supply; direct connection to the city water supply on two different streets, so located that the closing of the controlling valve on one main will not eliminate the main on the other street; or a direct connection to the city water supply and one of the auxiliary sources provided the water supply main is at least six (6) inches in size, the main is fed both ways and a two (2) inch test pipe at the top of the sprinkler riser shows a flowing pressure of fifteen (15) pounds per square inch between the hours of six a. m. to six p. m.

A gravity tank and pressure tank, or a gravity tank or pressure tank and one of the automatic sources or two pressure tanks having a total water capacity for a one-

source supply may be considered as a two-source supply where the occupancy of the building does not conflict with Rules 38, 39 and 40 hereinafter provided for.

Rule 13. Sprinkler Spacing. Sprinkler heads and lines shall be spaced as herein provided:

Mill Construction. Under mill ceiling (smooth solid plank and timber construction, 5 to 12 foot bays) or line of sprinklers shall be placed in the center of each bay and the distance between the heads on each line shall not exceed the following:

- (a) For Standard one-half (½) inch heads—
 - 8 feet in 12 foot bays;
 - 9 feet in 11 foot bays;
 - 10 feet in 10 foot bays;
 - 11 feet in 9 foot bays;
 - 12 feet in 5 to 8 foot bays;

- (b) For Conran* one (1) inch heads—
 - 20 feet in 5 to 12 foot bays.

- (c) For Conran* one and one-quarter (1¼) inch heads—
 - 25 feet in 5 to 12 foot bays.

- (d) Vaults used for the storage of nitro-cellulose products and vaults used for the storage of inflammable motion picture films shall have one standard one-half (½) inch head for each 62½ cubic feet of available storage space, or one (1) inch Conran* head for each 250 cubic feet of available storage space.

Measurements shall be taken from center to center of timbers.

Ceilings of modified mill construction having bays less than three (3) feet wide shall be treated as open joist construction and sprinkler heads and lines spaced accordingly.

Bay timbers spaced three (3) feet or more on centers, but less than five (5) feet on centers, will require special ruling by the administrative official having jurisdiction.

Joisted Construction. Under open finish joisted construction ceilings, floor, decks and roofs, the sprinkler lines shall be run at right angles to the joists and the heads "Staggered spaced" so that heads on one line will be opposite a point half way between heads on adjacent lines.

(a) For Standard one-half (½) inch heads the distance between lines of sprinklers shall not exceed ten (10) feet and the distance between heads on each line shall not exceed eight (8) feet, the end heads on alternate lines being spaced not more than two (2) feet from wall or partition. Permission may be given by the administrative official having jurisdiction to install but one line of sprinklers, in each bay where girders project below the under side of joists and divide the ceiling into bays ten (10) to eleven and one-half (11½) feet wide from center to center of girders, and the heads shall then be spaced on each line so that the area covered by a single head does not exceed eighty (80) square feet. In all cases where such bays are over eleven and one-half (11½) feet wide, two or more lines of sprinklers shall be installed in each bay as required by the rules for spacing. Where girders and joists are flush at the bottom, heads shall be spaced according to the general rule.

(b) For Conran* one (1) inch heads the distance between adjacent lines shall not exceed twenty (20) feet and the distance between the heads on each line shall not exceed sixteen (16) feet, the end heads on alternate lines being spaced not more than four (4) feet from wall or partition. Where girders project below the under side of joists and divide the ceiling into bays not exceeding twenty (20) feet in

*Wherever the term "Conran head" is used in these Rules, it is to be taken as meaning either a Conran head of the type tested and approved by the Fire Department, or one that has passed similar tests by the Fire Department.

PUBLIC HEARING

th, measured from center to center of girders, one line shall be placed in the center of each bay. In bays exceeding twenty (20) feet in width at least two (2) lines shall be installed in each bay and in no case shall the distance between adjacent lines exceed twenty (20) feet.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads distance between adjacent lines shall not exceed twenty-five (25) feet and the distance between the head on each line shall not exceed twenty (20) feet, the end head on alternate sides being spaced not more than five (5) feet from wall partition. Where girders project below the under side joists and divide the ceiling into bays not exceeding twenty-five (25) feet in width, measured from center to center of girders, one line shall be placed in the center of each bay. Bays exceeding twenty-five (25) feet in width at least two lines shall be installed in each bay, and in no case shall the distance between adjacent lines exceed twenty-five (25) feet.

Smooth Finish, Sheathed or Plastered Ceilings. Under smooth finish, sheathed or plastered ceilings, in bays six (6) feet wide and over (measurements to be taken from center of timber, girder or other projection or support forming the bay), sprinkler heads and lines shall be spaced as follows:

(a) For standard one-half ($\frac{1}{2}$) inch heads—

One line of sprinklers shall be placed in the center of each bay for bays not exceeding twelve (12) feet in width, and the distance between the heads on each line shall not exceed the following:

8 feet in 12 foot bays;

9 feet in 11 foot bays;

10 feet in 6 to 10 foot bays.

Bays in excess of twelve (12) feet in width and less than twenty-three (23) feet in width, shall contain at least two (2) lines of sprinklers; bays twenty-three (23) feet in width or over shall have the lines therein not over ten (10) feet apart. In bays in excess of twelve (12) feet in width, not more than one hundred (100) square feet of ceiling area shall be allotted to any single head.

(b) For Conran* one (1) inch heads—

One line of sprinklers shall be placed in the center of each bay for bays not exceeding twenty (20) feet in width, and the distance between the heads on each line shall not exceed twenty (20) feet. Bays in excess of twenty (20) feet in width shall contain at least two (2) lines and in no case shall the distance between adjacent lines exceed twenty (20) feet.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads—

One line of sprinklers shall be placed in the center of each bay for bays not exceeding twenty-five (25) feet in width and the distance between the heads on each line shall not exceed twenty-five (25) feet. Bays in excess of twenty-five (25) feet in width shall contain at least two (2) lines and in no case shall the distance between adjacent lines exceed twenty-five (25) feet.

Fireproof Construction. The rules of slow-burning fireproof construction shall apply as far as practicable. The rule may be modified, however, the intent being to arrange the spacing of heads to protect the contents rather than the ceilings; but in no case shall the distance between a head on one line and a head on an adjacent line exceed the following:

(a) For standard one-half ($\frac{1}{2}$) inch heads, 12 feet.

(b) For Conran one (1) inch heads, 20 feet.

(c) For Conran one and one-quarter ($1\frac{1}{4}$) inch heads, 25 feet.

Distance From Walls. The distance from wall or partition to the first head on a sprinkler line shall not exceed one-half the allowable distance between the heads on such line. Additional heads may be required in the narrow pockets formed by bay timbers or beams and walls. Where beams, girders, columns, walls, partitions or other obstructions prevent the effective discharge of

water, additional heads shall be installed to effectively sprinkle the area.

Vertical Shafts. In vertical shafts having inflammable sides, heads shall be provided within the shaft in addition to the head or heads at the tops of shafts, as follows:

(a) One standard one-half ($\frac{1}{2}$) inch head for each 200 square feet of inflammable surface.

(b) One Conran* one (1) inch head for each 400 square feet of inflammable surface.

(c) One Conran* one and one-quarter ($1\frac{1}{4}$) inch head for each 500 square feet of inflammable surface.

Such head or heads shall be installed at each floor when practicable, and always when shaft is trapped. Where practicable, heads shall be "staggered" at the alternate floor levels, particularly when only one head is installed at each floor level.

Pitched Roofs. Under a pitched roof sloping more steeply than one (1) foot in three (3) feet, heads shall be located in peak of roof, and those on either side of the peak shall be spaced according to the foregoing requirements. The distance between heads shall be measured on a line parallel with the roof. Where the roof meets the side wall or the floor line, the heads shall be placed not more than the following distance from such intersection:

(a) For standard one-half ($\frac{1}{2}$) inch heads, $3\frac{1}{2}$ feet.

(b) For Conran* one (1) inch heads, 7 feet.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads, $8\frac{1}{2}$ feet.

Heads spaced not to exceed the following distance each way from the peak of roof, measured on a line parallel with the roof, may be used in lieu of heads located in peak of roof:

(a) For standard one-half ($\frac{1}{2}$) inch heads, $2\frac{1}{2}$ feet.

(b) For Conran* one (1) inch heads, 5 feet.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads, $6\frac{1}{4}$ feet.

In sawtooth roof construction, the end heads on the branch line shall be spaced not to exceed the following distance from the peak of the sawtooth:

(a) For standard one-half ($\frac{1}{2}$) inch heads, $2\frac{1}{2}$ feet.

(b) For Conran* one (1) inch heads, 5 feet.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads, $6\frac{1}{4}$ feet.

Special Locations and Variations. In special locations, such as over electric generating, power and transforming apparatus, over their controlling devices and switchboards, where water from the fire extinguishing equipment would be detrimental, the sprinkler lines and heads may be omitted at the discretion of the administrative official having jurisdiction, and when in his judgment a slight variation of this rule of spacing is desirable to effect a more efficient distribution of water for fire extinguishing purposes, the sprinkler lines and heads shall be spaced as he may direct.

Rule 14. Sprinkler Position. All sprinkler heads shall be located, wherever possible, in an upright position on top of the pipes, except that sprinkler heads on automatic wet pipe systems may be pendant on concealed piping and when construction or occupancy of a room or enclosure makes it preferable.

(a) Where standard one-half ($\frac{1}{2}$) inch heads are installed sprinkler deflectors shall be parallel to ceilings, roofs or the incline of stairs, but when installed in the peak of a pitched roof they shall be horizontal. Distance of deflectors from ceilings of mill or other smooth construction, or bottom of joists of open joist construction, shall be not less than three (3) inches nor more than ten (10) inches.

In fireproof buildings, the distance between deflectors and panel ceilings shall not exceed fifteen (15) inches.

Not less than eighteen (18) inches effective clear space shall be left below the sprinkler heads, so that they may discharge an unbroken spray blanket from sprinkler to sprinkler and sides of room when in operation. Any stock piles, racks or other obstructions interfering with such action shall not be permitted. *Sprinkler system piping shall not be used for the support of stock, clothing, etc.*

PUBLIC HEARING

(b) Where Conran* heads are installed, the top of head shall be located the same distance below joists or ceiling as specified for deflectors in paragraph (a) of this rule; except that when heads are located under pitched roofs of piers or similar structures, they shall in general be installed in the upright position (not normal to slope of roof) and three (3) feet vertically below the underside of roof. When the administrative official having jurisdiction deems a variation of this rule advisable to obtain a more efficient distribution of water, the heads shall be located with respect to joists or ceiling, as he may direct.

Rule 15. Pipe Sizes. The number of heads on a given size pipe in one fire area in any story shall not exceed the following:

(a) For standard one-half ($\frac{1}{2}$) inch heads—

Size of Pipe	Maximum No. of Heads Allowed
$\frac{3}{4}$ inch	1 head
1 " "	2 heads
$1\frac{1}{4}$ " "	3 "
$1\frac{1}{2}$ " "	5 "
2 " "	10 "
$2\frac{1}{2}$ " "	20 "
3 " "	36 "
$3\frac{1}{2}$ " "	55 "
4 " "	80 "
5 " "	140 "
6 " "	200 "
7 " "	300 "
8 " "	420 "

(b) For Conran* one (1) inch heads—

Size of Pipe	Maximum No. of Heads Allowed
1 inch	1 head
$1\frac{1}{4}$ " "	2 heads
$1\frac{1}{2}$ " "	3 "
2 " "	4 "
$2\frac{1}{2}$ " "	6 "
3 " "	9 "
4 " "	18 "
5 " "	34 "
6 " "	51 "
7 " "	75 "
8 " "	105 "

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads—

Size of Pipe	Maximum No. of Heads Allowed
$1\frac{1}{4}$ inch	1 head
$1\frac{1}{2}$ " "	2 heads
2 " "	3 "
$2\frac{1}{2}$ " "	4 "
3 " "	6 "
4 " "	12 "
5 " "	21 "
6 " "	40 "
7 " "	60 "
8 " "	84 "

When it is desired to use pipe of larger size than eight (8) inches in diameter, special ruling will be required by the administrative official having jurisdiction as to the permissibility of its use and the number of heads that may be fed thereby.

Where practicable, it is desirable to arrange the piping so that the number of heads on a branch line will not exceed eight.

When the piping is arranged on the "gridiron" plan, the permissible number of heads may be doubled, provided the feed main is of the size indicated in the schedule for the total number of heads.

Where feed mains supply branch lines of only two heads each, the conditions approach those of long single lines. Such feed mains shall usually be centrally supplied where there are over eight (8) or ten (10) branch lines. Branch

lines up to fourteen (14) in number may be fed from end, provided a two and one-half ($2\frac{1}{2}$) inch pipe does not supply more than sixteen (16) standard one-half ($\frac{1}{2}$) inch heads, in lieu of twenty (20).

Buildings having slatted floors, or large unprotected floor openings without approved stops, shall be treated as one room with reference to the pipe sizes, and the feed main shall be of sufficient size to accommodate the number of heads called for. Larger pipe sizes than are allowed in the schedule for a given number of heads may be required wherever the construction or conditions introduce unusually long runs of feed mains or many angles. Buildings with blind attics with small unprotected openings to floor below, may be piped from the system on the ceiling of floor below, provided pipe size schedule is not overloaded on sizes three (3) inches or under.

Rule 16. Feed Mains. The size of feed mains shall not be less than the size of riser and shall be arranged to run as direct as possible from source of water supply to riser.

Feed mains for stair or other towers without approved stops between floors, when piped on independent riser, shall be of sufficient size to accommodate the total number of sprinklers in such tower.

Rule 17. Risers. There shall be one or more separate risers in each building and in each section of the building divided by fire walls. Risers shall be arranged to provide "Center Central" or "Side Central" supply to feed main. Each riser shall be of sufficient size to supply all the heads on said riser in one story, according to the schedule of pipe sizes in Rule 15.

In buildings of fireproof construction, and for the purposes of this rule, a blank wall, or one in which the openings are protected by standard fire doors, may be considered as a fire wall, if of equivalent construction.

If the conditions warrant, special permission will be granted allowing the heads in a fire section of small area to be fed from the risers in another section, provided the total number of heads in such area does not exceed the following number per floor:

(a) For standard one-half ($\frac{1}{2}$) inch heads, 48.

(b) For Conran* one (1) inch heads, 12.

(c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads, 8.

Risers shall not be located close to windows, properly protected from mechanical injury and freezing and shall be properly supported on foundations and by floor plates, clamps, couplings or hangers.

No connections, such as for sill cocks, house service or hose outlets, shall be made with a sprinkler system riser or any part thereof.

Where gravity and pressure tanks feed through a common discharge pipe or "dead riser" to the foot of a riser and an air lock is likely to develop the discharge pipe of the gravity tank shall connect with the discharge pipe, or "dead riser", forty (40) feet below the bottom of the pressure tank.

Rule 18. Pipes and Fittings. All pipe shall be full-weight standard wrought iron or steel threaded pipe, well reamed and screwed up tight into fittings without reducing the waterway. Fittings shall be standard cast iron fittings, and shall be long turn pattern on feed mains and risers.

Such fittings shall be designed and guaranteed for a working pressure of 150 pounds per square inch and must be capable of withstanding a hydrostatic test pressure of 750 pounds per square inch without failure.

All pipe shall be secured to the ceiling, walls and other parts of the building with standard steel, wrought or malleable iron hangers.

Extra heavy fittings shall be employed where the normal pressure in the pipe system exceeds one hundred and fifty (150) pounds per square inch, and shall be designed for a working pressure of 250 pounds per square inch and be capable of withstanding a hydrostatic test pressure of 1,250 pounds per square inch without failure.

All underground pipe shall comply with the specifications for cast iron pipe of the American Water Works Association.

Rule 19. Protection of Pipes and Sprinklers. When exposed to moisture, sprinkler pipes and hangers shall be pro-

PUBLIC HEARING

ed against corrosion whenever found necessary by thoroughly cleaning the pipe of all scale and grease and painting with a coat of red lead and linseed oil paint or other suitable moisture resistive paint. When exposed to chemical fumes, the pipe and fittings shall be coated with graphite or other approved chemical resistive paint. Care shall be taken not to paint the sprinkler heads.

Supply pipes of risers in low basements or low spaces or ground floors exposed to frost, shall be properly protected by a masonry or wood enclosure, properly heated, or filled with mineral wool, sawdust or tar mixed with granulated cork, extending below bottom of pipe and through the flooring of ground floor, or the pipe shall be protected by three alternate layers of one-inch hair felt and build-up paper or by other approved method. When of wood, the enclosure shall be constructed double with a layer of paper between the two thicknesses of wood.

Where risers, drains, heating pipes, etc., pass through concrete floors or partitions, they shall be protected by a metal sleeve or be grouted with cement mortar.

Wherever sprinklers are exposed to corrosion, the heads shall be protected with an approved hermetically sealed cover, with an approved wax coating.

Rule 20. Drainage. All sprinkler pipe and fittings shall be installed so that they can be thoroughly drained, and where practicable, all piping shall be arranged to drain at main drips.

Drains or drip pipes shall be so arranged as not to expose any part of the sprinkler system to frost, and shall be so connected, either by check valves or other means, that they will not [overthrow] overflow domestic service or other connections to the same sewer or house drain, or if carried through the wall and exposed to the weather, they shall be fitted with hoods or down-turned elbows.

Drains, pitched not less than one-quarter ($\frac{1}{4}$) inch in ten (10) feet, shall be installed:

At the base of the main riser;

At each alarm valve;

At each dry-pipe valve;

At each gravity tank;

At each pressure tank.

At each fire department connection;

On each floor, if independent floor control valves are used;

At each supply main, when the water in the same can be removed through any of the above drains. Such drains shall be installed with controlling valves so that flow tests may be made to determine if the water supplies connections from yard mains to the inside of the building are in order without causing water damage or overflow to service connections to the same house drain. Any such drains shall be not less than two (2) inches in size except in drains at independent floor valves [may be one and one-quarter ($1\frac{1}{4}$) inches in size] shall be not less than 1 inch in size where floor valves are not over $2\frac{1}{2}$ inches in size.

$1\frac{1}{4}$ inches where floor valves are larger, and connected to a main drain riser of not less than $1\frac{1}{2}$ inches in size. The drain at the main riser shall discharge into a cone or horizontal drain, or if carried through the wall and exposed to the weather, it shall be fitted with a hood or down-turned elbow.

At an alarm valve at the top of a riser in a down-fed system a drain shall not be required.

At each gravity or pressure tank erected above roof of a building there shall be a 4-inch valved drain connection so arranged as to discharge on roof of building. And where tank is on a separate structure altogether independent of building drain connection to be arranged to discharge at ground level.

On automatic wet pipe systems, the horizontal branch pipes shall be pitched not less than one-quarter ($\frac{1}{4}$) inch in ten (10) feet to drain towards the sources of supply with drip valves at the low points.

On automatic dry-pipe systems, branch pipes shall be pitched at least one-half ($\frac{1}{2}$) inch in ten (10) feet.

Rule 21. Test Pipe. [On] In all wet-pipe automatic sprinkler systems a test pipe of not less than $\frac{3}{4}$ inch in diameter

shall be connected directly with each [riser] system but shall be connected to a pipe of not less than $1\frac{3}{4}$ inches in diameter in upper story and arranged to discharge, through a $\frac{1}{2}$ -inch brass outlet, preferably to a point where it can readily be seen. With long runs or many angles, size of test pipe [shall] should be increased to one (1) inch or larger. Controlling valve should be located at a sufficient distance from where the test pipe passes through the wall of the building so as to reduce to a minimum the chance of freezing of water in test pipe.

In all dry-pipe automatic sprinkler systems a $\frac{3}{4}$ -inch inspector's test pipe shall be installed at the end of the most distant branch line and fitted with a $\frac{3}{4}$ -inch shut-off valve stopped with a brass plug.

Rule 22. Pressure Gauges. A four and one-half ($4\frac{1}{2}$) inch double-spring Bourdon pressure gauge shall be provided in all automatic sprinkler systems as follows:

Above dry-pipe valves;

Below dry-pipe valves;

At the pressure tank;

At the air compressor;

Above the alarm valve;

Below the alarm valve; and

In the connections from city water supply.

Provision may be made for taking the pressure both above and below the alarm valve and the dry-pipe valve with only one gauge at each valve.

A gauge shall not be required at an alarm valve located at the top of a riser in a down-fed system.

Gauge connections shall be taken from the supply main or riser and not from the two-inch drain or test pipe.

Gauges shall be installed in a suitable place protected from freezing and be controlled by a valve with arrangements for draining. A plugged outlet, not less than one-quarter ($\frac{1}{4}$) inch in size, shall be located between each valve and gauge for purpose of installing the inspector's gauge.

Rule 23. Valves. All valves two (2) inches in diameter and under shall be of brass or bronze, or other approved [non-corrodible] non-corrosive material. Valves over two (2) inches in diameter shall be of brass, or bronze or iron body, brass mounted, or of other approved [non-corrodible] non-corrosive material.

All sidewalk Siamese inlet valves, caps and chains shall be of galvanized cast iron or other approved [non-corrodible] non-corrosive material.

All gate valves shall be solid or double wedge disc, sufficient box pattern with hand wheel, outside screw and yoke, or other approved indicator pattern.

All check valves shall be approved straight way regrinding pattern, so built that the clappers may be readily removed for repairs.

Rule 24. Water Supply Gate Valves. The piping connecting each source of water supply with the sprinkler system shall be provided with a gate valve of the outside screw and yoke type, sealed open and tagged to designate its purpose, so located as to control each source of water supply except that from fire department hose connections. All such gate valves shall be located within the building where easily visible and readily accessible and as close as possible to the supply inlet.

Rule 25. Water Supply Check Valves. The piping connecting each source of water supply with the sprinkler system, including fire department connections, shall be provided with a check valve.

On two-source systems, check valves shall have a gate valve on each side to permit repair of check without shutting off both supplies, except that where the two sources of supply consist of tanks located above the highest line of sprinklers, a gate valve need only be provided on the downstream side of each check valve.

Rule 26. Control Valves. All automatic sprinkler systems shall be provided with a main control or shutoff valve arranged to be readily accessible and sealed in the open position; except that when the sprinkler system is fed from water supplies on the roof of the building, independent and

PUBLIC HEARING

readily accessible floor control valves, sealed in the open position, may be installed.

When not more than ten (10) standard one-half ($\frac{1}{2}$) inch sprinkler heads or three (3) Conran* heads in any automatic wet pipe system are exposed to cold and subject to freezing, shutoff valves may be provided to discontinue the water supply to such heads between November 1 and April 1. A greater number of heads than specified above, located in places which cannot be properly heated, shall be controlled by an automatic dry-pipe valve.

Rule 27. Dry-Pipe Valves. A dry-pipe valve shall be taken to mean a valve automatically controlling the water supply of the sprinkler system in such a manner that under normal conditions its piping system beyond the valve is maintained dry, but in the event of fire, the valve automatically releases the water into the sprinkler system, for fire extinguishing purposes.

Dry-pipe valves shall, for the purpose of these rules, be classified as follows:

Type A, in which the valve is actuated by the release of compressed air in the sprinkler piping system, due to the opening of a sprinkler head; and

Type B, in which the valve is actuated by an approved trip under electric control of an approved automatic thermostatic fire alarm system.

Dry-pipe valves shall be located as near as practicable to the sprinkler system in an enclosed and accessible place protected from mechanical injury and freezing.

When anti-collumming pipes are used, they shall be either lead lined or of brass.

Automatic wet-pipe sprinkler systems in which only twenty-five (25) per cent of the heads are required to be maintained dry for protection from freezing, shall have only such heads under dry-pipe valve control.

(a) When "Type A" valve is installed, the air pressure in sprinkler systems under such dry-pipe valve control shall not exceed forty (40) pounds per square inch, nor be permitted to fall below twenty-five (25) pounds per square inch, nor shall it be less than one-sixth ($\frac{1}{6}$) of the water pressure in any case.

The air compressor shall have a capacity of not less than eleven (11) cubic feet per minute and the air supply for the pump shall be taken, if possible, from a room containing dry air, or it shall be passed through a drying chamber containing calcium chloride, in order to avoid the introduction of moisture into the system.

The air pressure on such dry-pipe systems shall be maintained throughout the year.

Not more than the following number of heads shall be controlled by one "Type A" dry-pipe valve:

- (a) For standard one-half ($\frac{1}{2}$) inch heads400
- (b) For Conran* one (1) inch heads100
- (c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads 64

Where equipped with an approved quick-opening device the following number of heads may be controlled by one "Type A" dry-pipe valve:

- (a) For Standard one-half ($\frac{1}{2}$) inch heads800
- (b) For Conran* one (1) inch heads200
- (c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads 128

(b) When "Type B" valve is installed the actuating alarm system shall be designed to operate at a temperature lower than that required to open the sprinkler heads, and all connections between the alarm system and the dry-pipe valve shall be adequately protected against injury of any kind.

When required by the administrative official having jurisdiction, the dead end of every feed main in such dry-pipe system shall be provided with an air relief valve or vent, so constructed as to be normally open in order to permit the free escape of air from the system, but to close automatically against the escape of water.

Not more than the following number of heads shall be controlled by one "Type B" dry-pipe valve:

- (a) For Standard one-half ($\frac{1}{2}$) inch heads500
- (b) For Conran* one (1) inch heads125
- (c) For Conran* one and one-quarter ($1\frac{1}{4}$) inch heads. 84

Rule 28. Alarm Valve. All automatic wet pipe sprinkler systems shall be equipped with an alarm valve so constructed

that a flow of water through a one-half ($\frac{1}{2}$) inch orifice will operate an electric or mechanical gong.

Dry pipe valves shall be equipped with a reliable device to give either an electrical or mechanical alarm.

Rule 29. High and Low Water and Pressure Alarm. All gravity tanks shall be equipped with a device to indicate when the water falls below or rises above the normal level in the tank, with an indicator or alarm located in the engineer's room near the pump.

All pressure tanks shall be equipped with a device to indicate when the pressure in the tank falls below seventy (70) or rises above eighty (80) pounds per square inch with an indicator or alarm located in the engineer's room [near the compressor].

Rule 30. Heating of Tanks. The water in all sprinkler tanks subject to freezing shall be protected by internally heating the water or enclosing the tank in a frost-proof house properly heated and lighted.

Rule 31. Concealed Pipe Systems. All pipe in concealed pipe systems shall be of standard full-weight wrought iron or steel, painted with two coats of protective paint, one before and one after installation. Such pipe shall be installed in ducts or be encased in cement mortar and shall be inspected prior to concealment. When installed in the concealed space between floor arches and ceiling, such pipe shall be supported by hangers and all pipe, fittings and hangers be protected with two coats of paint.

Rule 32. Preparation of Building. Floor or wall openings and other structural defects which prevent the banking up of heated air and retard the automatic action of sprinkler heads shall be provided with the necessary curtain boards and draft stops to permit specific control of the fire by the local sprinklers.

Curtain boards shall project at least three (3) inches below the lowest sprinkler.

Rule 33. Approval of Sprinkler System [Tests]. Before acceptance all automatic sprinkler systems, excluding the water supply tanks, shall be subjected after installation to a hydrostatic pressure of a test of at least fifty (50) pounds per square inch in excess of that which will be normally carried and observed in the sprinkler system such test pressure, however, never to be less than one hundred and fifty (150) pounds per square inch in any part of the system.

All pressure tanks shall be tested after erection to a test pressure of one and one-half ($1\frac{1}{2}$) times the working pressure. To prevent the possibility of serious water damage in case of a break, the pressure shall be maintained by a small pump, the main controlling gate being meanwhile kept shut. Brine or other corrosive chemicals shall not be used for testing systems.

In automatic dry-pipe systems with "Type A" valve control, an air pressure of forty (40) pounds per square inch shall be pumped up, be held for twenty-four (24) hours, and all leaks stopped which allow a loss of pressure of over two (2) pounds per square inch for the twenty-four (24) hours.

In the case of automatic dry-pipe systems with differential "Type A" valve, the valve shall be held off its seat during the test to prevent injuring the valve.

Non-automatic systems shall be tested after installation at not less than fifty (50) pounds per square inch in excess of the pressure necessary to reach the highest line of sprinklers.

All tests of installed systems shall be made by the contractor in the presence of the Fire Commissioner, or his authorized representative.

No piping, devices nor any portion of a newly constructed sprinkler system shall be covered up or permanently concealed until tested by the Bureau of Fire Prevention and approved of in writing, except piping passing through floors, walls, partitions or beams for distances equal to the thickness of such floors, walls, partitions or beams.

Rule 34. Non-fireproof Business Buildings. Automatic sprinklers required in non-fireproof business buildings under the provisions of Chapter 5, Article 4, Section 72, Code of

PUBLIC HEARING

Ordinances, unless otherwise specifically provided in these rules, shall consist of at least a One Source System.

Rule 35. *Dangerous or Hazardous Buildings. Automatic sprinklers required in buildings having occupancies considered to be dangerous or hazardous by the Fire Commissioner shall consist of at least a one-source system unless otherwise specifically provided for in these rules.*

Rule 36. *Factories and other Buildings. Automatic sprinklers required in buildings under the provisions of the Code of Ordinances and the Labor Law shall consist of at least a one-source system.*

Rule [35] 37. *Theatre Buildings. Automatic sprinklers required in theatre buildings under the provisions of Chapter 5, Article 25, Section 524, Code of Ordinances, shall consist of at least a One Source System.*

Rule [36] 38. *Firework Storage. Automatic sprinklers required in buildings in which fireworks are stored or sold under the provisions of Chapter 10, Article 6, Section 92, Code of Ordinances, shall consist of a Two Source System.*

Rule [37] 39. *Nitro-Cellulose Products. Automatic sprinklers as required in buildings in which nitro-cellulose products are stored under the provisions of Chapter 10, Article 19, Section 232, Code of Ordinances, shall consist of a system supplied from both approved gravity tank supply and an approved pressure tank supply, except that no change shall be required in supplies to automatic sprinkler equipments previously approved by the Fire Commissioner as two source systems, in conformity with the provisions of this rule as in force up to December 1, 1921.*

In buildings wherein are stored or handled only limited quantities of nitro-cellulose products, not exceeding 500 pounds, the automatic sprinklers may consist of a two source system as provided for in Rule 12.

Rule [38] 40. *Inflammable Motion-Picture Films. Automatic sprinklers, required in buildings in which inflammable motion-picture films are stored under the provisions of Chapter 10, Article 20, Section 241, Code of Ordinances, shall consist of a system supplied from both an approved gravity tank supply and an approved pressure tank supply except that no change shall be required in supplies to automatic*

sprinkler equipments previously approved by the Fire Commissioner as two source systems in conformity with the provisions of this rule as in force up to December 1st, 1921.

Rule [39] 41. *Existing Installations and Approvals. Automatic extinguisher systems and devices heretofore approved and accepted by the authorities having jurisdiction shall not be required to conform to the provisions of these rules; and all such systems heretofore installed shall not be required to be altered to conform to these rules so long as the fire hazard due to construction and occupancy of the building is not increased or where substantial additions or extensions in height or area is made to the building when these rules shall apply if deemed advisable or necessary by the Fire Commissioner and the system after inspection is found to be in good working order.*

Rule 42. *Communicating Openings. When a building fully equipped with sprinklers communicates with another not so equipped the openings must be protected by approved fire doors on both sides of the wall, one of which must be automatic.*

Rule 43. *Maintenance Inspections. Automatic sprinkler systems shall be inspected at least once a month by the person in charge of the building, or by other competent person employed by the owner, to see that all parts of the system are in perfect working order, and the fire department connection or connections, if any, ready for immediate use by the Fire Department. A detailed record of each inspection shall be kept for examination by a representative of the Fire Department.*

There shall be kept available at all times in the premises a supply of extra sprinklers, never less than six (6), to replace promptly any fused or damaged sprinklers. And there shall be one or more employees instructed in the maintenance of sprinkler system.

Rule 44. *Open Sprinklers. When open sprinklers are required for exposure protection by the Fire Department as specified in the Building Code they shall be installed in accordance with the rules of the National Board of Fire Underwriters. Plans for such installation to be filed with the Fire Department for approval.*

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or department actions and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

RULES

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firm or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

RULES

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanently secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:
(a) Valves shall be mounted in the position in which

RULES

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the

Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanisms shall be so designed and constructed that they will withstand the deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

NOTICE OF REMOVAL

NOTICE IS HEREBY GIVEN THAT THE
BOARD OF STANDARDS AND APPEALS IS
NOW LOCATED ON THE TENTH FLOOR OF
THE MUNICIPAL BUILDING, ROOMS 1001
TO 1015—NORTH END OF BUILDING.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Cal-
endar.

All hearings are held in Room 1013, Municipal Building,
Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any person desiring to consult the chairman or the en-
gineers, pertaining to the work of either board, will be
seen only between the hours of ten in the morning and one
in the afternoon—Saturdays excepted.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the
Building Zone Resolution, and its object is to give inter-
ested property owners opportunity to file objections, if any,
and will be called in Room 1013, on *Tuesday, March 31,*
1925, at 2 o'clock. At this call each case is set for hearing
on a definite day.

The next subsequent Call of the Calendar will be on
Tuesday, April 7, 1925, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the
calendar of cases that have been definitely set for hearing
on fixed days.

CALL OF CLERK'S CALENDAR.

Tuesday, March 31, 1925, at 2 p. m.

Building Zone Cases

1407-24-BZ.	APPLICANT—McLain Realty Company, owner. PREMISES—6-8 Linden avenue, Flushing, Queens. TO PERMIT in a business district the erection and main- tenance of a garage for the storage of more than five (5) motor vehicles.
120-25-BZ.	APPLICANT—Emery Roth, for 232 Madison Avenue Corp., owner. PREMISES—232 Madison avenue and 15-17 East 37th street, Manhattan. TO PERMIT in a business and one and one-half times height district the erection of the street walls to a height exceeding the limit required by the build- ing zone resolution.
1149-24-BZ.	APPLICANT—Walter B. Wills, for Herman W. Bruning, owner. PREMISES—63 and 63 $\frac{1}{2}$ Schaeffer street, Brooklyn. TO PERMIT in a residence district the alteration and conversion of occupancy from a stable to a garage for the storage of more than five (5) motor vehicles.
1539-24-BZ.	APPLICANT—Charles E. Anderson, for George V. Fink and L. F. Fink, Inc., owner. PREMISES—1977 East 22nd street, Brooklyn. TO PERMIT in a residence and "E" area district the erec- tion and maintenance of a building nearer than ten (10) feet from the street line, contrary to sec- tion 15, subdivision (d) of the building zone reso- lution.
7-25-BZ.	APPLICANT—Philip J. Sinaott, for Gilman, Schlesinger Bldg. Co., owner. PREMISES—1896-1898 Arthur avenue, The Bronx. TO PERMIT in a residence and one and one-half times height district the erection and maintenance of a building to be used for business purposes also the erection of the street wall to a height exceeding the limit required by the building zone resolution.
52-25-BZ.	APPLICANT—Samuel Rosenblum, for Richard Weber, owner. PREMISES—266-278 Park circle, Brooklyn. TO PERMIT in a residence district the erection and main- tenance of a garage for the storage of more than five (5) motor vehicles.
175-25-BZ.	APPLICANT—Murray Klein, for Louis Marcus, owner. PREMISES—307-313 Rutledge street, Brooklyn. TO PERMIT in a business district extending from an un- restricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

CALENDAR

564-19-BZ.

APPLICANT—Frederick J. Flynn, for Adolph Lewisohn & Sons, Inc., owner.

PREMISES—4023-4039 Broadway, 600-618 West 170th street and 603-605 West 169th street, Manhattan.

TO PERMIT in a residence district extending from a business district the erection and maintenance of a theater building (previously granted by the board; such grant having expired July 11, 1923, under the time limit imposed in the resolution).

698-22-BZ.

APPLICANT—Emma J. Wright, owner.

PREMISES—57 Evelyn place, The Bronx.

TO PERMIT in a residence district the maintenance of a garage for the storage of five (5) pleasure motor vehicles, three (3) spaces rented to persons not residing on the premises (previously granted by the board for a temporary period of two years).

621-24-BZ.

APPLICANT—William F. Doyle, for Shiber Realty Corp., owner.

PREMISES—234-240 East 54th street, Manhattan.

TO PERMIT in a business district the erection and maintenance of a three story garage (previously granted by the board for two stories) for the storage of more than five (5) motor vehicles.

1421-24-BZ.

APPLICANT—David G. Ludins, for Eliot Place Holding Co., Inc., owner.

PREMISES—Southeast corner of Jerome avenue and Elliot place, The Bronx.

TO PERMIT in a residence district extending from a business district the erection and maintenance of a business building.

BOARD OF APPEALS.

Tuesday, March 31, 1925, at 10 a. m.

Appeals from Administrative Orders.

1436-24-A—2501-5 Grand Concourse, The Bronx.

669-24-A—37-39 East 28th street, Manhattan.

1357-24-A—14 West 40th street, Manhattan.

588-24-A—250 Hudson street, Manhattan.

589-24-A—43-45 Wooster street, Manhattan.

1247-24-A—202 Flatbush avenue, Brooklyn.

1261-24-A—480 Fulton street, Brooklyn.

1474-24-A—536-546 West 23rd street, Manhattan.

1515-24-A—678 East 133rd street, The Bronx.

72-25-A—189 Water street, Manhattan.

83-25-A—491-501 Bushwick avenue, Brooklyn.

99-25-A—220 Corbin place, Brooklyn.

258-25-A—278-290 Avenue C, Manhattan.

Under Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, March 31, 1925, at 10 o'clock, in Room 1013, Municipal Building, on the following matters:*

CAL. NO. 1438-24-BZ—Application, December 5, 1924, under the building zone resolution, of Joseph M. Smith, applicant, on behalf of Leading Auto Top Co., owner, to permit in a business district the maintenance of a motor vehicle repair shop; premises 605 Fourth avenue, Brooklyn.

CAL. NO. 1439-24-BZ—Application, December 5, 1924, under the building zone resolution, of Joseph

M. Smith, applicant, on behalf of Otto & Stanley, Inc., lessee, to permit in a business district the maintenance of a motor vehicle repair shop; premises 389-91 Fourth avenue, southeast corner of 6th street, Brooklyn.

CAL. NO. 1232-24-BZ—Application, October 16, 1924, under the building zone resolution, of Boris W. Dorfman, architect, on behalf of Louis Bergstein, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises west side Linden street, 95 ft. north of Central avenue, Brooklyn.

CAL. NO. 21-25-BZ—Application, January 8, 1925, under the building zone resolution, of Murray Klein, architect, on behalf of Watkins Garage Realty Co., Inc., owner, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five (5) motor vehicles; premises 50-54 144th street and 69 West 143rd street, Manhattan.

CAL. NO. 23-25-BZ—Application, January 8, 1925, under the building zone resolution, of F. W. Rinn, architect, on behalf of Hobson Realty Company, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2161 Jerome avenue, northwest corner of West 181st street, The Bronx.

CAL. SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—248-254 West 60th street and 549-555 West 59th street, Manhattan.

APPEARANCES—
For Appellant: George D. Langley and Richard Carvel.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal laid over to April 21, 1925, at 10 a. m.; to confer with fire department.

79-25-A.
APPELLANT—Rudolph P. Miller, for The Society of the New York Hospital, owner.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—6-16 West 16th street and 7-23 West 15th street, Manhattan.

APPEARANCES—
For Appellant: Rudolph P. Miller.
For Administration: Inspectors Lynch and Maher of fire department.

ACTION OF BOARD—Appeal laid over to April 14, 1925, at 10 a. m., subject to action by fire department.

1401-24-A.
APPELLANT—Michael C. D'Agrosa, for Angelina Marino, owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—6701 Ridge boulevard, Brooklyn.

APPEARANCES—
For Appellant: Vincent Tanzola.
For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal laid over to April 21, 1925, at 10 a. m., in order that appellant may meet objections of fire department.

61-23-A.
APPELLANT—Croker National Fire Prevention Engineering Co.

MINUTES

SUBJECT—Application for reopening (appeal from order of fire commissioner).

PREMISES AFFECTED—1078 Willoughby avenue, Brooklyn.

APPEARANCES—

For Appellant: Herman E. Horwood.

ACTION OF BOARD—Appeal reopened and set for hearing on April 14, 1925, at 2 p. m.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Holland and Connell 6
Negative 0
Absent: Fire Chief Kenlon 1

1507-24-A.

APPELLANT—Forest Box & Lumber Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—405-411 East 4th street, Manhattan.

APPEARANCES—

For Appellant: M. Lester Mendell.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Connell, Holland and Fire Chief Kenlon 6
Absent: Mr. Gunnison 0

THE RESOLUTION:

(1507-24-A)

WHEREAS, Forest Box & Lumber Co., owner, filed, December 22, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 405-411 East 4th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 68399-F, dated December 2, 1924, reads:

"1. Provide a separate and distinct system of *Automatic Sprinklers* throughout building having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919."

and

WHEREAS, the building is fireproof, six stories in height, 85 ft. by 96 ft. in area. OCCUPIED: On the 1st, 2nd, 3rd and 4th stories, corrugated boxes; 5th story, yarn dyeing; 6th story, manufacture of hats; approximately 100 persons above the 1st story; and

WHEREAS, appellant contends that there is a standpipe system and an interior fire alarm signal system installed in the premises and that the building is accessible to city fire fighting apparatus in view of surrounding open spaces.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1196-24-A.

APPELLANT—Frank H. Hines, supt. public bldgs., for City of New York, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—407-413 West 28th street, Manhattan.

APPEARANCES—

For Appellant: Grover S. Eble.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(1196-24-A)

WHEREAS, Frank H. Hines, superintendent of public buildings, for City of New York, owner, filed, October 4, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 407-413 West 28th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 25535-LC, dated September 15, 1924, reads:

"Section 214 A, sub-division 4 F, of Chapter 10, of the Code of Ordinances, provides that no permit shall be issued for the storage of liquified chlorine in any building used as a place of public assembly.

"You are, therefore, ordered to

"(1) Discontinue the use and storage of and remove all liquified chlorine gas from premises. REASON—Building used as a place of public assembly."

and

WHEREAS, the building is non-fireproof, four stories in height, 76 ft. by 98 ft. in area; OCCUPIED as a public bath, approximately 75 persons per story; and

WHEREAS, appellant contends that the quantity of liquified chlorine gas on the premises is limited to 20 pounds; that it is properly operated in the water purifying system, and that all necessary safeguards have been provided.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than one 10-pound cylinder of chlorine be stored on the premises, immersed in water and maintained in an enclosure of 4 in. terra cotta partitions; the water cask shall be equipped with a water supply and discharge; that the water supply shall be equipped with a quick-opening lever valve, located outside of this enclosure; and that the enclosure shall be equipped with self-closing tin-clad doors with rabbeted jambs.

4-25-A.

APPELLANT—Wilpin Corporation, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—52-54 William street, Manhattan.

APPEARANCES—

For Appellant: Arthur C. Bang.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 7
Absent 0

THE RESOLUTION:

(4-25-A)

WHEREAS, Wilpin Corporation, owner, filed, January 2, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 52-54 William street, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered December 16, 1924, reads:

"Rule 12 of the Standpipe Rules adopted by the Board of Standards and Appeals require the tanks shall not be fed through the standpipe but shall be fed through a separate line at least two inches in diameter; therefore, it is our conclusion that your request for a modification of this order must be denied."

and

WHEREAS, the building is fireproof, 20 stories in height, 68 ft. by 91 ft. (irregular) in area; OCCUPIED as an office building, approximately 40 persons per story; EQUIPPED with a standpipe system supplied by a 5,000-gallon house supply and standpipe tank, having a 3,500-gallon standpipe reserve, the tank being fed through the standpipe line; and

WHEREAS, appellant contends that the ball cock, which closes automatically when the tank is filled, thereby preventing the water from running out and over the roof, has

MINUTES

en tested and held under a 300-pound pressure and at recent fire, when the line was in actual use, held at a 0-pound per inch pressure.
Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby *denied*.

9-25-A.
APPELLANT—William J. Gorman, for Brewster & Co., Inc., owner.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—North side of North Jane street, from Radde to Prospect streets, L. I. City, Borough of Queens.

APPEARANCES—
For Appellant: William J. Gorman, S. J. Baum.
For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—
Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(58-25-A)

WHEREAS, William J. Gorman, for Brewster & Co., Inc., owner, filed, January 14, 1925, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises north side North Jane street, from Radde to Prospect streets, L. I. City, Borough of Queens; and
WHEREAS, the order of the fire commissioner, No. 90648-C, dated September 27, 1924, reads:

"6. Provide wire guards to protect electric lights from mechanical injury or vapors. Sec. 234, Sub-division 1, Chapter 10, Article 19, Code of Ordinances

"8. Protect all steam pipes or risers that are within 6 ft. of floor with wire guards or non-combustible pipe covering on 3rd story. Sec. 235, Sub-division 9, Chapter 10, Article 19, Code of Ordinances.

"9. Provide suitable guards around radiator and steam pipes to prevent combustible material from coming in contact therewith. NOTE: Top shall be sloping so as to prevent same from being used as shelves.

"10. Bottom of guard shall be arranged so as to lift up for cleaning. Sec. 235, Sub-division 9, Chapter 10, Art. 19, Code of Ord.

"11. Provide a sufficient number of tote boxes of approved construction, in which must be kept materials and articles in process of manufacture, except such as are kept in vaults or cabinets. Sec. 235, Sub-div. 10-4-A, Chapter 10, Art. 19, Code of Ordinances.

"12. Provide (Type A) enclosure for all D. C. motors on all floors and drip pans for all motors. Sec. 780, Greater New York Charter."

and
WHEREAS, the building is fireproof, six stories in height, regular in area, having a frontage of 169 ft. on Prospect street, 201 ft. on Bridge plaza and 353 ft. on Radde street; OCCUPIED for the manufacture of automobile bodies, portion of the 3rd story is used for the storage of 25 pounds of celluloid, kept in a metal lined box which is located in a sprinklered room, the celluloid being used for lights in car curtains; 212 persons above the 1st story;

and
WHEREAS, appellant contends that celluloid has been used for the same purpose in the building since 1910; that the building is sprinklered and that there is no open flame or fire within 75 ft. of where the nitro-cellulose products are stored or used.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of celluloid stored in the premises at any one time shall not exceed 25 pounds (celluloid sheets), confined to 3rd story, located in enclosure

of fireproof material, with not more than one fireproof, self-closing door to said enclosure; that said enclosure shall be ventilated to the open air and equipped with at least one jumbo sprinkler head.

9-25-A.

APPELLANT—National Biscuit Company, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—450-460 West 15th street, 461-469 West 14th street and 58-76 Tenth avenue, Manhattan.

APPEARANCES—

For Appellant: Perry W. Mosher, D. M. McKelvey.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy, Dowd, Gunnison, Connell, Holland and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(9-25-A)

WHEREAS, National Biscuit Co., owner, filed, January 5, 1925, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 450-460 West 15th street, 461-469 West 14th street and 58-76 Tenth avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 66584-F, dated October 30, 1924, reads:

"1. Install a standpipe system with risers 4 in. in diameter tested to withstand a pressure of 300 lbs. per square inch with necessary check valves and regulation 2½ inch Fire Department outlets and hose attached thereto."

and

WHEREAS, the building is fireproof, one story in height, having a frontage of 206 ft. on Tenth avenue, 175 ft. on West 15th street and 100 ft. on West 14th street, a total area of approximately 28,000 sq. ft.; separated into four sections by 8 in. hollow tile cross walls with fire doors at openings therein; the area of the maximum section being approximately 11,000 sq. ft.; OCCUPIED as a machine shop, 181 persons; and

WHEREAS, appellant contends that the building faces on two streets, is only one story in height; EQUIPPED with an automatic sprinkler system, and that ample exits have been provided.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* only so long as the building for a depth of 175 ft. on 15th street and 100 ft. on 14th street remains a one-story structure, sub-divided as now indicated on plans filed in this appeal, *on condition* that the opening between the one and adjoining six-story sections of building shall be equipped with standard, automatic, tin-clad, fireproof doors; and *granted* only so long as the present occupancy, use and conditions remain unchanged.

78-25-A.

APPELLANT—Murray Klein, for Rosen Bros., Inc., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—411-417 Rodney street, Brooklyn.

APPEARANCES—

For Appellant: Murray Klein.

ACTION OF BOARD—Appeal denied.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Messrs. Kennedy, Dowd and Gunnison 3

MINUTES

Negative: Chairman Walsh, Messrs. Connell,
Holland and Fire Chief Kenlon 4
Absent 0

THE RESOLUTION:

(78-25-A)

WHEREAS, Murray Klein, for Rosen Bros., Inc., owner, filed, January 20, 1925, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 411-17 Rodney street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, N. B. App. No. 2609-24, dated December 16, 1924, reads:

"1. A garage may not be permitted, which is situated within 20 ft. of the nearest wall of a moving picture theatre, and where the garage has a frontage on the same street as the frontage of the moving picture theatre.";

and

WHEREAS, the building is non-fireproof, one story in height, irregular in area, having a frontage of 100 ft. on Hope street and 80 ft. on Rodney street; OCCUPIED as a garage for the storage of more than five motor vehicles; located in an unrestricted district and adjoining a one-story moving picture theatre; and

WHEREAS, appellant contends that the main entrance to the moving picture theatre is on Grand street and that the open exit to Rodney street is only an emergency exit; that the rear and side walls of the garage are unpierced; that only a small portion of the garage is contiguous to the theatre and that the gasoline storage is at the northwesterly corner of the garage on the Hope street side.

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1465-24-A.

APPELLANT—Samuel Rosenblum, for Emma C. Rueff, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—128-138 Mott street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Kennedy,
Dowd, Gunnison, Connell, Holland and Fire
Chief Kenlon 7

Negative 0

Absent 0

THE RESOLUTION:

(1465-24-A)

WHEREAS, Samuel Rosenblum, for Emma C. Rueff, owner, filed, December 13, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 128-38 Mott street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated May, 22, 1924, reads:

"1. Install a standpipe system with risers 4 in. in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ in. regulation Fire Department outlet on each story (including basements, cellars and roofs), placed within main stairway enclosure. Each outlet to be provided with sufficient feet of 2½ in. standard hose attached thereto.

"Such standpipe shall be kept constantly filled with water by means of an approved tank or pump supply and be ready for use at all times.";

and

WHEREAS, the premises consist of two seven-story non-fireproof buildings, having a total area of approximately 49 ft. by 80 ft. above the 1st story, separated by a brick wall with openings, protected by fire doors in the hallway on each story; the basement and 1st story of the southerly

building running through to Elizabeth street; OCCUPIED as a tenant factory, with a total occupancy of 323 persons above the 1st story; and

WHEREAS, appellant contends that the premises exceed the allowable 10,000 sq. ft. in the basement and 1st story only, where the total area is about 11,400 sq. ft., and also that the allowable 85 ft. in height is exceeded by a maximum of 3 ft. 6 in. on the northerly point and 1 ft. 6 in. on the southerly point of the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the Elizabeth street portion of building shall be cut off from the Mott street structure by fireproof walls of approved masonry, with not more than one opening therein; that said opening shall be equipped with fire doors; that the exit facilities as required by the labor law shall be installed and maintained; and that the conditions as to use and occupancy shall remain substantially unchanged.

723-24-A.

APPELLANT—William F. Doyle, for Thomas Walker, lessee.

SUBJECT—Application for reopening for modification (appeal from order of fire commissioner).

PREMISES AFFECTED—423 Broome street, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

ACTION OF BOARD—Resolution modified; occupancy to correspond with certificate of occupancy in force.

THE VOTE TO CORRECT—

Affirmative: Chairman Walsh, Messrs. Kennedy,
Dowd, Gunnison, Holland and Connell

Negative 7

Absent: Fire Chief Kenlon 0

THE RESOLUTION:

(723-24-A)

WHEREAS, William F. Doyle, for Thomas B. Walker, owner, filed, May 23, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 423 Broome street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 2, 1924, reads:

"1. Install a standpipe system with risers 4 inches in diameter, tested to withstand a pressure of 300 lbs. per square inch, extending from the cellar to roof with necessary check valves and 2½ inch regulation FIRE DEPARTMENT outlets on each story (including basements, cellars, and roofs), placed within main stairways, enclosures, etc.";

and

WHEREAS, the building is non-fireproof, seven stories (96 ft.) in height, 25 ft. by 110 ft. in area. OCCUPIED Cellar and 1st story, store and office, 30 persons; upper stories, tenant factory, 255 persons above the 1st story and

WHEREAS, appellant contends that ample egress is afforded; the building is small in area; the occupancy is not hazardous and that the height of the building is only a few feet above the height limit set by the code.

WHEREAS, this appeal was granted by the board at its meeting, July 22, 1924, on certain conditions, but it appears that the occupancy stated did not agree with the occupancy permitted under the certificate of occupancy issued by the superintendent of buildings and considered by the board of standards and appeals under Cal. No. 632-24-S; and

WHEREAS, the board deemed that the resolution should be amended so that the occupancy would agree with that stated in Cal. No. 632-24-S, and comply with the certificate of occupancy.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a dry line standpipe system shall be installed with siamese connections to street front that the labor law requirements shall be complied with in all other respects; and *granted* only so long as present use and occupancy remain substantially unchanged.
